Damage to Meter, Meter Setting or Lid	Actual Cost	(N)
After Hours Charge	\$125.00*	
Debit/Credit Card Fee	\$1.50**	(D)

*Note – Regular working hours for the utility's maintenance staff are 7:30 a.m. to 3:30p.m. CST, Monday through Friday, excluding holidays. Upon customer request, and subject to the availability of maintenance staff, services may be performed outside of regular working hours.

~~**Note – All customers may pay their bill by credit card or debit card. This method of payment may be made in person at the utility office or by telephone. If on the bill due date and attempt to pay by credit card or debit card is made and the card is declined for any reason, payment is still due in full on that date and will be considered late at that date. All late charges will be applied. If a customer is paying on the disconnect day and the card is declined, the same rules as above apply, in addition to service being disconnected when a customer makes a payment by credit card or debit card, the utility will assess the fee set out in its tariff. Prior to processing the transaction, the customer will be informed of the fee amount.~~

Credit/Debit Card Policy

All customers may pay their bill by credit or debit card. This method of payment may be made in person at the utility office, online, or by telephone. Customers must have the current month's bill to pay by telephone. If on the bill due date an attempt to pay with a credit/debit card is made and the card is declined for any reason, payment is still due in full on that date and will be considered late on that date. All late charges will be applied. If a customer is paying on the disconnect day and the card is denied, the same rules as above apply, in addition to service being disconnected. When a customer makes a payment by credit/debit card, the processor (not the district) will assess a convenience fee for providing this service. Prior to processing the transactions, the customer will be informed of the fee amount.

(T)

ACH-Bank Draft/ Automatic

Withdraw Policy All customers may pay their bill by ACH-Bank Draft/Automatic Withdraw. The ACH-Bank Draft/Automatic Withdraw will be scheduled around the 10th of each month. If for any reason payment is declined the payment will still be due by the 20th of the month. All late charges and penalties will apply if payment is not made by the 15th of the month

RULES AND REGULATIONS

The following are the rules and regulations of the Green-Taylor Water District. The schedule of rates prescribed herein will be uniformly charged to all customers of the utility. No one will receive or be entitled to free service by the utility. No employee or individual commissioner of the utility is permitted to make any exception to these rates, rules, or regulations. These rules and regulations are subject to change by the utility at any time, subject to the approval of the Public Service Commission.

A. Service Information:

1. Upon request the utility will give its customers or prospective customers such information as is reasonably possible in order that they may secure safe, efficient, and continuous service. The utility will inform its customers of any change made or proposed in the character of its service that might affect the efficiency, safety, or continuity of operations.
2. The utility will obtain the approval of the Public Service Commission prior to making any substantial change in the character of the service furnished that would affect the efficiency, adjustment, speed, or operation of the equipment or appliances of any customer. The application will show the nature of the change to be made, the number of customers affected, and the manner in which they will be affected.
3. The utility will inform each applicant for service of each type, class, and character of service available at his/her location.

4. Upon request the utility will provide the following information to any applicant/customer:
- a) Characteristics of Water. A written description of chemical constituents and bacteriological standards of the treated water as required by the Natural Resources Cabinet.
 - b) Rates. A schedule of rates for water service applicable to the service to be rendered to the customer.
 - c) Reading Meters. Information about the method of reading meters.
 - d) Bill Analysis. A statement of the past readings of a customer's meter for a period of two (2) years.

B. Special Rules or Requirements:

- 1. The utility cannot establish any special rule or requirement without first obtaining the approval of the Public Service Commission.
- 2. A customer that has complied with Public Service Commission rules and regulations cannot be denied service for failure to comply with the utility's rules that have not been approved by the Public Service Commission.
- 3. Each prospective customer desiring water service will be required to sign the utility's Water Service Contract before service is supplied by the utility.
- 4. No customer is allowed to resell water except under the terms of a special contract executed by the utility and approved by the Public Service Commission.

5. Each prospective customer must obtain and present to the Water District a Plumbing Permit from the local health department, before a new meter can be installed.

C. Billings, Meter Readings, and Related Information.

1. Information on bills. Each bill issued by the utility will clearly show the following, if applicable: class of service; present and last preceding meter readings; number of units consumed; net amount for service rendered; all taxes; any adjustments; and the gross amount of the bill. The date after which a late payment penalty applies to the gross amount will also be indicated. Estimated or calculated bills will be distinctly marked as such. The rate schedule under which the bill is computed will be furnished under one (1) of the following methods:
 - a) By printing it on the bill.
 - b) By publishing it in a newspaper of general circulation once each year.
 - c) By mailing it to each customer once each year.
 - d) By providing a place on each bill where a customer may request a copy of the applicable rates. The utility will mail the customer a copy by return first class mail.
2. Bill format. A copy of the utility's billing form will be included in the utility's tariff.
3. Meter readings. Registration of each meter shall read in the same units as used for billing unless a conversion factor is shown on the billing form.

4. It shall be the duty of the User to read his own meter on the day the bill is received every month and submit same to the District for billing purposes, not later than the 10th day of the month. Failure of the User to submit a meter reading by the due date will result in an estimated meter reading being imposed by the District. If a reading is not received for three (3) consecutive months, the meter will be read by Water District personnel and said reading will be used for billing. There will be a service charge each time the meter is read by District personnel because of no reading being submitted by the customer.

5. Related Information.

a) Bills and notices related to the utility's business will be mailed to the customer at the address listed on the Water Service Contract unless a change of address has been filed with the utility in writing. The utility will not otherwise be responsible for delivery of any bill or notice nor will the customer be excused from the payment of any bill or any performance required in the notice.

b) Water service will be billed monthly by the 1st of each month.

(T)

c) Bills are payable and due on the date of issuance.

d) Payment must be received, not postmarked, before the close of business on the fifteenth day of the month; otherwise, the delinquent bill will be assessed the late payment penalty.

D. Deposits.

1. Deposits to secure payment. Each new customer will be required to pay a minimum cash deposit to secure payment of bills.
2. Equal Deposits. An equal deposit amount for each class of customers will be established based on the average annual bill of customers in that class. Deposit amounts will not exceed two-twelfths (2/12) of the average annual bill of customers in each class where bills are rendered monthly. Deposit amounts are listed in the Rates and Charges section of this tariff.
3. Additional deposit requirement. If a deposit has been returned and the customer fails to maintain a satisfactory payment record, the utility may require that a deposit be made. The utility may require a deposit in addition to the initial deposit if the customer's classification of service changes or if there is a substantial change in usage.
4. Receipt of deposit. The utility will issue a receipt to every customer that pays a deposit. The receipt will show the name of the customer, location of the service or customer account number, date, and amount of deposit.
5. Deposits as a condition of service. Service may be refused or discontinued if payment of requested deposits is not made.
6. Interest on deposits. Interest will accrue on all deposits at the rate prescribed by law beginning on the date of the deposit. Interest accrued will be refunded to the customers or credited to the customer's bill on an annual basis, except that the utility will not be required to refund or credit interest on deposits if the customer's bill is delinquent on the anniversary of the deposit date. Upon termination of service, the deposit, any principal amounts, and interest earned and owing will be credited to the final bill

with any remainder refunded to the customer.

E. Special Non-recurring Charges:

1. The utility will collect for special non-recurring charges to recover customer-specific costs incurred which would otherwise result in monetary loss to the utility or increased rates to other customers to whom no benefits accrue from the service provided or action taken. The utility may establish or change any special non-recurring charge by applying for Public Service Commission approval of such charge in accordance with the provisions of 807KAR 5:011, Section 10.
2. Special non-recurring charges will be applied uniformly throughout the area served by the utility. Such charges will relate directly to the service performed or action taken and only yield enough revenue to pay the expenses incurred in rendering the service.
3. The utility will assess a charge for the following non-recurring services:
 - a) Connection / Turn-on Charge: Will be assessed for new service turn-ons, seasonal turn-ons, temporary service, or transfer of service. The charge will not be made for initial installation of service where a meter connection/tap-on charge is applicable.
 - b) Field Collection Charge: Will be assessed when a utility representative visits the premises of the service connection to terminate service, and the customer is on-site and pays the bill to avoid termination of service. This fee may only be charged once per billing period.
 - c) Late Payment Penalty: Will be assessed on the delinquent

amount of the bill, less taxes, and any prior penalty amounts. Pursuant to 807 KAR 5:006 Section 8 (3)(h), a penalty may be assessed only once on any bill for rendered services.

d) Meter Relocation Charge: Will be assessed when a customer or other authorized person requests that a meter be relocated, changed, or modified.

e) Meter Re-read Charge: Will be assessed when a customer requests the utility to re-read the customer's meter and the re-read proves that the original meter reading was correct.

f) Meter Test Charge: Will be assessed when a customer requests the utility perform a test on the customer's meter to check for accuracy, and the test shows the customer's meter is not more than two percent (2%) fast.

g) Reconnection Charge: Will be assessed to reconnect service that has been terminated for non-payment of service or for violation of Utility or Public Service Commission rules and regulations, and will include the cost of the service trip for both the disconnection and the reconnection.

h) Returned Check Charge: Will be assessed when a customer's check is returned, either due to insufficient funds or other reason due to customer fault. Any payment posted to an account by a returned check will be reversed and the account will be considered delinquent for the amount due. If not paid by the 21st of the month following water service, the account is subject to disconnection, and any applicable service charges.

(T)

i) Damage to Meter Setting or Lid: Will be assessed when a customer maliciously, willfully, or negligently breaks, damages, destroys, uncovers, defaces, or tampers with any structure, appurtenance, or equipment which is part of the District's water works. Any person violating this provision shall be subject to disconnection of water service and shall pay the cost of repairing or replacing the appurtenances as may be determined by a court of law having jurisdiction.

SHEET NO. 17

Green-Taylor Water District
(Name of Utility)

CANCELLING P.S.C. KY. NO. _____
SHEET NO. 17

- j) Rejected Bank Draft Charge: Will be assessed when a customer's bank draft payment is rejected, either due to insufficient funds or other reason due to customer fault. Any payment posted to an account by a rejected bank draft will be reversed and the account will be considered delinquent for the amount due. If not paid by the 21st of the month following water service, the account is subject to disconnection, and any applicable service charges. If a customer's bank draft payment is rejected two (2) consecutive months the District will discontinue this option for said customer. (T)
- k) Service Call / Investigation Charge: Will be assessed when a customer requests the onsite presence of utility personnel to investigate a service problem and the problem is a result of the customer's own plumbing facilities, beyond the utility's delivery point, or not caused by failure of utility facilities. Any maintenance and repair of facilities beyond the utility's delivery point is the responsibility of the customer. Customer (T)

- F. Complaints to the Utility: Upon complaint to the utility by a customer at the utility's office, by telephone, or in writing, the utility will make a prompt and complete investigation and advise the complainant of its findings. The utility's operator/manager will make a decision within ten (10)

days, which the complainant will then have ten (10) days to appeal to the utility's Board of Commissioners. The customer will receive a final decision from the utility no later than thirty (30) days following the date that the complaint was made. If the complainant is not satisfied with the utility's decision, the utility will provide written notice to the complainant of his/her right to appeal the utility's decision by filing a complaint with the Public Service Commission. The utility will also provide the customer with the address and telephone number of the Public Service Commission. The utility will keep a record of all written complaints. This record will show the name and address of the complainant, the date and nature of the complaint, and the adjustment or disposition of the complaint. Records will be maintained for two (2) years from the date of resolution of the complaint.

G. Bill Adjustments:

1. Fast or slow reading meter:

- a) If upon periodic test, requested test, or complaint test, a meter in service is found to be more than two percent (2%) fast, additional tests will be made in accordance with Public Service Commission rules and regulations applicable to the type of meter involved.
- b) If test results on a customer's meter show an average error greater than two percent (2%) fast or slow, or if a customer has been incorrectly billed for any other reason, except in an instance where a utility has filed a verified complaint with the appropriate law enforcement agency alleging fraud or theft by a customer, the utility will immediately determine the period during which the error has existed, and will re-compute and

and adjust the customer's bill to either provide a refund to the customer or collect an additional amount of revenue from the under-billed customer. Any adjustment to the customer's account will be in accordance with the rules and regulations of the Public Service Commission pursuant to 807 KAR 5:066 Section 9 (c).

- c) The utility will readjust the account based upon the period during which the error is known to have existed. If the period during which the error existed cannot be determined with reasonable precision, the time period will be estimated using such data as elapsed time since the last meter test, if applicable, and historical usage data for the customer. If that data is not available, the average usage of similar customer loads will be used for comparison purposes in calculating the time period. If the customer and the utility are unable to agree on an estimate of the time during which the error existed, the Public Service Commission will determine the issue. In all instances of customer over-billing, the customer's account will be credited or the over-billed amount refunded at the discretion of the customer within thirty (30) days after final meter test results. A utility will not require customer repayment of any under-billing be made over a period shorter than a period co-extensive with the under-billing.

RULES AND REGULATIONS

2. Meter read failure. When a meter has ceased to register, or a meter reading cannot be obtained, the quantity of water to be billed will be based upon an average of twelve-months consumption. If said meter readings are not available for an entire twelve-month period, the water bill will be estimated by the utility, subject to an upward or downward adjustment once a twelve-month average of actual meter readings can be calculated.
3. Monitoring usage. The utility will monitor a customer's usage at least annually in such a way to draw the utility's attention to unusual deviations in a customer's usage. If a customer's usage is unduly high (100% above average) and the deviation is not otherwise explained, the utility will test the customer's meter to determine whether the meter shows an average error greater than two percent (2%) fast or slow.
4. Usage investigation. If the utility's procedure for monitoring usage indicates that an investigation of a customer's usage is necessary, the utility will notify the customer in writing either during or immediately after the investigation of the reasons for the investigation, and of the findings of the investigation. If knowledge of a serious situation requires more expeditious notice, the utility will notify the customer by the most expedient means available.
5. Customer notification. If a meter is tested and it is found necessary to make a refund or back bill a customer, the customer will be notified in substantially the following form:

On _____, 20____, the meter bearing identification No. _____
located at _____ (Street & Number) in _____ (City) was
tested at _____ (on premises or elsewhere) and found to register
_____ % (fast or slow). The meter was tested on _____ (Periodic,
Request, Complaint) test.

Based upon this we herewith _____ (charge or credit) with the sum of
\$ _____, which amount has been noted on your regular bill. If you desire a
cash refund, rather than a credit to your account, of any amount over-billed, you
must notify this office in writing within seven (7) days of the date of this notice.

- H. Status of Customer Accounts during Billing Disputes. With respect to any
billing dispute, customer accounts shall be considered to be current while the
dispute is pending as long as the customer continues to make undisputed
payments and stays current on subsequent bills.
- I. Customer's Request for Termination of Service.
1. Any customer desiring service terminated or changed from one address to
another shall give the utility three (3) working days' notice in person, or in
writing, provided such notice does not violate contractual obligations. The
customer will not be responsible for charges for service beyond the three
(3) day notice period if the customer provides proper notification and
reasonable access to the meter during the notice period.
 2. Upon request that service be reconnected at any premises subsequent to
the initial installation or connection to its service lines, the utility will
charge the applicant a reconnect fee as set out in this tariff and approved
by the Public Service Commission.

J. Customer Relations.

1. Display of customer rights. The utility will prominently display in the office in which payment is received a copy of Customer's Rights. If a customer indicates to any utility personnel that he is experiencing difficulty in paying a current utility bill, that employee will refer the customer to the designated representative for explanation of the customer's rights.
2. Partial payment plan. The utility shall negotiate and accept reasonable partial payment plans at the request of residential customers who have received a termination notice for failure to pay, except that a utility is not required to negotiate a partial payment plan with a customer who is delinquent under a previous partial payment plan. Partial payment plans must be mutually agreed upon. Plans which extend for a period longer than thirty (30) days will be in writing and will advise customers that service may be terminated without additional notice if the customer fails to meet the obligations of the plan.
3. Utility inspections of service conditions prior to providing service. The utility will inspect the condition of the meter and service connections before providing service to a new customer so that prior or fraudulent use of the facilities will not be attributed to the new customer. The new customer will be afforded the opportunity to be present at such inspections. The utility will not be required to render service to any customer until any defects in the customer-owned portion of the service facilities have been corrected.

4. Prompt connection of service. The utility will reconnect existing service within twenty-four (24) hours, and will install and connect new service within seventy-two (72) hours, when the cause for refusal or discontinuance of service has been corrected and the rules and regulations of the utility and Public Service Commission have been met.
5. Advance termination notice. When advance termination notice is required, the termination notice will be mailed or otherwise delivered to the last known address of the customer. The termination notice will be in writing, distinguishable and separate from any bill. The termination notice will plainly state the reason for termination, that the termination date will not be affected by receipt of any subsequent bill, and that customer has the right to dispute the reasons for termination.

K. Refusal or Termination of Service.

1. The utility may refuse service to a customer under the following conditions:
 - a) For noncompliance with utility or Public Service Commission rules and regulations. The utility cannot refuse service to any customer for noncompliance without first having made a reasonable effort to obtain customer compliance. After such effort by the utility, service may be refused only after the customer has been given a written notice of refusal stating the reasons for refusal of service.
 - b) For dangerous conditions. If a dangerous condition exists which could subject any person to imminent harm or result in

RULES AND REGULATIONS

test, the amount being approved by the Public Service Commission and set out in the utility's tariff.

2. After having first obtained a test from the utility, any customer of the utility may request a meter test by the Public Service Commission upon written application. Such request shall not be made more frequently on one (1) meter than once every twelve (12) months.

O. Access to Property.

1. The utility shall at all reasonable hours have access to meters, service connections, and other property owned by it and located on customer's premises for purposes of installation, maintenance, meter reading, operation, replacement or removal of its property at the time service is terminated. Any employee of the utility whose duties require him/her to enter the customer's premises will wear a distinguishing uniform or other insignia identifying him/her as an employee of the utility, or show a badge or other identification which will identify him/her as an employee.
2. Obtaining easements and right-of-ways necessary to extend service will be the responsibility of the utility.
3. All customers must grant, convey, or cause to be granted or conveyed to the utility a perpetual easement and right-of-way across any property owned or controlled by the customer wherever necessary for the utility's facilities in order to provide service.
4. The utility cannot require a prospective customer to obtain easements or right-of-way on property not owned by the prospective customer as a

condition for providing service. However, the cost of obtaining easements or right-of-way will be included in the total per foot cost of an extension, and will be apportioned among the utility and customer in accordance with the applicable extension administrative regulation.

- P. Location of Records. All records required by Public Service Commission rules and regulations will be kept in the office of the utility and will be made available to representatives, agents or staff of the Public Service Commission upon reasonable notice at all reasonable hours.
- Q. Safety Program. The utility will adopt and execute a safety program, appropriate to the size and type of its operations. At a minimum, the safety program will:
1. Establish a safety manual with written guidelines for safe working practices and procedures to be followed by utility employees.
 2. Instruct employees in safe methods of performing their work.
 3. Instruct employees who, in the course of their work, are subject to the hazard of electrical shock, asphyxiation or drowning, in accepted methods of artificial respiration.
- R. System Inspections.
1. The utility will adopt inspection procedures to assure safe and adequate operation of its facilities and compliance with Public Service Commission rules and regulations. These procedures will be filed with the Public

Service Commission for review.

2. Upon receipt of a report of a potentially hazardous condition at any utility facility made by a qualified employee, public official, or customer, the utility will inspect all portions of the system which are the subjects of the report.
3. Appropriate records will be kept by the utility to identify the inspection made, deficiencies found and action taken to correct the deficiencies.
4. Inspections. The utility will make systemic inspections of its system in manner set out below to insure that the Public Service Commission's safety requirements are being met. These inspections will be made as often a necessary but not less frequently than is set forth below for various classes of facilities and types of inspection.
 - a) The utility will annually inspect all structures, pertaining to purification for their safety, physical and structural integrity for leaks, including chemical feed equipment; pumping equipment and water storage facilities, including electric power wiring and controls; hydrants, mains, and valves.
 - b) The utility will monthly inspect construction equipment and vehicles for defects, wear, operational hazards, lubrication, and safety features.

S. Reporting of Accidents, Property Damage, or Loss of Service.

1. Within two (2) hours following discovery the utility will notify the Public

Service Commission by telephone or electronic mail of any utility related Accident which results in:

- a) Death; or shock or burn requiring medical treatment at a hospital or similar medical facility; or any accident requiring inpatient overnight hospitalization.
 - b) Actual or potential property damage of \$25,000 or more; or
 - c) Loss of service for four (4) or more hours to ten (10) percent or 500 or more of the utility's customers, whichever is less.
2. A summary written report will be submitted by the utility to the Public Service Commission within seven (7) calendar days of the utility related Accident.

T. Continuity of Service.

1. Emergency interruptions. The utility will make all reasonable efforts to prevent interruptions of service and when such interruptions occur will endeavor to reestablish service with the shortest possible delay consistent with the safety of its consumers and the general public. If an emergency interruption of service affects service to any public fire protection device, the utility will immediately notify the chief or other public official responsible for fire protection.
2. Scheduled interruptions. If the utility finds it necessary to schedule an Interruption of its service, it will notify all customers to be affected by the interruption, stating the time and anticipated duration of the interruption. Whenever possible, scheduled interruptions will be made at hours of least inconvenience to customers. If public fire protection is provided by mains

affected by the interruptions, the utility will notify the fire chief or other officials responsible for fire protection of the interruptions, stating the time and anticipated duration. The fire chief or other official responsible for fire protection will be notified immediately upon restoration of service.

U. Pressures.

1. Standard pressure. The utility will maintain a standard pressure in its distribution system at locations to be designated as the point or points of "standard pressure." The selection of such points will be confined to locations fairly representative of average conditions. In selecting points for fixed standard pressure, the utility may divide its distribution system into districts if division is necessary due to differences of elevation or loss of pressure because of friction, or both, and may either adopt a standard pressure for each division or establish a single standard pressure for its distribution system as a whole. In no case will the constant difference between the highest and lowest pressures in a district for which a standard has been adopted exceed fifty (50) percent of such standard. The utility may, in extenuating circumstances, furnish service that does not comply with the foregoing specifications if the customer is fully advised of the conditions under which average service may be expected. The Public Service Commission, upon investigation, may require improvements when it appears right and proper that such upgrades should be made. In no event, however, will the pressure at the customer's service pipe under normal conditions fall below thirty (30) psig nor will the static pressure

exceed 150 psig.

2. Pressure surveys. At least once a year the utility will make a survey of pressures in its distribution system of sufficient magnitude to indicate the quality of service being rendered at representative points in its system. Pressure charts for these surveys will show the date and time of beginning and end of the test and the location at which the test was made. Records of these pressure surveys will be maintained at the utility's office and will be made available to the Public Service Commission upon request.

V. Service Lines & Connections.

1. The utility will furnish and install at its own expense for the purpose of connecting its distribution system to the customer's premises that portion of the service connection from its main to and including the meter and meter box. The utility will recoup this expense from the customer in accordance with KRS 278.0152.
2. In areas where the distribution system follows well-defined streets and roads, the customer's point of service will be located at that point on or near the street right-of-way or property line most accessible to the utility from its distribution system. In areas where the distribution system does not follow streets and roads, the point of service will be located as near the customer's property line as practicable. Prior to installation of the meter the utility will consult with the customer as to the most practical location.
3. Depth of service line. All service lines must be laid at a sufficient depth (a minimum of 24 inches) to prevent freezing during the coldest weather

does not deliver 30 psig at the meter.

12. If the applicant / customer's point of usage is at a higher elevation than the meter, the customer should consult with a reputable engineering firm to properly size the service line from the meter to the point of usage.
13. Should an applicant / customer desire a higher pressure due to location or other need, provisions must be made by the applicant for an individual pressure booster system. The manner of connection, location, cross-connection protection, and type is subject to approval by the utility. The utility reserves the right to require discontinuance and disconnection should the private booster system have a detrimental effect on the utility's system.
14. Piping on the premises of the applicant / customer must be installed so that connections are conveniently located with respect to the utility's lines and mains. A place must be provided for metering that is unobstructed and accessible at all times.
15. The utility may require the applicant/customer at his/her own expense, to install a backflow-prevention and/or pressure regulator.
16. All meters will be installed, renewed, and maintained at the expense of the utility, and the utility reserves the right to approve the size and type of meter used.
17. All taps and connections to the mains of the utility must be made by and/or under the direction and supervision of utility personnel and will incur a meter connection/tap-on charge, an amount that has been approved by the Public Service Commission for such service. Payment of this fee is

for the privilege of connecting to the water system and the payment of the fee does not constitute the purchase of a water meter.

18. Should an applicant requesting a 5/8" x 3/4" meter require service on the opposite side of the road from the water main, the utility will provide the service at no additional cost to the customer other than the standard meter connection/tap-on charge. All larger size meters will be charged the actual cost of installing the meter, including, when applicable, the additional costs for crossing the road.
19. Any customer having boilers and/or pressure vessels that receive water from the utility must have a check valve on the water supply line and a vacuum valve on the steam line in order to prevent a collapse were the water supply from the utility be interrupted or discontinued.

- W. Leak Adjustments. A customer may make a request for a bill adjustment in the event of a leak under the following conditions:
1. The customer must request a leak adjustment in writing to the utility.
 2. The customer's bill will be based on two components. The first step will be to calculate the customer's average monthly usage over a twelve-month period. The second step will be to deduct the customers average monthly usage (as calculated in the above) from the total amount of water that passed through the meter. The usage calculated in step one will be billed at the utility's regular rates, while the remaining usage will be charged at the per thousand gallon leak adjustment rate, as set forth in the rates and charges portion of the utility's approved tariff. All water passing through

the meter must be accounted and paid for by the customer. So the customer will owe the amount of his/her average bill plus the per thousand gallon leak adjustment rate for the remainder of the water that passed through the meter.

3. If meter readings are not available for an entire twelve-month period, the water bill will be estimated by the utility, subject to an upward or downward adjustment once a twelve-month average of actual meter readings can be calculated.
4. Only one (1) leak adjustment will be made per twelve-month period.

X. Ownership of Mains, Service, and Appurtenances:

1. All mains, fire hydrants, valves, crossings, and other appurtenances are and shall remain the property of the utility, whether installed by the utility or the customer.
2. All service lines from the main to the meter with appurtenances are and shall remain the property of the utility, whether installed by the utility or the customer.
3. The customer shall install, own, and maintain his/her service line from the meter (or point of delivery) to the point of usage.

- Y. Notification of System Problems. The customer shall notify the utility immediately should the service be unsatisfactory for any reason, or should there be any defects, problems, trouble, or accidents affecting the water system.

Z. Legal Disclaimers.

1. The utility shall in no event be held responsible for any claims made against it for reasons of system failure or interruptions of service. No person shall be entitled to damages nor for any portion of a payment refunded for any system failure or interruption of service which in the opinion of the utility is deemed necessary.
2. No person shall maliciously, willfully, or negligently break, damage, destroy, uncover, deface, or tamper with any structure appurtenance or equipment which is a part of the utility's water system. Any person violating this provision will be subject to immediate arrest and/or discontinuance of water service and shall pay the cost of repairing or replacing the utility's facilities.
3. If any loss or damage to the property of the utility or any accident or other injury to persons or property is caused by or results from the negligence or wrongful action of a customer, members of his/her household, his/her agent or employee, the cost of necessary repairs or replacements shall be paid by the customer of the utility and any liability otherwise resulting shall be that of the customer.
4. For purposes of fire protection, including any customer's fire protection system, the utility cannot guarantee a water supply at any particular flow rate or pressure. The fire flow may vary depending upon other water demands on the system, various water facility limitations, or other circumstances. The customer will indemnify and hold harmless the utility and its employees from and against all claims, damages, losses, and

expenses incurred as a result of insufficient water supply or deficient system facilities.

AA. Fire Departments.

Any city, county, urban-county, charter county, fire protection district, or volunteer fire protection district ("User") may withdraw water from the utility's water distribution system for the purpose of fighting fires or training firefighters at no charge on the condition that it maintains estimates of the amount of water used for fire protection and training during the calendar month and reports the amount of this water usage to the utility no later than the 15th day of the following calendar month.

Any city, county, urban-county, charter county, fire protection district, or volunteer fire protection district that withdraws water from the utility's water distribution system for fire protection or training purposes and fails to submit the required report on water usage in a timely manner shall be assessed the cost of this water.

A non-reporting user's usage shall be presumed to 0.3 percent of the utility's total water sales for the calendar month. A non-reporting user may present evidence of its actual usage to rebut the presumed usage. The utility shall consider this evidence and may adjust the presumed usage amount accordingly.

The non-reporting user shall be billed for this usage at the lowest usage block rate regardless of customer classification that the utility charges.

A non-reporting user shall also be assessed a penalty of \$50.00 for each failure to submit a report in a timely manner.

BB. Requirements for New Water Connections.

1. The water line must be buried in a ditch that is at a minimum of 24 inches in depth.
2. The water line must be a minimum of 200 psi.
3. A shut-off valve must be installed.
4. A one-way check valve must be installed.
5. A pressure regulator may be required as prescribed by the utility.
6. There shall be absolutely no galvanized pipe or fittings used in the installation.
7. If a well is being used, it must be disconnected.
8. A plumbing permit is required before any new installations can be made.

CC. Water Main Extensions.

1. Normal extension. An extension of fifty (50) feet or less shall be made by a utility to its existing distribution main without charge for a prospective customer who shall apply for and contract to use service for one (1) year or more.
2. Other extensions. All other extensions must be designed by a qualifying engineer.

Section EE. Landlord Agreement

This Landlord Agreement shall be made between the owner or authorized agent "Landlord" of the rental property and Green-Taylor Water District "the District".

The purpose of this agreement is to provide a smooth transition between the changing tenants.

The following procedure may be allowed:

1. Upon the tenant vacating the rental property, the Landlord may, in person, ~~by telephone or by faxing~~ (D) request that the account be placed in the Landlord's name.
2. The District will read the meter and process the final bill of the vacating tenant.
3. The Landlord shall not be required to pay the deposit to get water in their name, however; any applicable Special Charges shall be assessed on the Landlord's account and the bill shall be payable upon receipt.
4. Upon rental of the property to a new tenant, the District will read the meter and process a final bill to the Landlord and also place the account in the new tenant's name when tenant pays deposit.
5. The District may terminate this agreement at any time should the Landlord fail to comply with the District's approved Rules and Regulations

Green-Taylor Water District

WATER USER AGREEMENT

THIS AGREEMENT made and entered into this the _____ day of _____, 20____, by and between _____

of _____

(Phone No. _____ hereinafter called USER (whether one or more), and the GREEN-TAYLOR WATER DISTRICT of Industrial Park Road, Greensburg, KY, hereinafter called DISRJCT;

WITNESSETH, THAT WHEREAS the User desires to purchase water from the District, and

WHEREAS, this Agreement is required by the District's By-Laws;

NOW THEREFORE, for and in consideration of the following mutual covenants, promises and conditions set out below, the parties hereto hereby agree as follows:

1. The District shall, if waterline mains are made available to the User, furnish to the User such quantities of water as the User may desire in connection with the property to be served by this Agreement which property is described as follows:

Address: _____

Road: _____

Name of Adjacent Landowners: _____

2. The District shall furnish water to the User by and through one of the following means (check & fill in as applies):
 - A. If there is an existing water main or if the bids for a new water main have been advertised for, then the District shall install a _____ inch meter at a location chosen by the District, for which the User hereby pays a meter connection fee of \$ _____ to the District.
 - B. If there is an existing meter already in place for use by the User, then the District shall put said meter into operation for User, for which the User hereby pays a fee of \$ 100.00 to the District as a meter deposit, which fee shall be refunded to User upon termination of service and payment of User's final bill.
 - C. If this User Agreement is being executed by reason of a new waterline expansion project of the District for prospective use by the User, and when a waterline main is made available to the User, then the District shall install a _____ inch meter at a location chosen by the District, for which the User hereby pays a meter connection fee to the District.
3. The District reserves the right to determine the size of service connection to be used to supply water to the User. A 5/8 inch by 3/4 inch meter will be used unless the User contracts for a larger meter. A separate meter must be installed for each residence. A separate contract will be used by trailer parks when trailers are not supplied by individual meters.
4. The User shall, and does hereby, grant to the District, its successors and assigns, a perpetual easement in, over, under and upon land owned by the User, with the right to erect, construct, install and lay, and thereafter use, inspect, repair, maintain, replace and remove water pipelines and appurtenant facilities, together with the right to utilize adjoining lands belonging to the User for the purpose of ingress and egress from the said lands.
5. THE METER CONNECTION FEES ARE NON-REFUNDABLE, except for good cause shown in the sole discretion of the District. However, if the District is unable to provide water service to the User by reason of no waterline mains being laid adjacent to User's property then the deposit set out above, plus interest, shall be refunded to the User within a reasonable time after it is determined that water service cannot be made available.
Construction of water lines to serve the property covered under this agreement depends upon feasibility, availability of funds for construction and approval by all local, state and federal agencies having jurisdiction over same. IF WATER LINES DO NOT ALREADY EXIST, THE DISTRICT DOES NOT GUARANTEE WATER SERVICE WILL BE MADE AVAILABLE TO THE USER.
6. The User shall be responsible for installing and maintaining at his own expense a service _____ which shall begin at Meter connection and extend to his place of water use. The User shall install his own valve outside the meter box on the User's side of the meter.
7. No present or future source of water available to the User will be connected to any water lines served by the District's water lines and the User will disconnect from his present water supply p District's system and shall eliminate present or future cross-connection i sell or give away any water purchased by him from the District.

PURSUANT TO 807 KAR 5:011 SECTION 9 (1)

8. The User shall connect his service line to the District Water meter and shall commence to use water from the system on the date the water is made available to him. WATER CHARGES TO THE USER WILL COMMENCE ON THE DATE SERVICE IS MADE AVAILABLE BY THE DISTRICT, REGARDLESS OF WHETHER THE USER IS CONNECTED TO THE SYSTEM OR WHETHER HE ACTUALLY USES ANY WATER.
9. It shall be the duty of the User to read his own meter on the date the bill is received every month and submit same to the District for billing purposes not later than the 15th day of the month. Failure of the User to submit a meter reading by the due date will result in an estimated meter reading being imposed by the District. If a reading is not received for 3 consecutive months, the meter will be read by the Water District personnel and said reading will be used for billing. There will be a \$16.80 service charge each time the meter is read by District personnel because of no reading being submitted by the User.
10. The User shall pay District for water purchased according to the rates set by the Kentucky Public Service Commission, which payments shall be due not later than the 10th of the month following the month of water usage. The failure of the User to pay water charges duly imposed shall result in automatic imposition of the following penalties:
 - A. Nonpayment by the 15th day of the month following the month of water usage is subject to a penalty of 10% on the delinquent account per month or any part of a month the bill remains unpaid.
 - B. Nonpayment by the 21st day of the month following the month of water usage will result in the water being disconnected from the User's property.
 - C. In the event it becomes necessary for the District to disconnect water usage, a fee of \$16.80 will be charged for a reconnection of service.
11. The District shall determine the allocation of water to the User in the event of a water shortage. In the event the total water supply shall be insufficient to meet all of the needs of the Users, or in the event there is a shortage of water, the District may prorate the water available among the various Users on such basis as is deemed equitable by the District, and if at any time water supply shall be insufficient to meet all the needs of all the users, the District must first satisfy all of the needs of all of the Users for domestic purposes before supplying any water for livestock purposes and must satisfy all the needs for both domestic and livestock purposes before supplying any water for garden purposes.
12. The User shall comply with and be bound by the Articles, By-Laws, Rules and Regulations of the District, now in force or as hereafter duly and legally supplemented, amended or changed. The User shall pay for water at such rates, time and place as shall be determined by the District, and agrees to the imposition of such penalties for noncompliance as are now set out in the District's By-Laws, Rules and Regulations, or which have been or hereafter might be adopted by the District.
13. If the User defaults in the performance of any of his duties and obligations herein, or should he breach any of the provisions and conditions of this agreement, the District may disconnect water service to the User. If a disconnection has been made by reason of the above, the User shall pay to the District a reconnection fee of \$50.00 prior to reconnection of water service by the District.
14. The User shall be liable to District for any and all damage suffered by the District as a result of User's actions and of the actions of his agents, employees and anyone else under his control.
15. This contract shall be binding upon and inure to the benefit of the parties and their respective heirs, administrators, successors and assigns.

WITNESS the signature of the parties hereto the day and year first above written.
