RATE SCHEDULE NO. 1

GENERAL GAS SERVICE

APPLICABLE

Applicable to Milton, Kentucky and rural areas in Trimble and Carroll Counties, Kentucky.

AVAILABILITY OF SERVICE

General gas service, including space heating, is available to residential and commercial customers.

RATES

Commodity Charge -

First 800 cubic feet per month @ 29.49¢ per 100 cubic feet
 Next 1,200 cubic feet per month @ 17.29¢ per 100 cubic feet
 Over 2,000 cubic feet per month @ 15.29¢ per 100 cubic feet

Purchased Gas Adjustment Charge -

A purchased gas adjustment rate of .31¢ per 100 cubic feet per month is added to the above commodity charge rates. This adjustment is occasioned solely by changes in the wholesale cost of purchased gas. (R)

Minimum Charge -

\$2.36 per meter per month for consumption of 800 cubic feet or less. This Minimum Charge is subject to the following Delayed Payment Penalty Charge.

Delayed Payment Penalty Charge -

On the first \$3.00 or less of net billing - 10%
 On the next \$300.00 of net billing - 3%

Application of Delayed Payment Penalty Charge -

Bills shall be rendered and due monthly. If paid within seventeen days from the billing date stated in the bill, the net amount shall be the amount to be paid. If not paid within seventeen days from the billing date stated in the bill, the gross amount, which includes the collection charge, shall be the amount to be paid. When the seventeenth day falls on Saturday, Sunday or any other legal holiday, the first business day thereafter shall be added to the seventeen day period.

PURCHASED GAS ADJUSTMENT CLAUSE

The rate adjustments requested hereunder shall be based upon the wholesale cost of gas to the Company as computed upon rates of its wholesale supplier under Federal Power Commission tariffs for interstate business. For the purpose of this purchased gas adjustment provision, current wholesale rates shall be considered as the base rate for purchased gas. In the event there is an increase in this base rate, the Company shall within thirty days from the time it receives notice of the proposed change file with this Commission the following information:

- (1) A copy of the Federal Power Commission tariff effecting the change in the base rate and a statement relative to the effective date of such proposed change.
- (2) A statement setting out the details of gas purchased under the provisions of the base rate for the previous twelve months showing billing under the base rate and under the proposed revised rate applicable to this service.
- (3) A balance sheet as of the end of the latest twelve month period and a statement of operating expenses and revenues as reported to the Commission in the Company's Annual Report.
- (4) Such other information as the Commission may request for a proper determination of the purchased gas adjustment.

Upon receipt of this information the Commission will review the effect of the revised base rate on the operations of the Company and will prior to the effective date of the revised base rate, but not less than thirty days from the date of the filing of the above prescribed information, issue its Order setting out the purchased gas adjustment that the Company shall apply to its rates.

In the event there is a decrease in the purchased gas price or a refund, the Company shall file the information required in 1, 2, and 4 above.

Upon receipt of this information the Commission shall review the proposed reductions and within thirty days from receipt of the information required, issue its Order setting out the proper refund and/or revised rates.

The maximum amount of the adjustment so prescribed shall not produce revenue adjustments, based upon the actual preceding twelve month period, greater than the difference between the purchased gas billed at the then existing rates and the purchased gas billed at the revised rates.

The base rate for purchased gas for the application of this Purchased Gas Adjustment Clause is:

PURCHASED GAS ADJUSTMENT CLAUSE

The rate adjustments requested hereunder shall be based upon the wholesale cost of gas to the Company as computed upon rates of its wholesale supplier under Federal Power Commission tariffs for interstate business. For the purpose of this purchased gas adjustment provision, current wholesale rates shall be considered as the base rate for purchased gas. In the event there is an increase in this base rate, the Company shall within thirty days from the time it receives notice of the proposed change file with this Commission the following information:

- (1) A copy of the Federal Power Commission tariff effecting the change in the base rate and a statement relative to the effective date of such proposed change.
- (2) A statement setting out the details of gas purchased under the provisions of the base rate for the previous twelve months showing billing under the base rate and under the proposed revised rate applicable to this service.
- (3) A balance sheet as of the end of the latest twelve month period and a statement of operating expenses and revenues as reported to the Commission in the Company's Annual Report.
- (4) Such other information as the Commission may request for a proper determination of the purchased gas adjustment.

Upon receipt of this information the Commission will review the effect of the revised base rate on the operations of the Company and will prior to the effective date of the revised base rate, but not less than thirty days from the date of the filing of the above prescribed information, issue its Order setting out the purchased gas adjustment that the Company shall apply to its rates.

In the event there is a decrease in the purchased gas price or a refund, the Company shall file the information required in 1, 2, and 4 above.

Upon receipt of this information the Commission shall review the proposed reductions and within thirty days from receipt of the information required, issue its Order setting out the proper refund and/or revised rates.

The maximum amount of the adjustment so prescribed shall not produce revenue adjustments, based upon the actual preceding twelve month period, greater than the difference between the purchased gas billed at the then existing rates and the purchased gas billed at the revised rates.

The base rate for purchased gas for the application of this Purchased Gas Adjustment Clause is:

SCHEDULE FOR GENERAL NATURAL GAS SERVICE
(EXCLUDING GAS USED FOR SPACE HEATING PURPOSES)

AVAILABILITY

Available for general natural gas including service to commercial and industrial customers who do not use gas for space heating and to residential customers who do not use gas-fired space heating equipment of sufficient capacity to heat all or a major portion of their residence. Applicant must be located on the Company's distribution mains and/or Company's intermunicipal lines suitable for supplying the service requested.

CHARACTER OF SERVICE

Natural Gas of approximately 1,000 BTU Content Per Cubic Foot.

COMMODITY CHARGE

First 800 cubic feet per month @ 21.0¢ per 100 cubic feet
Next 1,200 cubic feet per month @ 10.0¢ per 100 cubic feet
Next 98,000 cubic feet per month @ 8.0¢ per 100 cubic feet
Next 100,000 cubic feet per month @ 7.0¢ per 100 cubic feet
Over 200,000 cubic feet per month @ 6.5¢ per 100 cubic feet

PURCHASED GAS ADJUSTMENT CHARGE

A purchased gas adjustment rate of 2.54¢ per 100 cubic feet per month is added to (I) the above commodity charge rates. This adjustment is occasioned solely by changes in the wholesale cost of purchased gas.

MINIMUM CHARGE

\$1.00 per meter per month

COLLECTION CHARGE

On the first \$3.00 or less of net billing - 10%
On the next \$300.00 of net billing - 3%

APPLICATION OF COLLECTION CHARGE ON DELINQUENT BILLS

Bills shall be rendered and due monthly. If paid within fifteen days from the due date thereof as stated in the bill, the net bill shall be the amount to be paid. If not paid within fifteen days from the due date thereof as stated in the bill, the gross bill, which includes the collection charge, shall be the amount to be paid. When the fifteenth day falls on Saturday, Sunday or any other legal holiday, the first business day thereafter shall be added to the fifteen-day period.

RECONNECTION CHARGE

When the service is turned off for non-payment of bill, or whenever for any reason beyond the control of the Company a re-establishment of service is required by any one customer more often than once in a twelve-month period, a charge of \$1.00 will be made by the Company to cover a part of the cost of discontinuance and re-establishment of service.

SCHEDULE FOR
LARGE VOLUME EXCESS NATURAL GAS SERVICE

AVAILABILITY

Available for interruptible general gas service (other than space heating service only) to commercial and industrial customers having estimated daily requirements of at least 100,000 cubic feet of gas and who are located on the Company's distribution mains and/or the Company's intermunicipal lines suitable for supplying the service requested. Service under this schedule will be supplied only to customers executing a Large Volume Excess Gas Service Contract (the "Service Contract"), which specifies daily and hourly maximum delivery obligations of the Company.

APPLICABILITY AND CHARACTER OF SERVICE - CURTAILMENTS

This schedule shall apply to all gas sold and delivered to the customer hereunder on an interruptible basis, and all such gas shall be metered and billed separately from any other class of service rendered to the customer by the Company. No burner, apparatus, appliances or equipment supplied with gas under the terms of any other gas supply arrangement with the Company shall be piped or connected in a manner which will permit them to operate from the gas delivered under this schedule, and no burners, apparatus, appliances or equipment shall be piped or connected in a manner which will permit them to operate from gas delivered under any other gas supply arrangement with the Company.

Gas delivered hereunder shall be natural gas of approximately 1,000 BTU content per cubic foot delivered from such quantities of natural gas as the Company may have available from time to time under its contract with its suppliers in excess of the quantities it needs to supply the requirements of its customers purchasing gas from it on a firm basis and under the rate schedule for "Dual Fuel, Off-Peak, Large Volume Space Heating Natural Gas Service". In the event of a diminution at any time of the Company's available supply of excess gas for any reason whatsoever (including, but not limited to, the demands of the Company's customers taking gas on a firm basis, or the Company's customers taking gas under the rate schedule for "Dual Fuel, Off-Peak, Large Volume Space Heating Natural Gas Service", or the inability of the Company to obtain further gas from its suppliers without penalty charges), all customers purchasing gas under this schedule shall, upon receipt of notice from the Company of such diminution, curtail their use of gas hereunder to such extent and during such periods as the Company may request in order to enable the Company to give gas service priority to its customers who purchase gas on a firm basis and under the rate schedule for "Dual Fuel, Off-Peak, Large Volume Space Heating Natural Gas Service".

Original Sheet No. 7
Cancelling P.S.C. Ky. No. _____
Sheet No. _____

In any billing month during which the supply of gas to the customer has been curtailed or interrupted by the Company for any reason, the 250,000 therm figure specified above shall be reduced by one-thirtieth (1/30) for each day or part of a day of such curtailment or interruption.

The word "therm" as used herein means one hundred thousand (100,000) British Thermal units. The number of therms of gas delivered during any period shall be computed by multiplying the average thermal content (British thermal units per cubic foot) of gas delivered by the Company to the customer during such period by the volume of gas so delivered in cubic feet and by dividing the product so obtained by 100,000. The average thermal content of gas delivered shall be as determined by the Company's supplier.

YEARLY MINIMUM BILL

The yearly minimum bill shall be an amount computed at the commodity rate multiplied by the customer's maximum daily delivery requirement at a 15% load factor and shall be payable in the manner specified herein under "Basis of Billing." For each day or part of a day during any contract year in which the supply of gas is curtailed or interrupted by the Company for any reason or in which the customer's premises have been damaged by fire or other casualty so as to be unsuitable for the purpose of the customer's business, the yearly minimum bill shall be reduced by one three-hundred-sixtieth (1/360).

BASIS OF BILLING

The customer will be billed for gas used each month as follows:

During each contract year, until the amount of the yearly minimum bill has been billed in full, the customer shall be billed monthly at the commodity rate for gas supplied, subject to a monthly minimum of one-twelfth (1/12) of the yearly minimum bill.

Whenever the charge for gas purchased during any month of a contract year, computed at the rate specified in this schedule, does not equal the monthly minimum, the monthly minimum shall be billed for such month and the difference between the monthly minimum and such computed charge will constitute a "Reserve Billing Credit" applicable to such contract year. Whenever the aggregate total billing during any contract year exceeds the yearly minimum bill, the ensuing monthly billings during such contract year will be computed solely on the basis of the specified rate for gas purchased and thereafter during such contract year all accumulated Reserve Billing Credits will be applied against the charges for gas purchased at the specified rate until the Reserve Billing Credits have been exhausted or until the expiration of such contract year, whichever first occurs.

In no case will any unused Reserve Billing Credits accumulated during one contract year hereunder be applied to bills after the expiration of such contract year.

ENGINEERING DIVISION

COLLECTION CHARGE

On the First \$ 3.00 or less of net billing - 10%
On the next \$300.00 of net billing - 3%

APPLICATION OF COLLECTION CHARGE ON DELINQUENT BILLS

Bills shall be rendered and due monthly. If paid within fifteen (15) days from the due date thereof as stated in the bill, the net bill shall be the amount to be paid. If not paid within fifteen (15) days from the due date thereof, as stated in the bill, the gross bill, which includes the collection charge, shall be the amount to be paid. When the fifteenth day falls on a Saturday, Sunday or any legal holiday, the first business day thereafter shall be added to the fifteen-day period.

METERING - INSPECTION

For billing purposes, where gas is metered at low pressure (inches of water column), a cubic foot of gas shall be taken to be the amount of gas in a volume of one cubic foot under the conditions existing in the customer's meter as and where installed. Where gas is metered at higher pressures (psig), the volume of gas measured shall be corrected to correspond to a saturated gas of standard conditions at an absolute pressure of 30 inches of ice cold mercury and at a temperature of 60 degrees Fahrenheit.

The properly authorized agents of the Company shall, at all reasonable hours, have free access to the premises of the customer for the purpose of inspecting the customer's gas appliances and of reading, examining, repairing or removing the Company's meters or other property and for determining the extent of compliance with the terms of this schedule.

CONTRACT TERM

Each Service Contract shall be for a term of one (1) year from the date service is commenced thereunder and all Service Contracts shall continue in effect after the initial term for successive terms of one (1) year each unless written notice of intention to terminate is given by either party to the other at least sixty (60) days before the end of any term; provided, however, that in cases where the Company is required to make a substantial special investment in facilities to furnish the service requested or where the customer desires a longer term contract, the initial term shall be for such period as the parties shall agree upon.

RESERVED RIGHT TO LIMIT ADDITIONAL CONTRACTS

This schedule is predicated on the availability to the Company of a sufficient natural gas supply to enable service hereunder to be made available during a major portion of each year without impairment of service to other customers. The Company, therefore, reserves the right to decline acceptance of any additional contracts for service hereunder at such time as, in the Company's judgment, the volume of service already contracted for equals the gas supply available for this class of service.

SCHEDULE FOR
DUAL FUEL, OFF-PEAK, LARGE VOLUME
SPACE HEATING NATURAL GAS SERVICE

AVAILABILITY

Available on an off-peak basis for interruptible gas space heating service to commercial and industrial customers equipped to use an alternate fuel in case of gas service interruption. Applicant must be located on the Company's distribution mains and/or Company's intermunicipal lines suitable for supplying the service requested. Service under this schedule will be supplied only to customers executing a Dual Fuel, Off-Peak, Large Volume Space Heating Contract (the "Service Contract") which specifies daily and hourly maximum delivery obligations of the Company.

APPLICABILITY AND CHARACTER OF SERVICE - CURTAILMENTS

This schedule shall apply to all gas sold and delivered to the customer for space heating purposes on an interruptible basis, and all such gas shall be metered and billed separately from any other class of service rendered to the customer by the Company. No burners, apparatus, appliances or equipment supplied with gas under the terms of any other gas supply arrangement with the Company shall be piped or connected in a manner which will permit them to operate from the gas delivered under this schedule, and no burners, apparatus, appliances or equipment supplied with gas delivered under this schedule shall be piped or connected in a manner which will permit them to operate from gas delivered under any other gas supply arrangement with the Company. Continuous-burning pilot lights shall not be supplied under this schedule.

Gas delivered hereunder shall be natural gas of approximately 1000 BTU content per cubic foot delivered from such quantities of natural gas as the Company may have available from time to time under its contracts with its suppliers in excess of the quantities it needs to supply the requirements of its other customers purchasing gas from it on a basis other than the dual fuel, off-peak, large volume space heating natural gas service described herein (such excess gas being herein called "off-peak gas"). In the event of a diminution at any time of Company's available supply of off-peak gas for any reason whatsoever (including, but not limited to, the demands of Company's customers taking gas service on a firm basis or the inability of Company to obtain further gas from its suppliers without penalty charges), all customers purchasing such off-peak gas shall, upon receipt of notice from Company of such diminution, curtail their use of such off-peak gas to such extent and during such periods as Company may request, in order to enable Company to give gas service priority to its domestic and customers served on a firm basis.

ALTERNATE FUEL INSTALLATION REQUIREMENT

Each customer taking natural gas service under this schedule shall provide and maintain on the premises to be served alternate fuel heating equipment and

SCHEDULE FOR
LIMITED NATURAL GAS SERVICE

AVAILABILITY

Available to commercial and industrial customers located on the Company's distribution mains and/or the Company's intermunicipal lines suitable for supplying the service requested, for interruptible gas service (other than space heating service) generally limited to the period from April 1 to November 30 of each year and at other times only if the Company has gas available, and not required to serve customers of any other classification. Service under this schedule will be supplied only to customers executing a Limited Gas Service Contract (the "Service Contract"), which specifies daily and hourly maximum delivery obligations of the Company.

APPLICABILITY AND CHARACTER OF SERVICE - CURTAILMENTS

This schedule shall apply to all gas sold and delivered to the customer hereunder, and all such gas shall be metered and billed separately from any other class of service rendered to the customer by the Company. No burner, apparatus, appliances or equipment supplied with gas under the terms of any other gas supply arrangement with the Company shall be piped or connected in a manner which will permit them to operate from the gas delivered under this schedule, and no burners, apparatus, appliances or equipment to be supplied with gas delivered under this schedule shall be piped or connected in a manner which will permit them to operate from gas delivered under any other gas supply arrangement with the Company.

Gas delivered hereunder shall be natural gas of approximately 1,000 BTU content per cubic foot.

With respect to all service rendered hereunder in the period from April 1 to November 30 of any year, in the event of a diminution for any reason whatsoever (including, but not limited to, the demands of its firm gas customers or the inability of the Company to obtain further gas from its supplier without penalty charges) of the Company's available supply of gas to meet the requirements of its customers purchasing gas on a firm basis, all customers purchasing gas under this schedule shall, upon receipt of notice from the Company of such diminution, curtail their use of gas hereunder to such extent and during such periods as the Company may request in order to enable the Company to give gas service priority to its customers purchasing gas on a firm basis.

With respect to service hereunder during the period from December 1 of any year to March 31 of the next following year, service will be rendered only if and when the Company has gas available (without penalty charges from its supplier or increase in the nominal operating pressure carried by the Company in the main used to service the customer) in excess of the amount required to serve its customers of any other classification (including, but not limited to, Dual Fuel, Off-Peak, Large Volume Space Heating Natural Gas Service customers) and

Third Revised Sheet No. 13
Cancelling P.S.C. Ky. No. 1
Second Revised Sheet No. 13

RATES

All customers purchasing gas under this schedule during such period shall, upon receipt of notice from the Company of non-availability of gas, curtail their use of gas hereunder to such extent and during such periods as the Company may request.

COMMODITY CHARGE

4.4¢ per therm for all gas supplied hereunder.

The word "therm" as used herein means one hundred thousand (100,000) British thermal units. The number of therms of gas delivered during any period shall be computed by multiplying the average thermal content (British thermal units per cubic foot) of gas delivered by the Company to the customer during such period by the volume of gas so delivered in cubic feet and by dividing the product so obtained by 100,000. The average thermal content of gas delivered shall be as determined by the Company's supplier.

PURCHASED GAS ADJUSTMENT CHARGE

A purchased gas adjustment rate of 3.01¢ per therm per month is added to the above commodity charge rate. This adjustment is occasioned solely by changes in the wholesale cost of purchased gas. (I)

MONTHLY MINIMUM CHARGE

One Hundred Twenty-five Dollars (\$125.00) for each billing month in which service is to be furnished. The minimum charge shall be prorated for each fractional billing month for which a bill is rendered. For each day or part of a day during any billing month in which the supply of gas hereunder is curtailed or interrupted by the Company for any reason or in which the customer's premises have been damaged by fire or other casualty so as to be unsuitable for the purpose of the customer's business, the minimum charge for such billing month shall be reduced by one-thirtieth (1/30).

COLLECTION CHARGE

On the first \$3.00 or less of net billing - 10%
On the next \$300.00 of net billing - 3%

APPLICATION OF COLLECTION CHARGE ON DELINQUENT BILLS

Bills shall be rendered and due monthly. If paid within fifteen (15) days from the due date thereof as stated in the bill, the net bill shall be the amount to be paid. If not paid within fifteen (15) days from the due date thereof, as stated in the bill, the gross bill, which includes the collection charge, shall be the amount to be paid. When the fifteenth day falls on Saturday, Sunday or any legal holiday, the first business day thereafter shall be added to the fifteen-day period.

volume of one cubic foot under the conditions existing in the customer's meter as and where installed. Where gas is metered at higher pressures (psig), the volume of gas measured shall be corrected to correspond to a saturated gas of standard conditions at an absolute pressure of 30 inches of ice cold mercury and at a temperature of 60 degrees Fahrenheit.

The properly authorized agents of the Company shall at all reasonable hours, have free access to the premises of the customer for the purpose of inspecting the customer's gas appliances and of reading, examining, repairing or removing the Company's meters or other property and for determining the extent of compliance with the terms of this schedule.

CONTRACT TERM

Each Service Contract shall be for a term of one (1) year and shall specify the period during such year when service shall be furnished thereunder; provided, however, that in cases where the Company is required to make a substantial special investment in facilities to furnish the service requested or where the customer desires a longer term contract, the initial term shall be for such period as the parties shall agree upon. Each Service Contract shall continue in effect thereafter for successive terms of one (1) year each unless written notice of intention to terminate is given by either party to the other at least sixty (60) days before the end of any term.

RESERVED RIGHT TO LIMIT ADDITIONAL CONTRACTS

This schedule is predicated on the availability to the Company of a sufficient natural gas supply to enable service hereunder to be made available during a major portion of each year without impairment of service to other customers. The Company, therefore, reserves the right to decline acceptance of any additional contracts for service hereunder at such a time as, in the Company's judgment, the volume of service already contracted for equals the gas supply available for this class of service.

SCHEDULE FOR
TOTAL ENERGY NATURAL GAS SERVICE

AVAILABILITY

Available to any customer located in the Company's service area using the Company's gas service as the sole fuel for the operation of a gas engine or turbine to produce mechanical or electrical energy, which turbine or engine must be located on the customer's premises. Service under this schedule will be supplied only to customers executing a Total Energy Contract which specifies daily and hourly delivery obligations of the Company.

APPLICABILITY AND CHARACTER OF SERVICE

Service under this rate schedule shall be separately metered and may include gas for the direct-firing of an auxiliary boiler supplementing engine or turbine waste heat recovery for other energy needs of the customer, provided that the rated horsepower of such auxiliary boiler shall not exceed the rated horse-power of such engine or turbine. Gas delivered hereunder shall be natural gas of approximately 1,000 BTU content per cubic foot.

COMMODITY CHARGE

First 800 cubic feet per month @ 21.0¢ per 100 cubic feet
Next 1,200 cubic feet per month @ 10.0¢ per 100 cubic feet
Next 98,000 cubic feet per month @ 8.0¢ per 100 cubic feet
Over 100,000 cubic feet per month @ 4.5¢ per 100 cubic feet

PURCHASED GAS ADJUSTMENT CHARGE

RULES AND REGULATIONS

1. WRITTEN APPLICATION OR CONTRACT REQUIRED

A written application or contract, properly executed, may be required from the Customer before the Company will supply service, provided, however, that the Company shall have the right to reject any application for any valid reason. The Company may require a long-term contract when unusual construction or equipment expense is necessary to furnish the service.

2. ALL AGREEMENTS TO BE INCORPORATED IN CONTRACT

No promises, agreements, or representations of any agent of the Company shall be binding upon the Company unless the same shall have been incorporated in a written contract before such contract is signed and approved.

3. ASSIGNMENT OF CONTRACT

The benefits and obligations of any contract shall inure and be binding upon the successors and assigns, survivors, and executors or administrators, as the case may be, of the original parties thereto, respectively, for the full term thereof; provided that no assignment thereof shall be made by the Customer without first obtaining the Company's written consent.

4. COMMENCEMENT OF SERVICE

Each Customer shall make application to the office of the Company, or to the resident agent of the Company in locations where the Company maintains no office, before gas service will be connected by the Company.

5. DISCONTINUANCE OF SERVICE

Whenever a Customer desires to have service discontinued, he shall notify the Company, at its local office (or the resident agent of the Company in locations where the Company maintains no office), of such desire and of the date on which service is to be discontinued, sufficiently in advance of such date to provide a reasonable time for the Company to obtain the final meter reading. Any Customer failing to give this notice of discontinuance of service to the Company will be held responsible for the payment of all bills rendered for gas service supplied to such premises.

Where a Customer has entered into a contract with the Company to take service from the Company for a definite period of time specified or provided in such contract and orders discontinuance of service before the expiration date as set out in the contract for service, the Customer shall be liable for the payment of the monthly minimum bills for the months remaining in the unexpired period of the contract term.

 Indianapolis, Indiana Address

RULES AND REGULATIONS

6. DATA ON CUSTOMER'S INSTALLATIONS TO BE FURNISHED

The Customer shall, upon request of the Company, present in writing to the Company a list of the equipment or appliances which are initially to be connected to the Company's lines, giving the location of the premises, and the Company will then advise the character of service and the conditions under which it will be furnished.

7. EXTENSION OF MAINS AND FACILITIES

Upon written request for service by a prospective Customer or a group of prospective Customers located in the same neighborhood, the Company will extend free of charge its facilities consisting of distribution mains, underground service pipes, meters and other equipment necessary to provide the service requested, provided (a) that the total estimated revenue from the prospective Customer or Customers for a period of four years is equivalent to or in excess of the estimated cost of providing such facilities and (b) the patronage or demand is of such permanency as to warrant the capital expenditure involved.

If the cost of the facilities consisting of distribution mains, underground service pipes, meters and other equipment necessary to provide the service requested exceeds the free limit, the Company may require a deposit of the cost of the extension above the free limit and will in such case, for each additional Customer connected to the extension within a period of eight years from the making of such extension, refund an amount by which four times the estimated annual revenue of the new Customer exceeds the cost of connecting such new Customer, but at no time shall the aggregate refund made to any Customer exceed the original deposit of such Customer.

If the extension is of such length, and the prospective business which may be developed by it is so meager as to make it doubtful whether the business from the extension would ever pay a fair return on the investment involved in such extension, or in the case of real estate development enterprises with slight or no immediate demand for service, or in the case of industrial installation requiring extensive equipment with slight or irregular service, such main extension will be made as provided for in Rules and Standards of Service of the Public Service Commission.

The obligation of the Company to provide an extension, however, is conditioned upon the ability of the Company to obtain all necessary materials, including pipe, fittings and meters necessary to make the extension without exceeding any limitations regarding the use of such materials, as might be promulgated by any governmental agency having jurisdiction thereof.

RULES AND REGULATIONS

8. SERVICE CONNECTIONS

The Company will locate the point to which service connection will be made, and, subject to the provisions of Rule No. 7 titled "Extension of Mains and Facilities," will furnish, install and maintain all underground piping up to the inlet of the meter. Risers in buildings where meters are set above the first floor shall be furnished and maintained by the Customer.

9. INSIDE PIPING

An applicant for service must, at his own expense, equip his premises with all necessary piping from the outlet of the meter which shall be constructed and maintained, subject to the approval of any authorized inspector, and in accordance with rules of the Company in force at the time. The Company shall be under no duty to inspect the piping and equipment of the Customer.

10. LOCATION OF COMPANY'S METERS AND SERVICES

The Customer shall provide free of expense to the Company, near the service entrance, a suitable place for the meter or meters and any necessary appurtenant devices, which may be furnished by the Company.

11. METERS TO BE INSTALLED BY THE COMPANY

All gas shall be measured by a meter or meters of standard manufacture, installed and maintained by the Company.

If more than one meter is installed for metering different classes of service, a separate bill shall be rendered for each meter in accordance with the applicable rate.

When for the convenience of the Company, or to meet legal requirements, more than one meter is installed for metering the same class of service on one premises, the sum of the measurements of all such meters shall be used in calculating the bill.

Where the Customer requires, for his convenience, that more than one meter be installed for metering the same class of service on one premises, a separate bill shall be rendered for each meter in accordance with the applicable rate.

Original Sheet No.	20

RULES AND REGULATIONS

12. MONTH

A "Month" means the period between any two consecutive regular readings by the Company of the meter or meters on the premises, such readings being taken as nearly as practicable every thirty (30) days.

13. PAYMENT OF BILLS

Bills will be rendered monthly and must be paid at the office of the Company, or to a duly authorized collection agency of the Company, during business hours. If a bill is not paid by the due date thereof as stated in the bill, the Customer shall be considered delinquent in payment and the Company may, upon three (3) days written notice, discontinue service. When the due date falls on Saturday, Sunday or any other legal holiday, the first business day thereafter shall be added to the due date. Failure to receive bill shall not entitle the Customer to pay the net bill if he fails to make payment by the due date, nor shall it affect the right of the Company to discontinue service for nonpayment of bill as provided above.

14. DEPOSIT

The Company may require from all applicants for gas service a cash deposit equal to the billing for the estimated amount of service to be used by such applicant for a period of sixty (60) days, as a guarantee against the non-payment of bills for service; provided, however, that if applicant is the owner of real property whose credit is approved by the Company or furnishes a written guarantee from an owner of real property whose credit is approved by the Company, the Company may waive such cash deposit. Such guarantee shall not make guarantor liable in an amount exceeding the charge for service furnished for a period of sixty days. Such cash deposit minus any unpaid amounts for service rendered the Customer shall be returned upon the discontinuance of service.

In all cases where two times the monthly billing is in excess of the deposit, the Company may increase the amount of deposit required, but such deposit shall not exceed an amount equal to an estimated sixty-day billing for such service.

Interest will be paid on deposits at the rate of six per cent (6%) per annum for the period between the date deposit is made to the time service to the depositor is discontinued, or the time the Company makes refund of the deposit to the depositor in case such refund is made while the depositor is taking service; provided, however, that interest shall not be paid on any deposit held for a period of less than six (6) months. The original deposit certificate issued to Customer should be presented when the deposit is refunded.

RULES AND REGULATIONS

15. PREDICATION OF RATES

The Company's rates are predicated upon the supply of service being rendered separately for each premises and the ultimate usage in or on such separate premises. The combining of service through one meter, of two or more separate classifications, or of two or more premises, or of two or more separate living quarters on the same premises, will not be permitted except as specifically provided for under these rules and regulations, or supplements thereto which are filed by the Company with and approved by the Public Service Commission, (See Rules 16 and 17). An outlying or adjacent building of the Customer, if located on the same premises, may be served from the supply to the main building, provided the use of such supply to the adjacent building is supplemental and similar to the usage in the main building. "Premises," as herein used, shall mean the main residence or living quarters for the use of a single family, or main building of a commercial or industrial Customer, and shall include the outlying or adjacent building used by the same, provided the use of service in the outlying building is supplemental and similar to the service used in the main residence or building. Customer shall install, own and maintain all piping necessary to supply outlying or adjacent buildings.

16. BUILDING CONTAINING TWO OR MORE SEPARATE LIVING QUARTERS

Where service is supplied through one meter to a residence having two or more separate living quarters, the service shall be considered a multiple service. For billing purposes, the minimum payment and the blocks of the rate shall be multiplied by the number of occupied living quarters supplied by the meter. This rule does not apply to rooming or apartment houses.

The Customer may rearrange the piping in the residence, at his own expense, so as to separate the multiple service and permit the Company to install a separate meter for each separate living quarter. In each such case, the reading of each such meter shall be billed separately.

17. COMBINED RESIDENTIAL AND COMMERCIAL SERVICE

Where both residential and commercial classes of service are supplied through one service and one meter to the same Customer on the same premises, the service shall be billed as one Customer. Where such service is being furnished to two or more Customers, for billing purposes the minimum payment and the blocks of the rate shall be multiplied by the number of residences and commercial concerns being served.

At the option of the Customer and at the Customer's expense, the piping on the Customer's premises may in any case be so rearranged as to permit the installation of meters for registering separately the commercial service and the residential service supplied. In each such case, the reading of each such meter shall be billed separately.

RULES AND REGULATIONS

18. RESALE OF SERVICE

Service will not be furnished under any schedule of the Company on file with the Commission to any Customer, applicant, or group of applicants for resale in whole or in part.

19. EQUIPMENT LOCATION PERMIT

The Customer shall obtain from the property owner or owners and deliver to the Company, on forms to be supplied by the Company, the necessary easements, consent or consents authorizing the installation and maintenance, on, over or through all private property, of all such piping or equipment as may be necessary or convenient for the supplying of the gas to be furnished by the Company.

20. COMPANY'S PROPERTY AND PROTECTION THEREOF

All meters and other equipment furnished by and at the expense of the Company, which may at any time be on or in Customer's premises, shall, unless otherwise expressly provided, be and remain the property of the Company, and the Customer shall protect such property from loss or damage, and no one who is not an agent of the Company shall be permitted to remove such property or tamper therewith.

21. ACCESS TO PREMISES

The properly authorized agents of the Company shall have the right to enter upon the premises of the Customer at all reasonable times for the purpose of reading, inspecting, testing, repairing, or replacing the meter or meters, or other equipment used in connection with its service, and for removing the same upon the termination of the contract or the discontinuance of the service.

22. FAILURE OF METER

Whenever it is discovered that a meter is not recording within the limits of accuracy as prescribed in the rules of the Public Service Commission, adjustment shall be made in accordance with such rules.

23. INTERRUPTION OF SERVICE, ETC.

The Company shall not be responsible in damages for any failure to supply gas or for an interruption of the supply of gas hereunder (whether or not such interruption is ordered by a governmental agency having jurisdiction), if such failure or interruption is due to the inability of Company to obtain from its regular and usual source of supply the gas to be delivered hereunder,

RULES AND REGULATIONS

or if such failure or interruption is due to any other cause whatsoever other than willful default or negligence on the part of Company, or for damages caused by defective piping or appliances on the Customer's premises, or for damages resulting to a Customer or to third persons from the presence or use of gas or the presence of the Company's equipment on the Customer's premises, unless due to fault, neglect, or culpability on the part of the Company. Neither party shall be liable to the other for any failure or delay in case such failure or delay is caused by strikes, the acts of God, or unavoidable accidents or contingencies beyond its control, and is not due to fault, neglect, or culpability on its part.

24. COMPANY RESERVES THE RIGHT TO SHUT OFF SUPPLY

The Company reserves the right to shut off the supply of gas without notice, for any of the following reasons: (1) for emergency repairs; (2) for want of supply; (3) for interference and/or tampering by anyone other than an authorized agent of the Company with any of the Company's regulators, meters, other appurtenances or connections thereto located on the premises of the customer; (4) for failure of the Customer to comply with the terms of the contract; (5) in case of the existence in the customer's house piping, or in connection with the customer's gas-using equipment, of any condition which in the Company's judgment would render it hazardous to continue the supply of gas, including, among others, the location of a gas water heater in a bedroom, bathroom or other small room, or the existence of an unvented gas water heater, incinerator, or space heating equipment, wherever located; and/or (6) for any other lawful reason. Such discontinuance shall not, however, invalidate any contract and the Company shall have the right to enforce any contract notwithstanding such discontinuance.

25. NOTIFY COMPANY BEFORE INCREASING LOAD

The service connections, regulators, meters and other devices supplied by the Company have definite capacity, and the Customer shall not install any gas space heating equipment of any kind or increase the demand for service by a substantial amount except upon written consent from the Company.

The Company reserves the right to refuse to supply natural gas for space heating purposes where its inspection of the equipment discloses an improper or unsafe installation and where the installation does not conform to the Company's installation standards.

RULES AND REGULATIONS

26. 3% UTILITY GROSS RECEIPTS LICENSE TAX FOR SCHOOLS

There will be added to all bills rendered to the customers of Ohio River Gas Company, Inc. in Carroll County, Kentucky, a 3% utility gross receipts license tax for schools pursuant to order of the Carroll County, Kentucky, Fiscal Court entered June 30, 1966.

There will be added to all bills rendered to the customers of Ohio River Gas Company, Inc. in Trimble County, Kentucky, a 3% utility gross receipts license tax for schools pursuant to order of the Trimble County, Kentucky, Fiscal Court entered August 22, 1966.

27. PROVISIONS AND CONDITIONS COVERING GAS SERVICE TO MOBILE HOME PARKS

(N)

The Company will extend its facilities to supply gas service to Mobile Home Parks, hereinafter called "Park", under the following conditions:

- A. Permanency. The Park must be of a definite permanent nature and have improved streets, individual water and sewer connections to each lot and each trailer must rest on a concrete slab.
- B. Size. The Park shall have at least ten (10) or more sites on which mobile homes may be located.
- C. Main Extensions. Main extensions shall be made in accordance with Rule 7 of these rules and regulations, but for purposes of Rule 7, each Park operator will be considered to be the customer and revenue estimates will be based on the Company's experience in gas usage of mobile homes, taking into account the number and nature of natural gas appliances to be used. Each Park operator will enter into a main extension contract for construction of gas mains if the Park does not have enough existing mobile homes equipped with gas appliances to justify gas main extension under Rule 7 hereof.
- D. Deposit. Each mobile home customer desiring gas service will make a cash deposit in the amount and under the terms specified in Rule 14 hereof.
- E. Easement. The Park operator shall cause the Company to be granted an easement in form and substance satisfactory to the Company for the construction, maintenance and operation of the Company's gas distribution system, together with the right of free access to read meters and repair or remove the Company's service regulators and meters.

RULES AND REGULATIONS

- F. Extension and Metering. The Company will, upon execution of a main extension contract or work order showing economic feasibility and receipt of a proper easement, construct and maintain the required distribution system to serve the Park. The Company will extend an individual service to each mobile home site to be supplied with gas service. Except in unusual circumstances requiring special construction, the gas riser and the meter for each mobile home site will be located in the rear one-third section of the site and not less than eighteen (18) inches from the roadside wall of the mobile home.
- G. Fuel Lines. The Park operator or mobile home customer shall furnish, install and maintain all fuel lines beyond the Company's meters to the point of connection with the mobile home piping. The fuel lines to individual trailer sites shall be:
 - (1) Adequately sized to provide minimum pressure drop, but in no case less than 3/4" pipe.
 - (2) Equipped with a terminal shutoff cock at a point adjacent to the mobile home.
 - (3) Connected to the mobile home piping with either a semi-rigid tube or all-metallic flexible connection which shall be looped to prevent strain caused by settling or movement of the mobile home.
 - (4) All mobile home piping shall meet ASA Z 21.30 Standards.
- H. Meter Protection. The Park operator shall provide substantial protection satisfactory to the Company for the gas riser and meter so as to minimize the likelihood of damage by moving of the mobile home.
- I. Relocation of Facilities. The Park operator shall keep the gas distribution system free and clear of any obstruction that will interfere with the maintenance of the system and shall not construct or maintain any structure over the Company's distribution mains. When there is a change in the Park's operation or construction which, in the judgment of the Company, makes the relocation of the natural gas facilities necessary, or if relocation is requested by the Park, the Company will move such facilities at the Park's expense to a location acceptable to the Company to be provided by the Park.
- J. Rate. Gas will be separately supplied to each single occupancy dwelling unit and such Park facility under the applicable rate.

RULES AND REGULATIONS

- K. Mobile Home Piping. The mobile home owner shall provide piping of adequate size to provide proper input to each appliance.
- L. Converting and Servicing Appliances. The Company will convert and service appliances in mobile homes in accordance with its established practice.

28. RESTRICTIONS ON GAS USE

(N)

In the event natural gas available to the Company from its pipeline suppliers is, at any time, insufficient to meet all demands of its connected Customers in any area served by the Company or to protect its underground storage cushion gas and current inventory gas, without its incurring an overrun, excess rate or other penalty under any contract or rate schedule pursuant to which it purchases natural gas, then within the service area or areas so affected, the Company may, upon such notice as is reasonably possible under the circumstances, require curtailments or interruptions of service by its Customers which shall be in the following order to the extent practicable:

- (1) Deliveries for interruptible service,
- (2) Deliveries to industrial and commercial Customers served on a firm basis using in excess of 150 Mcf of gas per day,
- (3) Deliveries to industrial and commercial customers served on a firm basis using in excess of 50 Mcf of gas per day,

provided that to the extent possible service shall be maintained to hospitals, nursing homes, educational institutions, apartments and churches except those served under interruptible rate schedules.

During any such curtailment or interruption of service the Company shall to the extent reasonably possible supply sufficient natural gas to firm Customers for plant protection levels which shall not exceed 10% of the contract volume for any such Customer.

Natural gas taken in excess of any required curtailment or interruption of service pursuant to this Rule shall constitute an unauthorized take for which the Customer shall be charged a penalty, in addition to the charges and penalties payable under applicable rate schedules, of \$10.00 per Mcf of such unauthorized take.

The terms and provisions of this Rule shall be applicable notwithstanding any provisions contained in any rate schedule of the Company, or in any contract or agreement between the Company and any Customer.

29. LIMITED SERVICE TO NEW CUSTOMERS

(N)

When sufficient volumes of natural gas are not available to the Company to meet all demands of all connected Customers, the Company shall not be required to supply firm or interruptible natural gas service to any new Customer except that firm gas service may be supplied to new residential and small commercial Customers for General Natural Gas Service (excluding gas used for space heating purposes) and General Space Heating Natural Gas Service. Volumes of gas for residential and small commercial Customers shall be allowed where the volume required is not greater than 420 cubic feet of gas per hour. One-hundred (100) cubic feet of gas per hour shall be allowed for each individual living unit in a multiple housing unit where individual heating units are used, up to a maximum of 3,000 cubic feet per hour through each meter installation.

PURCHASED GAS ADJUSTMENT CLAUSE

A. CHANGE IN SUPPLIER'S RATES

On and after the effective date of this provision, any increase or decrease in the rates charged by the Company's gas supplier will cause to be filed by the Company an Application requesting authorization to adjust the unit charges in all rate schedules by means of a Purchased Gas Adjustment determined as follows:

- (1) Volumes of gas purchased by the Company under supplier's applicable rate schedule during a period of twelve calendar months ending within two months preceding the month of the effective date of the supplier rate change will be determined. Such purchases shall be priced:
 - (a) At the Base Supplier Rate
 - (b) At the New Supplier Rate
- (2) The difference between the annual purchased gas costs so determined shall be divided by the volume of gas purchased by Company during the said twelve-month period. The unit charge or credit so determined, expressed in cents per hundred cubic feet, shall be the Purchased Gas Adjustment.
- (3) The new supplier rate shall become the Base Supplier Rate to be used in measuring the effect of any subsequent supplier rate change. Each such subsequent change shall be treated in the same manner as set forth above for the establishment of a new Purchased Gas Adjustment rate and for the establishment of a new Base Supplier Rate.

B. REFUNDS

In the event that the Company receives from its supplier a refund of purchased gas costs paid to such supplier, the Company will apply to the Commission for authority to reduce the unit charges in all rate schedules by means of a reduction to the Purchased Gas Adjustment rate as follows:

- (1) The refundable amount shall be the amount received by the Company as a refund. Such refundable amount shall be divided by the volume of gas that Company estimates it will sell to its customers during a specified future period, thus determining a refund factor.
- (2) The Company will reduce its Purchased Gas Adjustment rate that would otherwise be applicable during the refund period by the refund factor amount. Provided, however, that the period of reduced Purchased Gas Adjustment will be altered, if necessary, in order to refund as nearly as possible the refundable amount.
