its records exceeded or was less than 1.45 mills, respectively, during the most recently completed fiscal year ending with June. Each adjustment made pursuant to this paragraph shall be effective for 12 consecutive monthly billings beginning with the first bill rendered from meter readings taken after August 1 of the calendar year in which each such fiscal year ends, notwithstanding anything herein which might be construed to the contrary.

*For athletic field lighting, the energy charge is subject to Distributor's applicable surcharge.

II. Investment Charge

The annual investment charge shall be 12 percent of the installed cost to Distributor's electric system of the facilities devoted to the lighting service specified in this Part A. The investment charge will be recomputed on July 1 of each year, or more often if substantial changes are made, and one-twelfth of the total annual charge so computed will be billed to the customer monthly. If any part of the facilities has not been provided at the electric system's expense, the annual investment charge for such part shall be only 6 percent of the installed cost of such part, except that if the installed cost of any portion thereof is reflected on the books of another municipality or agency or department the investment charge for such portion will be 2 percent per annum and retirements and additions thereto will be made by the electric system and charged to such other municipality, agency, or department.

Athletic field lighting installations will be provided, owned, and maintained by and at the expense of the customer, except as Distributor may agree otherwise in accordance with the provisions of the paragraph next following in this Section II. The facilities necessary to provide service to such installations shall be provided by and at the expense of Distributor's electric system, and the annual investment charge provided for first above in this Section II shall apply to the installed cost of such facilities.

When so authorized by policy duly adopted by Distributor's governing board, athletic field lighting installations may be provided, owned, and maintained by and at the expense of Distributor's electric system, Distributor may require reimbursement from the customer for a portion of the initial cost of such installation and shall require payment by the customer of an annual charge sufficient to cover all of Distributor's costs, including appropriate overheads, of providing, operating, and maintaining such installations. Said annual charge shall in no event be less than 12 percent and shall be in addition to the annual investment charge on the facilities necessary to provide service to such installation as provided for in the preceding paragraph. Lamp replacements for athletic field lighting installation provided under this paragraph shall be paid for under the provisions of paragraph A in Section III.

III. Lamp Replacements - Street Lighting, park lighting, and signal systems.

Customer shall be billed and shall pay for replacements as provided in paragraph "A" below, which shall be applied to all service for street lighting, park lighting, and signal systems.

- A. Distributor shall bill the customer monthly for such replacements during each month at Distributor's cost of materials, including appropriate storeroom expense.
- B. One-twelfth of any excess of said material cost over the product of the number of kilowatt-hours used for street lighting during the fiscal year multiplied by 3 mills shall be billed to the customer each month during the following fiscal year.

Metering:

When the energy for street, park, and signal lighting service is metered at more than one point, the readings shall be consolidated for billing purposes. When the energy is not metered and also when a meter reading is found to be in error, the energy for billing purposes shall be computed from the rated capacity of the lamps plus 5 percent for losses, multiplied by the number of hours of use.

Off-Peak Period:

Service to athletic field lighting installation shall be limited to an off-peak period determined by Distributor, commencing no earlier than 7 p.m. The customer may be permitted to use up to 10 percent (not to exceed 10 kilowatts) of the total installed lighting capacity prior to commencement of the off-peak period, such use to be considered off-peak for billing purposes. In the event the customer fails to restrict service in accordance with these requirements he shall be billed under the General Power Rate.

Revenue and Cost Review:

Distributor's costs of providing service under this Part A are subject to review at any time and from time to time to determine whether Distributor's revenues from the charges being applied hereunder at that time are sufficient to cover said costs. If any such review discloses insufficient revenues to cover said costs, Distributor will, subject to TVA's approval increase said then current investment charges by an amount sufficient to cover said costs.

PART B--RATES FOR OUTDOOR LIGHTING TO INDIVIDUAL CUSTOMERS

Rate Per Fixture

Type of Fixture	Lamp Size	Monthly Charge
Incandescent, open or enclosed globe	Up to 200 watts	\$2.25
Incandescent, open or enclosed globe	200 to 350 watts	2.50
Mercury	100 to 200 watts	3.00
Mercury	200 to 450 watts	4.00
Mercury	450 to 1,200 watts	7.50

5-2-69

This part is limited to service from standard street lighting fixtures at locations designated by the customer. The fixtures shall be photoelectrically controlled singly or in groups at the option of Distributor. If the number of poles required to be installed to serve the fixture or fixtures from Distributor's nearest available source exceeds the number of fixtures to be installed, a monthly charge of not more than 50 cents per pole shall be made for such excess poles. When so authorized by policy duly adopted by Distributor's governing board, each monthly charge listed above may be reduced by an amount not to exceed 50 cents if the lighting fixture is installed on a pole already in place.
