

## AMENDMENT

This amendment modifies the Wholesale User Agreement ("Agreement") for water sales between the Hardin County Water District No. 1 ("District") and the City of Vine Grove ("Customer") which agreement was executed by the District on July 30, 2002 and submitted to the Public Service Commission in September, 2002. This amendment changes and replaces certain sections of the Agreement, however all other sections and terms of the agreement not modified herein, shall remain in place and unchanged.

Both parties to this amendment do hereby agree that the following sections and language replace the same numbered sections of the Agreement and shall remain in affect until modified again by both parties;

Section 10 Volume and Quantity, subsection E, subsection I (pertaining to Special Conditions of the Agreement and flows available at different interconnect points) shall be replaced with the following;

- i. Water will be delivered at three locations. The "Highway 144" location will be the primary delivery point. Other delivery points include the "Highway 391" and the "Creekvale Section 3" connection points. Maximum flow to all three points will be limited by the hydraulic differences between the customers and District's system which have not been tested or analyzed. The total being delivered at any combination of connection points cannot exceed the committed capacity.*
- ii. The Creekvale Section 3 connection also will require a pressure reducing valve to be located downstream and on the customers side of the metering point. This valve shall control the pressure so that maximum flow rate at this connection point does not exceed 500 gallons per minute. This valve shall be paid for, installed and owned and maintained by the customer.*

The following representative(s) have been authorized to sign and execute this amendment and have read and agreed to its terms and conditions. A formal approval by the customer's governing body is required and the date of said approval shall be written below. This agreement is not valid until it has been reviewed and agreed to by the District's Board of Commissioners who will direct its representatives to sign and execute the agreement only after approval first by the customer and then by the District;
