General Power Rate Schedule C-2 (Continued)

RATE
PER UNIT

Contract Requirement

Distributor may require contracts for all service provided under this schedule. Customers whose demand exceeds 50 kilowatts will be required to execute contracts for an initial term of at least one year. If the customer requires in excess of 5,000 kilowatts, the contract shall be for an initial term of at least five years, and any renewal or extension of the initial contract shall also be for a term of at least five years. The customer shall contract for his maximum requirements and Distributor shall not be obligated to furnish power in greater amount at any time than the customer's contract demand. The contract with any customer may provide for minimum charges higher than those stated above. If the customer uses any power other than that supplied by Distributor under this rate, the contract may include other special provisions. The rate schedule in any power contract will be subject to modification at any time upon agreement by Distributor and TVA.

Surcharge

Bills, including minimum bills and bills for seasonal service but excluding any rental charges for facilities, are subject to Distributor's surcharge. The surcharge will be based on a straight percentage of the bill computed after any adjustments are applied.

Cap

Determination of Demand

Distributor will measure the demands in kilowatts of all customers having loads in excess of 50 kilowatts. The demand for any month shall be the highest average load measured in kilowatts during any 30 consecutive minute period of the month. However, if 85 percent of the highest average kva measured during any 30 consecutive minute period for any load of 5,000 kva or less (or 85 percent of the first 5,000 kva plus 95 percent of the remainder of any load over 5,000 kva) is higher than the kw demand, such amount will be used as the billing demand.

RATE
PER UNIT

PART B--RATES FOR OUTDOOR LIGHTING TO INDIVIDUAL CUSTOMERS

Rate Per Fixture

Base
Monthly
Charge

<u>Type of Fixture</u>	<u>Lamp Size</u>	
Incandescent, open or enclosed globe	Up to 200 Watts	\$1.75
Incandescent, open or enclosed globe	200 to 350 Watts	2.00
Mercury	100 to 200 Watts	2.50
Mercury	200 to 450 Watts	3.50
Mercury	450 to 1,200 Watts	7.00

The above charges in this Part B are limited to service from a standard street lighting fixture installed on a pole already in place. The fixture shall be photoelectrically controlled singly or as part of a group. If the customer wishes the fixture at a location other than on a pole already in place, Distributor may apply a monthly charge not to exceed 50 cents per pole for additional poles required to serve the fixture from Distributor's nearest available source. Distributor may adjust the above base monthly charges up or down by an amount not to exceed 50 cents. The foregoing rate is subject to revision on July 1 of each year based on changes in costs of providing service under this rate.

When so authorized by policy duly adopted by Distributor's governing board, special outdoor lighting installations may be provided, owned, and maintained by and at the expense of Distributor's electric system. Distributor may require reimbursement from the customer for a portion of the initial cost of such installation and shall require payment by the customer of monthly charges sufficient to cover all of Distributor's costs, including appropriate overheads, of providing, operating, and maintaining such installations.
