and if an increase is proposed, determine whether all or a part of the increase can be absorbed by the Applicant. The Applicant shall not implement its proposed revised rates until the Commission issues an Order authorizing the Applicant to adjust its rates. If an adjustment is authorized, the supplier's changed rate shall become the supplier's base rate for use in future applications. (N)

The maximum amount of the adjustment so ordered shall not produce revenue adjustments greater than the difference between the purchased water billed at the base rate and the purchased water billed at the authorized revised rate. "

The notice required by (5) may be accomplished by a bill insert. "

Calculation of the Purchased Water Adjustment. If a change is made in a base rate charged to the Applicant by its supplier(s), the unit charges of the wholesale tariff shall be increased or decreased by a purchased water adjustment calculated as follows: "

(1) Water purchases shall be computed at the supplier's base rate and the supplier's new rate using a period of 12 ~~calendar months~~ ending within 3 months preceding the month of the effective date of the supplier's rate change. The difference between these amounts shows the total change in the Applicant's purchased water costs. NOV 03 1981

(2) The total change in purchased water costs shall be divided by the actual number of cubic feet or gallons sold, yielding the purchased water adjustment expressed in cents per cubic feet or gallons, unless the Applicant's water purchases exceed 115% of water sales during the 12-month period. "

(3) In instances where water purchases exceed 115% of water sales, the actual water sales shall be divided by 85%, yielding the maximum allowable water purchases. The maximum allowable water purchases shall then be multiplied by the change in cost per cubic foot or gallon, yielding the total allowable change. The total allowable change shall then be divided by the actual number of cubic feet or gallons sold, yielding the purchased water adjustment expressed in cents per cubic feet or gallons. (N)
