BILL NO. 247

RATE GS  
GENERAL SERVICE

AVAILABILITY

Available in communities indicated on Sheet 2 of this tariff where distribution mains are adjacent to the premise to be served.

APPLICABILITY

Applicable to gas service required for any purpose by an individual customer on one premise when supplied at one point of delivery.

NET MONTHLY BILL

Computed in accordance with the following charges:

Customer Charge per month:  
Residential Service \$3.00  
Non-Residential Service \$4.00

	<u>Base Rate</u>		<u>Gas Cost Adjustment</u>		<u>Temporary Refund Adjustment</u>		<u>Total Rate</u>
All gas used	52.15¢	plus	0.00¢	minus	0.00¢	equals	52.15¢ per 100 cu. ft.

The "Gas Cost Adjustment" as shown above, is an adjustment per 100 cubic feet determined in accordance with "Gas Cost Adjustment" set forth on Sheet No. 9 of this tariff.

Minimum Bill: The minimum monthly charge shall be the customer charge as stated above.

When bills are rendered less frequently than monthly the time related units such as cubic feet blocks, minimum or other charges, will be billed in accordance with the number of billing months in the meter reading interval.

PAYMENT

Payment of the Net Monthly Bill must be received in the Company's office within twenty-one (21) days from the date the bill is mailed by the Company. When not so paid, the Gross Monthly Bill, which is the Net Monthly Bill plus 5%, is due and payable.

TERM OF SERVICE

One year, terminable thereafter on ten (10) days written notice by either customer or Company.

SERVICE REGULATIONS

The supplying of, and billing for, service and all conditions applying thereto, are subject to the jurisdiction of the Kentucky Public Service Commission, and to Company's Service Regulations currently in effect, as filed with the Kentucky Public Service Commission, as provided by law.

Issued by authority of an Order of the Kentucky Public Service Commission, dated April 16, 1982 in Case Nos. 8373, 8419 and 8469.

Issued: April 20, 1982

RIDER R-ACS-1

SUMMER AIR CONDITIONING SERVICE

AVAILABILITY

Available in communities indicated on Sheet 2 of this tariff and applicable to Rate GS.

APPLICABILITY

Applicable to residential customers for gas service for the operation of absorption type Summer Air Conditioning equipment during the period extending from the customer's meter reading occurring between May 15 and June 15, inclusive, to the customer's meter reading occurring between September 15 and October 15, inclusive, provided customer's building or premise is air conditioned by the utilization of gas as the principal energy supply. The above dates are subject to change by the Company upon thirty (30) days notice. This rider is available only to customers to whom service was supplied in accordance with its terms on November 12, 1981 at the premise served on that date, and to such customers as can show to the satisfaction of the Company that prior to November 12, 1981, they had contracted for the purchase or installation, or both, of absorption type summer air conditioning equipment for a particular premise.

NET MONTHLY BILL

Computed in accordance with the following charges:

First 6,000 cubic feet at the applicable standard rate, Rate GS, General Service.

All additional gas used will be billed at:

48.12¢ per 100 cubic feet.

Plus or minus an adjustment per Mcf determined in accordance with the "Gas Cost Adjustment" set forth on Sheet No. 9 of this tariff.

Minimum: The minimum as stated in the applicable standard rate, Rate GS, General Service.

SERVICE REGULATIONS

The supplying of, and billing for, service and all conditions applying thereto, are subject to the jurisdiction of the Kentucky Public Service Commission and to Company's Service Regulations currently in effect, as filed with the Kentucky Public Service Commission, as provided by law.

GAS COST ADJUSTMENT  
APPLICABLE TO ALL FIRM SALES

A. Change in Rate

Whenever a change occurs in the rates of a major supplier of the Company, the Company shall submit to the Energy Regulatory Commission of Kentucky as soon as practicable an Application setting forth the change in cost of gas per MCF of the Company's gas sales which shall be determined as follows:

- (1) The effect per MCF sales of a change in cost of gas shall be determined by:
  - (a) applying the currently effective tariffs to:
    - (i) the Company's most recent billing demands, applicable to each such respective tariff, and
    - (ii) the average monthly volume of gas purchased, applicable to each such respective tariff, by the Company during the most recently available 12 month period after the deduction of off peak gas sales including unaccounted for gas in proportion to total sales.
  - (b) adding to the cost of gas purchased as determined in (a) above the average monthly cost of propane feed stock used during the most recent 12 month period for which data is available in the production of gas, less the cost of propane feed stock used in the manufacture of gas for sales to interruptible, off peak or otherwise non-firm customers, in order to avert penalties or curtailment of firm customers when gas requirements might exceed allowable daily seasonal or annual volumes taken from its suppliers.
  - (c) reducing the total average monthly cost, as determined in (a) and (b) above, by the average monthly cost of firm gas sold to The Cincinnati Gas & Electric Company under The Union Light, Heat and Power Company's Tariff X-5.
  - (d) dividing the average monthly cost of gas calculated in (a), (b) and (c) above by the average monthly volume of gas sales during the twelve month period after the deduction of off peak sales and sales under other special contracts, comparing the resulting quotient to the pro forma average cost per MCF of firm gas sales as of the effective date of these proposed rates. The difference so derived to the nearest 0.1 cent shall represent the effect of change(s) in gas cost per MCF of sales.
- (2) The rates as stated in the applicable rate sheets shall be decreased or increased, with gas delivered to customers on and after the effective date of a change in tariffs, by application of a Gas Cost Adjustment for the combined decrease or increase in cost of gas as determined in (1) above and approved by the Commission. When meter readings are not available the gas volume for the meter reading period will be prorated by the number of days in the period.

B. Refund Adjustment

When accumulated refunds received by the Company from its gas suppliers are sufficient to indicate that a change in Refunding Rate per MCF will occur, the Company will:

- (1) Summarize the demand, commodity and interest received portions of the refund amounts. Should a refund amount be received by the Company with undesignated dollars, such amount shall be treated as a commodity portion.
- (2) Allocate the interest as between commodity and demand on the basis of the demand and/or commodity portion of dollars received.
- (3) Calculate the Off Peak Refunding Rate per MCF as follows:
  - (a) divide the commodity portion (including allocated interest received) by the total MCF of gas sales for the prior 12 month period. The resulting quotient, rounded to the nearest 0.1 cent, shall represent the Off Peak Refunding Rate per MCF.
  - (b) calculate the total refund for off peak customers by multiplying the Off Peak Refunding Rate per MCF times the total prior 12 month period MCF off-peak sales.

Issued pursuant to an Order of the Energy Regulatory Commission of Kentucky, dated April 13, 1979, in Case No. 7268.

Issued: April 23, 1979

  
Issued by W. H. Dickhoner, President

(4) Calculate the Firm Use Refunding Rate per MCF as follows:

- (a) deduct from the total refund dollars received by Company the total refund due the off peak customers as calculated in (3) (b) above to determine the portion of the refund applicable to firm sales. Divide the firm sales portion (including allocated interest received and any amounts carried forward from prior refunds) by the total MCF of gas sales, less sales to off peak and other special contract customers, for the prior 12 month period. The resulting quotient, rounded to the nearest 0.1 cent, shall represent the Firm Use Refunding Rate per MCF.
- (b) reduce the rate as stated in the applicable rate sheets by subtracting the Firm Use Refunding Rate per MCF from the Gas Cost Adjustment per MCF to develop a Net Rate Adjustment per MCF to be applied to firm gas sales until the total net refund determined above, less the amount applicable to interdepartmental sales, has been substantially distributed. The refund amount applicable to interdepartmental sales shall be determined by application of the Firm Use Refunding Rate per MCF to the interdepartmental sales volume for the prior 12 month period.
- (c) amounts not distributed or amounts over distributed under (b) above, due to the impracticability of distributing the exact amount of the total net refund available, shall be carried forward and added to, if under distributed, or subtracted from, if over distributed, future refunds and distributed as provided in (4) (a) and (b) above.
- (d) Company may use its discretion in determining whether to initiate a new effective Refunding Rate or to extend the refund period at current rates where the Refunding Rate determined in (4) (a) above is less than 0.1¢ per MCF or where a short term variation in the Net Rate Adjustment per MCF can be avoided in consideration of a recent or impending change either in the Gas Cost Adjustment or Refunding Rate.

(5) Credit interest as directed by the Commission.

C. Major Supplier Defined

For the purpose of this Gas Cost Adjustment, a major supplier shall include all historic gas sources and that source of non-historic supply from Columbia LNG Corporation, known as the Green Springs Reforming Plant (Synthetic Gas); however, non-historic sources, without further authorization shall be limited to said Synthetic Gas.

D. Base Rate

- (I) For the future application of this Gas Cost Adjustment clause the base rate for firm gas is \$2.0639 per MCF.

Issued pursuant to an Order of the Energy Regulatory Commission of Kentucky, dated April 13, 1979, in Case No. 7268

RATE F  
Special Contract - Firm Use

AVAILABILITY

Available in the Company's entire service area where distribution mains are adjacent to the premise to be served.

APPLICABILITY

This rate schedule is applicable for the Firm Gas Use portion of the monthly use of any customer who enters into a written Off Peak Service Agreement with the Company which Off Peak Service Agreement shall specify, among other rules and regulations, the customer's Firm Use; i.e., the Contract Demand multiplied by thirty (30).

NET MONTHLY BILL

Computed in accordance with the following charges:

	<u>Base Rate</u>		<u>Gas Cost Adjustment</u>		<u>Temporary Refund Adjustment</u>		<u>Total Rate</u>
All Firm Use	49.13¢	plus	0.00¢	minus	0.00¢	equals	49.13¢ per 100 cu. ft.

Plus or minus an adjustment per Mcf determined in accordance with the "Gas Cost Adjustment" set forth on Sheet No. 9 of this tariff.

Minimum: Twenty-five (25) percent of the cost of the customer's firm use of gas as defined in the Service Agreement, or \$1,950 whichever is larger, for seven (7) months following the initial meter reading taken on or after April 1, of any year.

PAYMENT

Payment of the Net Monthly Bill must be received in the Company's office within twenty-one (21) days from the date the bill is mailed by the Company. When not so paid, the Gross Monthly Bill, which is the Net Monthly Bill plus 5%, is due and payable.

TERM OF SERVICE

One year, terminable thereafter on thirty (30) days written notice by either customer or Company.

SERVICE REGULATIONS

The supplying of, and billing for, service and all conditions applying thereto, are subject to the jurisdiction of the Public Service Commission of Kentucky, and to Company's Service Regulations currently in effect, as filed with the Public Service Commission of Kentucky, as provided by law.

Issued by authority of an Order of the Kentucky Public Service Commission, dated April 16, 1982 in Case Nos. 8373, 8419 and 8469.

Off Peak

AVAILABILITY

Available in the Company's entire service area where distribution mains are adjacent to the premise to be served.

APPLICABILITY

This rate schedule is applicable for the Off Peak Gas Use portion of the monthly use of any customer who enters into a written Off Peak Service Agreement with the Company which Off Peak Service Agreement shall specify, among other rules and regulations, the customer's Firm Use; i.e., the Contract Demand multiplied by thirty (30).

NET MONTHLY BILL

Computed in accordance with the following charges:

- (1) Firm Use shall be billed in accordance with Rate F, Special Contract-Firm Use;
- (2) Off Peak Gas (i.e., Gas in excess of Firm Use) shall be billed in accordance with the following:

	<u>Base Rate</u>		<u>Gas Cost Adjustment</u>		<u>Total Rate</u>
All Consumption	23.30¢	plus	17.39¢	equals	40.69¢ per 100 cu. ft.

Plus or minus an adjustment per Mcf determined in accordance with the "Gas Cost Adjustment" set forth on Sheet No. 15 of this tariff.

Minimum: Twenty-five (25) percent of the cost of the customer's firm use of gas as defined in the Service Agreement, or \$1,950 whichever is larger, for seven (7) months following the initial meter reading taken on or after April 1, of any year.

PAYMENT

Payment of the Net Monthly Bill must be received in the Company's office within twenty-one (21) days from the date the bill is mailed by the Company. When not so paid, the Gross Monthly Bill, which is the Net Monthly Bill plus 5%, is due and payable.

TERM OF SERVICE

One year, terminable thereafter on thirty (30) days written notice by either customer or Company.

SERVICE REGULATIONS

The supplying of, and billing for, service and all conditions applying thereto are subject to the jurisdiction of the Public Service Commission of Kentucky, and to Company's Service Regulations currently in effect, as filed with the Public Service Commission of Kentucky, as provided by law.

Issued by authority of an Order of the Public Service Commission of Kentucky, dated November 5, 1981 in Case No. 7268-AA.

Issued: November 11, 1981

C-1-82

GAS COST ADJUSTMENT  
APPLICABLE TO OFF PEAK SALES

A. Change in Rate

Whenever a change occurs in the rates of a major supplier of the Company, the Company shall submit to the Energy Regulatory Commission of Kentucky as soon as practicable an Application setting forth the change in the commodity cost of gas per MCF of the Company's gas sales which shall be determined as follows:

- (1) The effect per MCF sales of a change in the commodity cost of gas shall be determined by:
  - (a) applying the currently effective tariffs to the average monthly volume of gas purchased, applicable to each such respective tariff, by the Company during the most recently available 12 month period.
  - (b) reducing the total average monthly commodity cost, as determined in (a) above, by the average monthly commodity cost of gas sold to The Cincinnati Gas & Electric Company under The Union Light, Heat and Power Company's Tariff X-5.
  - (c) dividing the average monthly commodity cost of gas calculated in (a) and (b) above by the average monthly volume of gas sales during the twelve month period.
  - (d) dividing the average monthly cost of propane feed stock used during the most recent twelve month period, for which data is available, in the production of gas for sale to Off Peak Customers by the average monthly volume of off peak sales for such 12 month period.
  - (e) comparing the sum of the average costs calculated in (a), (b), (c) and (d) above, to the average cost of gas sales, calculated as of the effective date of this order and in accordance with paragraphs (a), (b), (c) and (d) above. The difference so derived, shall be the Gas Cost Adjustment which represents the effect of change(s) in gas cost per MCF to off peak gas sold.
- (2) The rates as stated in the applicable rate sheets shall be decreased or increased, with gas delivered to customers on and after the effective date of a change in tariffs, by application of a Gas Cost Adjustment for the combined decrease or increase in cost of gas as determined in (1) above and approved by the Commission. When meter readings are not available the gas volume for the meter reading period will be prorated by the number of days in the period.

B. Refund Adjustment

When accumulated refunds received by the Company from its gas suppliers are sufficient to indicate that a change in Refunding Rate per MCF will occur, the Company will:

- (1) Summarize the demand, commodity and interest received portions of the refund amounts. Should a refund amount be received by the Company with undesignated dollars, such amount shall be treated as a commodity portion.
- (2) Allocate the interest as between commodity and demand on the basis of the demand and/or commodity portion of dollars received.
- (3) Calculate the Off Peak Refunding Rate per MCF as follows:
  - (a) divide the commodity portion (including allocated interest received) by the total MCF of gas sales for the prior 12 month period. The resulting quotient, rounded to the nearest 0.1 cent, shall represent the Off-Peak Refunding Rate per MCF.
  - (b) calculate the total refund for off-peak customers by multiplying the Off Peak Refunding Rate per MCF times the total prior 12 month period MCF off peak sales.

Issued pursuant to an Order of the Energy Regulatory Commission of Kentucky, dated April 13, 1979, in Case No. 7268.

Issued: April 23, 1979

*W. H. Dickhoner*  
Issued by W. H. Dickhoner, President

Effective: April 13, 1979

C5-82

(4) Calculate the Firm Use Refunding Rate per MCF as follows:

- (a) deduct from the total refund dollars received by Company the total refund due the off peak customers as calculated in (3) (b) above to determine the portion of the refund applicable to firm sales. Divide the firm sales portion (including allocated interest received and any amounts carried forward from prior refunds) by the total MCF of gas sales, less sales to off peak and other special contract customers, for the prior 12 month period. The resulting quotient, rounded to the nearest 0.1 cent, shall represent the Firm Use Refunding Rate per MCF.
- (b) reduce the rate as stated in the applicable rate sheets by subtracting the Firm Use Refunding Rate per MCF from the Gas Cost Adjustment per MCF to develop a Net Rate Adjustment per MCF to be applied to firm gas sales until the total net refund determined above, less the amount applicable to interdepartmental sales, has been substantially distributed. The refund amount applicable to interdepartmental sales shall be determined by application of the Firm Use Refunding Rate per MCF to the interdepartmental sales volume for the prior 12 month period.
- (c) amounts not distributed or amounts over distributed under (b) above, due to the impracticability of distributing the exact amount of the total net refund available, shall be carried forward and added to, if under distributed, or subtracted from, if over distributed, future refunds and distributed as provided in (4) (a) and (b) above.
- (d) Company may use its discretion in determining whether to initiate a new effective Refunding Rate or to extend the refund period at current rates where the Refunding Rate determined in (4) (a) above is less than 0.1 cent per MCF or where a short term variation in the Net Rate Adjustment per MCF can be avoided in consideration of a recent or impending change either in the Gas Cost Adjustment or Refunding Rate.

(5) Credit interest as directed by the Commission.

C. Major Supplier Defined

For the purpose of this Gas Cost Adjustment, a major supplier shall include all historic gas sources and that source of non-historic supply from Columbia LNG Corporation, known as the Green Springs Reforming Plant (Synthetic Gas); however, non-historic sources, without further authorization, shall be limited to said Synthetic Gas.

D. Base Rate

- (I) For the future application of this Gas Cost Adjustment clause the base rate for off peak gas is \$1.8248 per MCF.

Issued pursuant to an Order of the Energy Regulatory Commission of Kentucky, dated April 13, 1979, in Case No. 7268.

Issued: April 23, 1979
