Re: Voluntary Certification Withdrawal by Comtel Telcom Assets LP d/b/a Excel Telecommunications, VarTec Telecom, Clear Choice Communications and VarTec Solutions and Notice of Asset Sale Closing

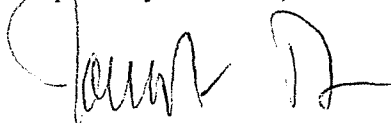

Dear Mr. Derouen:

Comtel Telcom Assets LP d/b/a Excel Telecommunications, VarTec Telecom, Clear Choice Communications and VarTec Solutions ("Comtel") hereby voluntarily withdraws its operating authorities to provide local exchange and interexchange telecommunications services within your state. By way of background for this request, Comtel entered into an asset purchase agreement ("APA") with Matrix Telecom, Inc. ("Matrix") to sell substantially all of its assets, including customers, to Matrix. The purchase and sale was ultimately consummated on July 31, 2010.

Following the consummation of the purchase and sale, Comtel no longer has an employee base, customers or other telecommunications operations in any jurisdiction. The existing customers and the associated operations were transferred to Matrix which has now stepped into Comtel's shoes to allow for a seamless transition as far as the end-user customers are concerned. All of the affected customers have been provided notice in compliance with the rules of this Commission and Federal Communications Commission, and where required, the parties have obtained the approvals of the Federal Communications Commission and State Commissions. Without impacting Matrix's operating authority, customers and/or ongoing operations, Comtel respectfully requests that your office take any steps necessary to immediately withdraw any remaining operating authority and tariffs/price lists on file for corporate entities of Comtel. As previously referenced, Matrix is now serving the customers acquired from Comtel.

Comtel sincerely appreciates your service and assistance over the years and now seek your prompt attention to this necessary request. Please direct any inquiries regarding the ongoing operations of Matrix to Leslie Ellis at [leslie.ellis@excel.com](mailto:leslie.ellis@excel.com) or at (972) 910-1411. Acknowledgment and date of receipt of this filing are respectfully requested. Please date and file stamp the attached copy of this correspondence and return it in the enclosed pre-addressed, postage- prepaid envelope.

Respectfully submitted,

Jonathan Dennis  
Senior Vice President, General Counsel, and  
Secretary

1.0 DEFINITIONS

1.1 Definitions of Terms

Access Line - One of several types of circuits used to carry long distance calls all or part way between customer premises and long distance company switches. When calls are originated or received over customers' regular local lines or over customers' special WATS Access Lines, long distance companies buy Feature Group access lines to carry calls between their switch or POP and the local telephone company switch. Customers may originate or receive calls over special dedicated access lines directly from the customer premises to the long distance company's POP.

Accounting Code - A number, usually two, three, or four digits, entered when dialing a telephone call that tells a long distance company to allocate and subtotal the call to a particular subaccount. Calls are listed and summarized by account code on Customers' monthly bill.

Answer Supervision - An electrical signal fed back up the line by the local telephone company at the distant end of a long distance call to indicate positively that the call has been answered by the called telephone. Activates the billing equipment to start timing calls completed over FGB or FGD access trunks at the distant end.

Authorization Code - A number, usually ten or fourteen digits, entered using a tone telephone to identify the caller as a customer of the long distance service. Used primarily to verify the caller as a customer and to bill calls.

Automated Calling Card Call - A service whereby the Customer dials all of the digits necessary to route and bill the call.

Calling Card - A billing convenience whereby the Customer may originate calls from any tone telephone. The Customer dials an toll-free "800" number and an authorization code followed by the terminating telephone number. In cases of LEC billing, the terms and conditions of the local telephone company will apply to payment arrangements.

Service is available twenty-four (24) hours per day, seven (7) days a week, subject to routine maintenance and outages beyond the control of the Carrier. Carrier's switching equipment is designed and engineered to provide high quality transmission of voice and data with a minimum level of impairment such as noise and echo. Any ANI disconnected and then reconnected from the Company's service for purposes of subscribing to the special promotion may not be eligible. Such special terms and conditions will be in lieu of those terms, conditions, rates and charges outlined in Sections 3 and 4 of this Tariff. The Company will notify the Commission of special promotional offerings in accordance with the rules and regulations established by the Commission.

The one cent (\$.01) calls can be up to ten (10) minutes in duration and can be made anywhere within the continental U.S. (excluding Alaska and Hawaii). The one cent (\$.01) call will automatically be assessed by Company's billing system on the first long distance call that meets the above-noted conditions and is subsequent to the required ten (10) long distance calls made by the Customer.

The one (1) penny call is always in multiples of eleven (i.e., 11, 22, 33, 44, etc.). For example, if a Customer makes twenty-five (25) U.S. long distance calls, the Customer will be entitled to a one cent (\$.01) call on both the eleventh (11) and twenty-second (22) calls. If either one of those calls exceeds ten (10) minutes or is made to a party outside the U.S., then the very next call that satisfies these conditions, regardless of its numerical standing, will be billed one cent (\$.01). 4.8.4 Minimum Usage Fee

Customers of any and all services described in Section 3 will be assessed a Minimum Usage Fee, per account, in each billing cycle in which their qualifying VarTec charges do not meet the minimum usage amount for their bill type. 5.0 DESCRIPTION OF CLEAR CHOICE COMMUNICATIONS® SERVICES

5.1 General

The Carrier endeavors to provide high quality service. Service is available twenty-four (24) hours per day, seven (7) days a week, subject to routine maintenance and outages beyond the control of the Carrier. Carrier's switching equipment is designed and engineered to provide high quality transmission of voice and data with a minimum level of impairment such as noise and echo. However, overall quality may vary somewhat due to the variability in quality of the connections provided by the local telephone companies and other interexchange carriers.

5.1.1. Special Promotions

The Carrier may from time to time engage in special promotional service offerings which may be limited to certain dates, times and/or locations. These promotions are designed to attract new customers and/or increase customer awareness of particular service offerings. Customers must subscribe to specific promotions within the given time period as stated in the promotional offer. Any ANI disconnected and then reconnected from the Company's service for purposes of subscribing to the special promotion may not be eligible. After the initial subscription to a promotion, if no outbound usage is generated by an ANI within the specified time period as stated in the promotional offering, the customer may not receive benefits from the promotion. The promotions may contain special terms and conditions, including but not limited to, usage rates and charges. Such special terms and conditions will be in lieu of those terms, conditions, rates and charges outlined in Sections 5 and 6 of this Tariff. The Company will notify the Commission of special promotional offerings in accordance with the rules and regulations established by the Commission.

5.2 Timing of Calls

- (A) Long distance usage charges are based on the actual conversation time transpiring on CCC's network. No charge will generally apply to uncompleted calls, which include "ring busy" and "ring no answer calls," and such uncompleted calls will not be knowingly charged to the Customer and, if charged in error, will be refundable to the Customer. In the event that the Customer fails to hang up when receiving a busy signal or "ring no answer call" for an excessive period of time, however, the Customer may be charged as if the call were completed. CCC will determine that a call has been established by signal, where available, from the local telephone company or underlying carrier.
- (B) Unless otherwise specified in this tariff, the minimum call duration for billing purposes is one (1) minute for a connected call.
- (C) Unless otherwise specified in this tariff, usage is measured and rounded to the higher full minute for billing purposes.
- (D) When answer supervision is unavailable and CCC has received a reasonable claim from the End User for a refund of CCC's charges for an uncompleted call, CCC will reimburse the End User for the charges that CCC has billed for that call.

Step 1 - Obtain the "V" and "H" coordinates for the Rate Centers of the origination point and the destination point.

Step 2 - Obtain the difference between the "V" coordinates of each of the Rate Centers. Obtain the difference between the "H" coordinates.

Step 3 - Square the differences obtained in Step 2.

6.8.1 Payphone Use Charge

A \$0.60 per call charge is applicable to calls that originate from any payphone within Kentucky and access CCC's services via an 800 number (e.g., Basic Travel Card or Basic 800 Select calls). 6.8.2 Late Payment Fee

The late payment charge shall be the portion of the payment not received two business days prior to the next billing cycle, multiplied by 1.5%. For unpaid balances of \$10.00 or more, a minimum late payment charge of \$5.00 shall apply.

6.8.3 Minimum Usage Fee

Customers of any and all services described in Section 5 will be assessed a Minimum Usage Fee, per account, in each billing cycle in which their qualifying Clear Choice Communications charges do not meet the minimum usage amount for their bill type. The Minimum Usage Fee is the difference between the minimum usage amount (i.e., \$7.50 or \$10.00 based on bill type) and the Customer's qualifying charges in a billing cycle. Customers billed directly by CCC will be assessed a Minimum Usage Fee if their qualifying charges total less than \$10.00 in a billing cycle. Customers billed through their local telephone company will be assessed a Minimum Usage Fee if their qualifying charges total less than \$7.50 in a billing cycle. The Minimum Usage Fee will not apply to customer accounts with no call usage in a given billing cycle when the account is assigned to a rate plan without a monthly fee or to one with only a monthly access fee, a fee which is billed only if the customer has used the service during the billing cycle.

(I)

(I)

Qualifying charges to be applied toward calculating the monthly usage minimum will be derived only from the following CCC charges: all long distance, calling card, toll free, operator assisted and directory assistance usage charges, Carrier Cost Recovery Fee as well as any monthly access fees or monthly recurring charges associated with the customer's rate plan.
