PURSUANT TO 807 KAR 5:011 SECTION 9 (1)

	FOR Southern Portion of Montgomery County, KY	
	PSC KY NO. 3	
	Original SHEET NO. 3	
Levee Road Water Association (NAME OF UTILITY)	CANCELLING PSC KY NO. 2	
	SHEET NO	

SECTION 1: GENERAL INFORMATION

The provisions of this tariff are in addition to and subject to Commonwealth of Kentucky statutes and Public (N) Service Commission regulations.

Any inconsistencies herein shall be interpreted in favor of the appropriate body of law.

This tariff will uniformly apply to all customers of the utility, and no employee or commissioner of the utility is permitted to make any exception to any portion of this tariff without PSC acceptance and/or approval.

- 1. All customers must grant, convey, or cause to be granted or conveyed to the utility a perpetual easement and right-of-way across any property owned or controlled by the customer wherever necessary for the utility's facilities in order to provide service.
- 2. Each prospective customer desiring water service must sign the utility's Water Service Contract before service is supplied by the utility.
- 3. No customer may resell water except under the terms of a special contract executed by the utility and accepted or approved by the PSC.
- 4. A customer shall notify the utility immediately if there is problem with the service or if an accident occurs that affects the water system.
- 5. With respect to any billing dispute, customer accounts shall be considered to be current while the dispute is pending as long as the customer continues to make undisputed payments and stays current on subsequent bills.
- 6. Bills and notices from the utility will be mailed to the customer at the address listed on the Water Service Contract unless a change of address has been filed with the utility in writing. The utility will not otherwise be responsible for delivery of any bill or notice, nor will the customer be excused from the payment of any bill or any performance required in the notice.
- 7. Billing Cycle Water service will be billed monthly.

SECTION 3: DEPOSIT POLICY

- 1. The utility requires a cash deposit to secure payment of bills, an equal amount for each class of customers, not to exceed 2/12 of the average annual bill when billed monthly.
- 2. Service will be refused or discontinued if payment of deposit is not made.
- 3. Deposits may be waived for a customer showing satisfactory credit or payment history with the following criteria being considered: (a) previous history with the utility. If the customer has no previous history with the utility, statements from other utilities, banks, etc., may be presented by the customer as evidence of good credit; (b) Whether the customer has an established income or line of credit; (c) Length of time the customer has resided or been located in the area; (d) Whether the customer owns the property to be served; (e) Whether another customer with a good payment history is willing to sign as a guarantor for an amount equal to the required deposit
- 4. Interest will accrue on all deposits at the rate prescribed by law beginning on the date of the deposit. Interest accrued will be refunded to the customer or credited to the customer's bill on an annual basis. If interest is paid or credited to the customer's bill prior to twelve (12) months from the date of deposit or the last interest payment date, the payment or credit shall be on a prorated basis.
- 5. Deposits will be refunded to customers upon termination of service

SECTION 4: SPECIAL NON RECURRING CHARGES

METER RELATED CHARGES:

- 1. Meter Connection /Tap-On Fee: Will be assessed to hook up a new meter connection/tap-on. An additional charge consisting of the actual costs involved shall apply when rock is encountered.
- 2. Meter Turn-On / Off: Will be assessed for new service turn-ons, seasonal turn-ons, temporary service, or transfer of service. The charge will not be made for initial installation of service where a meter connection/tap-on charge is applicable.
- 3. Meter Relocation /Re-setting: Will be assessed when a customer or other authorized person requests that a meter be relocated, changed, modified or re-set a meter that has been removed at the customer's request. Those requesting a change must reimburse the utility for the actual costs incurred, including but not limited to appropriate legal, administrative, engineering, overhead, or other related costs.
- 4. Meter Test: Will be assessed when a customer requests the utility perform a test on the customer's meter to check for accuracy and the test shows the customer's meter is not more than two percent (2%) fast. The utility will perform such test through an independent PSC certified party on any meter upon written request of any customer if the request is not made more than once every twelve (12) months.
- 5. Meter Service Damage: Any individual or entity that causes damage to the Utility's meter service, including, but not limited to the valve box, curb stop, service line, setter, meter, MXU, meter box, lid and/or lock, etc. shall pay the actual costs incurred by the Utility to investigate the damage and repair the damaged meter appurtenances.

SECTION 4: SPECIAL NON RECURRING CHARGES continued

SERVICE RELATED CHARGES:

- 1. Service Disconnection: Will be assessed to disconnect service that has been terminated for non-payment of service or for violation of utility or PSC rules and regulations.
- 2. Service Reconnection: Will be assessed to reconnect service that has been terminated for non-payment of service or for violation of utility or PSC rules and regulations.
- 3. Service Call / Investigation: Will be assessed when a customer requests the onsite presence of utility personnel to investigate a service problem and the problem is a result of the customer's own plumbing facilities, beyond the utility's delivery point, or not caused by failure of utility facilities. Any maintenance and repair of facilities beyond the utility's delivery point is the responsibility of the customer.

BILLING RELATED CHARGES:

- Late Payment Penalty: Will be assessed if a customer fails to pay a bill for services by the due date shown on the customer's bill. The penalty may be assessed only once on any bill for rendered services. Any payment received shall first be applied to the bill for service rendered. Additional penalty charges shall not be assessed on unpaid penalty charges.
- 2. Returned Check: Will be assessed to any customer whose personal check, ACH Bank Draft or any other form of payment is returned due to insufficient funds or other reason for which the customer is responsible. Any customer who presents during any 12-month period two personal checks or ACH (Automatic Clearing House) Bank Draft or any other form of payment that are subsequently returned for insufficient funds or other reason for which the customer is responsible must make payment in the form of cash, money order or cashier's check for the 12 months following the presentment of the second returned check, ACH Bank Draft, or any form of payment. During this 12-month period, the utility will refuse to accept from such customer any payment made in the form of personal check or ACH Bank Draft. In the event that a Customer's payment is refused for the reasons stated above, the utility will consider the bill as unpaid and will exercise its right to disconnect service for nonpayment of bills, per procedures set forth in the Termination of Service policy of this tariff and in accordance with PSC rules and regulations.

SECTION 5: SERVICE CONNECTIONS

- 1. The connection between its distribution main and the customer's premises, including the meter and meter box, shall be furnished by and installed at the expense of the utility, which will recoup this expense by assessing the customer a charge approved by the PSC.
- 2. All taps and connections to the mains of the utility must be made by or under the direction and supervision of the utility.
- 3. In areas where the distribution system follows well-defined streets and roads, the customer's point of service shall be located at that point on or near the street right-of way or property line most accessible to the utility from its distribution system.
- 4. In areas where the distribution system does not follow streets and roads, the point of service shall be located as near the customer's property line as practicable. Prior to installation of the meter the utility shall consult with the customer as to the most practical location.
- 5. The utility will own and be responsible for the maintenance of all meters and reserves the right to approve the size and type of meter used.
- 6. The utility strictly prohibits a cross connection of its system with any other source.
- 7. The utility requires a visual inspection by utility personnel of any connection before being covered. The utility may substitute its inspection with an inspection by the appropriate state or local plumbing inspector, if proof of inspection is presented to the utility by the customer.
- 8. Customers requiring larger than 5/8" x 3/4"meters shall pay the actual cost.
- 9. An additional charge shall be made for meter connections where rock is encountered, such rock condition being defined as limestone or other hard stratified material in a continuous volume of at least one cubic yard or more and which cannot be removed using ordinary excavation equipment. The charge shall be applied per linear trench foot and shall not exceed the actual cost of excavation.

SECTION 6: SERVICE LINES

- 1. The utility will furnish and install at its own expense for the purpose of connecting its distribution system (N) to the customer's premises that portion of the service connection from its main to and including the meter and meter box. The utility will recoup this expense from the customer in accordance with KRS 278.0152.
- 2. The applicant/customer must furnish and lay the necessary pipe to make the connection from the point of service to the point of usage and be financially responsible for all costs associated with the installation and maintenance of his/her service line plumbing, including a shut-off valve, one-way check valve and pressure regulator installed on his/her property beginning at the outlet side of the water meter. The service line must be kept in good repair and in accordance with utility and Public Service Commission rules and regulations.
- 3. Depth of service line: All service lines must be laid at a sufficient depth (a minimum of 30 inches) to prevent freezing during the coldest weather normally experienced except where services are not intended for use during freezing weather and are actually drained during such periods.
- 4. All service lines on the customer's side of the meter must consist of copper, CTS, PVC or HDPE pipe with a rating of no less than 200 psi, and should not be less than 3/4 inches with a cut-off valve on the customer side of the meter. Pressure regulators are recommended.
- 5. Absolutely no galvanized pipe or fittings can be used in the installation.
- 6. A plumbing permit from the appropriate regulatory agency is required before the utility can set the meter.
- 7. The installation and maintenance of the water service line must be in accordance with the rules and regulations of the Kentucky Department of Health.
- 8. The service line trench shall be left open and the pipe uncovered to allow the utility to visually inspect the connecting line. The utility may substitute for its inspection an inspection by the appropriate state or local plumbing inspector, if proof of that inspection is presented to the utility by the applicant/customer.
- 9. A cross-connection of the utility's system with any other source is strictly prohibited.

	SHEET NO

- 10. A well that has or is being used on the premises must be inspected by utility personnel to verify disconnection and separation.
- 11. The utility may require the applicant/customer, at his/her own expense, to install a check valve and/or other appropriate backflow device.
- 12. The utility will not set a meter on a customer's service line at a point that does not deliver 30 psig at the meter.
- 13. If the applicant/customer's point of usage is at a higher elevation than the meter, the customer should consult with a reputable engineering firm to properly size the service line from the meter to the point of usage.
- 14. Should an applicant/customer desire a higher pressure due to location or other need, provisions must be made by the applicant for an individual pressure booster system. The manner of connection, location cross-connection protection and type is subject to approval by the utility. The utility reserves the right to require discontinuance and disconnection should the private booster system have a detrimental effect on the utility's system.
- 15. Piping on the premises of the applicant/customer must be installed so that connections are conveniently located with respect to the utility's lines and mains. A place must be provided for metering that is unobstructed and accessible at all times.
- 16. All meters will be installed, renewed, and maintained at the expense of the utility, and the utility reserves the right to approve the size and type of meter used.
- 17. Thermal expansion tank: The Association recommends the installation of a thermal expansion tank to be installed on the cold water side of your hot water heater, as per State Division of Plumbing Regulations.

SECTION 7: MULTIPLE CONNECTIONS on a SINGLE METER

With the exception of existing connections, the existence of a special contract or unusual circumstances requiring approval of the utility, a single meter can serve no more than one residential or commercial unit on and after the effective date of this tariff.

For existing connections, special contracts, or other utility approved situations, where two or more units are being served by one meter, the following rules will apply:

- 1) One bill per meter will be sent to the customer that signed the Water Service Contract.
- 2) The bill will consist of a charge in the amount of the utility's minimum bill multiplied by the number of units the meter serves. The amount of water included with a minimum bill will be multiplied by the number of units and deducted from the total amount of consumption. The remaining consumption will be evenly distributed among each unit, added to each unit's minimum bill, with the charges calculated according to currently approved rates.
- 3) The customer that signed the Water Service Contract will be fully and solely responsible for the charges associated with the connection including payment for all water passing through the meter, regardless of which unit is responsible for the water consumption.

SECTION 8: LEAK ADJUSTMENT POLICY

While a utility is not required to have a leak adjustment policy to adjust bills due to a water leak, this utility (N) chooses to offer a leak adjustment under the following conditions:

- 1. The customer must request a leak adjustment in writing to the utility.
- 2. The customer must provide a plumber's statement or other proof showing the leak has been repaired.
- 3. The customer's bill will be based on two components. The first step will be to calculate the customer's average monthly usage over a twelve-month period. The second step will be to deduct the customer's average monthly usage (as calculated above) from the total amount of water that passed through the meter. The usage calculated in step one will be billed at the utility's regular rates, while the remaining usage will be charged at the per thousand gallon leak adjustment rate. All water passing through the meter must be accounted and paid for by the customer. Therefore, the customer will owe the amount of his/her average bill plus the per thousand gallon leak adjustment rate for the remainder of the water that passed through the meter.
- 4. If meter readings are not available for an entire twelve-month period, the average usage of similar customer loads shall be used for comparison purposes for the calculation.
- 5. Only one (1) leak adjustment will be made for a specific service location during any given twenty-four month period.
- 6. Wholesale customers are not eligible for this Leak Adjustment Policy.
- 7. The leak adjustment rate shall be the rate at which the Utility purchases its water plus 10% to cover storage and distribution related costs.

DATE OF ISSUE	June 4, 2018 MONTH / DATE / YEAR	KENTUCKY PUBLIC SERVICE COMMISSION

SECTION 9: BILL ADJUSTMENTS

1. Fast or Slow Reading Meters

- a. If upon periodic test, requested test, or complaint test, a meter in service is found to be more than two (2) percent fast, additional tests will be made to determine the average error of the meter. The tests will be made in accordance with Public Service Commission rules and regulations applicable to the type of meter involved.
- b. If test results on a customer's meter show an average error greater than two (2) percent fast or slow, or if a customer has been incorrectly billed for any other reason, except in an instance where a utility has filed a verified complaint with the appropriate law enforcement agency alleging fraud or theft by a customer, the utility will immediately determine the period during which the error has existed, and will re-compute and adjust the customer's bill to either provide a refund to the customer or collect any under-billed amount.
- c. The utility will readjust the account based upon the period during which the error is known to have existed. If the period during which the error existed cannot be determined with reasonable precision, the time period will be estimated. In all instances of customer over-billing, the customer's account will be credited or the over-billed amount refunded at the discretion of the customer within thirty (30) days after final meter test results. A utility will not require customer repayment of any under-billing to be made over a period shorter than a period coextensive with the under-billing.
- Meter Read Failure. When a meter has ceased to register, or a meter reading cannot be obtained, the
 quantity of water to be billed will be based upon historical usage data for the customer. If that data is not
 available, the average usage of similar customer loads shall be used for comparison purposes in
 calculating the bill.

SECTION 10: BILLING; COLLECTIONS; PENALTIES.

- 1. The rates or charges aforesaid shall be billed monthly on or about the last day of each month.
- 2. Bills for such service shall be due on or before the tenth (10th) day of the month and payable by mail or in person.
- 3. Payments must be received, not postmarked, before the close of business on the 10th day of the month. Levee Road Water Association is not responsible for the United States Postal Service.
- 4. If a bill is not paid as aforesaid within such 10 day period, such bill shall be deemed delinquent, and there shall be imposed a penalty in an amount equal to ten percent (10%) of the charges (other than sales tax) shown on the face amount of said bill not so paid. The penalty may be assessed only once on any bill for rendered service. If a bill is not paid within twenty (20) days after rendition the service will be subject to disconnection.

SECTION 11: TERMINATION OF SERVICE

Utility Initiated Refusal of Service and Termination of Service with Advance Notice:

The utility may refuse or terminate service to a customer if the following conditions exist provided the customer has been given proper written notice pursuant to PSC laws and regulations along with notice of the customer's right to challenge the termination by filing a complaint with the PSC. Termination of service is in addition to any legal remedies the utility may pursue, and the utility is not required to restore service until the customer has complied with the utility's tariff and PSC laws and regulations.

- 1. For noncompliance with the utility's tariff or PSC laws and regulations, the utility may refuse service or terminate service with proper advance notice.
- 2. For dangerous conditions, the utility may refuse service until any and all dangerous conditions have been properly corrected.
- 3. For refusal of access, the utility may refuse service or terminate service with proper advance notice.
- 4. For outstanding indebtedness, the utility may refuse service until the customer has paid the outstanding debt.
- 5. For noncompliance with state, local, or other codes, the utility may refuse service or terminate service with proper advance notice.
- 6. For non-payment of bills, a utility may terminate service with proper advance notice.

SECTION 11: TERMINATION OF SERVICE continued

Termination of Service – Nonpayment:

The utility may terminate service for nonpayment of charges incurred for utility services. The utility may (N) terminate service only after five (5) days' written notice of termination is provided, and after twenty (20) days have elapsed since the mailing date of the original unpaid bill. If payment is not made within five business days of the date of the written notice, the utility shall thereupon turn off the water of such delinquent customer and may further enjoin the use of the water facilities of the utility until payment in full is made. If any deadline date specified falls on a Sunday or on a legal holiday, such deadline shall not expire until the end of the next business day. If such water service is disconnected by the utility; a reconnection of such service shall not be made until the customer or user pays all charges and penalties owed, plus the amount of disconnection and reconnection charges, and a deposit if no deposit exists on the account.

Customer Requested Termination of Service:

Any customer desiring service terminated or changed from one address to another shall give the utility three (3) working days' notice in person or in writing, provided such notice does not violate contractual obligations. The customer will not be responsible for charges for service beyond the three (3) day notice period if the customer provides proper notification and reasonable access to the meter during the notice period.

Emergency Termination of Service:

If a dangerous condition relating to the utility's service which could subject any person to imminent harm or result in substantial damage to the property of the utility or others is found to exist on the customer's premises the service will be terminated immediately.

Utility Initiated Refusal of Service or Termination of Service without Advanced Notice:

The utility may refuse or terminate service to a customer if the following conditions exist without an advance termination notice. Within 24 hours after termination, the utility shall send written notification to the customer stating the reason(s) for termination and providing notice of the customer's right to challenge the termination by (N) filing a complaint with the PSC. Termination of service is in addition to any legal remedies the utility may pursue, and the utility is not required to restore service until the customer has complied with the utility's tariff and PSC laws and regulations.

- 1. For dangerous conditions relating to the utility's service.
- 2. Unauthorized service by illegal use or theft.
- 3. Extensions or additions to an existing service connection that have not been approved by the utility.
- 4. Misrepresentation in the application or contract as to the property or fixtures to be supplied or additional use to be made of water.
- 5. Resale of water except under the terms of a special contract executed by the utility and approved by the PSC.
- 6. Waste or misuse of water due to improper, imperfect, or deteriorated service pipes.
- 7. Tampering with the meter, meter seal, valves, or other system facilities or permitting such tampering by others.
- 8. Connections, cross-connections, or permitting the same, of any separate water supply to premises that receive water from the utility.

SECTION 11: TERMINATION OF SERVICE continued

Utility Initiated Termination of Service – Exceptions.

The utility will not terminate service to a customer if the following conditions exist:

- 1. If payment for services is made. Service will not be terminated to a customer that was sent a termination notice if the customer delivers full payment to the utility prior to the actual termination of service.
- 2. If a partial payment agreement is in effect. Service will not be terminated for nonpayment if the customer and the utility have entered into a partial payment plan and the customer is meeting the requirements of the plan.
- 3. If a medical certificate is presented. Service will not be terminated for thirty (30) days beyond the termination date if a physician, registered nurse or public health officer certifies in writing that termination of service will aggravate a debilitating illness or infirmity on the affected premises. The utility may refuse to grant consecutive extensions for medical certificates past the original thirty (30) days unless the certificate is accompanied by an agreed partial payment plan. The utility will not require a new deposit from a customer to avoid termination of service for a thirty (30) day period who presents to the utility a medical certificate certified in writing by a physician, registered nurse or public health officer.

SECTION 12: FIRE DEPARTMENT USE

The Association's system is not designed nor intended for use for fire protection in any manner whatsoever. Any customer using the system for fire protection does so at their own full and sole responsibility and risk. The Association makes no warranty as to the sufficiency of the water supply or the adequacy of the water pressure at any time. Hydrants installed on the distribution lines of the Association are for the sole purpose of flushing the lines or other uses by the Association necessary for proper maintenance of the lines. The Association is not responsible for, nor does it guarantee, any minimum pressure or flow at the hydrants, other than the minimum required by the Public Service Commission for distribution lines.

Any city, county, urban-county, charter county, fire protection district, or volunteer fire protection district ("User") may withdraw water from the Association's water distribution system for fighting fires or training firefighters at no charge on the condition that it maintains estimates of the amount of water used for fire protection and training during the calendar month and reports the amount of this water usage to the utility no later than the 15th day of the following calendar month. Fire departments are authorized to use the hydrants for filling water tankers & and should not be hooked directly to pumpers because this practice can collapse the line. If, at any time, damage is incurred to the water system, the fire department will be held solely and totally responsible for all expenses incurred in repairing the damage.

Any User that withdraws water from the utility's water distribution system for fire protection or training purposes and fails to submit the required report on water usage in a timely manner shall be assessed the cost of this water. A User shall submit a monthly report even if it withdraws no water for fire protection or training purposes. A non-reporting User's usage shall be presumed to be 0.3 percent of the utility's total water sales for the calendar month. A non-reporting User may present evidence of its actual usage to rebut the presumed usage. The utility shall consider this evidence and shall adjust the presumed usage amount accordingly.

The non-reporting User shall be billed for this usage at the lowest usage block rate regardless of customer classification that the utility charges.

A non-reporting user shall also be assessed a penalty of \$\frac{25.00}{25.00}\$ for each failure to submit a report in a timely manner.

1. Normal extension. An extension of fifty (50) feet or less shall be made by a utility to its existing distribution main without charge for a prospective customer who shall apply for and contract to use service for one (1) year or more.

2. Other extensions:

- a) When an extension of the utility's main to serve an applicant or group of applicants amounts to more than fifty (50) feet per applicant, the utility will require the total cost of the excessive footage over fifty (50) feet per applicant/customer to be deposited with the utility by the applicant/customer(s), based on the average estimated cost per foot of the total extension.
- b) Each year, for a refund period of not less than ten (10) years, the utility shall refund to the customer or customers who paid for the excessive footage the cost of fifty (50) feet of the extension in place for each additional customer connected during the year whose service line is directly connected to the extension installed and not to extensions or laterals there from. Total amount refunded shall not exceed the amount paid the utility. No refund shall be made after the refund period ends.
- 3. The utility may make extensions under different arrangements if such arrangements have received prior approval of the PSC.

SECTION 14: EXTENSION PRECEDURES for DEVELOPERS and/or NEW SUBDIVISIONS.

- 1. An applicant desiring an extension to a proposed real estate subdivision may be required to pay the entire cost of the extension. Each year, for a refund period of not less than ten (10) years, the utility shall refund to the applicant who paid for the extension a sum equal to the cost of fifty (50) feet of the extension installed for each new customer connected during the year whose service line is directly connected to the extension installed by the developer, and not to extensions or laterals there from. Total amount refunded shall not exceed the amount paid to the utility. No refund shall be made after the refund period ends.
- 2. The utility may also, upon Public Service Commission approval, contract privately with owners or developers of subdivisions for the installation of water service for the subject subdivision. The owners/developers, pursuant to these contracts, extend mains and install water service at their expense. The utility would not accept nor receive any contribution, cost reimbursement, or deposit from any customer (lot owner) in this circumstance and as contemplated by 807 KAR 5:066 -Section 11 (2)(a), and therefore, 807 KAR 5:066 Section 11(2)(b)(1) or (2) or (3) would not apply to the utility with regard to newly-developed subdivisions.
- 3. The utility or its designated representative shall approve such an extension before construction begins.
- 4. Nothing contained herein shall be construed to prohibit the utility from contracting to make extensions under different arrangements if such arrangements have received the prior approval of the PSC.

SECTION 15: LEGAL DISCLAIMERS

- 1. The utility shall in no event be held responsible for any claims made against it for reasons of system failure or interruption of service. No person shall be entitled to damages or for any portion of a payment refunded for any system failure or interruption of service which is deemed necessary.
- 2. No person shall maliciously, willfully, or negligently break, damage, destroy, uncover, deface, or tamper with any structure, appurtenance or equipment which is a part of the utility's water system. Any person violating this provision will be subject to discontinuance of water service and shall be assessed the cost of repairing or replacing the utility's facilities.
- 3. If any loss or damage to the property of the utility or any accident or other injury to persons or property is caused by or results from the negligence or wrongful action of a customer, members of his/her household, his/her agent or employee, then the cost of necessary repairs or replacements shall be paid by the customer of the utility and any liability otherwise resulting shall be that of the customer.
- 4. For purposes of fire protection, including any customer's fire protection system, the utility cannot guarantee a water supply at any particular flow rate or pressure. The fire flow may vary depending upon other water demands on the system, various water facility limitations, or other circumstances. The customer will indemnify and hold harmless the utility and its employees from and against all claims, damages, losses, and expenses incurred as a result of insufficient water supply or deficient system facilities.
