Re: Capsule Communications, Inc.
Voluntary Withdrawal of Authority to Operate as a Reseller of Telecommunications
Services within the Commonwealth of Kentucky

Dear Sir/Madam:

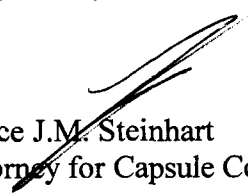

On behalf of the company, I hereby respectfully request to cancel Capsule Communications, Inc.'s (Capsule) Authority to Operate as a Reseller of Telecommunications Services within the Commonwealth of Kentucky.

This request is based upon Capsule's determination that it no longer intends to provide telecommunications services in the State of Kentucky. Based upon the fact that Capsule currently has no customers, Capsule asserts that the voluntary discontinuance of its certification will have no adverse impact upon consumers.

I have also enclosed an extra copy of this letter to be date stamped and returned to me in the enclosed, self-addressed, postage prepaid envelope.

If you have any questions or if I may provide you with any additional information, please do not hesitate to call me.

Respectfully submitted,

Lance J.M. Steinhart
Attorney for Capsule Communications, Inc.

TARIFF FORMAT

- A. Page Numbering** - Sheet numbers appear in the upper right corner of the page. Sheets are numbered sequentially. However, new sheets are occasionally added to the tariff. When a new sheet is added between sheets already in effect, a decimal is added. For example, a new sheet added between sheets 14 and 15 would be 14.1.
- B. Page Revision Numbers** - Revision numbers also appear in the upper right corner of each page. These numbers are used to determine the most current sheet version on file with the Commission. For example, the 4th revised Sheet 14 cancels the 3rd revised Sheet 14. Because of various suspension periods, deferrals, etc., the most current sheet number on file with the Commission is not always the tariff page in effect. Consult the Check Sheet for the sheet currently in effect.
- C. Paragraph Numbering Sequence** - There are nine levels of paragraph coding. Each level of coding is subservient to its next higher level:
- 2.
 - 2.1.
 - 2.1.1.
 - 2.1.1.A.
 - 2.1.1.A.1.
 - 2.1.1.A.1.(a).
 - 2.1.1.A.1.(a).I.
 - 2.1.1.A.1.(a).I.(i).
 - 2.1.1.A.1.(a).I.(i).(1).
- D. Check Sheets** - When a tariff filing is made with the Commission, an updated Check Sheet accompanies the tariff filing. The Check Sheet lists the sheets contained in the tariff, with a cross reference to the current revision number. When new pages are added, the Check Sheet is changed to reflect the revision. All revisions made in a given filing are designated by an asterisk (*). There will be no other symbols used on this page if these are the only changes made to it (i.e., the format, etc. remain the same, just revised revision levels on some pages.) The tariff user should refer to the latest Check Sheet to find out if a particular page is the most current on file with the Commission.

A. Pay Telephone Surcharge

In order to recover the Company's expenses to comply with the FCC's pay telephone compensation plan effective on October 7, 1997 (FCC 97-371), an undiscountable per call charge is applicable to all interstate, intrastate and international calls that originate from any domestic pay telephone used to access the Company's services. This surcharge, which is in addition to standard tariffed usage charges and any applicable service charges and surcharges associated with the Company's service, applies for the use of the instrument used to access the Company service and is unrelated to the Company's service accessed from the pay telephone.

Pay telephones include coin-operated and coinless phones owned by local telephone companies, independent companies and other interexchange carriers. The Pay Telephone Surcharge applies to the initial completed call and any reoriginated call (i.e., using the "#" symbol).

Whenever possible, the Pay Telephone Surcharge will appear on the same invoice containing the usage charges for the surcharged call. In cases where proper pay telephone coding digits are not transmitted to the Company prior to completion of a call, the Pay Telephone Surcharge may be billed on a subsequent invoice after the Company has obtained information from a carrier that the originating station is an eligible pay telephone.

The Pay Telephone Surcharge does not apply to calls placed from pay telephones at which the Customer pays for service by inserting coins during the progress of the call.

SECTION 3 - SERVICE DESCRIPTION AND RATES, (CONT'D)
3.4 Calculation of Distance

Usage charges for all mileage-sensitive products are based on the airline distance between serving wire centers associated with the originating and terminating points of the call. The serving wire centers of a call are determined by the area codes and exchanges of the origination and destination points.

The distance between the wire center of the originating location and that of the destination point is calculated by using the vertical ("V") and horizontal ("H") coordinates found in Bellcore's V&H Tape and NECA FCC Tariff No. 4. The following steps describe the procedure for calculating mileage distances:

- Step 1 - Obtain the "V" and "H" coordinates for the wire centers serving the originating and terminating locations.
- Step 2 - Obtain the difference between the "V" coordinates. Obtain the Difference between the "H" coordinates. The difference is always obtained by subtracting the smaller coordinate from the larger coordinate.
- Step 3 - Square the differences obtained in Step 2.
- Step 4 - Add the squares of the "V" difference and "H" difference obtained in Step 3.
- Step 5 - Divide the sum of the square obtained in Step 4 by ten (10). Round to the next higher whole number if any fraction results from the division.
- Step 6 - Obtain the square root of the whole number obtained in Step 5. Round to the next higher whole number if any fraction is obtained. This is the distance between the wire centers.

Formula:

$$\sqrt{\frac{(V_1 - V_2)^2 + (H_1 - H_2)^2}{10}}$$

3.5 Discount Programs

3.5.1 Volume Discount Plan

Services offered by US WATS may be subject to volume discounts. A Customer is assigned a Discount Option based on average monthly usage charges anticipated by the Customer for all services provided by the Company. For new customers, US WATS reserves the right to request copies of past bills in order to verify Customer statements regarding anticipated usage volumes. Usage rates for services subject to volume discounts are reduced by a percentage as shown in the following table based on the Discount Option assigned to the Customer.

Discount Option	Anticipated Intrastate, Interstate and International Charges	Applicable Discount
1	\$50.00 up to \$149.99	5%
2	\$150.00 up to \$249.99	10%
3	\$250.00 up to \$499.99	15%
4	\$500.00 up to \$749.99	20%
5	\$750.00 up to \$999.99	25%
6	\$1000.00 up to \$1499.99	30%
7	\$1500.00 up to \$1999.00	35%
8	\$2000.00 or greater	40%

A re-evaluation of an existing Customer's volume level and applicable Discount Option may result from 1) a written request from the Customer with re-evaluation performed by the Company within sixty days of receipt of request or 2) at the Company's discretion. US WATS reserves the right to periodically audit Customers' usage volumes based on past billing and adjust Customer rates accordingly. Customers not meeting their initial anticipated volume level for a specific service will be given the option of continuing service under another Discount Option or discontinuing the Company's service.

3.5.2 Term Discounts

Customers who agree to use the Company's services may obtain additional discounts by committing to subscribe to service for fixed periods of time. The percentage discount applied to the Customer's bill varies by year during the term period as shown in the following table:

Length of Term	Applicable Discount Percentage		
	1st Year	2nd Year	3rd Year
12 Months	3%	N/A	N/A
24 Months	3%	6%	N/A
36 Months	3%	6%	9%

Term discounts are calculated after any volume discounts have been applied to the customer's usage charges. A credit will be applied to the Customer's bill at the end of each billing period equivalent to a percentage of total service-specific charges based on the preceding table.

Customers who cancel service under a Term Discount Plan prior to the end of the term period are subject to an early termination charge. This charge shall be equal to the Customer's average monthly billing prior to cancellation multiplied by the number of months remaining in the term. The entire termination charge is billed to the Customer in the month immediately following discontinuance of service.

A Customer changing to a Term Discount Plan of greater length than its current plan will not incur an early termination charge for the existing shorter term plan.
