**8. Company's Equipment and Installation:**

The Company shall furnish, install and maintain at its expense the necessary service connection extending from its main to the customer's nearest curb or property line. The location of this service connection will be made at the discretion and judgment of the Company.

The Company will furnish, install and maintain at its expense the necessary meter, regulator, and connections which will be located at or near the main, service connection, property line, near or in the building, at the discretion or judgment of the Company, except that for new industrial customers and customers previously served under the Company's Seller's Option Rate (S.O.) any investment required shall be at the expense of the buyer. Whenever practical, in the judgment of the Company, the location will be as near the supply main as possible and outside of buildings. Suitable site or location for the meter, regulator and connections shall be provided by the customer, and the title to this equipment (other than new industrial customers and customers previously served under the Company's Seller's Option rate.) shall remain in the Company, with the right to install, operate, maintain and remove same, and no charge shall be made by the customer for use of the premises as occupied or used.
