

RATE RS - AE

All-Electric Domestic Service Rate

AVAILABILITY

Available in communities indicated on Sheet No. 2 of this schedule, where secondary distribution lines are adjacent to the premises to be served.

APPLICABILITY

Applicable to electric service, other than three phase service, used for all domestic purposes in private residences and apartments where permanently connected electric heating equipment is installed and in regular use as the only source of space heating and where a storage electric water heater is installed and used. The electric water heater must meet Company's "Water Heater Specifications."

TYPE OF SERVICE

Alternating current 60 cycles, single phase at Company's standard secondary voltage.

NET MONTHLY BILL

Computed in accordance with the following charges:

- (R) First 200 kilowatt hours or less \$6.00
Additional kilowatt hours at 1.4¢ per kilowatt hour.

Plus or minus an amount per Kwh equal to a pro rata portion of any charge or credit to Company's cost of power in the next preceding calendar month due to the application of the fuel adjustment clause in Company's purchase power agreement. The amount of charge or credit per Kwh will be determined by dividing the total fuel adjustment as billed the Company by the Kwh sales in the applicable period.

Minimum: \$6.00

When bills are rendered less frequently than monthly the time related units such as energy blocks, minimum or other charges, will be billed in accordance with the number of billing months in the meter reading interval.

WATER HEATER SPECIFICATIONS

Company approved water heaters shall consist of an insulated tank of not less than 30 gallons capacity equipped with either (a) two 240 volt, thermostatically controlled, non-inductive heating elements, one of which is located near the bottom of the tank and the other of which is located approximately one quarter of the way down from the top of the tank, with interlocked thermostats connected so that both elements can not be operated at the same time, or (b) one 240 volt, thermostatically controlled, non-inductive heating element located near the bottom of the tank, maximum rating of which elements must not exceed 5.0 kilowatts.

PAYMENT

The Net Monthly Bill is payable within fourteen (14) days from date. When not so paid, the Gross Monthly Bill, which is the Net Monthly Bill plus 5% is due and payable.

TERM OF SERVICE

One (1) year, terminable thereafter on ten (10) days' written notice by either Customer or Company.

SERVICE REGULATIONS

The supplying of, and billing for, service and all conditions applying thereto, are subject to the jurisdiction of The Public Service Commission of Kentucky, and to Company's Service Regulations currently effective, as filed with The Public Service Commission of Kentucky, as provided by law.

Issued by authority of an order of the Public Service Commission of Kentucky in Case No.

ENGINEERING DIVISION

**RIDER WHS
 WATER HEATING SERVICE**

AVAILABILITY

Available in communities indicated on sheet No. 2 of this schedule where standard "Residential Service—RS" and "General Service—GS" Rates are effective for application of this rider.

APPLICABILITY

Applicable to electric service for the operation of a permanently connected and regularly used storage water heater conforming to specifications set out below, when used in connection with other electric service supplied at standard rates. Electric service for water heaters not conforming to the specifications set out below is available at the standard "Residential Service" and "General Service" Rates.

TYPE OF SERVICE

Service will be in accordance with the specifications of the standard applicable rates to which this rider applies.

NET MONTHLY BILL

Computed in accordance with the following charges:

For Kwh up to the maximum shown in tabulation below according to size of water heater, but only after balance of energy use (but not less than 200 Kwh) is billed at the applicable standard "Residential Service" or "General Service" Rate:

1.5¢ per Kwh.

(I)

Plus or minus an amount per Kwh equal to a pro rata portion of any charge or credit to Company's cost of power in the next preceding calendar month due to the application of the fuel adjustment clause in Company's purchase power agreement. The amount of charge or credit per Kwh will be determined by dividing the total fuel adjustment as billed the Company by the Kwh sales in the applicable period.

Minimum:

\$1.00 per month to be added to the minimum of the standard service rate.

Where bills are rendered for more than one whole month the minimum number of kilowatt hours billed at the standard service rate (200 Kwh per month), the maximum number of kilowatt hours tabulated below as available at this rate and the minimum charge, shall be multiplied by the number of months in the billing period.

WATER HEATER SPECIFICATIONS

Company approved water heaters shall consist of an insulated tank of not less than 30 gallons capacity equipped with either (a) two 240 volt (208 volt for underground network), thermostatically controlled, non-inductive heating elements, one of which is located near the bottom of the tank and the other of which is located approximately one quarter of the way down from the top of the tank, with interlocked thermostats connected so that both elements can not be operated at the same time, or (b) one 240 volt (208 volt for underground network), thermostatically controlled, non-inductive heating element located near the bottom of the tank, maximum ratings of which elements are set out in the following table:

Nominal Tank Size Gallons	Two Element Unit		Single Element Unit	Maximum Kwh per Month
	Lower Element	Upper Element		
30 - 49	1,000	2,000	2,000	250
50 - 74	1,500	2,500	2,500	400
75 - 99	2,000	3,000	3,000	500
100 - over	2,000	3,000	3,000	700

All other specifications as to tank, insulation, wiring, thermostats, controls, and plumbing, and all requirements as to test conditions, procedures and results shall conform to the American Standard for Household Automatic Electric Storage Type Water Heaters, American Standard Association—C 72.1—1949, to the extent that they do not conflict with any specifications stated herein.

Company at its option may seal the thermostat interlocking mechanism.

SERVICE REGULATIONS

The supplying of, and billing for, service and all conditions applying thereto, are subject to the jurisdiction of the Public Service Commission of Kentucky, and to Company's Service Regulations currently effective, as filed with the Public Service Commission of Kentucky, as provided by law.

Issued by authority of an order of the Public Service Commission of Kentucky in Case No. 3699, dated May 16, 1960.
