BEFORE THE PUBLIC SERVICE COMMISSION

In the Matter of:

INVESTIGATION OF THE FAILURE)
OF CERTAIN NON-DOMINANT)
TELECOMMUNICATIONS PROVIDERS) CASE NO. 2017-00034
TO FILE REPORTS REQUIRED)
PURSUANT TO KRS 278.140)

ORDER

On February 21, 2017, the Commission ordered non-dominant telecommunications providers who are registered to provide service in Kentucky and whose names and last-known addresses appear in an appendix to that Order to show cause within 30 days of the date of the Order why their authority to operate in this Commonwealth should not be revoked for failure to comply with KRS 278.140. The Order, which arose from the companies' failure to file a report of the gross earnings or receipts derived from intra-state business, notified the companies that, in the absence of a timely response to the Order, each carrier's authorization to provide service in Kentucky would be revoked, its tariff, if it maintained one on file with the Commission, would be removed from the Commission's files, and its name would be stricken from the Commission's list of active utilities.

Since the Order was issued, the companies listed in Appendix A to this Order have either responded and satisfied the Commission that they should not be penalized as set forth in the Order, or they have filed their delinquent reports. The 30-day period has now expired and, in accordance the terms of the February 21, 2017 Order, the remaining

SECTION 3 - DESCRIPTION OF SERVICE (cont.)

3.3 Computation of Distance

3.3.1 Usage charges for mileage sensitive products are based on airline distance between rate centers associated with the originating and terminating points of the call.

3.3.2 Airline mileage is obtained by using the "V" and "H" coordinates assigned to each point. To determine the airline distance between any two cities, the airline mileage is determined as follows:

- Step 1 Obtain the "V" and "H" coordinates for each city.
- Step 2 Obtain the difference between the "V" coordinates of each of the cities. Obtain the difference between the "H" coordinates.
- Step 3 Square each difference obtained in step 2, above.
- Step 4 Add the square of the "V" difference and the "H" difference obtained in step 3, above.
- Step 5 Divide the number obtained in step 4 by 10. Round to the next higher whole number if any fraction is obtained.
- Step 6 Obtain the square root of the whole number obtained in step 5 above. Round to the next higher whole number if any fraction is obtained. This is the airline mileage.

$$\sqrt{\frac{\text{Formula: } (V_1 - V_2)^2 + (H_1 - H_2)^2}{10}}$$

3.4.2 Depending upon the service option chosen by the Customer, the charges for the use of such domestic Intrastate communications facilities may be based upon the time of day, the total minutes of use and/or the distance of each call.

3.4.3 All Customers shall be charged the rates identified in Section 4 for Business Customers.

3.5 Calling Card Service

3.5.1 Calling Card Service permits Customers which have arranged for a Company-issued calling card to make calling card calls throughout the domestic United States through the use of a specific "1-800" telephone number provided by the Company. See Section 4 herein for rates.

3.6 Operator Service

3.6.1 Operator Assisted calls consist of Collect Calls, Third Party Calls, Calling Card Calls, Room Charge Calls and Person to Person Calls.
