Tri-County Electric Membership Corporation

RULES & REGULATIONS

1. Application for service. Each prospective Customer desiring electric service may be required to sign Distributor's standard form of application for service or contract before service is supplied by the Distributor.

2. Deposit. A deposit or suitable guarantee approximately equal to twice the average monthly bill may be required of any Customer before electric service is supplied. Distributor may at its option return deposit to Customer after one year. Upon termination of service, deposit may be applied by Distributor against unpaid bills of Customer, and if any balance remains after such application is made, said balance shall be refunded to Customer.

3. Point of Delivery. The point of delivery is the point, as designated by Distributor, on Customer's premises where current is to be delivered to building or premises. All wiring and equipment beyond this point of delivery shall be provided and maintained by Customer at no expense to Distributor.

4. Customer's Wiring--Standards. All wiring of Customer must conform to Distributor's requirements and accepted modern standards, as exemplified by the requirements of the National Electrical Safety Code and the National Electrical Code.

RULES & REGULATIONS

5. Inspections. Distributor shall have the right, but shall not be obligated, to inspect any installation before electricity is introduced or at any later time, and reserves the right to reject any wiring or appliances not in accordance with Distributor's standards; but such inspection or failure to inspect or reject shall not render Distributor liable or responsible for any loss or damage resulting from defects in the installation, wiring, or appliances, or from violation of Distributor's rules, or from accidents which may occur upon Customer's premises.

6. Underground Service Lines. Customers desiring underground service lines from Distributor's overhead system must bear the excess cost incident thereto. Specifications and terms for such construction will be furnished by Distributor on request.

7. Customer's Responsibility for Distributor's Property. All meters, service connections, and other equipment furnished by Distributor shall be, and remain, the property of Distributor. Customer shall provide a space for and exercise proper care to protect the property of Distributor on its premises, and, in the event of loss or damage to Distributor's property arising from neglect of Customer to care for same, the cost of the necessary repairs or replacement shall be paid by Customer.

RULES & REGULATIONS

8. Right of Access. Distributor's identified employees shall have access to Customer's premises at all reasonable times for the purpose of reading meters, testing repairing, removing, or exchanging any or all equipment belonging to Distributor.

9. Billing. Bills will be rendered monthly and shall be paid within ten (10) days from date of bill at the office of Distributor. Failure to receive bill will not release Customer from payment obligation. Should bills not be paid as above, Distributor may at any time thereafter, upon five (5) days' written notice to Customer, discontinue service. Bills paid on or before the final date of payment shall be payable at the net rates, but thereafter the gross rates shall apply, as provided in the Schedule of Rates and Charges. Should the final date for payment of the bill at the net rates fall on a Sunday or holiday, the business day next following the final date will be held as a day of grace for delivery of payment. Net rate remittances received by mail after the time limit for payment of said net rates will be accepted by Distributor if the incoming envelope bears United States Post Office date stamp of the final date for payment of the net amount or any date prior thereto.

RULES & REGULATIONS

10. Discontinuance of Service by Distributor. Distributor may refuse to connect or may discontinue service for the violation of any of its Rules and Regulations, or for violation of any of the provisions of the Schedule of Rates and Charges, or of the application of Customer or contract with Customer. Distributor may discontinue service to Customer for the theft of current or the appearance of current theft devices on the premises of Customer. The discontinuance of service by Distributor for any causes as stated in this rule does not release Customer from his obligation to Distributor for the payment of minimum bills as specified in application of Customer or contract with Customer.

11. Reconnection Charge. Whenever service has been discontinued by Distributor, as provided above, or a trip is made for the purpose of discontinuing service, a charge of not less than One Dollar (\$1.00) may be collected by Distributor before service is restored.

12. Termination of Contract by Customer. Customers who have fulfilled their contract terms and wish to discontinue service must give at least three (3) days' written notice to that effect, unless contract specifies otherwise. Notice to discontinue service prior to expiration of contract term will not relieve Customer from any minimum or guaranteed payment under any contract or rate.

RULES & REGULATIONS

13. Service Charges for Temporary Service. Customers requiring electric service on a temporary basis may be required by Distributor to pay all costs for connection and disconnection incidental to the supplying and removing of service. This rule applies to circuses, carnivals, fairs, temporary construction, and the like.

14. Interruption of Service. Distributor will use reasonable diligence in supplying current, but shall not be liable for breach of contract in the event of, or for loss, injury or damage to persons or property resulting from interruptions in service, excessive or inadequate voltage, single-phasing, or otherwise unsatisfactory service, whether or not caused by negligence.

15. Voltage Fluctuations Caused by Customer. Electric service must not be used in such a manner as to cause unusual fluctuations or disturbances to Distributor's system. Distributor may require Customer, at his own expense, to install suitable apparatus which will reasonably limit such fluctuations.

16. Additional Load. The service connection, transformers, meters, and equipment supplied by Distributor for each Customer have definite capacity, and no addition to the equipment or load connected thereto will be allowed except by consent of Distributor. Failure to give notice of additions or changes in load, and to obtain Distributor's consent for same, shall render Customer liable for any damage to any of Distributor's lines or equipment caused by the additional or changed installation.

RULES AND REGULATIONS

17. Standby and Resale Service. All purchased electric service (other than emergency or standby service) used on the premises of Customer shall be supplied exclusively by Distributor, and Customer shall not, directly or indirectly, sell, sublet, assign, or otherwise dispose of the electric service or any part thereof.

18. Notice of Trouble. Customer shall notify Distributor immediately should the service be unsatisfactory for any reason, or should there be any defects, trouble, or accidents affecting the supply of electricity. Such notice, if verbal, should be confirmed in writing.

19. Non-standard Service. Customer shall pay the cost of any special installation necessary to meet his peculiar requirements for service at other than standard voltages, or for the supply of closer voltage regulation than required by standard practice.

20. Meter Tests. Distributor will, at its own expense, make periodical tests and inspections of its meters in order to maintain a high standard of accuracy. Distributor will make additional tests or inspections of its meters at the request of Customer. If tests made at Customer's request show that the meter is accurate within two percent (2%), slow or fast, no adjustment will be made in Customer's bill, and the testing charge of One Dollar (\$1.00) per meter will be paid by Customer. In case the test shows meter to be in excess of two percent (2%) fast or slow, an adjustment shall be made in Customer's bill over a period of not over thirty (30) days prior to date of such test, and cost of making test shall be borne by Distributor.

RULES & REGULATIONS

21. Extensions and Additions to Street Lighting Systems. Distributor shall, at the request of a customer for street lighting service, provide additions and extensions to the street lighting system, provided that if, in any year ending June 30, Customer requests additions or extensions with a total cost in excess of five percent (5%) of the investment in street lighting property and equipment, Customer may be required to finance such excess cost.

22. Billing Adjusted to Standard Periods. The demand charges and the blocks in the energy charges set forth in the rate schedules are based on billing periods of approximately one month, In the case of the first billing of new accounts (temporary service, cotton gins, and other seasonal customers excepted) and final billings of all accounts (temporary service excepted) where the period covered by the billing involves fractions of a month, the demand charges and the blocks of the energy charge will be adjusted to a basis proportionate with the period of time during which service is extended.

RULES & REGULATIONS

23. Athletic Field Lighting. Athletic field lighting installations not owned or maintained by Distributor may be served on an off-peak basis in accordance with the provisions of the street lighting rate. For athletic field lighting the investment charge provided for in the street lighting rate will be based on the Distributor's investment in furnishing and installing the equipment devoted to supplying the athletic field lighting service. Energy will be billed in accordance with the street lighting schedule and each installation will be considered a separate customer for billing purposes. Customer's bills rendered in accordance with this provision shall be subject to any surcharge and amortization charge applied by Distributor. The off-peak period shall be determined by Distributor, but in no case shall it commence earlier than 7 p.m. Customer may be permitted to use up to ten percent (10%) (not to exceed 10 kilowatts) of the total installed lighting capacity prior to the commencement of the off-peak period, such use to be considered off-peak for billing purposes. In the event Customer fails to restrict service in accordance with these requirements, he shall be billed under the appropriate lighting and power rate.

24. Scope. This Schedule of Rules and Regulations is a part of all contracts for receiving electric service from Distributor, and applies to all service received from Distributor, whether the service is based upon contract, agreement, signed, application, or otherwise. A copy of this schedule, together with a copy of Distributor's Schedule of Rates and Charges, shall be kept open to inspection at the offices of Distributor.

(c) RATES (continued):

II. Investment Charge (continued)

When so authorized by policy duly adopted by Distributor's governing board, athletic field lighting installations may be provided, owned, and maintained by and at the expense of Distributor's electric system. Distributor may require reimbursement from the customer for a portion of the initial cost of such installation and shall require payment by the customer of an annual charge sufficient to cover all of Distributor's costs, including appropriate overheads, of providing, operating, and maintaining such installations. Said annual charge shall in no event be less than 12 percent and shall be in addition to the annual investment charge on the facilities necessary to provide service to such installation as provided for in the preceding paragraph. Lamp replacements for athletic field lighting installations provided under this paragraph shall be paid for under the provisions of paragraph A in Section III.

III. Lamp Replacements - Street lighting, park lighting, and signal systems.

Customer shall be billed and shall pay for replacements as provided in paragraph A below, which shall be applied to all service for street lighting, park lighting, and signal systems.

A. Distributor shall bill the customer monthly for such replacements during each month at Distributor's cost of materials, including appropriate storeroom expense.

SHEET NO.

CLASSIFICATION OF SERVICE

RATE
PER UNIT

(c) Rates (continued)

B. One-twelfth of any excess of said material cost over the product of the number of kilowatt-hours used for street lighting during the fiscal year multiplied by 3 mills shall be billed to the customer each month during the following fiscal year.

PART B--RATES FOR OUTDOOR LIGHTING TO INDIVIDUAL CUSTOMERS
Rate Per Fixture

Type-of-Fixture	Lamp size	Rate
Incandescent, open or enclosed globe	Up to 200 watts	\$2.25 per mo.
Incandescent, open or enclosed globe	200 to 350 watts	\$2.50 " "
Mercury	100 to 200 watts	\$3.00 " "
Mercury	200 to 450 watts	\$4.00 " "
Mercury	450 to 1,200 watts	\$7.50 " "

This part is limited to service from standard street lighting fixtures at locations designated by the customer. The fixtures shall be photoelectrically controlled singly or in groups at the option of Distributor. If the number of poles required to be installed to serve the fixture or fixtures from Distributor's nearest available source exceeds the number of fixtures to be installed, a monthly charge of not more than 50 cents per pole shall be made for such excess poles. When so authorized by policy duly adopted by Distributor's governing board, each monthly charge listed above may be reduced by an amount not to exceed 50 cents if the lighting fixture is installed on a pole already in place. The foregoing rate is subject to revision on January 1 and July 1 of each year based on changes in costs of providing service under this rate.

Lamp Replacements

Replacements of burned out lamps will be made in accordance with schedules and replacement policies of Distributor without additional charge to the customer.

CLASSIFICATION OF SERVICE		RATE PER UNIT
(d)	<p>MINIMUM CHARGE: The minimum charge is \$1.50 per month per meter, plus the investment charge.</p>	
(e)	<p>DELAYED PAYMENT CHARGE: The rates set forth below are net (discounted), the gross rates being 10 percent higher. In the event the current monthly bill is not paid within 10 days from date of bill, the gross rates shall apply.</p>	
(f)	<p>TERM: Customers under Part B are required to sign a contract to keep the installation for a minimum of three (3) years. Contracts for the lighting of towns and communities are for an initial period of five (5) years and to be effective thereafter, until written notice is given for a change in the system.</p>	
(g)	<p>SPECIAL RULES</p> <p><u>Metering</u> When the energy for street, park, and signal lighting service is metered at more than one point, the readings shall be consolidated for billing purposes. When the energy is not metered and also when a meter reading is found to be in error, the energy for billing purposes shall be computed from the rated capacity of the lamps plus 5 percent for losses, multiplied by the number of hours of use.</p> <p><u>Off-Peak Period</u> Service to athletic field lighting installations shall be limited to an off-peak period determined by Distributor, commencing no earlier than 7 p.m. The Customer may be permitted to use up to 10 percent (not to exceed 10 kilowatts) of the total installed lighting capacity prior to commencement of the off-peak period, such use to be considered off-peak for billing purposes. In the event the customer fails to restrict service in accordance with these requirements, he shall be billed under the General Power Rate.</p>

Revenue and Cost Review

Distributor's costs of providing service under Part A are subject to review at any time and from time to time to determine whether Distributor's revenues from the charges being applied hereunder at that time are sufficient to cover said costs. If any such review discloses insufficient revenues to cover said costs, Distributor will, subject to TVA's approval, increase said then current investment charges by an amount sufficient to cover said costs.

(c) RATES (continued)

Adjustments (continued)

- (2) 5 cents per kw of billing demand for each 5 cents or major fraction thereof by which TVA's cost of money (interest charges to operations plus return on the appropriation investment) per kw of the sum of the monthly billing demands of power sold by TVA as determined by TVA from its records exceeded or was less than 40 cents, respectively, during the most recently completed fiscal year ending June.

Each adjustment made pursuant to (1) and (2) above shall be effective for 12 consecutive monthly billings beginning with the first bill rendered from meter readings taken after August 1 of the calendar year in which each such fiscal year ends, notwithstanding anything herein which might be construed to the contrary.

Seasonal Service

Customers who contract for service on a seasonal basis shall be limited to 1,500 kw and shall pay the above rates plus 10 percent of the bill computed before any adjustments are applied. For such customers the "Minimum monthly bill" provided for above shall not apply. Instead, such customers shall pay a minimum monthly bill of \$5.00 so long as service is cut in, shall pay a minimum annual bill which shall in no case be less than \$6.00 per kilowatt of the maximum demand established, and shall pay in addition the actual cost of cut-ins and cut-outs in excess of one of each per year.

(d) MINIMUM CHARGE:

The minimum monthly bill under A and B above shall in no case be less than \$1.50 plus \$0.50 per kilowatt for the excess over 10 kilowatts of the highest demand during the preceding 12 months. Under C above, the minimum monthly bill for demand and energy shall be in no case less than \$1.25 per kilowatt of the contract demand or any higher demand established during the preceding 12 months. Distributor may require minimum bills higher than those stated above.

(e) DELAYED PAYMENT CHARGE:

Above rates, including surcharge, are net (discounted). In the event that any bill is not paid within 10 days from date of bill, there shall be added to the bill an amount equal to 10 percent on the first \$250.00 of the bill plus one percent on any portion of the bill exceeding \$250.00. To any amount remaining unpaid 30 days after the date of the bill, there shall be added a penalty of one percent, and an additional one percent shall be added at the end of each successive 30-day period until the amount is paid in full.

(f) TERM:
Customers whose demand exceeds 20 kilowatts will be required to execute contracts for an initial term of at least one year. If the customer requires in excess of 5,000 kilowatts, the contract shall be for an initial term of at least five years. If the customer requires in excess of 15,000 kilowatts, any renewal or extension of the initial contract shall also be for a term of at least five years. The customer shall contract for his maximum requirements and Distributor shall not be obligated to furnish power in greater amount at any time than the customer's contract demand. The contract with any customer may provide for minimum charges higher than those stated above. If the customer uses any power other than that supplied by Distributor under this rate, the contract may include other special provisions. The rate schedule in any power contract will be subject to modification at any time upon agreement by Distributor and TVA.

(g) SPECIAL RULES:
Distributor will measure the demands in kilowatts of all customers having connected load in excess of 10 kilowatts. The demand for any month shall be the highest average load measured in kilowatts during any 30 consecutive minute period of the month. However, if 85 percent of the highest average kva measured during any 30 consecutive minute period for any load of 5,000 kva or less (or 85 percent of the first 5,000 kva plus 95 percent of the remainder of any load over 5,000 kva) is higher than the kw demand, such amount will be used as the billing demand.
