**CLASSIFICATION OF SERVICE**

**RATE PER UNIT**

GENERAL LIGHTING AND POWER RATE, SCHEDULE BG  
Revision Effective July 1, 1956

*ck July 15, 1956*

Availability

Available to commercial, industrial, governmental and other customers whose requirements are limited to firm power except those to whom service is available under the Residential or Street Lighting Schedules.

Character of Service

Alternating current, single or three-phase, 60 cycles. Power sold under A and B below will be delivered at a voltage available in the vicinity or agreed to by Distributor. Power sold under C below will be delivered at transmission voltage (44 kv or above) or, if such transmission voltage is not available, at a lower standard voltage is agreed upon.

Rate

A. If the customer's demand for the month is less than 50 kilowatts:

Demand Charge:

First 10 kilowatts of demand per month, no demand charge  
Excess over 10 kilowatts of demand per month, at \$1.00 per kilowatt

Energy Charge:

First	150 kilowatt-hours per month				
Next	350 "	"	"	"	"
Next	1,250 "	"	"	"	"
Next	13,250 "	"	"	"	"
Additional energy . . . . .					

*ck 8-25-56*

3.0 cents	Per kwh
2.0 "	" "
1.0 "	" "
0.8 "	" "
0.6 "	" "

B. If the customer's demand for the month is at least 50 kilowatts but not more than 5,000 kilowatts and if the customer's contract demand is 5,000 kilowatts or less:

**CLASSIFICATION OF SERVICE**

Standard Residential Rate - Schedule D - La

**RATE  
PER UNIT**

Special Rules:

Service under the Standard Residential Rate shall apply only to electric service in a single private dwelling and its appurtenances, the major use of which is for lighting and household appliances, for the personal comfort and convenience of those residing therein.

Private dwellings in which space is occasionally used for the conduct of business by a person residing therein will be served under the Standard Residential Rate.

Where a portion of a dwelling is used regularly for the conduct of business, the electricity consumed in that portion so used will be separately metered and billed under the appropriate Basic Lighting and Power Rate.

If separate circuits are not provided by the consumer, the entire premises shall be classified as non-residential and billed accordingly.

The Standard Residential Rate shall not apply to service to institutions such as clubs, fraternities, orphanage of homes; recognized rooming of boarding houses; the space in an apartment or other residential building primarily devoted to use as an office or studio for professional or other gainful purposes.

The rates contained herein are based upon the supply of service through a single delivery and metering point, and at a single voltage. Separate supply for the same customer at other points of consumption, or at different voltage, shall be separately metered and billed.

Service under this classification is subject to Rules and Regulations of Distributor.

**CLASSIFICATION OF SERVICE**

**Member Street Lighting Rate**

**RATE PER UNIT**

Applicable:

All territory served.

Availability of Service:

Available for members of Street Lighting Rate

Rates:

First . . . . .	.250 kilowatt-hours consumed per month at	.03¢
	per kilowatt-hour	
Next / . . . . .	.750 kilowatt-hours consumed per month at	.02¢
	per kilowatt-hour	
Next . . . . .	1,000 kilowatt-hours consumed per month at	.01¢
	per kilowatt-hour	
Excess over . . . . .	2,000 kilowatt-hours consumed per month at	0.8¢
	per kilowatt-hour	

Investment Charge:

The annual investment charge (for the cost of operation, maintenance, taxes, and depreciation, and for return on investment) shall be 12 percent of the investment in the street lighting system, determined as set forth. Such charge shall be adjusted under the circumstances set forth. This charge will be recomputed on July 1 of each year and one-twelfth of the total annual charge so computed will be billed customer monthly.

Lamp Renewals:

Distributor shall keep a record of the number and type of lamp replacement and customer shall be billed monthly for the replacements during the month at actual cost to Distributor, including appropriate overheads.

Payment:

The rates included are net, the gross rates being 10 percent higher. In the event the current monthly bill is not paid within 10 days from date the gross rates shall apply.

Service under this classification is subject to Rules and Regulations of Distributor.

Schedule B3 (Continued)

CLASSIFICATION OF SERVICE

RATE  
PER UNIT

The rate for the final block of the energy charge will be increased or decreased by 1/8 mill per kwh for each full cent of major fraction thereof that the average cost per million Btu of all coal received by TVA at its steam plants during the last six months ending with June or December exceeds 20 cents or is less than 16 cents respectively.

Minimum Charge:

Minimum Bill and Contract Requirement

The minimum monthly bill shall in no case be less than \$1.00 plus \$0.50 per kw for the excess over 10 kw of the highest demand during the 12 months ending with the current month. Customers whose demand exceeds 20 kw will be required to execute contracts for a minimum term of one year which may provide for a minimum charge in excess of the foregoing. If the contract demand is 5,000 kw or more, the minimum monthly bill shall not be less than \$1.00 per kw of the contract demand, and the contract will be for an initial term of at least five years.

Terms:

Seasonal Service

Customers who contract for service on a seasonal basis shall pay the above rates plus 10 percent of the bill computed before adjusting for coal costs. For such customers the "Minimum Monthly Bill" provided above shall not apply. Instead, such customers shall pay a minimum monthly bill of \$5.00 so long as service is cut in, shall pay a minimum annual bill of \$6.00 per kw of the maximum demand established, and shall pay in addition the actual cost of cut-ins and cut-outs in excess of one of each per year.

Delayed Payment Charge:

Above rates are net, the gross rates being 10% higher. In the event any bill is not paid within 10 days from date of bill, the gross rate shall apply.

**CLASSIFICATION OF SERVICE**

Schedule BG (Continued)

**RATE PER UNIT**

Special Rules:

Surcharge:

Bills, including minimum bills and bills for seasonal service, are subject to Distributor's surcharge. The surcharge will be based on a straight percentage of the bill computed before adjusting for coal cost.

Determination of Demand:

Distributor will measure the demand of all customers having a connected load in excess of 10 kilowatts. The demand for any month shall be the highest average load measured in kilowatts during any 30 consecutive minute period of the month. However, if 85 percent of the highest average KVA measured during any 30 consecutive minute period for any load of 5,000 KVA or less (or 85 percent of the first 5,000 KVA plus 95 percent of the remainder of any load over 5,000 KVA) is higher than the kw demand, such amount will be used as the billing demand.

Single Point Delivery:

The above rates are based upon the supply of service through a single delivery and metering point, and at a single voltage. Separate supply for the same customer at other points or at different voltage shall be separately metered and billed.

Service is subject to Rules and Regulations of Distributor.

**CLASSIFICATION OF SERVICE**

	RATE PER UNIT
<u>Minimum Bill</u>	
The minimum monthly bill under A and B above shall in no case be less than \$1.00 plus \$0.50 per kilowatt for the excess over 10 kilowatts of the highest demand during the preceding 12 months. Under C above the minimum monthly bill for demand and energy shall in no case be less than \$1.20 per kilowatt of the contract demand or any higher demand established during the preceding 12 months.	
<u>Seasonal Service</u>	
Customers who contract for service on a seasonal basis shall be limited to 1,500 kw and shall pay the above rates plus 10 percent of the bill computed before adjusting for coal costs. For such customers the "Minimum Monthly Bill" provided above shall not apply. Instead, such customers shall pay a minimum monthly bill of \$5.00 so long as service is cut in, shall pay a minimum annual bill which shall in no case be less than \$6.00 per kilowatt of the maximum demand established, and shall pay in addition the actual cost of cut-ins and cut-outs in excess of one of each per year.	
<u>Contract Requirement</u>	
Customers whose demand exceeds 20 kilowatts will be required to execute contracts for an initial term of at least one year. If the customer requires in excess of 5,000 kilowatts, the contract shall be for an initial term of at least five years. If the customer requires in excess of 15,000 kilowatts, any renewal or extension of the initial contract shall also be for a term of at least five years. The customer shall contract for his maximum requirements and Distributor shall not be obligated to furnish power in greater amount at any time than the customer's contract demand. The contract with any customer may provide for minimum charges higher than those stated above. If the customer uses any power other than that supplied by Distributor under this rate, the contract may include other special provisions. The rate schedule in any power contract will be subject to modification at any time upon agreement by Distributor and TVA.
