RULES AND REGULATIONS

Special Non-recurring Charges:

The utility will collect for special nonrecurring charges to recover customer-specific costs incurred which would otherwise result in monetary loss to the utility or increased rates to other customers to whom no benefits accrue from the service provided or action taken. The utility may establish or change any special nonrecurring charge by applying for Public Service Commission approval of such charge in accordance with the provisions of 807 KAR 5:011, Section 10.

Special nonrecurring charges will be applied uniformly throughout the area served by the utility. Such charges will relate directly to the service performed or action taken and only yield enough revenue to pay the expenses incurred in rendering the service.

The utility will assess a charge for the following non-recurring services:

1. Connection/Turn-on Charge: Will be assessed for new service turn-ons, seasonal turn-ons, or temporary service. The charge will not be made for initial installation of service where a meter connection/tap-on charge is applicable.
2. Field Collection Charge: Will be assessed when a utility representative visits the premises of the service connection to terminate service, and the customer is on-site and pays the bill to avoid termination of service. This fee may only be charged once per billing period.
3. Late Payment Penalty: Will be assessed on the delinquent amount of the bill, less taxes.
4. Meter Relocation Charge: Will be assessed when a customer or other authorized person requests that a meter be relocated, changed, or modified. Those requesting a change must reimburse the utility for the actual costs incurred, including but not limited to appropriate legal, administrative, engineering, overhead, or other related costs.
5. Meter Re-read Charge: Will be assessed when a customer requests the utility to re-read the customer's meter and the re-read proves that the original meter reading was correct.

RULES AND REGULATIONS

- 6. Meter Test Charge: Will be assessed when a customer requests the utility perform a test on the customer's meter to check for accuracy, and the test shows the customer's meter is not more than two percent (2%) fast.
- 7. Reconnection Charge: Will be assessed to reconnect service that has been terminated for non-payment of service or for violation of Utility or Public Service Commission rules and regulations, and will include the cost of the service trip for both the disconnection and the reconnection.
- 8. Returned Check Charge: Will be assessed when a customer's check is returned, either due to insufficient funds or other reason due to customer fault.
- 9. Service Call/Investigation Charge: Will be assessed when a customer requests the onsite presence of utility personnel to investigate a service problem and the problem is a result of the customer's own plumbing facilities, beyond the utility's delivery point, or not caused by failure of utility facilities. Any maintenance and repair of facilities beyond the utility's delivery point is the responsibility of the customer.
