CLASSIFICATION OF SERVICE

RATE PER UNIT

GENERAL LIGHTING AND POWER RATE--SCHEDULE BG
Revision Effective July 1, 1956

Availability

Available to commercial, industrial, governmental and other customers whose requirements are limited to firm power except those to whom service is available under the Residential or Street Lighting Schedules.

Character of Service

Alternating current, single or three-phase, 60 cycles. Power sold under A and B below will be delivered at a voltage available in the vicinity or agreed to by Distributor. Power sold under C below will be delivered at transmission voltage (44 kv or above) or, if such transmission voltage is not available, at the highest voltage available in the vicinity, unless at the customer's request a lower standard voltage is agreed upon.

Rate

A. If the customer's demand for the month is less than 50 kilowatts:

Demand Charge:

First 10 kilowatts of demand per month, no demand charge
Excess over 10 kilowatts of demand per month, at \$1.00 per kilowatt

Energy Charge:

First 150 kilowatt-hours per month at 3.0 cents per kwh
Next 350 " " " " " 2.0 " " "
Next 1250 " " " " " 1.0 cent " "
Next 13250 " " " " " 0.8 " " "
Additional energy 0.6 " " "

B. If the customer's demand for the month is at least 50 kilowatts but not more than 5,000 kilowatts and if the customer's contract demand is 5,000 kilowatts or less:

Demand Charge: \$1.00 per month per kilowatt of demand

Energy Charge:

First 15,000 kilowatt-hours per month at 0.8 cent per kwh

	Additional energy	0.275 " " "

C. If the customer's demand for the month or contract demand is greater than 5,000 kilowatts:

Demand Charge: \$1.00 per month per kilowatt of demand within the customer's contract demand

\$2.00 per month per kilowatt of demand in excess of the customer's contract demand

Facilities Rental: In the event power is delivered at a normal voltage lower than 44 kv, a rental of 7.5¢ per month per kilowatt of the customer's contract demand will be charged

Energy Charge: 2.75 mills per kilowatt-hour

2-15-62 Amortization

Amortization Charge: 1¢ per kwh consumed per month with a minimum of 25¢ and a maximum of \$1.00.

Fuel Cost Adjustment

The rate for the final block of the energy charge in B and C above will be increased or decreased by 0.01 mill per kwh for each full 0.1 cent or major fraction thereof that the average cost per million Btu of all coal received by TVA at its steam plants during the last the last six months ending with June or December exceeds 19 cents or is less than 17 cents, respectively.

Minimum Bill

The minimum monthly bill under A and B above shall in no case be less than \$1.00 plus \$0.50 per kilowatt for the excess over 10 kilowatts of the highest demand during the preceding 12 months. Under C above, the minimum monthly bill for demand and energy shall in no case be

less than \$1.20 per kilowatt of the contract demand or any higher demand established during the preceding 12 months.

Seasonal Service

Customers who contract for service on a seasonal basis shall be limited to 1,500 kw and shall pay the above rates plus 10 percent of the bill computed before adjusting for coal costs. For such customers the "Minimum Monthly Bill" provided above shall not apply. Instead, such customers shall pay a minimum monthly bill of \$5.00 so long as service is cut in, shall pay a minimum annual bill which shall in no case be less than \$6.00 per kilowatt of the maximum demand established, and shall pay in addition the actual cost of cut-ins and cut-outs in excess of one of each per year.

Contract Requirement

Customers whose demand exceeds 20 kilowatts will be required to execute contracts for an initial term of at least one year. If the customer requires in excess of 5,000 kilowatts, the contract shall be for an initial term of at least five years. If the customer requires in excess of 15,000 kilowatts, any renewal or extension of the initial contract shall also be for a term of at least five years. The customer shall contract for his maximum requirements and distributor shall not be obligated to furnish power in greater amount at any time than the customer's contract demand. The contract with any customer may provide for minimum charges higher than those stated above. If the customer uses any power other than that supplied by Distributor under this rate, the contract may include other special provisions. The rate schedule in any power contract will be subject to modification at any time upon agreement by Distributor and TVA.

Surcharge

Bills, including minimum bills and bills for seasonal service but excluding any rental charges for facilities, are subject to Distributor's surcharge. The surcharge will be based on a straight percentage of the bill computed before adjusting for coal costs.

Determination of Demand

Distributor will measure the demands in kilowatts of all customers having a connected load in excess of 10 kilowatts. The demand for any month shall be the highest average load measured in kilowatts during any 30 consecutive minute period of the month. However, if

85 percent of the highest average kva measured during any 30 consecutive minute period for any load of 5,000 kva or less (or 85 percent of the first 5,000 kva plus 95 percent of the remainder of any load over 5,000 kva) is higher than the kw demand, such amount will be used as the billing demand.

Payment

Above rates, including surcharge, are net. In the event that any bill is not paid within 10 days from date of bill, there shall be added to the bill an amount equal to 10 percent on the first \$250.00 of the bill plus one percent on any portion of the bill exceeding \$250.00. To any amount remaining unpaid 30 days after the date of the bill, there shall be added a penalty of one percent, and an additional one percent shall be added at the end of each successive 30 day period until the amount is paid in full.

Single-Point Delivery

The above rates are based upon the supply of service through a single delivery and metering point, and at a single voltage. Separate supply for the same customer at other points or at different voltage shall be separately metered and billed.

Service is subject to Rules and Regulations of Distributor.
