NOTICE OF PROPOSED RATE ADJUSTMENT

The following rates and charges are prescribed for the customers in the area served by Grayson County Water District. All other rates and charges not specifically mentioned herein shall remain the same as those in effect under authority of this Commission prior to the effective date of this Order.

5/8"x 3/4" Meter

First	1,500 Gallons	\$ 12.75 Minimum*
Next	8,500 Gallons	\$ 5.64 per 1,000 Gallons
Next	40,000 Gallons	\$ 4.65 per 1,000 Gallons
Next	100,000 Gallons	\$ 3.88 per 1,000 Gallons
Over	150,000 Gallons	\$ 3.11 per 1,000 Gallons

*\$12.75 minimum applicable only to 5/8"x 3/4" meter. The following minimums apply to other meter sizes.

<u>Meter Size</u>	<u>Minimum Bill</u>
3/4" first	3,000 Gallons \$ 21.66
1" first	5,000 Gallons \$ 33.41
1-1/2" first	10,000 Gallons \$ 67.18
2" first	16,000 Gallons \$ 96.46
3" first	30,000 Gallons \$ 186.69
4" first	50,000 Gallons \$ 285.20
6" first	100,000 Gallons \$ 529.41
8" first	160,000 Gallons \$ 800.95

RULES AND REGULATIONS

1. Additional Rules and Regulations. These Rules and Regulations are in addition to the rules of the Kentucky Public Service Commission.
2. Application for Service. Each prospective customer desiring water service may be required to sign the District's standard Application for Water Service before service is supplied by the District. No service will be installed unless there is a main distribution line existing along the road from which service is requested. If service is desired on the same side of the road as the water main, the meter shall be installed within 5 feet of the water main. If service is desired on the opposite side of the road from the water main, the service line will be run under the road and the meter installed on private property adjacent to the highway right of way, provided the distance from the main line to the meter point is not more than 60 feet. If the distance is greater than 60 feet, the customer will be required to pay the cost of installing the pipe for the additional footage.

A. Residential

A contribution in aid of construction as provided in the Schedule of Rates and Charges must be paid on all new connections to the existing water line.

B. Commercial

Rules and regulations for commercial service, except as noted below, are the same as for residential service.

A commercial customer, or large-quantity user, will be required to pay a contribution in aid of construction determined by the size of metering equipment as provided in the Schedule of Rates and Charges. In addition to the connection fee, the customer shall pay the cost of installing all service line bores or open cuts which extend beyond 5 feet of the water main.

3. Discontinuance of Service by District. District may refuse to connect or may discontinue service for the violation of any of its Rules And Regulations, or for violation of any of the provisions of the Schedule of Rates and Charges, or of the application of customer or contract with customer. District may discontinue service to customer for the theft of water or the appearance of water theft devices on premises of customer. The Discontinuance of service by District for any causes as stated in this rule does not release customer from his obligation to District for the payment of minimum bills as specified in application of customer or contract with customer.

RULES AND REGULATIONS

The following revision of policy is prescribed for the customers in the area served by Grayson County Water District (District). All other rates and charges not specifically mentioned herein shall remain the same as those in effect under authority of this Commission prior to the effective date of this Order.

A deposit or suitable guarantee equal to approximately twice the District's average monthly water bill will be required of each classification of customers before water service is supplied. The deposit may be waived for those customers who apply for and pay the Contribution In Aid of Construction Fee based on the size of metering equipment at the location. The classification of customers is established as follows: 1) residential, 2) industrial, 3) commercial and all others.

Service will be refused or discontinued for failure to pay the requested deposit. Interest as prescribed by KRS 278.460 or other applicable KRS's will be paid annually by credit to the customer's water bill on the anniversary date (month) of the customer's deposit, except no credit may be made if the customer's water bill is delinquent on the anniversary date of the deposit.

The District may require a deposit in addition to the initial deposit if the customer's classification of service changes or if there is a substantial change in usage. Upon termination of service, the deposit and any interest earned will be credited to the water bills owed to the District by the customer with any remainder refunded to the customer.

RULES AND REGULATIONS

4. Billing. Bills will be rendered monthly and shall be paid within ten days from date of bill at the office of District. Failure to receive bill will not release customer from payment obligations. Should bills not be paid as above, District may at any time thereafter, upon five days' written notice to customer, discontinue service. Bills paid on or before the final date of payment shall be payable at the net rates, but thereafter the gross rates shall apply as provided in the Schedule of Rates and Charges. Should the final date for payment of the bill at the net rates fall on a Sunday or holiday, the business day next following the final date will be held as a day of grace for delivery of payment.
5. Deposit. A deposit or suitable guarantee equal to approximately ~~twice the average monthly water bill~~ may be required of any customer before water service is supplied. The District may at its option ~~return the deposit to the customer after one year.~~ Upon termination of service, deposit may be applied by the District against any ~~unpaid bills of the customer, and if any balance remains after such application is made, said balance shall be refunded to customer.~~ Interest will be paid as required. C-7-94
6. Point of Delivery. The point of delivery is the point where the meter is located on the customer's premises. All water lines, plumbing, and equipment beyond the meter shall be installed and maintained by the customer.
7. Termination of Contract by Customer. Customers who have fulfilled their contract terms and wish to discontinue service must give at least three (3) days' written notice to that effect, unless contract specified otherwise. Notice to discontinue service prior to expiration of contract term will not relieve customer from any minimum or guaranteed payment under any contract or rate.
8. Customer's Service Line. All service lines beyond the metering point should be installed of material consisting of copper, galvanized, or PVC pipe with rating of not less than 160 psi. The size of service line beyond the point of delivery should not be less than 3/4"; however, a larger size may be needed to provide adequate service. If the customer's point of use is at a higher elevation than the point of delivery, the customer should consult with a reputable engineering firm to size the service line from the point of delivery.
9. Right of Access. The customer must agree to permit the District to lay, maintain, repair, or remove such water lines which is the property of the District located on the customer's property with the right of ingress and egress over customer's property. The District's duly authorized representative and/or other duly authorized employee of the State Health Department bearing proper credentials and identification shall be permitted to enter upon all properties for the purpose of inspection, observation, measurement, sampling, and testing, in accordance with the provisions of these Rules and Regulations.

RULES AND REGULATIONS

SUBJECT: Charges for Special Services

The following charges for special services shall be made:

1. Service Connection Charge. A charge of \$5 shall be made for all service reconnections made during regular working hours, except that there shall be no connection charge made for service on the original installation of facilities. If service is reconnected other than during regular working hours, the charge shall be \$35.
2. Delinquent Service Charge. A charge of \$5 shall be made for a trip to collect a delinquent account. A reconnection charge of \$5 shall be made if reconnected during regular working hours. If reconnected after regular working hours, the charge shall be \$35. (See PSC: Gen-1, Rule XII.)
3. Meter Reading Recheck Charge. A charge of \$5 shall be made for a trip to recheck a meter reading when the customer requests the meter to be rechecked for a correct reading and the meter was not misread.
4. Meter Test Request. Upon request a customer may have his meter tested and adjustments will be made to the bill where the meter is found to be more than two percent fast or slow in accordance with 807:KAR 5:006, Section 9, provided request by the customer is not more frequent than once each twelve months. If such test shows the meter to be less than two percent fast, a \$25 charge shall be made.
5. PSC Meter Test Complaint. Any customer of the District may request a meter test by written application to the Public Service Commission, Post Office Box 615, Frankfort, KY 40602.
6. Service Investigation Charge. A charge of \$7.50 per trip shall be made for service investigation during regular working hours if interruption of service is not caused by failure of District's facilities. The charge for investigation after working hours will be \$15 per trip. Any maintenance and repair of facilities beyond District's delivery point is the responsibility of the customer.
7. Meter Investigation Charge. When an investigation of facilities on customers' premises reveals meter seals broken, damaged meters, or unauthorized use of water, a meter investigation fee of \$25 shall be charged.

RULES AND REGULATIONS

807 KAR 2.040 Section 12

All water line extensions will be in compliance with PSC W-1 Rule XII 2 "B".

In summary each customer who hooks on along the line extended will pay our standard tap fee (residential — \$250.) The developer will receive \$125 rebate for each connection along the extension.

If the developer desires service along the line extended, he too will pay the standard tap fee just as any other customer. The water district will return to him 50 percent of the fee. On a residential tap fee this would amount to \$125, which would be more than the cost for extending the average distribution line for 50 feet.

Should service be desired on the opposite side of the road from the water main, the District will cross the road with the residential service line at no additional cost.

RULES AND REGULATIONS

Tariff for
Purchased Water Adjustment Clause

This regulation prescribes the requirements under which the Grayson County Water District may implement a purchased water adjustment clause designed to recover the increased costs of water purchased, where the water utility is not financially able to absorb an increase from its supplier. This Purchased Water Adjustment Clause shall be in accordance with 807 KAR 5:067, as adopted by the Public Service Commission.

Section 1: Application for Change in Base Rate

The rates a water utility is currently authorized to charge its customers are based upon the wholesale cost of water to that water utility pursuant to valid contracts or wholesale tariffs on file with the Commission. For purposes of a purchased water adjustment clause, this wholesale rate shall be considered as the base rate, for purchased water and any increase or decrease in the base rate shall be considered the changed rate.

(1) In the event there is a change in the base rate, the utility shall file with the Commission the following information:

(a) A copy of the wholesale supplier's tariff effecting a change in the base rate and a statement from the wholesale supplier evidencing the effective date of the changed rate;

(b) A detailed statement of water purchased under the base rate for a month period ended within ninety (90) days of the filing date and showing billing both under such base rate and also under the changed rate;

(c) A detailed statement of water sold for the same month period;

(d) A balance sheet and statement of operating expenses and revenues for the most recent month period for which that information is available;

(e) In the event of an increase only, evidence that the water utility has notified its customers of the proposed rate revision;

(f) Revised tariff sheets reflecting the rates the applicant proposes to charge; and

(g) Such other information as the Commission may request for a proper determination of the purchased water adjustment.

(2) The Commission may require that the balance sheet and statement of expenses and revenues furnished pursuant to subsection (1)(d) of this section be updated to within ninety (90) days of the filing of an application and that the updated information correspond to the same month period as the water purchased information furnished pursuant to subsection (1)(b) of this section.

(3) Upon receipt of all the necessary information, the Commission will review the effect of the changed rate upon the applicant's operations and if an increase is proposed, determine whether all or part of the increase can be absorbed by the applicant. An applicant shall not implement its proposed revised rates until the Commission issues an order authorizing the applicant to adjust its rates. If an adjustment is authorized, the supplier's changed rate shall become the supplier's base rate for use in future applications.

(4) The maximum amount of the adjustment so ordered shall not produce revenue adjustments greater than the difference between the purchased water billed at the base rate and the purchased water billed at the changed rate.

(5) The notice required by subsection (1)(e) of this section may be accomplished by a bill insert.

Section 2: Calculation of the Purchased Water Adjustment

If a change is made in a base rate charged to a water utility by its supplier(s), the unit charges of the wholesale tariff shall be increased or decreased by a purchased water adjustment calculated as follows:

(1) Water purchases shall be computed at the supplier's base rate and the supplier's changed rate using a period of twelve (12) calendar months ending within ninety (90) days preceding the month of the effective date of the supplier's rate change. The difference between these amounts shows the total change in the applicant's purchased water costs.

RULES AND REGULATIONS

(2) The total change in purchased water costs shall be divided by the actual number of cubic feet or gallons sold, yielding the purchased water adjustment expressed in cents per cubic feet or gallons, unless the applicant's water loss exceeds fifteen (15) percent.

(3) In instances where the water loss exceeds fifteen (15) percent, the actual water sales shall be divided by eighty-five (85) percent yielding the maximum allowable water purchases. The maximum allowable water purchases shall then be multiplied by the change in cost per cubic foot or gallons, yielding the total allowable change. The total allowable change shall then be divided by the actual number of cubic feet or gallons sold, yielding the purchased water adjustment expressed in cents per cubic feet or gallons.

Section 3: Procedure for Distribution of Refunds from Suppliers

In the event a water utility receives a refund from its supplier for amounts previously paid, the water utility shall immediately apply to the Commission for authority to make adjustments on the amounts charged customers' bills under this regulation as follows:

(1) The total refund received by the water utility shall be divided by the number of cubic feet or gallons of water the water utility estimates it will sell to its customers during the two (2) month period beginning with the first day of the month following receipt of the refund, yielding the refund factor to be applied against each cubic foot of water sold thereafter.

(2) Effective with meter readings taken on and after the first day of the second month following receipt of the refund, the water utility will reduce by the refund factor any purchased water adjustment that would otherwise be applicable during the period. The period of reduced purchased water adjustment shall be adjusted, if necessary, in order to most nearly approximate the total amount to be refunded. The water utility shall make full distribution of the refund within two (2) months.

(3) In the event a water utility receives a large or unusual refund, the water utility may apply to the Commission for a deviation from the procedure for distribution of refunds specified herein.

SECTION 5.1
RULES AND REGULATIONS

BY: Jordan C. Neel
FOR THE PUBLIC SERVICE COMMISSION

I. Classification of Water Service for Purposes of Determining Exemptions from Sales and Use Tax.

A. Residential Classification

1. Use as a dwelling unit constituting a separate independent housekeeping establishment which is separately metered and occupied by one or more persons as a single housekeeping unit shall be deemed residential use. The name in which an account is established or billed is a non-determining factor and the structure to which service is to be provided may be under construction, occupied or unoccupied.
2. Agricultural use when provided through the same water meter utilized by the dwelling structure on the property shall be deemed residential use.
3. Water meter service installed on property that is intended for future residential use, whether the customer's service line is connected initially or planned to be connected in the future, shall be deemed residential use.

B. Non-residential Classification:

1. Any use other than a residential use as defined in Section A including specifically, but not by way of limitation, industrial and business usage.
2. Mobile home parks served by a single meter
3. Multiple dwelling units within one structure when all dwelling units are served by a single meter.

C. Determination of Usage

The determination of usage as to whether residential or nonresidential is based upon the principal purpose for which the water service when it was initially installed or for which the structure is being or has been constructed until the District has been notified by the owner in writing that the purpose for which the water service was installed has changed.

FOR THE PUBLIC SERVICE COMMISSION

II. Usage from a Water Meter

- A. No more than one residence, including mobile homes may connect to one meter.
- B. A residence and any agricultural usage (with the exception of usage by a tenant dwelling or rental dwelling) may be supplied from the same water meter. A tenant dwelling or rental dwelling is considered a separate residence and must be supplied from a separate water meter.
- C. Where multiple apartment buildings under separate roofs are built on the same lot, each building must have one water meter. However, at the discretion of the property owner, each apartment within a building may have separate water meters.
- D. Each commercial, industrial, or any other entity must have a separate water meter. Excluding residential and apartment complexes, where a commercial, industrial, or other entity involves more than one structure on a single lot (lot approved by the local Planning Commission), which will be operated as one entity under one entity name, such property can be served by one water meter.
 - 1. Should such property cease to be operated as one entity it will be required that separate water meters be paid for by the owner of each lot and the service line(s) from the meter(s) to the point of use be installed and paid for by the respective property owner(s).
- E. Where multiple residential, commercial, industrial or other such units are under one roof, one meter and service line is all that is required. If the property owner desires more than one meter, pays the appropriate contribution in aid of construction, and complies with the District's rules and regulations pertaining to application for service, additional meters may be installed.
- F. Mobile home parks on a single parcel of land, approved by the local Planning Commission as a mobile home park, are considered one business and may be served by one meter.

RULES AND REGULATIONS

- G. The District does not guarantee a water supply including the supply to the Customer's fire protection system at any particular flow rate or pressure. The fire flow may vary depending on other water demands on the system, various water facility limitations, or other circumstances (including but not limited to power failure, water main/line breakage, etc.). The customer will indemnify and hold harmless the District and its employees from and against all claims, damages, losses, and expenses incurred as a result of insufficient water supply including supply to the customer's fire protection system or any failure of the detector check valve installation, metering equipment, and/or appurtenances.
- H. For purposes of "III FIRE PROTECTION," the following definitions shall apply:
1. A "fire" as used hereinabove shall include any conflagration on a publicly or privately owned property. Any re-ignition of a previously extinguished conflagration on the same property shall be considered a single fire and any fire resulting from the same cause shall be considered a single fire except that a fire on property owned by different persons or entities shall be considered separate fires.
 2. "Hours of usage" as used hereinabove is measured from the time the fire department begins pumping water at the scene of the fire until the fire department ceases pumping water to the fire. In the event the fire department ceases pumping water for a period of time but later continues pumping to the same fire, the "hours of usage" shall be tolled while no pumping occurs and continue to accumulate after pumping continues. Any partial hours of usage are rounded to the nearest hour.
