 Covington, Kentucky

SECTION V - METERING

21. Installation of Meters.

Electricity will be measured by a meter or meters to be installed by Company upon Customer's premises at a point most convenient for Company's service drop, and upon the registration of said meter or meters all bills will be calculated. Company will install upon Customer's premises but one meter or one unified set of meters of each standard service connection.

22. Meter Tests.

All meter tests shall be made in accordance with rules by the Public Service Commission of Kentucky.

SECTION VI - BILLING AND PAYMENT

23. Billing Periods - Time and Place for Payment of Bills.

Bills ordinarily are rendered regularly at monthly intervals, but may be rendered more or less frequently at Company's option. Non-receipt of bills by Customer does not release or diminish the obligation of Customer with respect to payment thereof.

The word "month" as it pertains to the supply of service shall mean the period of approximately thirty days between meter readings as fixed and made by Company. Meters are ordinarily read at monthly intervals but may be read more or less frequently at Company's option. Company shall have the right to establish billing districts for the purpose of reading meters and rendering bills to customers at various dates. A change or revision of any Rate Schedule shall be applicable to all bills on which the initial monthly meter reading was taken on or after the effective date of such change or revision, except as otherwise ordered by the Public Service Commission of Kentucky.

Bills are due on the date indicated thereon as being the last date for payment of the net amount, and bills are payable only at the Company's offices or authorized agencies for collection. If a partial payment is made, the amount will be applied to items of indebtedness in the same order as they have accrued.

The Company may issue interim bills based on average normal usage instead of determining actual usage by reading the meter. Interim bills may also be used when access to Company's meter cannot be obtained or emergency conditions exist.

Interim bills will be considered payable by the due date and if not then paid will be handled in the same manner as all other bills; provided, however, partial payment of at least one-half of the interim bill, in addition to full payment of any unpaid service charges previously billed and other billed items, will avoid the delayed payment charge on the interim bill.

The Company will continue monthly meter reading upon a Customer's request.

24. Charge for Restoring Service for Non-Payment of Bill and Unlawful Use of Service.

(I) Company may charge and collect in advance the sum of three dollars (\$3.00) for reconnecting a Customer's service after service is disconnected because of non-payment of bill when due. In case service is discontinued because of fraudulent use thereof Company may charge and collect the sum of three dollars (\$3.00) and in addition thereto the expenses incurred by Company by reason of such fraudulent use, together with an estimated bill for electricity used, before the service is reconnected. If both gas and electric services are reconnected at one time, the total charge shall be four dollars (\$4.00).

25. Temporary Discontinuance of Service.

(I) If any Customer on a residential rate, because of absence or otherwise, shall notify Company in writing to discontinue service, Company will make no minimum charge for any full meter reading period during the period of discontinuance; provided, however, that Company may charge and collect the sum of three dollars (\$3.00) prior to reconnecting a service which was discontinued at Customer's request within the preceding twelve months.

26. Selection of Rate Schedule.

When a prospective Customer makes application for service, Company will, upon request, assist in the selection of the Rate Schedule most favorable to Customer for the service requested. The selection will be based on the prospective Customer's statement as to the class of service desired, the amount and manner of use, and any other pertinent information.

27. Change to Optional Rate Schedule.

A Customer being billed under one of two or more optional Rate Schedules applicable to his class of service may elect to be billed on any other applicable Rate Schedule by notifying Company in writing, and Company will bill Customer under such elected Schedule from and after the date of the next meter reading. However, a Customer having made such a change of Rate Schedule may not make another such change within the next twelve months.

SECTION VII - DEPOSITS

28. Deposits.

Company maintains the right at any time to require Customer to make a reasonable deposit in advance to secure the prompt payment of bills, as provided by law.

Issued: August 30, 1974

Issued by B. John Yeager, President  
Covington, Kentucky

Effective August 26, 1974

Issued by authority of an order of the Public Service Commission of Kentucky in  
Case No. 5932, dated August 26, 1974.

SECTION VI - BILLING (Cont'd)

The Company may issue interim bills based on average normal usage instead of determining actual usage by reading the meter. Interim bills may also be used when access to Company's meter cannot be obtained or emergency conditions exist.

Interim bills will be considered payable by the due date and if not then paid will be handled in the same manner as all other bills; provided however, partial payment of at least one-half of the interim bill, in addition to full payment of any unpaid service charges previously billed and other billed items, will avoid the delayed payment charge on the interim bill.

The company will continue monthly meter reading upon a customer's request.

25. Charge for Restoring Service for Non-Payment of Bill and Unlawful Use of Service.

(C) Company may charge and collect in advance the sum of four dollars (\$4.00) for reconnecting a customer's service after service is disconnected because of non-payment of bill when due. In case service is discontinued because of fraudulent use thereof Company may charge and collect the sum of four dollars (\$4.00) and in addition thereto the expenses incurred by Company by reason of such fraudulent use, together with an estimated bill for gas used before the service is reconnected. If both gas and electric services are reconnected at one time the total charge shall be six dollars (\$6.00).

26. Temporary Discontinuance of Service.

(C) If any residential customer, because of absence or otherwise, shall notify Company in writing to discontinue service, Company will make no minimum charge for any full meter reading period during the period of discontinuance; provided however, that Company may charge and collect the sum of four dollars (\$4.00) prior to reconnecting a service which was discontinued at customer's request within the preceding twelve months.

SECTION VII - DEPOSITS

27. Deposits.

Company maintains the right at any time to require customer to make a reasonable deposit in advance to secure the prompt payment of bills, as provided by law.

SECTION VIII - APPLICATION

28. Application of Service Regulations and Rate Schedules.

All Service Agreements at present in effect or that may be entered into in the future are made expressly subject to these Service Regulations and any modifications hereof that may be lawfully made, and subject to all applicable existing Rate Schedules and any lawfully made changes therein, substitutions therefor or additions thereto.

29. Agents Cannot Modify Agreement.

No agent has the right to amend, modify or alter the application rates, terms, conditions, rules or regulations as filed with the Public Service Commission of Kentucky, or to make any promise or representation not contained in the Company's schedules, supplements thereto and revisions thereof, lawfully filed with said Commission.

SECTION IX - GAS SPACE HEATING REGULATIONS

30. Gas Space Heating Regulations.

a. The Company shall not be required to supply gas for new or additional space heating equipment installed from and after the effective date hereof unless the consumer present or prospective, makes written application to the Company for such supply at a specific address and receives written approval from the Company therefor. An approval for the use of gas for space heating is not transferable from one premise to another except by written approval from the Company.

b. If any consumer fails to install gas-fired space heating equipment pursuant to said approval within one year from the date of issuance thereof fails to demonstrate to the Company's satisfaction before the expiration of said period that he intends to avail himself of the use of such gas under such approval with due diligence, the Company may cancel, nullify and void such approval.

c. The Company need not issue an approval for the utilization of gas for space heating purposes in a commercial or industrial building for new or additional heating equipment having a total rated input capacity in excess of 1,000,000 Btu per hour, unless the applicant shall install standby facilities having a capacity satisfactory to the Company and shall agree in writing with the Company to use such standby facilities and discontinue the use of gas for space heating when and for such periods of time as the Company may request. In the event the use of gas for space heating by such consumer is not promptly discontinued at the request of the Company, the latter, upon discovery thereof, is authorized to discontinue all gas service to such consumer until such time as the gas space heating equipment has been disconnected. Where such action is necessary on the part of the Company it may cancel, nullify and void such approval.

d. Should any consumer fail to comply with these gas space heating regulations, the Company, upon discovery thereof, and after giving ten days notice to such consumer, is authorized to disconnect his gas service until such time as these regulations are complied with.

RATE GS  
GENERAL SERVICE

AVAILABILITY

Available in communities indicated on Sheet 2 of this tariff where distribution mains are adjacent to the premise to be served.

APPLICABILITY

Applicable to gas service required for any purpose by an individual customer on one premise when supplied at one point of delivery.

NET MONTHLY BILL

Computed in accordance with the following charges:

	Base Rate	Gas Cost Adjustment	Temporary Refund Adjustment	Total Rate
(I) First 1,000 cubic feet at	36.08¢ plus	4.03¢ minus	0.00¢	equals 40.11¢ per 100 cu.ft.
Next 1,000 cubic feet at	24.29¢ plus	4.03¢ minus	0.00¢	equals 28.32¢ per 100 cu.ft.
Next 4,000 cubic feet at	21.59¢ plus	4.03¢ minus	0.00¢	equals 25.62¢ per 100 cu.ft.
Next 144,000 cubic feet at	20.69¢ plus	4.03¢ minus	0.00¢	equals 24.72¢ per 100 cu.ft.
Additional cubic feet at	19.99¢ plus	4.03¢ minus	0.00¢	equals 24.02¢ per 100 cu.ft.

The "Gas Cost Adjustment," as shown above, is an adjustment per 100 cubic feet determined in accordance with "Gas Cost Adjustment" set forth on Sheet No. 9 of this tariff.

Minimum: \$3.35 per month.

When bills are rendered less frequently than monthly the time related units such as cubic feet blocks, minimum or other charges, will be billed in accordance with the number of billing months in the meter reading interval.

PAYMENT

The Net Monthly Bill is payable within fourteen (14) days from date. When not so paid, the Gross Monthly Bill, which is the Net Monthly Bill plus 5%, is due and payable.

TERM OF SERVICE

One year, terminable thereafter on ten (10) days written notice by either customer or Company.

SERVICE REGULATIONS

The supplying of, and billing for, service and all conditions applying thereto, are subject to the jurisdiction of the Public Service Commission of Kentucky, and to Company's Service Regulations currently in effect, as filed with the Public Service Commission of Kentucky, as provided by law.

Issued: May 27, 1977

*W. H. Dickhoner*  
 Issued by W. H. Dickhoner, President  
 Covington, Kentucky

Effective: May 24, 1977

**RATE GS**

**GENERAL SERVICE**

**AVAILABILITY**

Available in communities indicated on Sheet 2 of this tariff where distribution mains are adjacent to the premise to be served.

**APPLICABILITY**

Applicable to gas service required for any purpose by an individual customer on one premise when supplied at one point of delivery.

**NET MONTHLY BILL**

Computed in accordance with the following charges:

	<u>Base Rate</u>		<u>Gas Cost Adjustment</u>		<u>Temporary Refund Adjustment</u>		<u>Total Rate</u>
(I) First 1,000 cubic feet at 36.08¢	plus	2.33¢	minus	1.17¢	equals	37.24¢	per 100 cu.ft.
Next 1,000 cubic feet at 24.29¢	plus	2.33¢	minus	1.17¢	equals	25.45¢	per 100 cu.ft.
Next 4,000 cubic feet at 21.59¢	plus	2.33¢	minus	1.17¢	equals	22.75¢	per 100 cu.ft.
Next 144,000 cubic feet at 20.69¢	plus	2.33¢	minus	1.17¢	equals	21.85¢	per 100 cu.ft.
Additional cubic feet at 19.99¢	plus	2.33¢	minus	1.17¢	equals	21.15¢	per 100 cu.ft.

The "Gas Cost Adjustment", as shown above, is an adjustment per 100 cubic feet determined in accordance with "Gas Cost Adjustment" set forth on Sheet No. 9 of this tariff.

Minimum: \$3.35 per month.

When bills are rendered less frequently than monthly the time related units such as cubic feet blocks, minimum or other charges, will be billed in accordance with the number of billing months in the meter reading interval.

**PAYMENT**

The Net Monthly Bill is payable within fourteen (14) days from date. When not so paid, the Gross Monthly Bill, which is the Net Monthly Bill plus 5%, is due and payable.

**TERM OF SERVICE**

One year, terminable thereafter on ten (10) days written notice by either customer or Company.

**SERVICE REGULATIONS**

The supplying of, and billing for, service and all conditions applying thereto, are subject to the jurisdiction of the Public Service Commission of Kentucky, and to Company's Service Regulations currently in effect, as filed with the Public Service Commission of Kentucky, as provided by law.

RIDER R-ACS-1  
SUMMER AIR CONDITIONING SERVICE

AVAILABILITY

Available in entire territory to which tariff P.S.C. Ky. No. 2 applies and applicable to Rate G-1.

APPLICABILITY

Applicable to residential customers for gas service for the operation of absorption type Summer Air Conditioning equipment during the period extending from the customer's meter reading occurring between May 15 and June 15, inclusive, to the customer's meter reading occurring between September 15 and October 15, inclusive, provided customer's building or premise is air conditioned by the utilization of gas as the principal energy supply. The above dates are subject to change by the Company upon thirty (30) days notice.

NET MONTHLY BILL

Computed in accordance with the following charges:

There will be billed at the applicable standard rate 6,000 cubic feet.

All additional gas used will be billed at:

(I) 12.41¢ per 100 cubic feet.

Plus or minus an adjustment per Mcf determined in accordance with the "Gas Cost Adjustment" set forth on Sheet No. 9 of this tariff.

Minimum: The minimum as stated in the applicable standard rate.

SERVICE REGULATIONS

The supplying of, and billing for, service and all conditions applying thereto, are subject to the jurisdiction of the Public Service Commission of Kentucky, and to Company's Service Regulations currently in effect, as filed with the Public Service Commission of Kentucky, as provided by law.

GAS COST ADJUSTMENT  
APPLICABLE TO ALL FIRM SALES

A. Change in Rate

Whenever a change occurs in the rates of a major supplier of the Company, the Company shall submit to the Public Service Commission of Kentucky as soon as practicable an Application setting forth the change in cost of gas per MCF of the Company's gas sales which shall be determined as follows:

- (1) The effect per Mcf sales of a change in cost of gas shall be determined by:
  - (a) applying the currently effective tariffs to:
    - (i) the Company's most recent billing demands, applicable to each such respective tariff, and
    - (ii) the average monthly volume of gas purchased, applicable to each such respective tariff, by the Company during the most recently available 12 month period after the deduction of off peak gas sales including unaccounted for gas in proportion to total sales.
  - (b) reducing the total average monthly cost, as determined in (a) above, by the average monthly cost of firm gas sold to The Cincinnati Gas & Electric Company under The Union Light, Heat and Power Company's Tariff X-5.
  - (c) dividing the average monthly cost of gas calculated in (a) and (b) above by the average monthly volume of gas sales during the twelve month period after the deduction of off peak sales and sales under other special contracts, comparing the resulting quotient to the pro forma average cost per Mcf of firm gas sales as of the effective date of these proposed rates. The difference so derived to the nearest 0.1 cent shall represent the effect of change(s) in gas cost per Mcf of sales. The pro forma average cost of firm gas as of April 1, 1975, calculated in accordance with (a), (b) and (c) herein has been determined to be 119.62¢ per Mcf. The pro forma average cost of off peak gas has been determined to be 88.03¢ per Mcf.
- (T)
- (2) The rates as stated in the applicable rate sheets shall be decreased or increased, with gas delivered to customers on and after the effective date of a change in city gate tariffs, by application of a Gas Cost Adjustment for the combined decrease or increase in cost of gas as determined in (1) above and approved by the Commission. When meter readings are not available the gas volume for the meter reading period will be prorated by the number of days in the period.

B. Refund Adjustment

When accumulated refunds received by the Company from its gas suppliers are sufficient to indicate that a change in Refunding Rate per Mcf will occur, the Company will:

- (1) Summarize the demand, commodity and interest received portions of the refund amounts. Should a refund amount be received by the Company with undesignated dollars, such amount shall be treated as a commodity portion.
- (2) Allocate the interest as between commodity and demand on the basis of the demand and/or commodity portion of dollars received.
- (3) Calculate the Off Peak Refunding Rate per Mcf as follows:
  - (a) divide the commodity portion (including allocated interest received) by the total Mcf of gas sales for the prior 12 month period. The resulting quotient, rounded to the nearest 0.1 cent, shall represent the Off Peak Refunding Rate per Mcf.

*Handwritten initials: SM*

- (b) calculate the total refund for off peak customers by multiplying the Off Peak Refunding Rate per Mcf times the total prior 12 month period Mcf off peak sales.
- (4) Calculate the Firm Use Refunding Rate per Mcf as follows:
- (a) deduct from the total refund dollars received by Company the total refund due the off peak customers as calculated in (3) (b) above to determine the portion of the refund applicable to firm sales. Divide the firm sales portion (including allocated interest received and any amounts carried forward from prior refunds) by the total Mcf of gas sales, less sales to off peak and other special contract customers, for the prior 12 month period. The resulting quotient, rounded to the nearest 0.1 cent, shall represent the Firm Use Refunding Rate per Mcf.
  - (b) reduce the rate as stated in the applicable rate sheets by subtracting the Firm Refunding Rate per Mcf from the Gas Cost Adjustment per Mcf to develop a Net Rate Adjustment per Mcf to be applied to firm gas sales until the total net refund determined above, less the amount applicable to interdepartmental sales, has been substantially distributed. The refund amount applicable to interdepartmental sales shall be determined by application of the Firm Refunding Rate per Mcf to the interdepartmental sales volume for the prior 12 month period.
  - (c) amounts not distributed or amounts over distributed under (b) above, due to the impracticability of distributing the exact amount of the total net refund available, shall be carried forward and added to, if under distributed, or subtracted from, if over distributed, future refunds and distributed as provided in (4) (a) and (b) above.
  - (d) Company may use its discretion in determining whether to initiate a new effective Refunding Rate or to extend the refund period at current rates where the Refunding Rate determined in (4) (a) above is less than 0.1¢ per Mcf or where a short term variation in the Net Rate Adjustment per Mcf can be avoided in consideration of a recent or impending change either in the Gas Cost Adjustment or Refunding Rate.
- (5) Credit interest as directed by the Commission, on any unrefunded balance retained longer than four (4) months from the beginning of the refund period and include such interest in the amount to be refunded.

C. Major Supplier Defined

For the purposes of this Gas Cost Adjustment, a major supplier shall include all historic gas sources and that source of non-historic supply from Columbia LNG Corporation, known as the Green Springs Reforming Plant (SPQ Gas); however, non-historic sources, without further authorization, shall be limited to said SPQ Gas.

Issued pursuant to Order of the Public Service Commission of Kentucky, dated June 5, 1975 and September 18, 1975 in Case No. 6107.

Issued: September 29, 1975

Issued by W. H. Dickhoner, President  
Covington, Kentucky

Effective: March 17, 1975  
By Refund

RATE F  
Special Contract - Firm Use

AVAILABILITY

Available in the Company's entire service area where distribution mains are adjacent to the premise to be served.

APPLICABILITY

This rate schedule is applicable for the Firm Gas Use portion of the monthly use of any customer who enters into a written Off Peak Service Agreement with the Company which Off Peak Service Agreement shall specify, among other rules and regulations, the customer's Firm Use; i.e., the Contract Demand multiplied by thirty (30).

NET MONTHLY BILL

Computed in accordance with the following charges:

- (I) All Firm Use billed at 14.42¢ per 100 cubic feet.

Plus or minus an adjustment per Mcf determined in accordance with the "Gas Cost Adjustment" set forth on Sheet No. 9 of this tariff.

Minimum: Twenty-five (25) percent of the cost of the customer's firm use of gas as defined in the Service Agreement, or \$1,700 whichever is larger, for seven (7) months following the initial meter reading taken on or after April 1, of any year.

PAYMENT

The Net Monthly Bill is payable within fourteen (14) days from date. When not so paid, the Gross Monthly Bill, which is the Net Monthly Bill plus 3%, is due and payable.

TERM OF SERVICE

One year, terminable thereafter on thirty (30) days written notice by either customer or Company.

SERVICE REGULATIONS

The supplying of, and billing for, service and all conditions applying thereto, are subject to the jurisdiction of the Public Service Commission of Kentucky, and to Company's Service Regulations currently in effect, as filed with the Public Service Commission of Kentucky, as provided by law.
