RULES AND REGULATIONS

order setting out the proper refund and/or the revised rates.

.04 Permitted Adjustment.

The maximum amount of the adjustment so prescribed shall not produce revenue adjustments based upon the actual preceding twelve (12) month period greater than the difference between the wholesale electric billed at the then existing base rates and the wholesale electric billed at the proposed or revised rates.

The unit charges as set forth in these rate schedules are predicated on the rates of the company's wholesale electric supplier as authorized by the Federal Energy Regulatory Commission in Case No. WPS-81, dated _____, which shall be the "base supplier rate or existing base rates".

.05 Formula Equation.

On and after the effective date of this rate schedule, if any increase or decrease is made in the rate at which wholesale electric suppliers sell electricity to the utility, the unit charges of the aforesaid rate schedule shall be increased or decreased by a "wholesale electric adjustment" determined as follows:

(a) Electric purchases by the Utility shall be formulated on a monthly basis on the schedule attached hereto as Article V, Exhibit A.

(b) The new supplier wholesale rate shall become the supplier base rate to be used in measuring the effect of any subsequent supplier rate change. Each such subsequent change

RULES AND REGULATIONS

shall be treated in the same manner as set forth above for the establishment of a new wholesale electric adjustment and for the establishment of a new base supplier rate.

.06 Wholesale Electric Refunds. In the event the Utility receives from any wholesale electric supplier a refund of amounts paid to such supplier in respect of a prior period, the Company will apply to the Commission for authority and upon receipt thereof make adjustments on the amounts charged to its customers under this provision, as follows:

(a) The "Refundable Amount" shall be the amount received by the Utility as a refund less the costs of recovery. Such refundable amount shall be divided by the number of KWH's or other unit of measure of electricity that the Company estimates it will sell to its customers during the four (4) month period commencing with the first day of the month following receipt of the refund. This figure shall be the "Refund Factor".

(b) Effective with the meter readings taken on and after the first day of the second month following receipt of the refund, the utility will reduce by the Refund Factor so determined any wholesale electric adjustment that would otherwise be applicable during such period. Provided, however, that the period of reduced wholesale electric adjustment will be adjusted, if necessary, in order to refund as nearly as possible the Refundable Amount.

(c) The utility may apply to the Public Service Commission for the right to depart from the refund procedures herein set forth.
