METER-READING, BILLING AND COLLECTING

All meters with demand devices are read by Cooperative. Other meters are read by Cooperative on a staggered time basis. Cooperative provides space on billing statement for consumer to record meter-reading at other times. The meter-reading is returned to Cooperative at time payment is made and reading is used for next billing.

Billing is prepared on basis of rates approved by Board of Directors and Public Service Commission.

Due to use of rate deck with IBM accounting machine, the Cooperative has since May, 1963, used the following method for billing kilowatt hours used for single phase billing where no demand charge is in effect: to 500 kilowatt hours used monthly, prevailing rate is figured on each number of kilowatt hours. After 500, rate is figured on every ten kilowatt hours; for example: any consumer using from 770 to 779 kilowatt hours is billed on 775 rate base. If the billing is for a period less than half a month for minimum users, the first month's billing is carried forward and billed on next month. If final bill for minimum user is for period of less than half a month, no billing is made.

Dates for meter-reading, billing, mailing of bills, payment due, mailing of delinquent notices and cut-offs are on the following page.
