AVAILABILITY

This rate shall apply for large power consumers contracting for a demand of 501 to 2000 KW.

CONDITIONS OF SERVICE

An "Agreement for Purchase of Power" shall be signed by the consumer for service under this rate.

CHARACTER OF SERVICE

Service shall be the 60 Hz, 3-phase, at voltage as mutually agreed by the seller and consumer.

DETERMINATION OF BILLING DEMAND

For all delivery points, the Billing Demand in kilowatts shall be Member's maximum integrated fifteen-minute demand at such delivery point during each billing month, determined by meters which record at the end of each fifteen-minute period the integrated kilowatt demand during the preceding fifteen minutes, or such maximum integrated fifteen-minute demand achieved during any one of the eleven preceding months, or the Contract Demand, whichever shall be greater.

FUEL ADJUSTMENT CHARGE

In case for any month the rate under which Seller (Henderson-Union Rural Electric Cooperative Corporation) purchases power wholesale from its supplier (Big Rivers Electric Corporation) is adjusted in accordance with any present or future fuel cost or surcharge provided for in Seller's wholesale power contract or by order of the Public Service Commission, then the foregoing monthly energy charges shall be adjusted for each kilowatt hour sold by dividing the total dollar amount of such fuel and surcharge cost adjustment to Seller attributable to each class of service by the total number of kilowatt hours sold by Seller for such class of service for the billing month.

(The above Fuel Adjustment Charge is subject to the provisions of and may be amended from time to time to conform to 807 KAR 5:056 and to any adjustment in the fuel clause or other increments which may be made in Big Rivers Electric Corporation's fuel charges under 807 KAR 5:056 by the Public Service Commission.)

*The monthly kilowatt hour usage shall be subject to plus or minus an adjustment per KWH determined in accordance with the "Fuel Adjustment Clause."

RULES AND REGULATIONS

Henderson-Union RECC will assess a \$5.00 handling fee for any check that is returned to the Cooperative from the consumer's bank for insufficient funds or any reason of nonpayment.

25. METER READING

All meters with demand devices are read by a representative of the Cooperative.

Meter cards are mailed to all other consumers together with the bill, using the one-card system. Upon failure of a consumer to return the meter reading card for three consecutive months the Cooperative shall have its representative read the member's meter and a service charge of \$10.00 will be made for the extra service rendered. The service charge will be made to the member's account and will be due and payable upon notice of said charge. In the event that an error in meter reading should be made then the member shall pay for that month an equal to approximately his average bill. The following month his bill shall be computed on the regular schedule prorated for two months, and the amount paid shall be credited.

26. MONITORING USAGE

The following procedure has been established for monitoring customer usage so as to detect any unusual deviations in individual customer usage and the reasons for such deviations:

The computerized billing system is programmed to automatically alert H-U RECC to any consumer provided meter readings which would cause KWH usage to be significantly higher or lower than usual.

(N)

The criteria employed in the computer program to determine "high" usage is the current month's KWH usage is 200% higher than the prior month's KWH usage.

The criteria employed in the computer program to determine "low" usage is the current month's KWH usage is 50% less than the prior month's KWH usage.
