HENDERSON-UNION RURAL ELECTRIC COOP. CORP.

RULES AND REGULATIONS

General

1. SCOPE

This schedule of rules and regulations is a part of all contracts for receiving electric service from the cooperative and applies to all service received from the cooperative whether the service received is based upon a contract, agreement, signed application, or otherwise. No employee or individual director of the cooperative is permitted to make an exception to rates or rules and regulations. Copies of rates and rules and regulations are on file in the cooperative office and can be obtained there.

2. REVISIONS

These rules and regulations may be revised, amended, supplemented or otherwise changed from time to time without notice, by action of the board of directors. Such changes, when effective, shall have the same force as the present rules and regulations.

3. CONSUMER'S RESPONSIBILITY FOR COOPERATIVE'S PROPERTY

All meters, service connections, and other equipment furnished by the cooperative shall be, and remain, the property of the cooperative. The member shall exercise proper care to protect the property of the cooperative on its premises and in the event of loss or damage to the cooperative's property arising from neglect of member to care for same, the cost of necessary repairs or replacement shall be paid by the member.

4. TAMPERING

If the meters or other property belonging to the cooperative are tampered or interfered with, the consumer being supplied through such equipment shall pay the amount which the cooperative may estimate is due for service rendered but not registered on the cooperative's meter, and for such replacements and repairs as are necessary, as well as for costs of inspection, investigation, and protective installations.

5. CONTINUITY

The cooperative shall diligently try to provide constant and uninterrupted supply

RULES AND REGULATIONS

(d) In cases of mobile home trailers, the consumer will in all cases pay a \$25.00 membership fee. (D) (I)

Henderson-Union RECC will expand facilities up to 1,000 feet providing applicant makes improvements and occupies mobile home. Subject to the provision in PSC: 807-KAR 2:050 Electric Section 10, all applicants for service in excess of 1,000 feet, will be required to make a contribution in aid of construction equal to the total estimated cost of installation, exclusive of special equipment (transformers - meters). (D)

For those mobile home applicants requesting service whereby improvements have not been made or home will not be occupied, the following policy shall apply:

- (1) All extensions of up to 150 feet from the nearest facility shall be made without charge.
- (2) Extensions greater than 150 feet from the nearest facility and up to 300 feet shall be made provided the customer shall pay the utility a "customer advance for construction" of fifty dollars (\$50) in addition to any other charges required by the utility for all customers. This advance shall be refunded at the end of one (1) year if the service to the mobile home continues for that length of time.
- (3) For extensions greater than 300 feet and less than 1,000 feet from the nearest facility, the utility may charge an advance equal to the reasonable costs incurred by it for that portion of the service beyond 300 feet plus fifty dollars (\$50). Beyond 1,000 feet the extension policies set forth in paragraph 1 apply.

(a) This advance shall be refunded to the customer over a

RULES AND REGULATIONS

of electric energy, but should supply fail or be interrupted through act of God, the public enemy, by accident, strikes, labor troubles, by action of the elements, or by any other cause beyond the reasonable control of the cooperative, the cooperative shall not be liable therefor.

6. RELOCATION OF LINES BY REQUEST OF MEMBERS

The cooperative's established lines will not be relocated unless the expense for moving and relocating is paid by the member, except in instances where it would be to the advantage of the cooperative to make such relocation.

7. SERVICES PERFORMED FOR MEMBERS

The cooperative's personnel is prohibited from making repairs or performing services to the members' equipment or property except in cases of emergency or to protect the public or member's person, or property. When such emergency services are performed the member shall be charged for such service at the rate of time and material.

Service Procedures

8. APPLICATION FOR SERVICE

Each prospective member desiring electric service will be required to sign the cooperative's form "Application for Membership and for Electric Service" before service is supplied by the cooperative and provide the cooperative with necessary easements or right-of-way permits.

9. The cooperative will not connect any service until the required membership fee, plus any required deposits are paid. Requirements are as follows:

- (a) Industrial accounts will be handled on an individual basis.
- (b) Commercial accounts - the consumer will pay a \$25.00 membership fee (I) plus a \$20.00 prepayment. (D)
- (c) Farm, Non-farm, & Residential - it will be necessary that all members of this classification pay a \$25.00 membership fee. (I) In the event the property is owned by a person desiring service, no further (D)

four (4) year period in equal amounts for each year the service is continued.

(b) If the service is discontinued for a period of sixty (60) days, or should the mobile home be removed and another not take its place within (60) days, or be replaced by a permanent structure, the remainder of the advance shall be forfeited.

(c) No refunds shall be made to any customer who did not make the advance originally.

Mobile home owners have the option of being supplied a standard 80 amp. plug-in type service for \$90.00, including material and labor. This (I) is being done in order to facilitate mobile home owners in a quick hook-up, but this will not be done until the \$90.00 is paid. In- (T) spection is required on all wiring done by applicant or his electrician. A regular hook-up can be used in lieu of the quick hook-up.

(e) Signs - in cases of sign lighting, if it is an established firm no deposit of any nature will be required except membership fee.

Only one membership shall be required for each service. The membership fee or consumer prepayment shall be refunded if all financial obligations are paid, or shall be applied against any unpaid bills of the member at the time service is discontinued. This will automatically terminate the membership.

10. RIGHT OF ACCESS

The cooperative's identified employee shall have access to members' premises at all reasonable times for the purpose of reading meter, testing, repairing, removing, or exchanging any and all equipment belonging to the cooperative.

11. NOTICE OF TROUBLE

Consumer shall give immediate notice at the office of the cooperative of any interruptions, or irregularities, or unsatisfactory service, and of any defects known to consumer. Cooperative may at any time it deems necessary, suspend supply of electrical energy to any consumer or consumers for the purpose of

13. RECONNECTION CHARGES

The Cooperative will make no charge for connecting service to the member's premises for the initial installation of service, or the member's premises if the service to be connected is replacing service which has been destroyed by fire. When service has been terminated, or service is transferred to a new member, the Cooperative's representative shall read the meter at such premises and secure the necessary application for service from the new occupant. A service charge of \$5.00 (five dollars) will be made to new occupant for the reconnecting or transferring of such service. Service charge will be due and payable at time of connection or transfer, or upon notice of said charge. No meters shall be installed or reinstalled after working hours unless in the judgment of the Manager there exists circumstances that will justify the additional expense. In these cases a service charge of \$25.00 (twenty-five dollars) will apply.

CHECKED
PUBLIC SERVICE COMMISSION

(I)

MAY 23 1978

14. RESALE OF POWER BY MEMBERS

All purchased electric service used on the premises of the member shall be supplied exclusively by the Cooperative and the member shall not directly or indirectly sell, sublet, or otherwise dispose of the electric service or any part thereof.

15. SERVICE CHARGE

All service calls made by the Cooperative pertaining to the consumers' premises shall be charged at the rate of \$5.00 (five dollars) during normal working hours and \$25 (twenty-five dollars) per call after normal working hours.

(I)

16. SERVICE CHARGE FOR TEMPORARY SERVICE

Consumers requiring temporary service may be required to pay all costs of connecting and disconnecting incidental to the supplying and removing of service. Consumers will be billed for electric service as any other consumer during the connected period.

Effective July 1, 1974, the Cooperative will furnish a temporary service board for temporary services. There will be a \$20.00 service charge for this service for a period of 6 months with a \$5.00 per month charge for each additional month, up to a maximum of 12 months. This service charge of \$20 must be paid before the temporary service is installed.

Meters

17. METER TESTS

All new meters shall be checked for accuracy before installation. The Cooperative will, at its own expense, make periodic tests and inspections of its meters in order to maintain a high standard of accuracy and to conform with the regulations of the Public Service Commission. The Cooperative will make additional tests of meters at the request of the member upon the payment of a \$10.00 fee, if the meter has been tested (T) (N) within the past eight years. If the meter has not been tested within the past eight years, there will be no charge for the meter test. When the test made at the member's request shows that the meter is accurate, within 2% slow or fast, no adjustment will be made to the member's bill and the fee paid will be forfeited to help cover cost of the requested test. When the test shows the meter to be in excess of 2% slow or fast appropriate adjustments will be made to the member's bill. Refunds will be made in accordance with Public Service Commission's Rules and Regulations (807 KAR 2:010 Section 9 ((5)). If the test shows the meter to be more than 2% fast the \$10.00 fee paid by the member shall be refunded.

Meters

17. METER TESTS

All new meters shall be checked for accuracy before installation. The Cooperative will, at its own expense, make periodic tests and inspections of its meters in order to maintain a high standard of accuracy and to conform with the regulations of the Public Service Commission. The Cooperative will make additional tests of meters at the request of the member upon payment of a fee of \$2.00 (two dollars) paid in advance. When the test made at the member's request shows that the meter is accurate, within 2% slow or fast, no adjustment will be made to the member's bill and the fee paid will be forfeited to help cover cost of requested test. When the test shows the meter to be in excess of 2% fast an adjustment shall be made to the member's bill by recalculating the monthly bills. Refunds will be made in accordance with Public Service Commission's Rules and Regulations (807 KAR 2:010 Section 9 (5)) and the cost of testing the meter found to be inaccurate shall be borne by the Cooperative. The \$2.00 fee paid by the member shall be refunded.

18. FAILURE OF METER TO REGISTER

In the event a member's meter should fail to register, the member shall be billed from the date of such failure at the average consumption of the member based on the three-month period immediately preceding the failure.

19. DISCONTINUANCE OF SERVICE BY COOPERATIVE

The cooperative may refuse to connect or discontinue service to a member for the violation of any of its rules and regulations. The cooperative may discontinue service to a member for the theft of current or the appearance of a current-theft device on the premises of the member. The discontinuance of service by the cooperative for any cause stated in this rule does not release the member of his obligation of all bills due.

20. THREE PHASE SERVICE

Consumers are required to negotiate a contract for all three-phase service except as otherwise provided herein. Term of contract is determined by amount of investment required.

RULES AND REGULATIONS

The consumer will sign a contract providing necessary surety that they will purchase an annual amount of electricity equal to three percent per month of investment incurred in extending this service, this guaranteed usage of power to extend for a period of three years, after which the cooperative's regular monthly minimum will be based on KVA capacity of transformer. \$ 1.00 per KVA up to 10 KVA, 75¢ per KVA over 10 KVA. (N)

ELECTRIC MOTORS

Any single-phase motor larger than 7½ h.p. will not be permitted except by written permission of the cooperative. Larger motors must be three-phase. (N)

21. PRIMARY METERING

At any time the cooperative find it more desirable, it may at its own option and expense install primary metering equipment. The consumer will own and operate all facilities past the metering point.

22. UNDERGROUND SERVICE - Individual

Consumers desiring underground service from existing overhead service shall bear all cost in excess of normal cost of service.

UNDERGROUND SERVICE - Residential Subdivision

The Company will install underground distribution lines to a residential subdivision under the following conditions:

- 1. The subdivision being developed must consist of a tract of land which is divided into ten (10) or more lots for the construction of new residential buildings or the land on which is constructed two (2) or more new multiple occupancy buildings (refer to PSC Electric Rules, appendix A for definitions of terms).

23. HOUSE WIRING AND INSPECTION

Standards. All wiring of consumers' establishments must conform with the requirements of the National Electric Code and the Uniform Electric Code prepared by the Kentucky RECC. In addition to these requirements the Cooperative requires the use of copper wiring for all of these installations. This requirement is based on the past experiences of the Cooperative by reason of the poor mechanical connections of the aluminum wire. (T)

Inspections. Inspections of all permanent wiring installations which have not previously had service should be required prior to energizing. If energization is made prior to inspection, Temporary Release Form shall be signed by the owner and wiring contractor.

Additions to the consumers' wiring should be inspected, and it shall be the consumer's responsibility to report such additions to the Cooperative.

EXTENSION TO UNDERGROUND SERVICE

Henderson-Union RECC will extend underground facilities to areas which physically and economically lend themselves to this type of service under the following terms and conditions which insure adequate service and safety to all persons engaged in the construction, maintenance, operations, or use of underground facilities and to the public in general. The terms and conditions also reflect and protect the rate payers who are served with overhead facilities from subsidizing those served with higher cost underground facilities and in general requires the reimbursement of the cost difference between overhead and underground facilities necessary to serve a given load requirement.

1. DEFINITIONS

The following words and terms when used in these rules and regulations shall have the meaning indicated:

a. Applicant

The developer, builder or other person, partnership, association, corporation or governmental agency applying for the installation of an underground electric distribution system.

b. Building

A structure enclosed within exterior walls or fire walls, built, erected, and framed of component structural parts and designed for less than five (5) family occupancy.

c. Multiple-Occupancy Building

A structure enclosed within exterior walls or fire walls, built, erected and framed of component structural parts and designed to contain five (5) or more individual dwelling units.

d. Plant, Store, Warehouse, Commercial, School, Church, Community Building, Industrial, Etc.

A structure (or structures) other than residential occupancy where power is used for any type of service classification other than residential.

e. Distribution System

Electric service facilities consisting of primary and secondary conductors, transformers, and necessary accessories and appurtenances

RULES AND REGULATIONS

- b. Rights-of-way and easements suitable to the Cooperative at the underground distribution facilities must be furnished by the Applicant in reasonable time to meet service requirements. The Applicant shall make the area in which the underground distribution facilities are to be located accessible to the Cooperative's equipment, remove all obstructions from such area, stake to show the property lines and final grade, and maintain clearing and grading during construction by the Cooperative. Suitable land rights shall be granted to the Cooperative obligating the Applicant and subsequent property owners to provide continuing access to the utility for operation, maintenance or replacement of its facilities, and to prevent any encroachment in the utility's easement or substantial changes in grade or elevation thereof.
- c. Where not feasible to trench under roads, highways, railroads, lakes, streams, etc., the Cooperative shall have the right to place this portion overhead with the granting of easements (at no cost to the Cooperative) for such overhead construction.

3. INSTALLATION OF UNDERGROUND DISTRIBUTION SYSTEM - SUBDIVISIONS

- a. Where appropriate contractual arrangements have been made, the Cooperative shall install within the subdivision an underground electric distribution system of sufficient capacity and suitable materials which, in its judgement, will assure that the property owner (s) will receive safe and adequate electric service for the foreseeable future.
- b. All single phase conductors installed by the utility shall be underground. Appurtenances such as transformers, pedestal-mounted terminals, switching equipment and meter cabinets may be placed above ground.
- c. Multi-phase primary mains or feeders required within a subdivision to supply local distribution or to serve individual multi-phase loads may be overhead unless underground is required by governmental authority or chosen by the Applicant, in either of which case the differential cost of underground shall be borne by the Applicant.
- d. If the applicant has complied with the requirements herein and has given

RULES AND REGULATIONS

the Cooperative not less than 120 days' written notice prior to the anticipated date of completion (i.e., ready for occupancy of the first building) in the subdivision, the Cooperative shall complete the installation 30 days prior to the estimated completion date. (Subject to weather and ground conditions and availability of materials and barring extraordinary or emergency circumstances beyond the reasonable control of the Cooperative.) However, nothing in this policy shall be interpreted to require the Cooperative to extend service to portions of the subdivision not under active development.

e. A non-refundable payment shall be made by the Applicant equal to the difference between the cost of providing underground facilities and that of providing overhead facilities. The payment to be made by the Applicant shall be determined from the total footage of single-phase primary, secondary, and service conductor to be installed at an average per foot cost differential in accordance with the Average Cost Differential filed herewith as Exhibit "A", which Average Cost Differential shall be updated annually as required by order dated February 2, 1973 of the Public Service Commission of Kentucky in Administrative Case No. 146. (Three (3) wire secondary and service conductor runs shall be considered as on conductor, i.e. triplex) The average cost differential per foot, as stated, is representative of construction in soil free of rock, shale, or other impairments which are anticipated or encountered in construction, the actual increased cost of trenching and backfilling shall be borne by the Applicant.

f. The Applicant may be required to deposit the entire estimated cost of the extension. If this is done, the amount deposited in excess of the normal charge for the underground extensions, as provided in paragraph "e" above, shall be refunded to the applicant over a ten (10) year period as provided in Public Service Commission Rule Elec-1-X-3.

g. The Applicant may be required to perform all necessary trenching and backfilling in accordance with the Cooperative's specifications. The Cooperative shall then credit the applicant's cost in an amount equal to the Cooperative's normal cost for trenching and backfilling.

h. The Cooperative shall furnish, install, and maintain the service lateral to the Applicant's meter base (which normally will be at the corner of

RULES AND REGULATIONS

q. In unusual circumstances, when the application of these rules appears impracticable or unjust to either party, or discriminatory to other customers, the Cooperative or Applicant shall refer the matter to the Commission for a special ruling or for the approval of special conditions which may be mutually agreed upon, prior to commencing construction.

4. INSTALLATION OF UNDERGROUND FACILITIES TO INDIVIDUAL SERVICE DELIVERY POINTS

a. Where primary and secondary conductors are involved, the Cooperative shall estimate the cost to provide adequate service both overhead and underground, and the Applicant shall pay such difference in cost as a non-refundable contribution prior to the commencement of such construction. Where an indeterminate consumer is the Applicant, the Cooperative may require an advance deposit in addition to the contribution and which deposit shall be returned to the Applicant as provided in the Indeterminate Extension Policy and in accordance with Kentucky PSC Rules governing such construction deposits. All other terms and conditions set forth in Section "E", 1, 2 and 3 which are not in conflict with this Section "E", 4, shall also apply.

b. Where only secondary conductors are involved, the Cooperative shall install underground conductors as follows:

1. The Cooperative will trench and backfill and install the secondary conductor, the Applicant shall pay one dollar and fifty-four cents (\$1.54) per underground cable foot (pole to meter) prior to the commencement of such construction.

5. CHANGE FROM OVERHEAD TO UNDERGROUND FACILITIES

Where an existing customer requests underground facilities and is presently being served with adequate overhead facilities, then the entire cost of such change shall be borne by the Applicant as a non-refundable contribution prior to the commencement of such construction. The cost includes:

a. Labor, material, and overhead charges for the new installation. \$2.69 per underground cable foot. (Service only, pole to meter)

All other terms and conditions set forth in Sections "E", 1, 2 and 3 not in conflict with this section shall also apply.

Fees:

1. Time of Payment:

- a. New Service-Inspection fee shall be paid with application for service or at the time of issuance of meter gase.
- b. Additional wiring-Inspection fee shall be paid at the time of consumer's report to the Cooperative of the proposed addition.

2. Residential and Farm:

- a. 100-amp, or less, service complete with branch circuits \$ 8.00
- b. 200-amp service complete with branch circuits 12.00
- c. 400-amp service complete with branch circuits 15.00
- d. Services above 400-amp will be 10¢ per amp
- e. Additional wiring which does not require change in service entrance equipment 5.00

If it is necessary to change out service entrance equipment the schedule above shall apply.

In determining the fee for an installation involving a meter pole, the meter pole loop shall govern the inspection fee. (Initial installation only.)

3. Re-inspection:

- a. Re-inspection fee of wiring installations previously turned down will be \$5.00.

Waiving of Inspection. Cooperative inspection requirements for the following will be waived:

- 1. Any wiring installation coming under the jurisdiction of the Fire Marshall's office. The Cooperative requires certification from the Fire Marshall's office that the job has passed inspection before it will be connected permanently.
- 2. An industrial installation wired under supervision of a licensed engineer.

The above rate is net, the gross rate being five percent (5%) higher. In the event current monthly bill is not paid within fifteen (15) days from date of the bill, the gross rate shall apply. If delinquent, accounts are subject to a \$5.00 charge each for collection, disconnect and reconnect fees.

FUEL ADJUSTMENT CHARGE

In case for any month the rate under which Seller (Henderson-Union Rural Electric Cooperative Corporation) purchases power at wholesale from its supplier (Big Rivers Electric Corporation) is adjusted in accordance with any present or future fuel cost or surcharge provided for in Seller's wholesale power contract or by order of the Energy Regulatory Commission, then the foregoing monthly energy charges shall be adjusted for each kilowatt hour sold by dividing the total dollar amount of such fuel and surcharge cost adjustment to Seller attributable to each class of service by the total number of kilowatt hours sold by Seller for such class of service for the billing month.

(The above Fuel Cost Adjustment Clause is subject to the provisions of and may be amended from time to time to conform to 807 KAR 50:075 and to any adjustment in the fuel clause or other increments which may be made in Big Rivers Electric Corporation's Fuel charges under 807 KAR 50:075 by the Energy Regulatory Commission).

Such adjustments will be made by increasing the measured demand 1% for each 1% by which the average power factor is less than 90% lagging.

MINIMUM ANNUAL CHARGE FOR SEASON SERVICE

Consumers requiring service only during certain seasons not exceeding nine (9) months per year may guarantee a minimum annual charge, in which case there shall be no minimum monthly charge. The minimum annual charge shall be sufficient to assure adequate compensation for the facilities installed to serve the consumer, and in no event shall it be less than twelve times the minimum monthly charge determined in accordance with the foregoing paragraph.

CLASSIFICATION OF SERVICE
SCHEDULE "B-3" - Continued

TEMPORARY SERVICE

Temporary service such as service to construction jobs, fairs and carnivals shall be supplied in accordance with the foregoing rate except that the consumer shall pay in addition to the foregoing charges the total cost of connecting and disconnecting service less the value of materials returned.

TERMS OF PAYMENT

Delinquent accounts are subject to a collection fee of \$5.00 or disconnection of service. The above rates are net, the gross rates being five percent (5%) higher. In the event the current monthly bill is not paid within 15 days from date of bill, the gross rates shall apply.

FUEL COST ADJUSTMENT CHARGE

In case for any month the rate under which Seller (Henderson-Union Rural Electric Cooperative Corporation) purchased power at wholesale from its supplier (Big Rivers Electric Corporation) is adjusted in accordance with any present or future fuel cost or surcharge provided for in Seller's wholesale power contract or by order of the Public Service Commission, then the foregoing monthly energy charges shall be adjusted for each kilowatt hour sold by dividing the total dollar amount of such fuel and surcharge cost adjustment to Seller attributable to each class of service by the total number of kilowatt hours sold by Seller for such class of service for the billing month.

C1-80

(N)

(The above Fuel Cost Adjustment Charge is subject to the provisions of and may be amended from time to time to conform to 807 KAR 2:055 and to any adjustment in the fuel clause or other increments which may be made in Big Rivers Electric Corporation's Fuel charges under 807 KAR 2:055 by the Public Service Commission.)

SCHEDULE "LP-1" - LARGE POWER SERVICE

AVAILABILITY

Available to power consumers of the Cooperative located on or near its three-phase lines. Service under this schedule is not available to seasonal consumers unless otherwise provided for.

CONDITIONS

1. An "Agreement for Purchase of Power" shall be signed by the consumer for service under this schedule.
2. The consumer shall have an annual monthly average in excess of 350 Kilowatts (k.w.'s) when construction of consumer's facilities to such service is completed.

0.1-80

RATE

Demand Charge:

\$1.56 per month per kw of billing demand.

Plus Energy Charges of

First	100 hours use of maximum KW demand per month..	\$.0419	per KWH
Next	100 hours use of maximum KW demand per month..	\$.0305	per KWH
All over	200 hours use of maximum KW demand per month..	\$.0247	per KWH

(I)

School taxes added to bill if applicable.
 Utility taxes added to bill if applicable.
 Kentucky Sales tax added to bill.

DETERMINATION OF MAXIMUM DEMAND

The maximum demand shall be the maximum average kilowatt load used by the consumer for any period of fifteen (15) consecutive minutes during the month for which the bill is rendered as indicated or recorded by a maximum demand meter installed by the Cooperative.

DATE OF ISSUE October 27, 1978 DATE EFFECTIVE November 1, 1978

SCHEDULE "LP-1" - Continued

POWER FACTOR

The consumer agrees to maintain a power factor of 80% at the time of his monthly maximum demand. The Cooperative reserves the right to measure such power factor of the consumer at any time. Should such measurements indicate that the power factor of the consumer at the time of his maximum demand is less than 80% the consumer agrees, upon sixty (60) days' written notice to correct such power factor to 80%.

MINIMUM MONTHLY CHARGE

The minimum monthly charge under the above rate shall be \$1.00 per horsepower of fraction thereof per month for the first ten (10) horsepower of the connected load and 75¢ per horsepower or fraction thereof per month for all connected load in excess of the ten (10) horsepower. But in no case shall the minimum charge be less than \$25.00 per month.

e 1-80

TYPE OF SERVICE

Three-phase, at standard secondary voltage.

CONDITIONS OF SERVICE

1. Motors having a rated capacity in excess of five horsepower (5 h.p.) must be three phase.
2. Consumers may connect incidental lighting to power circuits from the power meter; provided, that the connected load and kilowatt-hour consumption of this incidental lighting shall not exceed 15% of the connected power load and kilowatt-hour consumption. Any transformer or regulation equipment which may be required for such lighting shall be furnished by the consumer.
3. All wiring, pole lines, wires, and other electrical equipment beyond the metering point, exclusive of the service transformers and protective equipment, is considered the distribution system of the consumer and shall be furnished and maintained by the consumer.

TERMS OF PAYMENT

All of the above rates are net, the gross rates being five percent (5%) higher. In the event the current monthly bill is not paid within fifteen (15) days from the date of the bill the gross rate shall apply. Delinquent accounts are subject to a collection fee of \$5.00 or disconnection of service.

FUEL COST ADJUSTMENT CHARGE

In case for any month the rate under which Seller (Henderson-Union Rural Electric Cooperative Corporation) purchased power at wholesale from its supplier (Big Rivers Electric Corporation) is adjusted in accordance with any present or future fuel cost or surcharge provided for in Seller's wholesale power contract or by order of the Public Service Commission, then the foregoing monthly energy charges shall be adjusted for each kilowatt hour sold by dividing the total dollar amount of such fuel and surcharge cost adjustment to Seller attributable to each class of service by the total number of kilowatt hours sold by Seller for such class of service for the billing month.

(The above Fuel Cost Adjustment Charge is subject to the provisions of and may be amended from time to time to conform to 807 KAR 2:055 and to any adjustment in the fuel clause or other increments which may be made in Big Rivers Electric Corporation's fuel charges under 807 KAR 2:055 by the Public Service Commission.)

SCHEDULE "SL" - STREET LIGHTING SERVICE

APPLICABILITY

Applicable to towns and villages for street lighting.

C180

BASE LIGHT PER LIGHT PER YEAR

For dusk to dawn lighting with lights mounted on existing wooden poles with bracket attachments and connected to existing overhead secondary circuits.

- \$2.70 per lamp per month, not to exceed 200 watts
- \$5.11 per lamp per month, not to exceed 400 watts

(I)

ADDED CHARGES

For wooden poles required for street lights in addition to existing distribution line poles, a charge of \$3.00 per pole per year shall apply.

CONDITIONS OF SERVICE

1. Street lighting equipment including lamps, fixtures, control and the necessary street-lighting circuits, transformers, and additional guys and fittings will be furnished and maintained by the Cooperative.
2. Lamp replacements will be made by the Cooperative without additional charge, except that any damage to lamps and luminaires resulting from vandalism shall be charged to consumer at cost as a separate item on the monthly bill for service. Outages should be promptly reported.
3. Service will be furnished for future additional lamps connected to existing overhead secondary circuits in accordance with the above changes.
4. This schedule applies to either multiple or series street lighting circuits. The consumer will determine the type of circuit.
