FOR CHANGES IN WHOLESALE COST OF NATURAL GAS

(4) A forecast showing the estimated gas purchases from all of the utilities contract suppliers for the next twelve months period together with an estimate of the cost thereof.

(5) Such other information as this Commission may request for a proper determination of the purchased gas adjustment.

Upon receipt of this information this Commission will review the effect of the revised base rate on the operations of the Applicant (Western Kentucky Gas Company) and will prior to the effective date of the revised base rate, but not less than thirty days from the date of the filing of the above prescribed information, issue its Order setting out the purchased gas adjustment that the utility shall apply to its rates and/or such refunds as may be proper.

The maximum amount of the adjustment so prescribed shall not produce revenue adjustments based upon the actual preceding twelve months period, greater than the difference between the purchased gas billed at the then existing rate and the purchased gas billed at the revised rate.

6. DETERMINATION OF BASE LOAD AND EXCESS GAS:

The BASE LOAD for any billing month shall be the smaller of the following:

- (a) The amount of gas delivered in the month.
- (b) The number of days in the month for such billing month multiplied by the average daily delivery during the preceding base load period of June, July, August and September.

For new customers where service is initiated after June 1 of any year, the Company shall have the right to estimate the base load until an actual base load is established. Such estimate shall consider connected load and hours of use.

The EXCESS GAS for such billing month shall be the remainder, if any, after deducting the base load Mcf from the total delivery for such month. During any billing month where customer complied fully with any partial or complete curtailment order of the Company, or where gas is used for processing only with 100% standby available and customer is subject to immediate interruption without advance notice, no gas shall be billed at the excess gas price.

7. CHARACTER OF SERVICE:

Natural gas having approximately 1,000 Btu content per cubic foot.

Gas sold under this rate schedule shall be subject to curtailment or complete interruption when gas is needed to safeguard service to customers under the Company's General Service Rate 1, or for other justified reasons, at the discretion of the Company, in accordance with the provisions of the contract.

FOR CHANGES IN WHOLESALE COST OF NATURAL GAS

Applicable to:

Gas Tariffs "General Service Rate 1", "General Service Rate 1(a)", "Seasonal Service Rate 2" and "Large Volume Rate 3" in effect for the service area of the Company as designated in the particular tariff.

Purchased Gas Adjustment Clause:

(Conformed excerpt from an Order issued by the Kentucky Public Service Commission on October 24, 1957, in Case No. 3267)

The rates authorized herein (Case No. 3267 - October 24, 1957) are based upon the wholesale cost of gas to the Applicant (Western Kentucky Gas Company) as computed upon rates of its wholesale suppliers then currently in effect under Federal Power Commission tariffs for interstate business or under wholesale tariffs of this Commission. For the purpose of this Purchased Gas Adjustment Clause, these rates shall be considered as the base rate for purchased gas. In the event there is any change in this base rate, either increase or decrease, the Applicant (Western Kentucky Gas Company) shall within thirty days from the time it receives notice of the proposed change file with this Commission the following information:

- (1) A copy of the Federal Power Commission tariff effecting the change in the base rates and a statement relative to the effective date of such proposed change.
- (2) A statement setting out the details of gas purchased under the provisions of the base rate for the previous twelve months showing billing under the base rate and under the proposed revised rate applicable to this service.

CLASSIFICATION OF SERVICE

RULES AND REGULATIONS GOVERNING NATURAL GAS SERVICE

Special Provision for unmetered Gas Lighting
(Add to Section 10)

On gas light installations, as approved by the Company, when used for outdoor lighting and the gas used in such installations is unmetered, monthly gas consumption will be calculated to be 2,000 cu. ft. per month per mantle for upright mantles - - and for each pair of inverted mantles.

On special models of gas lights (basically open flame), where gas consumption is greater than those referred to above, the company shall estimate the monthly consumption to the closest 100 cu. ft. and bill customers that equal amount each month.

Such consumption shall be billed under the appropriate rate applicable to the customer.
