RULES AND REGULATIONS

1. Application for service:

Each prospective member desiring electric service will be required to sign the Cooperative's form of application for membership, before service is supplied by the Cooperative.

2. Membership Fee:

The applicant will pay to the Cooperative the sum of \$5.00, which, if this application is accepted by the Cooperative, will constitute the applicant's membership fee. If the Cooperative is unable to furnish service to the applicant, the sum of \$5.00 will be returned to the applicant.

3. Deposits:

A deposit or suitable guarantee approximately equal to twice the average monthly bill may be required of any member, with a minimum of \$25.00, before service is supplied if the Cooperative deems it necessary to insure payment for the service it will render. Upon termination of service, deposit may be applied against unpaid bills of the member and if any balance remains after such application is made said balance to be refunded to the member.

4. Monthly bills for service:

The applicant will, when electric energy becomes available and the meter installed, purchase from the Cooperative all electric energy on his premises and will pay therefore monthly at rates which will be fixed by the Board of Directors of the Cooperative.

7. Right of Access:

The Cooperative's identified employees shall have access to members premises at all reasonable times for the purpose of reading meters, testing, repairing, removing or exchanging any or all equipment belonging to the Cooperative.

8. Consumer's responsibility:

The applicant will comply with and be bound by the provisions of the charter and by-laws of the Cooperative, of which he will be a member, and such rules and regulations as may, from time to time, be adopted by the Cooperative. All meters, service connections and other equipment furnished by the Cooperative shall be, and remain, the property of the Cooperative. The member shall exercise proper care to protect the property of the Cooperative on its' premises and in the event of loss or damage to Cooperative's property arising from neglect of member to care for same, the cost of the necessary repairs or replacements shall be paid by the member.

9. Billing:

Bills will be rendered and mailed monthly. All bills shall be paid each month on or before the payment date shown on the bill at the office of the Cooperative or its regular authorized collection agencies. Failure to receive the bill will not release the member from payment obligation. Should bills not be paid as above stated, the Cooperative may, at any time, thereafter, on ten (10) days notice to the member, discontinue service. Bills paid on or before the payment date shall be payable at the net rates but if paid after the payment date, a penalty of 10% will be added to the bill. Should the payment date fall on Sunday or a holiday, the next business day following will be the final day for the next bill. All remittances received by the Cooperative after the payment date will be accepted in net amounts if the incoming envelope bears United States Post-Office date stamp of the payment date or a date prior thereto.

RULES AND REGULATIONS

RECONNECTION CHARGE

The Cooperative will make no charge for connecting service to the member's premises for the initial connection of service. When service has been terminated and the Cooperative is requested to reconnect service to the same member at the same location a \$5.00 (Five Dollars) reconnection fee will be charged. Reconnect charge will be due and payable at the Cooperative's Office upon notice of said charge prior to connection. No reconnection shall be made after the regular working hours unless in the judgement of the management there exists circumstances that will justify the additional expense.

METER TESTS

All new meters shall be checked for accuracy before installation. The Cooperative will, at its own expense, make periodical test and inspections of its meters in order to maintain a high standard of accuracy and to conform with the regulations of the Public Service Commission. The Cooperative will make additional test of meters at the request of the member and upon payment of a fee of \$5.00 (Five Dollars) paid in advance. When the test made at the member's request shows that the meter is accurate within 2% slow or fast, no adjustment will be made to the members bill and the fee paid will be forfeited to cover cost of requested test. When the test shows the meter to be in excess of 2% fast an adjustment shall be made to the members bill by recalculating the monthly bills for a period equal to one-half (1/2) of the time lapsed since the last previous test, but in no case this period exceed three (3) months and the cost of testing the meter found to be inaccurate will be borne by the Cooperative and the \$5.00 (Five Dollars) fee paid by the member will be refunded.

METER READING

Each member receiving service will be required to supply the Cooperative with reading of each meter on the form as furnished by the Cooperative on such date designated by the Cooperative. Upon failure by the member to supply the Cooperative with such meter reading for three (3) consecutive meter reading dates the Cooperative will act by having its representative read the member's meter, and a service charge of \$5.00 (Five Dollars) will be made for the extra service rendered. The service charge will be made to the member's account and will be due and payable upon notice of said charge. In the event that an error in meter reading should be made or member fails to send in meter reading card, the member shall pay for that month either the minimum bill for the service which he receives, or if he should be a larger user, he shall pay an amount approximately equal to his average bill, then the following month his bill shall be computed on the regular schedule prorated for two months and the amount paid shall be credited.

Metering

For any billing month or part of such month in which the energy is not metered or for which a meter reading is found to be in error or a meter is found to have failed, the energy for billing purposes for that billing month or part of such month shall be computed from the rated capacity of the lamps (including ballast) plus 5 percent of such capacity to reflect secondary circuit losses, multiplied by the number of hours of use.

Use-Period For Athletic Field Lighting

Service to athletic field lighting installations under this rate schedule shall not commence earlier than 7 P.M., except that the customer may be permitted to use up to 10 percent (not to exceed 10 kilowatts) of the total installed lighting capacity prior to commencement of such period. In the event the customer fails to restrict service in accordance with these requirements, it shall be billed under the General Power Rate.

Revenue and Cost Review

Distributor's costs of providing service under Part A of this rate schedule are subject to review at any time and from time to time to determine if Distributor's revenues from the charges being applied are sufficient to cover said costs. If any such review discloses that revenues are either less or more than sufficient to cover said costs, Distributor shall revise the above investment charges so that revenues will be sufficient to cover said costs. Any such revision of the annual investment charge provided for first above in Section II of Part A of this rate schedule shall be by agreement between Distributor and TVA.

The amounts applicable for "A" under Energy Charge Per kWh shall be determined for each month by applying data from TVA's actual operations to the following formula. These calculated amounts will be published on or about the 15th. of the month preceding the month of application and will be applicable to bills rendered from meter readings taken for TVA and Distributor monthly billing cycles scheduled to begin on or after the second day of each calendar month beginning July 2, 1977.

$$A = \frac{C(B - 0.750\phi) + F(E - 0.750\phi)}{.95 (D-G)}$$

Where:

A = Amount of increase or decrease in cents per kWh for the month of application for changes in the costs of fuel and of power and energy receipts from other electric power systems.

B = Fuel expense in cents per kWh for net commercial thermal generation for the second preceding month.

C = Total net generation from commercial thermal generating units in kWh for the second preceding month.

D = Total sales of energy in kWh during the second preceding month.

E = Expense in cents per kWh of purchased power and interchange (billed economy and nonreplacement energy) received for the second preceding month.

F = Total amount of purchased power and interchange (billed economy and nonreplacement energy) received for the second preceding month.

G = Total amount of exempt energy sold under Wholesale Power Rate WS during second preceding month.

This appendix may be revised, superseded, or rescinded by any Adjustment Addendum subsequently published by TVA.
