CLASSIFICATION OF SERVICE

GAS LIMITATION POLICY

The availability of service under all tariffs of the Company is subject to the following modifications:

1. INDUSTRIAL

No industrial customers will be added that are not under contract on January 1, 1972. Industrial customers presently served will not be permitted to add additional gas equipment or to utilize gas in current equipment in excess of contracted amounts. Replacement of existing equipment will be permitted with new equipment of equal or lesser Btu input capacity.

2. COMMERCIAL

No new commercial commitments to serve space heating and/or boiler loads will be made after January 1, 1972. Filed commitments will be honored for equipment in use by March 1, 1972. Applications filed prior to December 15, 1971 that contain commitments to serve equipment to be installed after March 1, will be honored if the installation of equipment is completed by September 1, 1972. Commercial base load will be accepted. Commercial base load is defined as connected commercial load used regularly during summer months. Commercial customers presently served will not be permitted to add additional gas space heating and/or boiler equipment. Replacement of existing space heating and/or boiler equipment will be permitted with new equipment of equal or lesser Btu input capacity.

3. RESIDENTIAL

There are no restrictions on residential service. All customers having an end use for gas of a strictly residential character will be considered as residential. This includes apartment houses and housing projects but would not include buildings housing transients such as hotels, motels and dormitories.

CLASSIFICATION OF SERVICE

GAS LIMITATION POLICY

Tariff Sheet 38 remains in effect except as modified by Tariff Sheet 38A and 38B, which shall control from and after the effective date hereof.

1. The Company will not serve the requirements of any new residential customers, except for those who have applied for and are ready for the initiation of service prior to January 1, 1974.
2. Effective January 1, 1974, the Company will not serve the requirements of any new commercial customers and will not permit any increase in requirements for any existing commercial customer.
3. For the purpose of the Gas Limitation Policy a new customer is defined as one that has not received gas service during the preceding twelve month period. The word "customer" as used in this Tariff, shall mean the place of consumption of natural gas at which the Company delivers service irrespective of the ownership or possession of the place of consumption of the natural gas.
4. Any customer violating the Company's Gas Limitation Policy will be given written notice of the violation and will be requested to meet with Company representatives to arrange a mutual solution of the problem. If the customer fails to appear at this meeting, the Company shall have the right to discontinue service to that customer until satisfactory corrective action has been taken. If, as a result of a meeting the violation cannot be reconciled, service to that customer shall be subject to termination upon 48 hours further written notice.
5. The Company will accept applications for service from potential customers and as gas supply becomes available, will accept new customers for service in the applicable supply areas. In accordance with Controlled Attachment Program shown on Tariff Sheet 38B, customers will be accepted in chronological order based on the date and time of application, except that preference will first be given to those that can be served from the Company's existing gas system.
6. In the event of a conflict between the Company's Gas Limitation Policy and any other of the Company's Rules, Terms and Regulations, the Gas Limitation Policy shall prevail.

CLASSIFICATION OF SERVICE

CONTROLLED ATTACHMENT PROGRAM

The Company will accept applications for service from prospective customers: When gas supply becomes available, the Company will serve new customers in chronological order on the following priority basis:

1. Individual dwelling units on existing mains.
2. Other individual dwelling units.
3. Public buildings - schools, hospitals, civic centers, etc.
4. Multi-family dwellings.
5. Commercial base load.
6. Other commercial applications.
7. Industrial processing.
8. Other industrial applications.

This priority schedule shall apply separately to the Company's individual supply areas, which are as follows:

- Texas Gas Zone 2
- Texas Gas Zone 3
- Texas Gas Zone 4
- Tennessee Gas G-2, Danville
- Tennessee Gas G-2, Harrodsburg
- Tennessee Gas G-2, Lebanon
- Tennessee Gas G-2, Campbellsville
- Tennessee Gas GS-2, Greensburg, et al

These priorities are subject to modification by the PSC from time to time.

CLASSIFICATION OF SERVICE

RULES AND REGULATIONS GOVERNING NATURAL GAS SERVICE

29. Curtailment Order

In cases of impairment of gas supply or partial or total interruptions and when it appears that the Company, is or will be, unable to supply the requirements of all of its customers in any system or segment thereof, the Company shall curtail gas service to its customers in the manner set forth herein:

1. Definitions

Residential - Service to customers for residential purposes including housing complexes and apartments.

Industrial - Service to customers engaged primarily in a process which creates or changes raw or unfinished materials into another form or product, including the generation of electric power for sale.

Commercial - Service to customers engaged primarily in the sale of goods or services including institutions and local and federal agencies for uses other than those involving manufacturing.

Summer Period - The seven consecutive monthly billing periods of April through October.

Winter Period - The five consecutive monthly billing periods of November through March.

Base Period Volumes - Monthly base period volumes shall be assigned to each customer in priorities 4, 5 and 6. These volumes shall be determined by the customer's consumption during the Base Period, April 1, 1972 through March 31, 1973, adjusted to normal temperatures where applicable, for force majeure conditions, and to annualize consumption in cases where service was initiated or abnormal conditions existed during the base period.

Maximum Seasonal Volumes - Maximum Summer Period volumes shall be the assigned Base Period Volumes for the Summer Period; Maximum Winter Period Volumes shall be the assigned Base Period Volumes for the Winter Period.

Adjusted Seasonal Volumes - A customers maximum seasonal volumes as adjusted from time to time to reflect curtailment in accordance with the Company's priorities of curtailment.

2. Priorities of Curtailment

The Company may curtail or discontinue service in whole or in part on a daily, monthly or seasonal basis in any purchase zone in accordance with the following priorities, starting with Priority 6 and proceeding in descending numerical order.

Priority 1. Residential, and services essential to the public health where no alternate fuel exists.

Priority 2. Small commercials (less than 50 mcf per day).

Priority 3. Large commercials (over 50 mcf per day) not included under lower priorities.

Priority 4. Industrials served under General Service Rate 1.

Priority 5. Customers served under Rates 2, 3, 3A, 4 and Special Contracts, other than boilers included in Priority 6. In curtailing for daily peak shaving purposes, customers on an interruptible rate shall be curtailed prior to customers on a high priority rate.

Priority 6. Boiler loads shall be curtailed in the following order.

(a). Boilers over 3,000 mcf per day

other reasons as justified or necessary in accordance with the provisions of the contract.

The Company will curtail or interrupt these customers on as equitable a basis as is practicable, using its best judgment, and taking into consideration its operations and related factors and the operations and gas utilization of the customers affected.

30. Distribution Main Extensions:

The Company will extend without charge its existing distribution mains one hundred (100) feet for any one customer provided the existing mains are of sufficient capacity to properly supply the additional customers and provided that the customer contracts to use gas on a continuous basis for one (1) year or more, and, provided, the potential consumption and revenue will be of such amount and permanency as to warrant the capital expenditures involved and to make the investment economically feasible.

Whenever an extension exceeds one hundred (100) feet per customer, the Company will enter into an agreement with the customer or subscriber which will provide for such additional extension on a cost per foot basis, with the amount to be deposited by the customer or subscriber, and for a proportionate and equitable refund in the event other customers are connected to the extension within ten (10) years. Any further or lateral extension shall be treated as a new and separate extension. Refunds shall be made only after the customer has used gas service for a minimum continuous period of one (1) year. The Company reserves the right to determine the length of the extension and to specify the pipe size and location of the extension. All extensions will be made dependent on the economic feasibility of the extension. Title to all extensions covered by agreements shall be and remain in the Company and in no case shall the amount of the refunds exceed the original deposit.

- (c). Boilers between 300 mcf and 1,500 mcf per day

3. Penalties

If, at the end of any seasonal period, a Buyer exceeds its Adjusted Seasonal Volumes for that period, the Buyer shall pay a penalty of \$10 per mcf for all volumes taken in excess of 102% of its adjusted seasonal volume, such penalty to be in addition to the regular applicable rate but no such penalty shall be payable for any season in which the excess volume is less than 100 mcf. The Company, at its sole discretion, may reduce the Buyer's Adjusted Seasonal Volume in the succeeding seasonal period by an amount equal to the excess volume taken. The payment of penalty charges shall not be considered as giving any customer the right to take unauthorized volumes of gas, nor shall such penalty charges be considered as a substitute for any other remedy available to the Company.

4. Additional Curtailments

In addition to the above described monthly and seasonal curtailment provisions, the daily interruptible provisions contained in the gas tariffs of the Company, shall remain in full force and effect.

5. Discontinuance of Service

The Company shall have the right, after reasonable notice to discontinue the gas supply of any customer that fails to comply with a valid curtailment order.

30. Distribution Main Extensions:

The Company will extend without charge its existing distribution mains one hundred (100) feet for any one customer provided the existing mains are of sufficient capacity to properly supply the additional customers and provided that the

WESTERN KENTUCKY GAS COMPANY

Name or Issuing Corporation

CLASSIFICATION OF SERVICE

LARGE VOLUME RATE 3

Determination of Base Load and Excess Gas:

The Base Load for any billing month shall be the smaller of the following:

- (a) The amount of gas delivered in the month.
- (b) The number of days in the month for such billing month multiplied by the average daily delivery during the preceeding base load period of June, July, August and September.

For new customers where service is initiated after June 1 of any year, the Company shall have the right to estimate the base load until an actual base load is established. Such estimate shall consider connected load and hours of use.

The Excess Gas for such billing month shall be the remainder, if any, after deducting the base load Mcf from the total delivery for such month. During any billing month where customer complied fully with any partial or complete curtailment order of the Company, or where gas is used for processing only with 100% standby available and customer is subject to immediate interruption without advance notice, no gas shall be billed at the excess price.

Character of Gas Service:

Natural gas having approximately 1,000 Btu content per cubic foot.

Gas sold under this rate schedule shall be subject to curtailment or complete interruption when gas is needed to safeguard service to customers under the Company's General Service Rate 1, or for other justified reasons, at the discretion of the Company, in accordance with the provisions of the contract.

WESTERN KENTUCKY GAS COMPANY

Name or Issuing Corporation

CLASSIFICATION OF SERVICE

LARGE VOLUME RATE 3-A

Applicable:

Entire service area of the Company
(See list of towns - Sheet No. 39).

Availability of Service:

(a) Available on an individually metered service basis to commercial and industrial customers for any use as approved by the Company on a strictly interruptible basis, provided adequate auxiliary equipment and fuel is maintained to meet periods of gas curtailments, and when customer requires and contracts for normal base load purposes not less than 100 Mcf per day, or 24,000 Mcf per year, subject to suitable service being available from existing transmission and/or distribution facilities and when an adequate supply of gas is available to the Company under its purchase contract with its pipeline supplier.

(b) The supply of gas provided for herein shall be sold primarily on an interruptible basis, however, in certain cases and under certain conditions the contract may include High Priority Service to be billed under "General Service Rate 1" limited to use and volume which, in the Company's judgment, requires and justifies such combination service.

(c) The contract for service under this rate schedule shall include Interruptible Service or a combination of High Priority Service and Interruptible Service, however, the Company reserves the right to limit the volume of High Priority Service available to any one customer.

(d) If a customer contracts for gas under this rate schedule and fails to meet the minimum requirements of 100 Mcf per day for base load purposes, or 24,000 Mcf per year, the contract shall be subject to cancellation and gas deliveries thereafter shall be billed at the lowest available rate for which the customer qualifies.

Standby or Auxiliary Equipment and Fuel:

It shall be the responsibility of the customer to provide and maintain at all times such adequate standby, auxiliary equipment and fuel as may be required or necessary, at the customer's discretion, to protect its fuel requirements and best interest, and to assure its continuous operations.

Curtailement:

(a) High Priority Service:

The Company shall have the right at any time, without liability to the customer, to curtail or to discontinue the delivery of gas entirely to the customer for any period of time when such curtailment or discontinuance is necessary to protect the requirements of domestic and commercial customers; to comply with any restriction or curtailment as may be imposed by any governmental agency having jurisdiction over the Company or its supplier, or to comply with any restriction or curtailment as may be imposed by the Company's supplier; to protect and assure the operation of the Company's underground storage system; or for any causes due to force majeure (which includes acts of God, strikes, lockouts, civil commotion, riots, epidemics, landslides, lightning, earthquakes, fires, storms, floods, etc.); so that the Company may maintain the operating efficiency of its system in a safe and orderly manner.

(b) Interruptible Service:

In addition to the reasons listed above under "High Priority Service", the Company shall have the right to curtail or to discontinue the delivery of gas entirely to the customer in order to avoid an increased Maximum Daily Demand in the Company's gas purchases, to avoid excessive peak load and demands upon the gas transmission or distribution system, and for any other necessary or expedient reason, at the discretion of the Company.

CLASSIFICATION OF SERVICE

LARGE VOLUME RATE 3-A

(c) Curtailment Order:

All curtailments or interruptions for both "High Priority" and "Interruptible" service shall be in accordance with and subject to the Company's "Curtailment Order" as contained in Section 29 of its Rules and Regulations as filed with and approved by the Public Service Commission.

Character of Service:

(a) Natural gas having approximately 1,000 Btu content per cubic foot.

(b) High Priority service is not subject to curtailment or interruption except in cases of emergency as provided for in Section 7(a) and in Rule 29 of the Company's Rules and Regulations.

(c) Interruptible service is subject to curtailment or complete interruption when deemed necessary to protect service under firm and High Priority service or other rates providing for higher priced deliveries, and in accordance with Section 7(b) and in Rule 29 of the Company's Rules and Regulations.

Penalty for Unauthorized Overrun:

(a) In the event a customer fails in part, or in whole, to comply with a Company curtailment order, either as to time or volume of gas used, or uses a greater quantity in excess of any special temporary authorization, whether a curtailment order is in effect or not, the customer shall pay for the unauthorized gas so used at the rate of \$32.85 per Mcf, which rate shall be revised to reflect any increase or decrease in the Demand Charges which Seller has to pay its supplier. (See Section (d)).

CLASSIFICATION OF SERVICE

LARGE VOLUME RATE 3-A

If the necessary billing data is available, the amount of the penalty shall be billed, due and payable with the regular bill for that month, otherwise, it will be billed, due and payable with the regular bill for the following month.

(b) In addition to this penalty payment, the regular applicable rates shall be billed by the Company and paid for by the customer for any and all gas used.

(c) Also, when customer uses any volume of unauthorized gas, as defined in Section (a) above, the customer shall pay, in addition to the penalty payments as specified above, any special penalty payments which are imposed on the Company by its supplier of gas by reason of such acts of the customer.

(d) The payments as specified above shall be assessed against and paid by the customer only in the event the Company has to pay increased Demand Charges and/or a special penalty to its supplier, by reason of the customer's unauthorized overrun as defined in Section (a) above.

(e) Any payment by the customer of the penalty for Demand Charges or of the special penalty payments shall not be deemed as giving the customer any right to use any gas to which it is not otherwise specifically entitled to use under this rate schedule and the related contract, nor shall any such payment serve or tend to relieve the customer of any other obligations resulting from its using any unauthorized gas at any time or from its failure to comply with such other curtailment orders which may be in effect in the future.

Measurement Base:

The unit of measurement shall be an Mcf at a pressure base of 14.65 psia, a temperature of 60 °F, and 0.60 specific gravity.

CLASSIFICATION OF SERVICE

LARGE VOLUME RATE 3-A

Special Provisions:

(a) A written contract with a minimum term of one year shall be required. Such contract shall specify the maximum hourly, daily and monthly contract volumes, mutually agreeable to the Company and the customer.

In certain cases where the Company makes a substantial investment in facilities or incurs other obligations for the specific purpose of rendering service to a customer, the Company may require a longer term contract, a higher minimum bill, or a supplementary contract, with terms and conditions which are equitable in the circumstances.

(b) The Rules, Regulations and Orders of the Public Service Commission and of the Company, and the Company's general terms and conditions applicable to industrial sales, shall apply to this rate schedule and all contracts thereunder.

(c) No gas delivered under this rate schedule and related contract shall be available for resale.

Definitions:

As used herein the following definitions shall apply:

(a) "Base Load" is the quantity of gas which is normally used throughout the entire year on approximately a 100% load factor basis.

(b) A "day" as used herein for the purpose of determining and assessing the penalty as provided for herein (Section 9(b)) shall mean the 24 hour period starting with and immediately following the date and time of day the particular curtailment order became effective.

CLASSIFICATION OF SERVICE

LARGE INDUSTRIAL RATE 4

Applicable:

In service areas of the Company where the gas supply is purchased from its supplier on a Demand and Commodity Charge Basis in zone locations and under Rate Schedules as follows:

Supplier: Texas Gas Transmission Corporation

In their Zone 2 under Rate Schedule G-2

In their Zone 3 under Rate Schedule G-3

In their Zone 4 under Rate Schedule G-4

Supplier: Tennessee Gas Transmission Company

In their Zone 2 under Rate Schedule G-2

Availability of Service:

(a) Available to large industrial customers, in service areas and locations as specified above, for any use as approved by the Company and individually metered service, other than auxiliary or standby service, where the customer requires, contacts for, and uses for Base Load purposes not less than 500 Mcf per day, subject to suitable service being available from existing transmission and/or distribution facilities and where an adequate supply of gas is available to the Company under its purchase contract with its pipeline supplier.

If a customer contracts for gas under this rate schedule and fails to meet the minimum requirements of 500 Mcf per day for Base Load purposes, the contract shall be subject to cancellation, and gas deliveries thereafter shall be billed at the lowest available rate for which the customer qualifies, or, if the customer elects, it may discontinue the use of gas entirely.

(b) The supply of gas provided herein shall be sold primarily on an interruptible basis, however, in certain cases and under certain conditions, provision may be made for a quantity of High Priority gas limited to quantities and uses which, in the Company's judgment, requires and justifies such service.

(c) The contract for service under this rate schedule may include High Priority Service, Interruptible Service, or a combination of High Priority and Interruptible Service, however, the Company reserves the right to limit the quantity of High Priority Service available to any one customer.

Delivery Volumes:

(a) The volume of gas to be sold and purchased under this rate schedule and the related contract shall be established separately for each class of service, on a daily basis, and the customer shall specify in advance the volume desired for inclusion in the contract.

(b) High Priority Service

The volume for High Priority Service shall be established on a High Priority Daily Contract Demand basis which shall be the specific volume the Company is obligated to deliver and the customer is obligated to receive in any one day, subject to other provisions of this rate schedule and the related contract.

(c) Interruptible Service

The volume for Interruptible Service shall be established on an Interruptible Daily Contract Demand basis which shall be the maximum daily volume the Company is obligated to deliver and which the customer may receive, subject to other provisions of this rate schedule and the related contract.

(d) Revision of Delivery Volumes:

The Daily Contract Demand for High Priority Service and the Daily Contract Demand for Interruptible Service shall be subject to revisions as necessary so as to coincide with the customer's normal operating conditions and actual load with consideration given to any anticipated changes in customer's utilization, subject to the Company's contractual obligations with other customers, or its supplier, and subject to availability of the gas if an increased volume is involved.

Rate - Net:

(a) High Priority Service:

83.48¢ per Mcf for all gas used in this classification within the limits of the High Priority Daily Contract Demand as specified in the contract.

(R)

(b) Interruptible Service:

74.20¢ per Mcf for all gas used in this classification within the limits of the Interruptible Daily Contract Demand as specified in the contract.

(R)

(c) Combination Service:

83.48¢ per Mcf for the volume of gas equal to the product of the High Priority Daily Contract Demand times the number of days in the monthly billing period, plus 74.20¢ per Mcf for all additional interruptible gas used during the monthly billing period, within the limits of the Daily Contract Demand as specified in the contract.

Minimum Monthly Bill:

No minimum monthly bill will apply to any class of service under this rate schedule.

Minimum Annual Bill:

A minimum annual bill shall apply to each class of service as provided for in this rate schedule, which is to be computed as follows:

(a) High Priority Service:

An amount equivalent to the product of 80% of the Daily Contract Demand times the number of customers normal days of gas utilization in the year times the rate per Mcf, less an allowance for any time that gas was not available.

This allowance shall be computed on a basis of the Daily Contract Demand times the number of days, or fraction thereof, on which gas was not available.

The minimum annual bill on High Priority service is not subject to being waived, except at the Company's sole discretion, and without obligation.

(b) Interruptible Service:

An amount equivalent to the product of 25% of the Daily Contract Demand times the number of customer's normal days of gas utilization in the year times the rate per Mcf, less an allowance for any time that gas was not available.

This allowance shall be computed on a basis on the Daily Contract Demand times the number of days or fraction thereof on which gas was not available.

(c) This annual minimum bill on Interruptible Service may be waived, at the Company's sole discretion, and without obligation, in the event the failure by the customer to use the minimum quantities did not in any way penalize the Company by causing a loss of sales to other industrial or potential industrial customers, or by adversely affecting the Company's operations or revenues.

(d) Any billing for a deficiency under this annual minimum bill for any class of service shall be made as of the ending month of the year and shall be due and payable on or before the 20th of the following month in conjunction with the regular billing.

Purchased Gas Adjustment Clause:

In the event a Company supplier increases or decreases the rates payable by the Company, the rates as specified herein shall be subject to revision to any customer whose gas is served from such supplier by the amount of such increase or decrease, effective the date of such change from the supplier. Any revision in the supplier's Demand Charge shall apply only to the High Priority Service rate; any revision in the supplier's commodity charge shall apply to both the High Priority Service rate and the Interruptible Service rate.

Character of Service:

Natural gas having approximately 1,000 Btu content per cubic foot.

Penalty for Unauthorized Overruns:

(a) In the event a customer fails in part, or in whole, to comply with a Company curtailment order, either as to time or volume of gas used, or uses a greater quantity of gas than its Daily Contract Demand, or a quantity in excess of any special temporary authorization, whether a curtailment order is in effect or not, the customer shall pay for the unauthorized gas so used at the rate of \$32.85 per Mcf, which rate shall be revised to reflect any increase or decrease in the Demand Charges which Seller has to pay its Supplier.

Curtailment:

(a) High Priority Service

The Company shall have the right at any time, without liability to the customer, to curtail or to discontinue the delivery of gas entirely to the customer for any period of time when such curtailment or discontinuance is necessary to protect the requirements of domestic and commercial customers; to comply with any restriction or curtailment as may be imposed by any governmental agency having jurisdiction over the Company or its supplier, or to comply with any restriction or curtailment as may be imposed by the Company's supplier; to protect and assure the operation of the Company's underground storage system; or for any causes due to force majeure (which includes acts of God, strikes, lockouts, civil commotion, riots, epidemics, landslides, lightning, earthquakes, fires, storms, floods, etc.); so that the Company may maintain the operating efficiency of its system in a safe and orderly manner.

(b) Interruptible Service:

In addition to the reasons listed above under "High Priority Service", the Company shall have the right to curtail or to discontinue the delivery of gas entirely to the customer in order to avoid an increased Maximum Daily Demand in the Company's gas purchases, to avoid excessive peak load and demands upon the gas transmission or distribution system, to comply with suppliers volume limitations, and for any other necessary or expedient reason, at the discretion of the Company.

(c) Curtailment Order:

All curtailments or interruptions for both "High Priority" and "Interruptible" service shall be in accordance with and subject to the Company's "Curtailment Order" as contained in Section 29 of its Rules and Regulations as filed with and approved by the Public Service Commission.

PURCHASED GAS ADJUSTMENT CLAUSE

FOR CHANGES IN WHOLESALE COST OF NATURAL GAS

Applicable to:

Gas Tariffs in effect for the service area of the Company as designated in the particular tariff.

Purchase Gas Adjustment Clause:

(Conformed excerpt from an Order issued by the Kentucky Public Service Commission on December 30, 1971, in Case No. 5545).

The rates authorized herein (Case No. 5545 - December 30, 1971) are based upon the wholesale cost of gas to the Applicant (Western Kentucky Gas Company) as computed upon rates of its wholesale suppliers then currently in effect under Federal Power Commission tariffs for interstate business or under wholesale tariffs of this Commission. For the purpose of this Purchased Gas Adjustment Clause, these rates shall be considered as the base rate for purchased gas. In the event there is any change in this base rate, either increase or decrease, the Applicant (Western Kentucky Gas Company) shall within thirty days from the time it receives notice of the proposed change file with this Commission the following information.

(1) A copy of the Federal Power Commission tariff effecting the change in the base rates and a statement relative to the effective date of such proposed change.

(2) A statement setting out the details of gas purchased under the provisions of the base rate for the previous twelve months showing billing under the base rate and under the proposed revised rate applicable to this service.

(3) A balance sheet as of the end of the twelve month period and a statement of operating expenses and revenues in the same detail as reported to this Commission in the Utility's Annual Report.

CLASSIFICATION OF SERVICE

PURCHASED GAS ADJUSTMENT CLAUSE

FOR CHANGES IN WHOLESALE COST OF NATURAL GAS

(4) A forecast showing the estimated gas purchases from all of the utilities contract suppliers for the next twelve months period together with an estimate of the cost thereof.

(5) Such other information as this Commission may request for a proper determination of the purchased gas adjustment.

Upon receipt of this information this Commission will review the effect of the revised base rate on the operations of the Applicant (Western Kentucky Gas Company) and will prior to the effective date of the revised base rate, but not less than thirty days from the date of the filing of the above prescribed information, issue its Order setting out the purchased gas adjustment that the utility shall apply to its rates.

In the event there is a decrease in purchased gas costs or refund, the applicant shall file the information required in 1, 2 and 4 and 5 above.

Upon receipt of this information the Commission shall review the proposed reductions and within thirty days from receipt of the information required, issue its Order setting out the proper refund and/or revised rates.

The maximum amount of the adjustment so prescribed shall not produce revenue adjustments based upon the actual preceding twelve months period, greater than the difference between the purchased gas billed at the then existing rates and the purchased gas billed at the revised rate.

GAS LIMITATION POLICY

The availability of service under all tariffs of the Company is subject to the following modifications:

1. INDUSTRIAL

No industrial customers will be added that are not under contract on January 1, 1972. Industrial customers presently served will not be permitted to add additional gas equipment or to utilize gas in current equipment in excess of contracted amounts. Replacement of existing equipment will be permitted with new equipment of equal or lesser Btu input capacity.

2. COMMERCIAL

No new commercial commitments to serve space heating and/or boiler loads will be made after January 1, 1972. Filed commitments will be honored for equipment in use by March 1, 1972. Applications filed prior to December 15, 1971 that contain commitments to serve equipment to be installed after March 1, will be honored if the installation of equipment is completed by September 1, 1972. Commercial base load will be accepted. Commercial base load is defined as connected commercial load used regularly during summer months. Commercial customers presently served will not be permitted to add additional gas space heating and/or boiler equipment. Replacement of existing space heating and/or boiler equipment will be permitted with new equipment of equal or lesser Btu input capacity.

3. RESIDENTIAL

There are no restrictions on residential service. All customers having an end use for gas of a strictly residential character will be considered as residential. This includes apartment houses and housing projects but would not include buildings housing transients such as hotels, dormitories.

CLASSIFICATION OF SERVICE

GAS LIMITATION POLICY

Tariff Sheet 38 remains in effect except as modified by Tariff Sheet 38A and 38B, which shall control from and after the effective date hereof.

1. The Company will not serve the requirements of any new residential customers, except for those who have applied for and are ready for the initiation of service prior to January 1, 1974.
2. Effective January 1, 1974, the Company will not serve the requirements of any new commercial customers and will not permit any increase in requirements for any existing commercial customer.
3. For the purpose of the Gas Limitation Policy a new customer is defined as one that has not received gas service during the preceding twelve month period. The word "customer" as used in this Tariff, shall mean the place of consumption of natural gas at which the Company delivers service irrespective of the ownership or possession of the place of consumption of the natural gas.
4. Any customer violating the Company's Gas Limitation Policy will be given written notice of the violation and will be requested to meet with Company representatives to arrange a mutual solution of the problem. If the customer fails to appear at this meeting, the Company shall have the right to discontinue service to that customer until satisfactory corrective action has been taken. If, as a result of a meeting the violation cannot be reconciled, service to that customer shall be subject to termination upon 48 hours further written notice.
5. The Company will accept applications for service from potential customers and as gas supply becomes available, will accept new customers for service in the applicable supply areas. In accordance with Controlled Attachment Program shown on Tariff Sheet 38B, customers will be accepted in chronological order based on the date and time of application, except that preference will first be given to those that can be served from the Company's existing gas system.
6. In the event of a conflict between the Company's Gas Limitation Policy and any other of the Company's filed Rules, Terms and Regulations, the Gas Limitation Policy shall prevail.

CONTROLLED ATTACHMENT PROGRAM

The Company will accept applications for service from prospective customers: When gas supply becomes available, the Company will serve new customers in chronological order on the following priority basis:

1. Individual dwelling units on existing mains.
2. Other individual dwelling units.
3. Public buildings - schools, hospitals, civic centers, etc.
4. Multi-family dwellings.
5. Commercial base load.
6. Other commercial applications.
7. Industrial processing.
8. Other industrial applications.

This priority schedule shall apply separately to the Company's individual supply areas, which are as follows:

- Texas Gas Zone 2
- Texas Gas Zone 3
- Texas Gas Zone 4
- Tennessee Gas G-2, Danville
- Tennessee Gas G-2, Harrodsburg
- Tennessee Gas G-2, Lebanon
- Tennessee Gas G-2, Campbellsville
- Tennessee Gas GS-2, Greensburg, et al

These priorities are subject to modification by the PSC from time to time.

CLASSIFICATION OF SERVICE

RULES AND REGULATIONS GOVERNING NATURAL GAS SERVICE

1. Commission's Rules and Regulations:

All gas service rendered by the Company shall be in accordance with the "Rules and Regulations for the Government of Gas Utilities" which have been adopted by the Public Service Commission of Kentucky and all amendments thereto and modifications thereof which may be made by the Commission.

2. Company's Rules and Regulations:

In addition to the Rules and Regulations prescribed by the Commission, all gas service rendered shall, also, be in accordance with the following Rules and Regulations adopted by the Company, provided same do not conflict with those of the Public Service Commission.

3. Filing of Rates, Rules and Regulations:

A copy of all schedules of rates, rules and regulations under which gas service is rendered is on file for the public's benefit with the Public Service Commission of Kentucky and in the various offices of the Company.

4. Application for Service:

All applications for service shall be made on the Company's standard application or contract form which shall be signed by the customer, or his duly authorized agent, and accepted by the Company before any service is rendered.

A separate application or contract shall be made for each class of service at each separate location.

In cases where unusual construction or equipment expense is necessary to furnish the service, the Company may require a contract for a minimum period of one (1) year.

RULES AND REGULATIONS GOVERNING NATURAL GAS SERVICE

5. Owners Consent to Occupy:

In case the customer is not the owner of the premises or of the intervening property between the premises and the Company's service connection, it shall be the customer's responsibility to obtain from the property owner or owners the necessary consent to install and maintain in, on or over said premises all such piping and other equipment as are required or necessary for supplying gas service to the customer whether the piping and equipment be the property of the customer or the Company.

6. Security Deposits:

The Company may require from all customers as a guaranty or security a cash deposit equal to the estimated maximum consumption for a period of two months; minimum deposit shall be \$5.00. Such deposit less any unpaid amounts for service rendered the customer shall be returned upon the discontinuance of service.

Where the monthly bills are in excess of the deposit, or where the customer has delinquent bills, the Company may require the deposit to be increased, but such deposit shall not exceed the amount of two months' estimated maximum consumption. Interest will be paid at the rate of six per cent (6%) annually upon demand or upon return of the deposit for the period between the deposit date and the date service is discontinued. The original security deposit receipt should be presented when demand is made for payment of interest or refund of deposit.

No deposit shall be required of any receiver or trustee operating a business requiring utility service under an order of court.

7. Access to Premises:

The Company shall have the right of access to the customer's premises at all reasonable times for the purpose of installing, reading, inspecting, repairing or removing its

meters, regulators or other equipment used in connection with its supply of gas service or for the purpose of turning on or shutting off the gas supply when necessary and for all other proper purposes.

8. Company's Equipment and Installation:

The Company shall furnish, install and maintain at its expense the necessary service connection extending from its main to the customer's nearest curb or property line. The location of this service connection will be made at the discretion and judgment of the Company.

The Company will furnish, install and maintain at its expense the necessary meter, regulator and connections which will be located at or near the main, service connection, property line, near or in the building, at the discretion or judgment of the Company. Whenever practical, in the judgment of the Company, the location will be as near the supply main as possible and outside of buildings. Suitable site or location for the meter, regulator and connections shall be provided by the customer, and the title to this equipment shall remain in the Company, with the right to install, operate, maintain and remove same, and no charge shall be made by the Customer for use of the premises as occupied or used.

9. Customer's Equipment and Installation:

The Customer shall furnish, install and maintain at his expense the necessary Customer's service line extending from the Company's service connection at the curb or property line to the building or place of utilization of the gas.

The installation of the Customer's service line shall be made in accordance with the requirements of the constituted authorities and the Company's specifications covering location, installation, kind and size of pipe, type of pipe coating or wrapping and method of connecting the joints of pipe.

9. Customer's Equipment and Installation: (continued)

The location shall be the point of easiest access to the Company from its facilities and the Company shall be consulted and its approval obtained before the installation is made.

In the installation of the service line the customer shall not install any tees or branch connection and must leave the trench open and pipe uncovered until it is examined by an inspector of the Company and shown to be free from any irregularity or defect. The customer shall not make any change in or interfere with his service line without the written consent of the Company.

In all cases where practical the customer's service line shall not be installed entering a building underground but shall be brought up out of the ground with a riser and entrance made to the building through the wall or foundation a minimum of six (6) inches above the ground.

The customer shall furnish, install and maintain at his expense the necessary housepiping, connections and appliances and it shall be the responsibility of the customer to install and maintain same in accordance with the requirements and specifications of all local, state and national codes and regulations applicable to his specific usage and occupancy.

All of the customer's service line, piping, connections and appliances shall be suitable for the purposes thereof and shall be maintained by the customer at his expense at all times in a good, safe and serviceable condition.

The Company shall not assume any responsibility and shall not be held liable in any way for the making of any periodic inspection of the customer's service line, piping, connections or appliances, or for the customer's failure to properly and safely install, operate and maintain same.

10. Metering

The gas consumed shall be measured by a meter or meters to be installed by the Company upon the customer's premises at a point most accessible or convenient for the Company and all bills shall be calculated upon the registration of said meters or meter except as hereinafter provided. If more than one meter is installed for the same or different classes of service at different locations on the customer's premises, each meter shall be considered separately in calculating the amount of any bills. Meters include all measuring instruments and equipment.

On gas light installations, as approved by the Company, when used for outdoor lighting and the gas used in such installations is unmetered, monthly gas consumption will be calculated to be 2,000 cubic feet per month per mantle for upright mantles - and for each pair of inverted mantles.

On special models of gas lights (basically open flame), where gas consumption is greater than those referred to above, the Company shall estimate the monthly consumption to the closest 100 cubic feet and bill customers that equal amount each month.

Such consumption shall be billed under the appropriate rate applicable to the customer.

11. Protection of Company's Property:

All meters, piping and other appliances and equipment furnished by and at the expense of the Company, which may at any time be in or on customer's premises shall, unless otherwise expressly provided herein, be and remain the property of the Company, and the customer shall protect such property from loss or damage, and no one who is not an agent of the Company shall be permitted to remove such property or to tamper with or damage same.

RULES AND REGULATIONS GOVERNING NATURAL GAS SERVICE

12. Exclusive Service:

Except in cases where the customer has a special contract with the Company for reserve or auxiliary service, no other fuel service shall be used by the customer on the same installation in conjunction with the Company's service connection, either by means of valves or any other connection.

The customer shall not sell the gas purchased from the Company to any other Customer, Company or Person, and the Customer shall not deliver gas purchased from the Company to any connection wherein said gas is to be used off of customer's premises or by persons over whom customer has no control.

13. Point of Delivery of Gas:

The point of delivery of gas supplied by the Company shall be at the point where the gas passes from the pipes of the Company's service connection into the customer's service line or pipe of the customer, or at the outlet of the meter, whichever is nearest the delivery main of the Company.

14. Customer's Liability:

The customer shall assume all responsibility for the gas service in or on the customer's premises at and from the point of delivery of gas and for all the piping, appliances and equipment used in connection therewith which are not the property of the Company, and will protect and save the Company harmless from all claims for injury or damage to persons or property occurring on the customer's premises or at and from the point of delivery of gas occasioned by such gas or gas service and equipment, except where said injury or damage will be shown to have been caused solely by the negligence of the Company.

15. Continuous or Uniform Service:

The Company will endeavor to supply gas continuously and without interruption, however, the Company shall not be responsible in damages or otherwise for any failure to supply gas or for any interruptions of the supply when such a failure

is without wilful fault or neglect on its part:

The Company cannot and does not guarantee either a sufficient supply or an adequate or uniform pressure of the gas supplied and shall not be liable for any damage or loss resulting from inadequate or interrupted supply or from any pressure variations when such conditions are not due to wilful fault or neglect on its part.

16. Monthly Bills:

(a) Bills for gas service will be rendered monthly unless otherwise specified. The term "month" for billing purposes shall mean the period between any two consecutive readings of the meter by the Company, such readings to be taken as near as practicable every thirty (30) days.

(b) Bills are due upon rendition and shall be due and payable within a period not exceeding ten (10) days thereafter.

(c) Service shall be subject to being discontinued if bills are not paid in full within fifteen (15) days after rendition of bills.

(d) Failure to receive a bill does not exempt a customer from these provisions.

(e) When the Company is unable to read the meter after a reasonable effort, or where the meter fails to operate, the customer will be billed on an estimated basis at the average of three (3) immediately preceding months, or similar months of utilization, and the billing adjusted as necessary when the meter is read.

17. Measurement Base:

The rates of the Company are based upon gas delivered to the customer on a basis of four (4) ounces per square inch above an assumed atmospheric pressure of fourteen and four tenths (14.4) pounds per square inch, or fourteen and sixty-

five hundredths (14.65) pounds per square inch absolute pressure, at an assumed temperature of sixty (60) degrees Fahrenheit; provided, however, the Company reserves the right to correct as necessary the actual temperature to sixty (60) degree F. basis.

All gas measured at pressures higher than the standard pressure for low pressure distribution systems shall be corrected to a pressure base of fourteen and sixty-five hundredths (14.65) pounds per square inch absolute.

18. Character of Service:

The Company will normally supply natural gas having a heating value of approximately one thousand (1,000) Btu per cubic foot and a specific gravity of approximately six tenths (0.6), however, when necessary to supplement the supply of natural gas, the Company reserves the right, at its discretion, to supply an interchangeable mixture of vaporized liquified petroleum gas and air, or a combination of same with natural gas.

19. Assignment of Contract:

The benefits and obligations of any service application or contract shall begin when the Company commences to supply gas service and shall inure to and be binding upon the successors and assigns, survivors and executors or administrators, as the case may be, of the original parties thereto, respectively, for the full term thereof, provided, however, that no application, agreement or contract for service may be assigned or transferred without the written consent or approval of the Company.

When the gas supply has been disconnected for non-payment of bills or other violation of the Company's Rules and Regulations, the service will not be restored at the same location, or connected at another location, for the same or related occupants under a different contract or name when it

19. Assignment of Contract: (continued)

is evident the change of name is a subterfuge design to defraud or penalize the Company.

20. Renewal of Contract:

If, upon the expiration of any service contract for a specified term, the customer continues to use the service, the contract (unless otherwise provided therein) will be automatically renewed and extended for successive periods of one year each, subject to termination at the end of any year upon thirty days written notice by either Party.

21. Customer's Discontinuance of Service:

Any customer desiring service discontinued or changed from one location to another shall give the Company three (3) working days advance notice in person, by phone or in writing, provided such notice does not violate contractual obligations.

The customer shall be held responsible for all gas consumed until such notice is received by the Company and three (3) working days time allowed to read the meter and render final bill.

22. Company's Discontinuance of Service for Cause:

The Company has the right to discontinue service to a customer for violation of its Rules and Regulations or for non-payment of bills, however, service shall not be discontinued until the Company has diligently tried to induce the customer to comply with its Rules and Regulations, or has diligently attempted to induce the customer to pay the bills. After such efforts on the part of the Company the service may be discontinued only after at least forty-eight (48) hours written notice of such intention shall have been given to the customer by the Company.

Where a dangerous condition is found to exist on the customer's premises the service may be discontinued without notice.

22. Company's Discontinuance of Service for Cause: (continued)

Where necessary for construction, maintenance or operation purposes, the Company may temporarily discontinue service to a customer, however, notice shall be given whenever practical to do so.

The Company may discontinue service to a customer immediately and without notice where it is discovered that the customer has been or is using gas without same being partially or wholly measured through the meter or where the gas is, or has been, used fraudently, or where the Company's equipment has been tampered with. Where the service has been discontinued for any of these reasons the Company, by written notice to the customer, may require the customer, at his expense, to make proper changes or corrections as required by the Company before service is restored.

In addition to the foregoing the Company may require the customer to pay the Company the cost of any and all damages to the Company's equipment, the deficiency in revenue estimated on as accurate a basis as is available, and the cost incurred by the Company in the correction of the defects or diversion including the cost of removal and installation of meters and regulators and the cost of restoring the service.

Neglect or refusal on the part of the customer to provide reasonable access to the premises for the purposes of reading meters, inspection, maintenance and operation shall also be deemed to be sufficient cause for the Company to discontinue the service.

at any time subsequently within twelve (12) months is re-connected at the same or any other premises, in accordance with the Commission's Rule 9 as amended in Administrative Order No. 5 of January 14, 1957.

This Reconnection Charge to be made by the Company and paid by the customer before or at the time the service is reconnected shall be an amount as provided for in General Service Rate 1 as approved by the Public Service Commission.

24. Refusal of Service:

The Company will not render service to any customer unless the customer's service line, housepiping, appliances and equipment are properly installed and in safe operating condition, or where the customer continually fails to comply with the Company's Rules and Regulations.

The Company will not furnish service to any applicant who owes the Company any past due bill or a delinquent account for service furnished either at the same or other location, until such indebtedness shall have been paid in full.

The Company reserves the right to refuse or to defer full service to an applicant where the existing mains are inadequate to serve the applicant's requirements without adversely affecting the service to customers already connected and being served.

25. Notice of Escaping Gas or Unsafe Conditions:

Immediate notice must be given by the customer to the office or employees of the Company if any escaping gas or unsafe conditions are detected or any defects or improper installations are discovered in piping and equipment of either the Company or the customer which are on the customer's premises.

25. Notice of Escaping Gas or Unsafe Conditions: (continued)

No flames or lights are to be taken near any escape of gas and the gas must be shut-off at the meter cock or valve until the hazard is eliminated and the gas service is not to be turned on again except by a Company employee.

The Company will not be responsible or assume any liability for any injury, loss or damage which may arise from the carelessness or negligence of the customer or his agents or representatives.

26. Turning Off Gas Service and Restoring Same:

The gas service may be turned off at the meter when justified by the customer or his agent or any constituted authorities but no person, unless in the employ of the Gas Company or having permission from the Gas Company, shall turn the gas on or restore service.

27. Special Provisions - Large Volume Customers:

Industrial, Commercial or other Customers using large volumes of gas on a varying basis shall install and maintain at their expense adequate piping and suitable regulating and control equipment to provide reasonable and practical limitation of intermittance or fluctuation in the pressure, volume or flow of gas, and shall so regulate and control their operations and the use of gas hereunder so as not to interfere with gas service being furnished to them or to any other customers, or with the proper and accurate metering of gas at their or any other location.

28. Special Rules for Customers Served from Transmission Mains:

In addition to the Standard Rules and Regulations the following special Rules and Regulations shall apply to all customers served directly from a high pressure transmission main which is the property of the Company or one of its Suppliers:

**28. Special Rules for Customers Served from Transmission Mains:
(continued)**

(a) All service connections to a high pressure transmission line shall be subject to the special requirements, consent and approval of the owner of said line. In case the connection is to a line not the property of the Company, proper approval must be obtained from both the owner and the Company.

(b) A special form application and service contract or agreement shall be executed by the customer and approved and accepted by both the owner of the transmission line and the Company prior to the time the tap or connection is made. If the transmission line is owned by the Company only the approval and acceptance of the Company is necessary.

(c) All meters, regulators, equipment and connections necessary to serve the customer from a high pressure transmission line shall be installed on the customer's premises at or as near the transmission line as is practical.

(d) Suitable site or location for the equipment owned by the Company or the owner of the line shall be provided and furnished by the customer without any expense to the Company or owner of the line. The Company or owner of the line shall have the right of Ingress, egress and regress to and from this location at any time without any expense or charges from the customer.

(e) The customer's service line extending from the outlet of the meter shall be installed and maintained by the customer at his expense.

(f) The customer shall notify the Company promptly of any leaks in the transmission line or equipment, also, of any hazards or damages to same.

(g) Customers may be required to send in monthly meter readings to the Company on suitable forms provided by the Company.

CLASSIFICATION OF SERVICE

RULES AND REGULATIONS GOVERNING NATURAL GAS SERVICE

29. Curtailment Order:

In cases of impairment of gas supply or partial or total interruption and when it appears the Company is, or will be, unable to supply, at any time, the requirements of all its customers in any system or segment thereof, due to any cause whatsoever, then the Order of Curtailment or Interruption of Service, insofar as practicable shall be:

Step 1. Deliveries to industrial or other customers under contracts providing for interruptible service and curtailments.

Step 2. Deliveries to industrial customers under contracts or rate schedules providing for firm service.

Step 3. Deliveries to commercial customers for space heating purposes.

Step 4. Deliveries to commercial customers for non-space heating purposes.

When the curtailments or interruptions or deliveries in the above steps fail to provide sufficient gas to meet the requirements of the remaining customers, the Company shall exercise its best judgment and distribute as equitably as possible the gas that is available, taking into consideration the customers affected and their gas utilization, the operation of its system and any other factors it deems necessary in the best interest of service, public health and safety.

When the causes or contingencies of the curtailments or interruptions cease to be operative the Company shall restore full service to all customers as promptly as possible in the reverse order of the curtailments or interruptions insofar as practicable.

Regardless of impairment of supply or other similar reasons, industrial and other customers under contracts providing for interruptible service and curtailment will be interrupted or curtailed for "peak shaving" purposes to avoid an increased Maximum Daily Demand in the Company's gas purchases, and for

other reasons as justified or necessary in accordance with the provisions of the contract.

The Company will curtail or interrupt these customers on as equitable a basis as is practicable, using its best judgment, and taking into consideration its operations and related factors and the operations and gas utilization of the customers affected.

30. Distribution Main Extensions:

The Company will extend without charge its existing distribution mains one hundred (100) feet for any one customer provided the existing mains are of sufficient capacity to properly supply the additional customers and provided that the customer contracts to use gas on a continuous basis for one (1) year or more, and, provided, the potential consumption and revenue will be of such amount and permanency as to warrant the capital expenditures involved and to make the investment economically feasible.

Whenever an extension exceeds one hundred (100) feet per customer, the Company will enter into an agreement with the customer or subscriber which will provide for such additional extension on a cost per foot basis, with the amount to be deposited by the customer or subscriber, and for a proportionate and equitable refund in the event other customers are connected to the extension within ten (10) years. Any further or lateral extension shall be treated as a new and separate extension. Refunds shall be made only after the customer has used gas service for a minimum continuous period of one (1) year. The Company reserves the right to determine the length of the extension and to specify the pipe size and location of the extension. All extensions will be made dependent on the economic feasibility of the extension. Title to all extensions covered by agreements shall be and remain in the Company and in no case shall the amount of the refunds exceed the original deposit.

5. Owners Consent to Occupy:

In case the customer is not the owner of the premises or of the intervening property between the premises and the Company's service connection, it shall be the customer's responsibility to obtain from the property owner or owners the necessary consent to install and maintain in, on or over said premises all such piping and other equipment as are required or necessary for supplying gas service to the customer whether the piping and equipment be the property of the customer or the Company.

6. Security Deposits:

The Company may require from all customers as a guaranty or security a cash deposit equal to the estimated maximum consumption for a period of two months; minimum deposit shall be \$5.00. Such deposit less any unpaid amounts for service rendered the customer shall be returned upon the discontinuance of service.

Where the monthly bills are in excess of the deposit, or where the customer has delinquent bills, the Company may require the deposit to be increased, but such deposit shall not exceed the amount of two months' estimated maximum consumption. Interest will be paid at the rate of six per cent (6%) annually upon demand or upon return of the deposit for the period between the deposit date and the date service is discontinued. The original security deposit receipt should be presented when demand is made for payment of interest or refund of deposit.

No deposit shall be required of any receiver or trustee operating a business requiring utility service under an order of court.

7. Access to Premises:

The Company shall have the right of access to the customer's premises at all reasonable times for the purpose of installing, reading, inspecting, repairing or removing its

22. Company's Discontinuance of Service for Cause: (Continued)

Neglect or refusal on the part of the customer to provide reasonable access to the premises for the purposes of reading meters, inspection, maintenance and operation shall also be deemed to be sufficient cause for the Company to discontinue the service.

23. Reconnection Charge:

A reconnection charge will be made by the Company to cover the cost incurred in reconnecting the meter or service when (a) the customer's service has been disconnected for non-payment of bills or for violation of the Commission's or Company's Rules or Regulations, and the customer has qualified for and requested the service to be reconnected or (b) the customer's service has been disconnected at his request and at any time subsequently within twelve (12) months is reconnected at the same or any other premises, in accordance with the Commission's Rule 9 as amended in Administrative Order No. 5 of January 14, 1957.

This Reconnection Charge to be made by the Company and paid by the customer before or at the time the service is reconnected shall be an amount as provided for in General Service Rate 1 as approved by the Public Service Commission.

24. Refusal of Service:

The Company will not render service to any customer unless the customer's service line, housepiping, appliances and equipment are properly installed and in safe operating condition, or where the customer continually fails to comply with the Company's Rules and Regulations.

The Company will not furnish service to any applicant who owes the Company any past due bill or a delinquent account for service furnished either at the same or other location, until such indebtedness shall have been paid in full.

24. Refusal of Service: (Continued)

The Company reserves the right to refuse or to defer full service to an applicant where the existing mains are inadequate to serve the applicant's requirements without adversely affecting the service to customers already connected and being served.

25. Notice of Escaping Gas or Unsafe Conditions:

Immediate notice must be given by the customer to the office or employees of the Company if any escaping gas or unsafe conditions are detected or any defects or improper installations are discovered in piping and equipment of either the Company or the customer which are on the customer's premises.

No flames or lights are to be taken near any escape of gas and the gas must be shut-off at the meter cock or valve until the hazard is eliminated and the gas service is not to be turned on again except by a Company employee.

The Company will not be responsible or assume any liability for any injury, loss or damage which may arise from the carelessness or negligence of the customer or his agents or representatives.

26. Turning Off Gas Service and Restoring Same:

CLASSIFICATION OF SERVICE

GENERAL SERVICE RATE 1

Character of Service:

Natural gas having approximately 1,000 Btu content per cubic foot.

Special Provisions:

(a) The Company may require a special written contract for large use or abnormal service requirements.

This contract shall include provisions for load limitations and for curtailment or interruptions as necessary, at the discretion of the Company, to prevent the load adversely affecting firm service customers in the area, and the contract customers shall provide and maintain adequate standby facilities and auxiliary fuel.

(b) The standard rules and regulations of the Company shall apply.

(c) All gas measured at pressures higher than low pressure distribution pressures shall be corrected to a base pressure of 14.65 pounds per square inch absolute.

(d) Not available for resale.

(e) Reconnection charge shall be \$6.00.

LARGE VOLUME RATE 3

Determination of Base Load and Excess Gas:

The BASE LOAD for any billing month shall be the smaller of the following:

- (a) The amount of gas delivered in the month.
- (b) The number of days in the month for such billing month multiplied by the average daily delivery during the preceding base load period of June, July, August and September.

For new customers where service is initiated after June 1 of any year, the Company shall have the right to estimate the base load until an actual base load is established. Such estimate shall consider connected load and hours of use.

The EXCESS GAS for such billing month shall be the remainder, if any, after deducting the base load Mcf from the total delivery for such month. During any billing month where customer complied fully with any partial or complete curtailment order of the Company, or where gas is used for processing only with 100% standby available and customer is subject to immediate interruption without advance notice, no gas shall be billed at the excess gas price.

Character of Service:

Natural gas having approximately 1,000 Btu content per cubic foot.

Gas sold under this rate schedule shall be subject to curtailment or complete interruption when gas is needed to safeguard service to customers under the Company's General Service Rate 1, or for other justified reasons, at the discretion of the Company, in accordance with the provisions of the contract.

PURCHASED GAS ADJUSTMENT CLAUSE

FOR CHANGES IN WHOLESALE COST OF NATURAL GAS

Applicable to:

Gas Tariffs "General Service Rate 1", "Seasonal Service Rate 2" and "Large Volume Rate 3" in effect for the entire service area of the Company, and, "General Service Rate 1(a)" in effect for Mayfield and environs only.

Purchased Gas Adjustment Clause:

(Conformed excerpt from an Order issued by the Kentucky Public Service Commission on October 24, 1957, in Case No. 3267).

The rates authorized herein (Case No. 3267 - October, 24, 1957) are based upon the wholesale cost of gas to the Applicant (Western Kentucky Gas Company) as computed upon rates of its wholesale suppliers then currently in effect under Federal Power Commission tariffs for interstate business or under wholesale tariffs of this Commission. For the purpose of this Purchased Gas Adjustment Clause, these rates shall be considered as the base rate for purchased gas. In the event there is any change in this base rate, either increase or decrease, the Applicant (Western Kentucky Gas Company) shall within thirty days from the time it receives notice of the proposed change file with this Commission the following information:

- (1) A copy of the Federal Power Commission tariff effecting the change in the base rates and a statement relative to the effective date of such proposed change.
- (2) A statement setting out the details of gas purchased under the provisions of the base rate for the previous twelve months showing billing under the base rate and under the proposed revised rate applicable to this service.
- (3) A balance sheet as of the end of the twelve months period and a statement of operating expenses and revenues in the same detail as reported to this Commission in the Utility's Annual Report.

- (4) A forecast showing the estimated gas purchases from all of the utilities contract suppliers for the next twelve months period together with an estimate of the cost thereof.
- (5) Such other information as this Commission may request for a proper determination of the purchased gas adjustment.

CHECKED
MAR 9 1959
hw

Upon receipt of this information this Commission will review the effect of the revised base rate on the operations of the Applicant (Western Kentucky Gas Company) and will prior to the effective date of the revised base rate, but not less than thirty days from the date of the filing of the above prescribed information, issue its Order setting out the purchased gas adjustment that the utility shall apply to its rates and/or such refunds as may be proper.

The maximum amount of the adjustment so prescribed shall not produce revenue adjustments based upon actual preceding twelve months period, greater than the difference between the purchased gas billed at the then existing rate and the purchased gas billed at the revised rate.

RULES AND REGULATIONS GOVERNING NATURAL GAS SERVICE

1. COMMISSION'S RULES AND REGULATIONS:

All gas service rendered by the Company shall be in accordance with the "Rules and Regulations for the Government of Gas Utilities" which have been adopted by the Public Service Commission of Kentucky and all amendments thereto and modifications thereof which may be made by the Commission.

FILED
MAR 3 1959
hu

2. COMPANY'S RULES AND REGULATIONS:

In addition to the Rules and Regulations prescribed by the Commission, all gas service rendered shall, also, be in accordance with the following Rules and Regulations adopted by the Company, provided same do not conflict with those of the Public Service Commission.

3. FILING OF RATES, RULES AND REGULATIONS:

A copy of all schedules of rates, rules and regulations under which gas service is rendered is on file for the public's benefit with the Public Service Commission of Kentucky and in the various offices of the Company.

4. APPLICATIONS FOR SERVICE:

All applications for service shall be made on the Company's standard application or contract form which shall be signed by the Customer, or his duly authorized agent, and accepted by the Company before any service is rendered.

A separate application or contract shall be made for each class of service at each separate location.

In cases where unusual construction or equipment expense is necessary to furnish the service, the Company may require a contract for a minimum period of one (1) year.

6. SECURITY DEPOSITS:

The Company may require from all Customers as a guaranty or security a cash deposit equal to the estimated maximum consumption for a period of two months; minimum deposit shall be \$5.00. Such deposit less any unpaid amounts for service rendered the Customer shall be returned upon the discontinuance of service.

Where the monthly bills are in excess of the deposit, or where the Customer has delinquent bills, the Company may require the deposit to be increased, but such deposit shall not exceed the amount of two months' estimated maximum consumption. Interest will be paid at the rate of six per cent (6%) annually upon demand or upon return of the deposit for the period between the deposit date and the date service is discontinued. The original security deposit receipt should be presented when demand is made for payment of interest or refund of deposit.

No deposit shall be required of any receiver or trustee operating a business requiring utility service under an order of court.

7. ACCESS TO PREMISES:

The Company shall have the right of access to the Customer's premises at all reasonable times for the purpose of installing

All of the Customer's service line, piping, connections and appliances shall be suitable for the purposes thereof and shall be maintained by the Customer at his expense at all times in a good, safe and serviceable condition.

The Company shall not assume any responsibility and shall not be held liable in any way for the making of any periodic inspection of the Customer's service line, piping, connections or appliances, or for the Customer's failure to properly and safely install, operate and maintain same.

10. METERING:

The gas consumed shall be measured by a meter or meters to be installed by the Company upon the Customer's premises at a point most accessible or convenient for the Company and all bills shall be calculated upon the registration of said meter or meters except as hereinafter provided. If more than one meter is installed for the same or different classes of service at different locations on the Customer's premises, each meter shall be considered separately in calculating the amount of any bills. Meters include all measuring instruments and equipment.

11. PROTECTION OF COMPANY'S PROPERTY:

All meters, piping and other appliances and equipment furnished by and at the expense of the Company, which may at any time be in or on Customer's premises shall, unless otherwise expressly provided herein, be and remain the property of the Company, and the Customer shall protect such property from loss or damage, and no one who is not an agent of the Company shall be permitted to remove such property or to tamper with or damage same.

15. CONTINUOUS OR UNIFORM SERVICE:

The Company will endeavor to supply gas continuously and without interruption, however, the Company shall not be responsible in damages or otherwise for any failure to supply gas or for any interruptions of the supply when such failure is without wilful fault or neglect on its part.

The Company cannot and does not guarantee either a sufficient supply or an adequate or uniform pressure of the gas supplied and shall not be liable for any damage or loss resulting from inadequate or interrupted supply or from any pressure variations when such conditions are not due to wilful fault or neglect on its part.

16. MONTHLY BILLS:

(a) Bills for gas service will be rendered monthly unless otherwise specified. The term "month" for billing purposes shall mean the period between any two consecutive readings of the meter by the Company, such readings to be taken as near as practicable every thirty (30) days.

(b) Bills are due upon rendition and shall be due and payable within a period not exceeding ten (10) days thereafter.

(c) Service shall be subject to being discontinued if bills are not paid in full within fifteen (15) days after rendition of bills.

(d) Failure to receive a bill does not exempt a Customer from these provisions.

(e) When the Company is unable to read the meter after a reasonable effort, or where the meter fails to operate, the Customer will be billed on an estimated basis at the average of three (3) immediately preceding months, or similar months of utilization, and the billing adjusted as necessary when the meter is read.

20. RENEWAL OF CONTRACT:

If, upon the expiration of any service contract for a specified term, the Customer continues to use the service, the contract (unless otherwise provided therein) will be automatically renewed and extended for successive periods of one year each, subject to termination at the end of any year upon thirty days written notice by either Party.

21. CUSTOMER'S DISCONTINUANCE OF SERVICE:

Any Customer desiring service discontinued or changed from one location to another shall give the Company three (3) day's advance notice in person, by phone or in writing, provided such notice does not violate contractual obligations.

The Customer shall be held responsible for all gas consumed until such notice is received by the Company and three (3) days time allowed to read the meter and render final bill.

22. COMPANY'S DISCONTINUANCE OF SERVICE FOR CAUSE:

The Company has the right to discontinue service to a Customer for violation of its Rules and Regulations or for non-payment of bills, however, service shall not be discontinued until the Company has diligently tried to induce the Customer to comply with its Rules and Regulations, or has diligently attempted to induce the Customer to pay the bills. After such efforts on the part of the Company the service may be discontinued only after at least twenty-four (24) hours written notice of such intention shall have been given to the Customer by the Company.

Where a dangerous condition is found to exist on the Customer's premises the service may be discontinued without notice.

CLASSIFICATION OF SERVICE

RULES AND REGULATIONS GOVERNING NATURAL GAS SERVICE

Where necessary for construction, maintenance or operation purposes, the Company may temporarily discontinue service to a Customer, however, notice shall be given whenever practical to do so.

The Company may discontinue service to a Customer immediately and without notice where it is discovered that the Customer has been or is using gas without same being partially or wholly measured through the meter or where the gas is, or has been, used fraudently, or where the Company's equipment has been tampered with. Where the service has been discontinued for any of these reasons the Company, by written notice to the Customer, may require the Customer, at his expense, to make proper changes or corrections as required by the Company before service is restored.

In addition to the foregoing the Company may require the Customer to pay the Company the cost of any and all damages to the Company's equipment, the deficiency in revenue estimated on as accurate a basis as is available, and the cost incurred by the Company in the correction of the defects or diversion including the cost of removal and installation of meters and regulators and the cost of restoring the service.

Neglect or refusal on the part of the Customer to provide reasonable access to the premises for the purposes of reading meters, inspection, maintenance and operation shall also be deemed to be sufficient cause for the Company to discontinue the service.

23. RECONNECTION CHARGE:

A Reconnection Charge will be made by the Company to cover the cost incurred in reconnecting the meter or service when (a) the Customer's service has been disconnected for non-payment of bills or for violation of the Commission's or Company's Rules or Regulations, and the Customer has qualified for and requested the service to be reconnected or (b) the Customer's service has been disconnected at his request and at any time subsequently within twelve (12) months is reconnected at the same or any other premises, in accordance with the Commission's Rule 9 as amended in Administrative Order No. 5 of January 14, 1957.

24. REFUSAL OF SERVICE:

The Company will not render service to any Customer unless the Customer's service line, housepiping, appliances and equipment are properly installed and in safe operating condition, or where the Customer continually fails to comply with the Company's Rules and Regulations.

The Company will not furnish service to any applicant who owes the Company any past due bill or a delinquent account for service furnished either at the same or other location, until such indebtedness shall have been paid in full.

The Company reserves the right to refuse or to defer full service to an applicant where the existing mains are inadequate to serve the applicant's requirements without adversely affecting the service to Customers already connected and being served.

25. NOTICE OF ESCAPING GAS OR UNSAFE CONDITIONS:

Immediate notice must be given by the Customer to the office or employees of the Company if any escaping gas or unsafe conditions are detected or any defects or improper installations are discovered in the piping and equipment of either the Company or the Customer which are on the Customer's premises.

No flames or lights are to be taken near any escape of gas and the gas must be shut-off at the meter cock or valve until the hazard is eliminated and the gas service is not to be turned on again except by a Company employee.

CLASSIFICATION OF SERVICE

RULES AND REGULATIONS GOVERNING NATURAL GAS SERVICE

The Company will not be responsible or assume any liability for any injury, loss or damage which may arise from the carelessness or negligence of the Customer or his agents or representatives.

26. TURNING OFF GAS SERVICE AND RESTORING SAME:

The gas service may be turned off at the meter when justified by the Customer or his agent or any constituted authorities but no person, unless in the employ of the gas Company or having permission from the gas Company, shall turn the gas on or restore service.

27. SPECIAL PROVISIONS - LARGE VOLUME CUSTOMERS:

Industrial, Commercial or other Customers using large volumes of gas on a varying basis shall install and maintain at their expense adequate piping and suitable regulating and control equipment to provide reasonable and practical limitation of intermittance or fluctuation in the pressure, volume or flow of gas, and shall so regulate and control their operations and the use of gas hereunder so as not to interfere with gas service being furnished to them or to any other Customers, or with the proper and accurate metering of gas at their or any other location.

28. SPECIAL RULES FOR CUSTOMERS SERVED FROM TRANSMISSION MAINS:

In addition to the Standard Rules and Regulations the following special Rules and Regulations shall apply to all Customers served directly from a high pressure transmission main which is the property of the Company or one of its Suppliers:

- (a) All service connections to a high pressure transmission line shall be subject to the special requirements, consent and approval of the Owner of said line. In case the connection is to a line not the property of the Company, proper approval must be obtained from both the Owner and the Company.

RULES AND REGULATIONS GOVERNING NATURAL GAS SERVICE

The Company will curtail or interrupt these Customers on as equitable a basis as is practicable, using its best judgment, and taking into consideration its operations and related factors and the operations and gas utilization of the Customers affected.

30. DISTRIBUTION MAIN EXTENSIONS:

The Company will extend without charge its existing distribution mains one hundred (100) feet for any one Customer provided the existing mains are of sufficient capacity to properly supply the additional Customers and provided that the Customer contracts to use gas on a continuous basis for one (1) year or more, and, provided, the potential consumption and revenue will be of such amount and permanency as to warrant the capital expenditures involved and to make the investment economically feasible.

Whenever an extension exceeds one hundred (100) feet per Customer, the Company will enter into an agreement with the Customer or Subscriber which will provide for such additional extension on a cost per foot basis, with the amount to be deposited by the Customer or Subscriber, and for a proportionate and equitable refund in the event other Customers are connected to the extension within five (5) years. Any further or lateral extension shall be treated as a new and separate extension. Refunds shall be made only after the Customer has used gas service for a minimum continuous period of one (1) year. The Company reserves the right to determine the length of the extension and to specify the pipe size and location of the extension. All extensions will be made dependent on the economic feasibility of the extension. Title to all extensions covered by agreements shall be and remain in the Company and in no case shall the amount of the refunds exceed the original deposit.

Nothing contained herein shall be construed as to prohibit the Company from making at its expense greater extensions to its distribution mains or the granting of more favorable terms than herein prescribed, should its judgment so dictate, provided like extensions

Determination of Base Load and Excess Gas:

The BASE LOAD for any billing month shall be the smaller of the following:

- (a) The amount of gas delivered in the month.
- (b) The number of days in the month for such billing month multiplied by the average daily delivery during the preceding base load period of June, July, August and September.

For new customers where service is initiated after June 1 of any year, the Company shall have the right to estimate the base load until an actual base load is established. Such estimate shall consider connected load and hours of use.

The EXCESS GAS for such billing month shall be the remainder, if any, after deducting the base load Mcf from the total delivery for such month. During any billing month where customer complied fully with any partial or complete curtailment order of the Company, or where gas is used for processing only with 100% standby available and customer is subject to immediate interruption without advance notice, no gas shall be billed at the excess gas price.

Character of Service:

Natural gas having approximately 1,000 Btu content per cubic foot.

Gas sold under this rate schedule shall be subject to curtailment or complete interruption when gas is needed to safeguard service to customers under the Company's General Service Rate 1, or for other justified reasons, at the discretion of the Company, in accordance with the provisions of the contract.

PURCHASED GAS ADJUSTMENT CLAUSE

FOR CHANGES IN WHOLESALE COST OF NATURAL GAS

APPROVED
NOV 6 1957
PUBLIC SERVICE COMMISSION
ENGINEERING DIVISION

Applicable to:

Gas Tariffs "General Service Rate 1", "Seasonal Service Rate 2" and "Large Volume Rate 3" in effect for the entire service area of the Company.

Purchased Gas Adjustment Clause:

(Conformed excerpt from an Order issued by the Kentucky Public Service Commission on October 24, 1957, in Case No. 3267)

The rates authorized herein (Case No. 3267- October 24, 1957) are based upon the wholesale cost of gas to the Applicant (Western Kentucky Gas Company) as computed upon rates of its wholesale suppliers then currently in effect under Federal Power Commission tariffs for interstate business or under wholesale tariffs of this Commission. For the purpose of this Purchased Gas Adjustment Clause, these rates shall be considered as the base rate for purchased gas. In the event there is any change in this base rate, either increase or decrease, the Applicant (Western Kentucky Gas Company) shall within thirty days from the time it receives notice of the proposed change file with this Commission the following information:

- (1) A copy of the Federal Power Commission tariff effecting the change in the base rates and a statement relative to the effective date of such proposed change.
- (2) A statement setting out the details of gas purchased under the provisions of the base rate for the previous twelve months showing billing under the base rate and under the proposed revised rate applicable to this service.
- (3) A balance sheet as of the end of the twelve months period and a statement of operating expenses and revenues in the same detail as reported to this Commission in the Utility's Annual Report.

PURCHASED GAS ADJUSTMENT CLAUSE

FOR CHANGES IN WHOLESALE COST OF NATURAL GAS

- (4) A forecast showing the estimated gas purchases from all of the utilities contract suppliers for the next twelve months period together with an estimate of the cost thereof.
- (5) Such other information as this Commission may request for a proper determination of the purchased gas adjustment.

Upon receipt of this information this Commission will review the effect of the revised base rate on the operations of the Applicant (Western Kentucky Gas Company) and will prior to the effective date of the revised base rate, but not less than thirty days from the date of the filing of the above prescribed information, issue its Order setting out the purchased gas adjustment that the utility shall apply to its rates and/or such refunds as may be proper.

The maximum amount of the adjustment so prescribed shall not produce revenue adjustments based upon the actual preceding twelve months period, greater than the difference between the purchased gas billed at the then existing rate and the purchased gas billed at the revised rate.

CLASSIFICATION OF SERVICE

RULES AND REGULATIONS GOVERNING NATURAL GAS SERVICE

APPROVED
NOV 6 1957
PUBLIC SERVICE COMMISSION
ENGINEERING DIVISION

1. COMMISSION'S RULES AND REGULATIONS:

All gas service rendered by the Company shall be in accordance with the "Rules and Regulations for the Government of Gas Utilities" which have been adopted by the Public Service Commission of Kentucky and all amendments thereto and modifications thereof which may be made by the Commission.

2. COMPANY'S RULES AND REGULATIONS:

In addition to the Rules and Regulations prescribed by the Commission, all gas service rendered shall, also, be in accordance with the following Rules and Regulations adopted by the Company, provided same do not conflict with those of the Public Service Commission.

3. FILING OF RATES, RULES AND REGULATIONS:

A copy of all schedules of rates, rules and regulations under which gas service is rendered is on file for the public's benefit with the Public Service Commission of Kentucky and in the various offices of the Company.

4. APPLICATIONS FOR SERVICE:

All applications for service shall be made on the Company's standard application or contract form which shall be signed by the Customer, or his duly authorized agent, and accepted by the Company before any service is rendered.

A separate application or contract shall be made for each class of service at each separate location.

In cases where unusual construction or equipment expense is necessary to furnish the service, the Company may require a contract for a minimum period of one (1) year.

5. OWNER'S CONSENT TO OCCUPY:

In case the Customer is not the owner of the premises or of the intervening property between the premises and the Company's service connection, it shall be the Customer's responsibility to obtain from the property owner or owners the necessary consent to install and maintain in, on or over said premises all such piping and other equipment as are required or necessary for supplying gas service to the Customer whether the piping and equipment be the property of the Customer or the Company.

6. SECURITY DEPOSITS:

The Company may require from all Customers as a guaranty or security a cash deposit equal to the estimated maximum consumption for a period of two months; minimum deposit shall be \$5.00. Such deposit less any unpaid amounts for service rendered the Customer shall be returned upon the discontinuance of service.

Where the monthly bills are in excess of the deposit, or where the Customer has delinquent bills, the Company may require the deposit to be increased, but such deposit shall not exceed the amount of two months' estimated maximum consumption. Interest will be paid at the rate of six per cent (6%) annually upon demand or upon return of the deposit for the period between the deposit date and the date service is discontinued. The original security deposit receipt should be presented when demand is made for payment of interest or refund of deposit.

No deposit shall be required of any receiver or trustee operating a business requiring utility service under an order of court.

7. ACCESS TO PREMISES:

The Company shall have the right of access to the Customer's premises at all reasonable times for the purpose of installing,

reading, inspecting, repairing or removing its meters, regulators or other equipment used in connection with its supply of gas service or for the purpose of turning on or shutting off the gas supply when necessary and for all other proper purposes.

8. COMPANY'S EQUIPMENT AND INSTALLATION:

The Company shall furnish, install and maintain at its expense the necessary service connection extending from its main to the Customer's nearest curb or property line. The location of this service connection will be made at the discretion and judgment of the Company.

The Company will furnish, install and maintain at its expense the necessary meter, regulator and connections which will be located at or near the main, service connection, property line, near or in the building, at the discretion or judgment of the Company. Whenever practical, in the judgment of the Company, the location will be as near the supply main as possible and outside of buildings. Suitable site or location for the meter, regulator and connections shall be provided by the Customer, and the title to this equipment shall remain in the Company, with the right to install, operate, maintain and remove same, and no charge shall be made by the Customer for use of the premises as occupied or used.

9. CUSTOMER'S EQUIPMENT AND INSTALLATION:

The Customer shall furnish, install and maintain at his expense the necessary Customer's service line extending from the Company's service connection at the curb or property line to the building or place of utilization of the gas.

The installation of the Customer's service line shall be made in accordance with the requirements of the constituted authorities and the Company's specifications covering location, installation, kind and size of pipe, type of pipe coating or wrapping and method of connecting the joints of pipe. The location shall be the point of easiest

access to the Company from its facilities and the Company shall be consulted and its approval obtained before the installation is made.

In the installation of the service line the Customer shall not install any tees or branch connection and must leave the trench open and pipe uncovered until it is examined by an inspector of the Company and shown to be free from any irregularity or defect. The Customer shall not make any change in or interfere with his service line without the written consent of the Company.

In all cases where practical the Customer's service line shall not be installed entering a building underground but shall be brought up out of the ground with a riser and entrance made to the building through the wall or foundation a minimum of six (6) inches above the ground.

The Customer shall furnish, install and maintain at his expense the necessary housepiping, connections and appliances and same shall be installed in accordance with the requirements and specifications of "INSTALLATION OF GAS PIPING AND GAS APPLIANCES IN BUILDINGS" as compiled and approved by the American Standards Association, the National Board of Fire Underwriters, the American Gas Association and other similar bodies on December 5th, 1950 (ASA - Z 21.30 - 1950), and any revisions thereof which are herewith incorporated by reference as a part of the Company's Rules and Regulations where applicable and when not in conflict with the requirements of the constituted authorities.

No appliances shall be used which are not of a standard design and which have not been approved by the American Gas Association or a similar or equally qualified agency.

Suitable pressure regulators shall be installed by, or at the expense of, the Customer on all heating appliances and special equipment which have an hourly input of 50,000 Btu or higher; pressure regulators shall also be installed on all appliances with lower inputs

where provided or recommended by the manufacturer or where necessary, at the discretion of the Company, to provide better and safer gas utilization and service.

All of the Customer's service line, piping, connections and appliances shall be suitable for the purposes thereof and shall be maintained by the Customer at his expense at all times in a good, safe and serviceable condition.

The Company shall not assume any responsibility and shall not be held liable in any way for the making of any periodic inspection of the Customer's service line, piping, connections or appliances, or for the Customer's failure to properly and safely install, operate and maintain same.

10. **METERING:**

The gas consumed shall be measured by a meter or meters to be installed by the Company upon the Customer's premises at a point most accessible or convenient for the Company and all bills shall be calculated upon the registration of said meter or meters except as hereinafter provided. If more than one meter is installed for the same or different classes of service at different locations on the Customer's premises, each meter shall be considered separately in calculating the amount of any bills. Meters include all measuring instruments and equipment.

11. **PROTECTION OF COMPANY'S PROPERTY:**

All meters, piping and other appliances and equipment furnished by and at the expense of the Company, which may at any time be in or on Customer's premises shall, unless otherwise expressly provided herein, be and remain the property of the Company, and the Customer shall protect such property from loss or damage, and no one who is not an agent of the Company shall be permitted to remove such property or to tamper with or damage same.

12. EXCLUSIVE SERVICE:

Except in cases where the Customer has a special contract with the Company for reserve or auxiliary service, no other fuel service shall be used by the Customer on the same installation in conjunction with the Company's service connection, either by means of valves or any other connection.

The Customer shall not sell the gas purchased from the Company to any other Customer, Company or Person, and the Customer shall not deliver gas purchased from the Company to any connection where- in said gas is to be used off of Customer's premises or by persons over whom Customer has no control.

13. POINT OF DELIVERY OF GAS:

The point of delivery of gas supplied by the Company shall be at the point where the gas passes from the pipes of the Company's service connection into the Customer's service line or pipe of the Customer, or at the outlet of the meter, whichever is nearest the delivery main of the Company.

14. CUSTOMER'S LIABILITY:

The Customer shall assume all responsibility for the gas service in or on the Customer's premises at and from the point of delivery of gas and for all the piping, appliances and equipment used in connection therewith which are not the property of the Company, and will protect and save the Company harmless from all claims for injury or damage to persons or property occurring on the Customer's premises or at and from the point of delivery of gas occasioned by such gas or gas service and equipment, except where said injury or damage will be shown to have been caused solely by the negligence of the Company.

15. CONTINUOUS OR UNIFORM SERVICE:

The Company will endeavor to supply gas continuously and without interruption, however, the Company shall not be responsible in damages or otherwise for any failure to supply gas or for any interruptions of the supply when such failure is without wilful fault or neglect on its part.

The Company cannot and does not guarantee either a sufficient supply or an adequate or uniform pressure of the gas supplied and shall not be liable for any damage or loss resulting from inadequate or interrupted supply or from any pressure variations when such conditions are not due to wilful fault or neglect on its part.

16. MONTHLY BILLS:

- (a) Bills for gas service will be rendered monthly unless otherwise specified. The term "month" for billing purposes shall mean the period between any two consecutive readings of the meter by the Company, such readings to be taken as near as practicable every thirty (30) days.
- (b) Bills are due upon rendition and shall be due and payable within a period not exceeding ten (10) days thereafter.
- (c) Service shall be subject to being discontinued if bills are not paid in full within fifteen (15) days after rendition of bills.
- (d) Failure to receive a bill does not exempt a Customer from these provisions.
- (e) When the Company is unable to read the meter after a reasonable effort, or where the meter fails to operate, the Customer will be billed on an estimated basis at the average of three (3) immediately preceding months, or similar months of utilization, and the billing adjusted as necessary when the meter is read.

CLASSIFICATION OF SERVICE

RULES AND REGULATIONS GOVERNING NATURAL GAS SERVICE

17. MEASUREMENT BASE:

The rates of the Company are based upon gas delivered to the Customer on a basis of four (4) ounces per square inch above an assumed atmospheric pressure of fourteen and four tenths (14.4) pounds per square inch, or fourteen and sixty-five hundredths (14.65) pounds per square inch absolute pressure, at an assumed temperature of sixty (60) degrees Fahrenheit; provided, however, the Company reserves the right to correct as necessary the actual temperature to a sixty (60) degree F. basis in the cases of large volume industrial customers.

All gas measured at pressures higher than the standard pressure for low pressure distribution systems shall be corrected to a pressure base of fourteen and sixty-five hundredths (14.65) pounds per square inch absolute.

18. CHARACTER OF SERVICE:

The Company will normally supply natural gas having a heating value of approximately one thousand (1,000) Btu per cubic foot and a specific gravity of approximately six tenths (0.6), however, when necessary to supplement the supply of natural gas, the Company reserves the right, at its discretion, to supply an interchangeable mixture of vaporized liquified petroleum gas and air, or a combination of same with natural gas.

19. ASSIGNMENT OF CONTRACT:

The benefits and obligations of any service application or contract shall begin when the Company commences to supply gas service and shall inure to and be binding upon the successors and assigns, survivors and executors or administrators, as the case may be, of the original parties thereto, respectively, for the full term thereof, provided, however, that no application, agreement or contract for service may be assigned or transferred without the written consent or approval of the Company.

CLASSIFICATION OF SERVICE

RULES AND REGULATIONS GOVERNING NATURAL GAS SERVICE

When the gas supply has been disconnected for non-payment of bills or other violation of the Company's Rules and Regulations, the service will not be restored at the same location, or connected at another location, for the same or related occupants under a different contract or name when it is evident the change of name is a subterfuge designed to defraud or penalize the Company.

20. RENEWAL OF CONTRACT:

If, upon the expiration of any service contract for a specified term, the Customer continues to use the service, the contract (unless otherwise provided therein) will be automatically renewed and extended for successive periods of one year each, subject to termination at the end of any year upon thirty days written notice by either Party.

APPROVED
NOV 6 1957
PUBLIC SERVICE COMMISSION
ENGINEERING DIVISION

21. CUSTOMER'S DISCONTINUANCE OF SERVICE:

Any Customer desiring service discontinued or changed from one location to another shall give the Company three (3) day's advance notice in person, by phone or in writing, provided such notice does not violate contractual obligations.

The Customer shall be held responsible for all gas consumed until such notice is received by the Company and three (3) days time allowed to read the meter and render final bill.

22. COMPANY'S DISCONTINUANCE OF SERVICE FOR CAUSE:

The Company has the right to discontinue service to a Customer for violation of its Rules and Regulations or for non-payment of bills, however, service shall not be discontinued until the Company has diligently tried to induce the Customer to comply with its Rules and Regulations, or has diligently attempted to induce the Customer to pay the bills. After such efforts on the part of the Company the service may be discontinued only after at least twenty-four (24) hours written notice of such intention shall have been given to the Customer by the Company.

Where a dangerous condition is found to exist on the Customer's premises the service may be discontinued without notice.

CLASSIFICATION OF SERVICE

RULES AND REGULATIONS GOVERNING NATURAL GAS SERVICE

Where necessary for construction, maintenance or operation purposes, the Company may temporarily discontinue service to a Customer, however, notice shall be given whenever practical to do so.

The Company may discontinue service to a Customer immediately and without notice where it is discovered that the Customer has been or is using gas without same being partially or wholly measured through the meter or where the gas is, or has been, used fraudently, or where the Company's equipment has been tampered with. Where the service has been discontinued for any of these reasons the Company, by written notice to the Customer, may require the Customer, at his expense, to make proper changes or corrections as required by the Company before service is restored.

In addition to the foregoing the Company may require the Customer to pay the Company the cost of any and all damages to the Company's equipment, the deficiency in revenue estimated on as accurate a basis as is available, and the cost incurred by the Company in the correction of the defects or diversion including the cost of removal and installation of meters and regulators and the cost of restoring the service.

Neglect or refusal on the part of the Customer to provide reasonable access to the premises for the purposes of reading meters, inspection, maintenance and operation shall also be deemed to be sufficient cause for the Company to discontinue the service.

23. RECONNECTION CHARGE:

A Reconnection Charge will be made by the Company to cover the cost incurred in reconnecting the meter or service when (a) the Customer's service has been disconnected for non-payment of bills or for violation of the Commission's or Company's Rules or Regulations, and the Customer has qualified for and requested the service to be reconnected or (b) the Customer's service has been disconnected at his request and at any time subsequently within twelve (12) months is reconnected at the same (or any other premises, in accordance with the Commission's Rule 9 as amended in Administrative Order No. 5 of January 14, 1957.

CLASSIFICATION OF SERVICE

RULES AND REGULATIONS GOVERNING NATURAL GAS SERVICE

This Reconnection Charge to be made by the Company and paid by the Customer before or at the time the service is reconnected shall be an amount as provided for in General Service Rates as approved by the Public Service Commission.

24. REFUSAL OF SERVICE:

The Company will not render service to any Customer unless the Customer's service line, housepiping, appliances and equipment are properly installed and in safe operating condition, or where the Customer continually fails to comply with the Company's Rules and Regulations.

The Company will not furnish service to any applicant who owes the Company any past due bill or a delinquent account for service furnished either at the same or other location, until such indebtedness shall have been paid in full.

The Company reserves the right to refuse or to defer full service to an applicant where the existing mains are inadequate to serve the applicant's requirements without adversely affecting the service to Customers already connected and being served.

25. NOTICE OF ESCAPING GAS OR UNSAFE CONDITIONS:

Immediate notice must be given by the Customer to the office or employees of the Company if any escaping gas or unsafe conditions are detected or any defects or improper installations are discovered in the piping and equipment of either the Company or the Customer which are on the Customer's premises.

No flames or lights are to be taken near any escape of gas and the gas must be shut-off at the meter cock or valve until the hazard is eliminated and the gas service is not to be turned on again except by a Company employee.

CLASSIFICATION OF SERVICE

RULES AND REGULATIONS GOVERNING NATURAL GAS SERVICE

The Company will not be responsible or assume any liability for any injury, loss or damage which may arise from the carelessness or negligence of the Customer or his agents or representatives.

26. TURNING OFF GAS SERVICE AND RESTORING SAME:

NOV 6 1957

The gas service may be turned off at the meter when justified by the Customer or his agent or any constituted authorities but no person, unless in the employ of the gas Company or having permission from the gas Company, shall turn the gas on or restore service.

APPROVED
PUBLIC SERVICE COMMISSION
ENGINEERING DIVISION

27. SPECIAL PROVISIONS - LARGE VOLUME CUSTOMERS:

Industrial, Commercial or other Customers using large volumes of gas on a varying basis shall install and maintain at their expense adequate piping and suitable regulating and control equipment to provide reasonable and practical limitation of intermittance or fluctuation in the pressure, volume or flow of gas, and shall so regulate and control their operations and the use of gas hereunder so as not to interfere with gas service being furnished to them or to any other Customers, or with the proper and accurate metering of gas at their or any other location.

28. SPECIAL RULES FOR CUSTOMERS SERVED FROM TRANSMISSION MAINS:

In addition to the Standard Rules and Regulations the following special Rules and Regulations shall apply to all Customers served directly from a high pressure transmission main which is the property of the Company or one of its Suppliers:

(a) All service connections to a high pressure transmission line shall be subject to the special requirements, consent and approval of the Owner of said line. In case the connection is to a line not the property of the Company, proper approval must be obtained from both the Owner and the Company.

- (b) A special form application and service contract or agreement shall be executed by the Customer and approved and accepted by both the Owner of the transmission line and the Company prior to the time the tap or connection is made. If the transmission line is owned by the Company only the approval and acceptance of the Company is necessary.
- (c) All meters, regulators, equipment and connections necessary to serve the Customer from a high pressure transmission line shall be installed on the Customer's premises at or as near the transmission line as is practical.
- (d) Suitable site or location for the equipment owned by the Company or the owner of the line shall be provided and furnished by the Customer without any expense to the Company or Owner of the line. The Company or Owner of the line shall have the right of ingress, egress and regress to and from this location at any time without any expense or charges from the Customer.
- (e) The Customer's service line extending from the outlet of the meter shall be installed and maintained by the Customer at his expense.
- (f) The Customer shall notify the Company promptly of any leaks in the transmission line or equipment, also, of any hazards or damages to same.
- (g) Customers may be required to send in monthly meter readings to the Company on suitable forms provided by the Company.

29. CURTAILMENT ORDER:

In case of impairment of gas supply or partial or total interruption and when it appears the Company is, or will be, unable to supply, at any time, the requirements of all its Customers in any system or segment thereof, due to any cause whatsoever, then the Order of

RULES AND REGULATIONS GOVERNING NATURAL GAS SERVICE

Curtailment or Interruption of Service, insofar as practicable shall be:

- Step 1. Deliveries to industrial or other Customers under contracts providing for interruptible service and curtailment.
- Step 2. Deliveries to industrial Customers under contracts or rate schedules providing for firm service.
- Step 3. Deliveries to commercial Customers for space heating purposes.
- Step 4. Deliveries to commercial Customers for non-space heating purposes.

APPROVED
NOV 6 1957
PUBLIC SERVICE COMMISSION
ENGINEERING DIVISION

When the curtailments or interruptions of deliveries in the above steps fail to provide sufficient gas to meet the requirements of the remaining Customers, the Company shall exercise its best judgment and distribute as equitably as possible the gas that is available, taking into consideration the Customers affected and their gas utilization, the operation of its system and any other factors it deems necessary in the best interests of service, public health and safety.

When the causes or contingencies of the curtailments or interruptions cease to be operative the Company shall restore full service to all Customers as promptly as possible in the reverse order of the curtailments or interruptions insofar as is practicable.

Regardless of impairment of supply or other similar reasons, industrial and other Customers under contracts providing for interruptible service and curtailment will be interrupted or curtailed for "peak shaving" purposes to avoid an increased Maximum Daily Demand in the Company's gas purchases, and for other reasons as justified or necessary in accordance with the provisions of the contract.

CLASSIFICATION OF SERVICE

RULES AND REGULATIONS GOVERNING NATURAL GAS SERVICE

The Company will curtail or interrupt these Customers on as equitable a basis as is practicable, using its best judgment, and taking into consideration its operations and related factors and the operations and gas utilization of the Customers affected.

30. DISTRIBUTION MAIN EXTENSIONS:

The Company will extend without charge its existing distribution mains one hundred (100) feet for any one Customer provided existing mains are of sufficient capacity to properly supply the additional Customers and provided that the Customer contracts to use gas on a continuous basis for one (1) year or more, and, provided, the potential consumption and revenue will be of such amount and permanency as to warrant the capital expenditures involved and to make the investment economically feasible.

Whenever an extension exceeds one hundred (100) feet per Customer, the Company will enter into an agreement with the Customer or Subscriber which will provide for such additional extension on a cost per foot basis, with the amount to be deposited by the Customer or Subscriber, and for a proportionate and equitable refund in the event other Customers are connected to the extension within five (5) years. Any further or lateral extension shall be treated as a new and separate extension. Refunds shall be made only after the Customer has used gas service for a minimum continuous period of one (1) year. The Company reserves the right to determine the length of the extension and to specify the pipe size and location of the extension. All extensions will be made dependent on the economic feasibility of the extension. Title to all extensions covered by agreements shall be and remain in the Company and in no case shall the amount of the refunds exceed the original deposit.

Nothing contained herein shall be construed as to prohibit the Company from making at its expense greater extensions to its distribution mains or the granting of more favorable terms than herein prescribed, should its judgment so dictate, provided like extensions

CLASSIFICATION OF SERVICE

RULES AND REGULATIONS GOVERNING NATURAL GAS SERVICE

1. COMMISSION'S RULES AND REGULATIONS:

All gas service rendered by the Company shall be in accordance with the "Rules and Regulations for the Government of Gas Utilities" which have been adopted by the Public Service Commission of Kentucky and all amendments thereto and modifications thereof which may be made by the Commission.

2. COMPANY'S RULES AND REGULATIONS:

In addition to the Rules and Regulations prescribed by the Commission, all gas service rendered shall, also, be in accordance with the following Rules and Regulations adopted by the Company, provided same do not conflict with those of the Public Service Commission.

3. FILING OF RATES, RULES AND REGULATIONS:

A copy of all schedules of rates, rules and regulations under which gas service is rendered is on file for the public's benefit with the Public Service Commission of Kentucky and in the various offices of the Company.

4. APPLICATIONS FOR SERVICE:

All applications for service shall be made on the Company's standard application or contract form which shall be signed by the Customer, or his duly authorized agent, and accepted by the Company before any service is rendered.

A separate application or contract shall be made for each class of service at each separate location.

In cases where unusual construction or equipment expense is necessary to furnish the service, the Company may require a contract for a minimum period of one (1) year.

CLASSIFICATION OF SERVICE

RULES AND REGULATIONS GOVERNING NATURAL GAS SERVICE

5. OWNER'S CONSENT TO OCCUPY:

In case the Customer is not the owner of the premises or of the intervening property between the premises and the Company's service connection, it shall be the Customer's responsibility to obtain from the property owner or owners the necessary consent to install and maintain in, on or over said premises all such piping and other equipment as are required or necessary for supplying gas service to the Customer whether the piping and equipment be the property of the Customer or the Company.

6. SECURITY DEPOSITS:

The Company may require from all Customers as a guaranty or security a cash deposit equal to the estimated maximum consumption for a period of two months; minimum deposit shall be \$5.00. Such deposit less any unpaid amounts for service rendered the Customer shall be returned upon the discontinuance of service.

Where the monthly bills are in excess of the deposit, or where the Customer has delinquent bills, the Company may require the deposit to be increased, but such deposit shall not exceed the amount of two months' estimated maximum consumption. Interest will be paid at the rate of six per cent (6%) annually upon demand or upon return of the deposit for the period between the deposit date and the date service is discontinued. The original security deposit receipt should be presented when demand is made for payment of interest or refund of deposit.

No deposit shall be required of any receiver or trustee operating a business requiring utility service under an order of court.

7. ACCESS TO PREMISES:

The Company shall have the right of access to the Customer's premises at all reasonable times for the purpose of installing,

reading, inspecting, repairing or removing its meters, regulators or other equipment used in connection with its supply of gas service or for the purpose of turning on or shutting off the gas supply when necessary and for all other proper purposes.

8. COMPANY'S EQUIPMENT AND INSTALLATION:

The Company shall furnish, install and maintain at its expense the necessary service connection extending from its main to the Customer's nearest curb or property line. The location of this service connection will be made at the discretion and judgment of the Company.

The Company will furnish, install and maintain at its expense the necessary meter, regulator and connections which will be located at or near the main, service connection, property line, near or in the building, at the discretion or judgment of the Company. Whenever practical, in the judgment of the Company, the location will be as near the supply main as possible and outside of buildings. Suitable site or location for the meter, regulator and connections shall be provided by the Customer, and the title to this equipment shall remain in the Company, with the right to install, operate, maintain and remove same, and no charge shall be made by the Customer for use of the premises as occupied or used.

9. CUSTOMER'S EQUIPMENT AND INSTALLATION:

The Customer shall furnish, install and maintain at his expense the necessary Customer's service line extending from the Company's service connection at the curb or property line to the building or place of utilization of the gas.

The installation of the Customer's service line shall be made in accordance with the requirements of the constituted authorities and the Company's specifications covering location, installation, kind and size of pipe, type of pipe coating or wrapping and method of

ment which have an hourly input of 50,000 Btu or higher; pressure regulators shall also be installed on all appliances with lower inputs where provided or recommended by the manufacturer or where necessary, at the discretion of the Company, to provide better and safer gas utilization and service.

All of the Customer's service line, piping, connections and appliances shall be suitable for the purposes thereof and shall be maintained by the Customer at his expense at all times in a good, safe and serviceable condition.

The Company shall not assume any responsibility and shall not be held liable in any way for the making of any periodic inspection of the Customer's service line, piping, connections or appliances, or for the Customer's failure to properly and safely install, operate and maintain same.

10. METERING:

The gas consumed shall be measured by a meter or meters to be installed by the Company upon the Customer's premises at a point most accessible or convenient for the Company and all bills shall be calculated upon the registration of said meter or meters except as hereinafter provided. If more than one meter is installed for the same or different classes of service at different locations on the Customer's premises, each meter shall be considered separately in calculating the amount of any bills. Meters include all measuring instruments and equipment.

11. PROTECTION OF COMPANY'S PROPERTY:

All meters, piping and other appliances and equipment furnished by and at the expense of the Company, which may at any time be in or on Customer's premises shall, unless otherwise expressly provided herein, be and remain the property of the Company, and the Customer shall protect such property from loss or damage, and no

one who is not an agent of the Company shall be permitted to remove such property or to tamper with or damage same.

12. EXCLUSIVE SERVICE:

Except in cases where the Customer has a special contract with the Company for reserve or auxiliary service, no other fuel service shall be used by the Customer on the same installation in conjunction with the Company's service connection, either by means of valves or any other connection.

The Customer shall not sell the gas purchased from the Company to any other Customer, Company or Person, and the Customer shall not deliver gas purchased from the Company to any connection where-in said gas is to be used off of Customer's premises or by persons over whom Customer has no control.

13. POINT OF DELIVERY OF GAS:

The point of delivery of gas supplied by the Company shall be at the point where the gas passes from the pipes of the Company's service connection into the Customer's service line or pipe of the Customer, or at the outlet of the meter, whichever is nearest the delivery main of the Company.

14. CUSTOMER'S LIABILITY:

The Customer shall assume all responsibility for the gas service in or on the Customer's premises at and from the point of delivery of gas and for all the piping, appliances and equipment used in connection therewith which are not the property of the Company, and will protect and save the Company harmless from all claims for injury or damage to persons or property occurring on the Customer's premises or at and from the point of delivery of gas occasioned by such gas or gas service and equipment, except where said injury or damage will be shown to have been caused solely by the negligence of the Company.

WESTERN KENTUCKY GAS COMPANY

Name or Issuing Corporation

CLASSIFICATION OF SERVICE

RULES AND REGULATIONS GOVERNING NATURAL GAS SERVICE

15. CONTINUOUS OR UNIFORM SERVICE:

The Company will endeavor to supply gas continuously and without interruption, however, the Company shall not be responsible in damages or otherwise for any failure to supply gas or for any interruptions of the supply when such failure is without wilful fault or neglect on its part.

The Company cannot and does not guarantee either a sufficient supply or an adequate or uniform pressure of the gas supplied and shall not be liable for any damage or loss resulting from inadequate or interrupted supply or from any pressure variations when such conditions are not due to wilful fault or neglect on its part.

16. MONTHLY BILLS:

(a) Bills for gas service will be rendered monthly unless otherwise specified. The term "month" for billing purposes shall mean the period between any two consecutive readings of the meter by the Company, such readings to be taken as near as practicable every thirty (30) days.

(b) Bills are due upon rendition and shall be due and payable within a period not exceeding ten (10) days thereafter.

(c) Service shall be subject to being discontinued if bills are not paid in full within fifteen (15) days after rendition of bills.

(d) Failure to receive a bill does not exempt a Customer from these provisions.

(e) When the Company is unable to read the meter after a reasonable effort, or where the meter fails to operate, the Customer will be billed on an estimated basis at the average of three (3) immediately preceding months, or similar months of utilization, and the billing adjusted as necessary when the meter is read.

WESTERN KENTUCKY GAS COMPANY
Name of Issuing Corporation

CLASSIFICATION OF SERVICE

RULES AND REGULATIONS GOVERNING NATURAL GAS SERVICE

17. MEASUREMENT BASE:

The rates of the Company are based upon gas delivered to the Customer on a basis of four (4) ounces per square inch above an assumed atmospheric pressure of fourteen and four tenths (14.4) pounds per square inch, or fourteen and sixty-five hundredths (14.65) pounds per square inch absolute pressure, at an assumed temperature of sixty (60) degrees Fahrenheit; provided, however, the Company reserves the right to correct as necessary the actual temperature to a sixty (60) degree F. basis in the cases of large volume industrial customers.

All gas measured at pressures higher than the standard pressure for low pressure distribution systems shall be corrected to a pressure base of fourteen and sixty-five hundredths (14.65) pounds per square inch absolute.

18. CHARACTER OF SERVICE:

The Company will normally supply natural gas having a heating value of approximately one thousand (1,000) Btu per cubic foot and a specific gravity of approximately six tenths (0.6), however, when necessary to supplement the supply of natural gas, the Company reserves the right, at its discretion, to supply an interchangeable mixture of vaporized liquified petroleum gas and air, or a combination of same with natural gas.

19. ASSIGNMENT OF CONTRACT:

The benefits and obligations of any service application or contract shall begin when the Company commences to supply gas service and shall inure to and be binding upon the successors and assigns, survivors and executors or administrators, as the case may be, of the original parties thereto, respectively, for the full term thereof, provided, however, that no application, agreement or contract for service may be assigned or transferred without the written consent or approval of the Company.

WESTERN KENTUCKY GAS COMPANY
Name or Issuing Corporation

CLASSIFICATION OF SERVICE

RULES AND REGULATIONS GOVERNING NATURAL GAS SERVICE

When the gas supply has been disconnected for non-payment of bills or other violation of the Company's Rules and Regulations, the service will not be restored at the same location, or connected at another location, for the same or related occupants under a different contract or name when it is evident the change of name is a subterfuge designed to defraud or penalize the Company.

20. RENEWAL OF CONTRACT:

If, upon the expiration of any service contract for a specified term, the Customer continues to use the service, the contract (unless otherwise provided therein) will be automatically renewed and extended for successive periods of one year each, subject to termination at the end of any year upon thirty days written notice by either Party.

21. CUSTOMER'S DISCONTINUANCE OF SERVICE:

Any Customer desiring service discontinued or changed from one location to another shall give the Company three (3) day's advance notice in person, by phone or in writing, provided such notice does not violate contractual obligations.

The Customer shall be held responsible for all gas consumed until such notice is received by the Company and three (3) days time allowed to read the meter and render final bill.

22. COMPANY'S DISCONTINUANCE OF SERVICE FOR CAUSE:

The Company has the right to discontinue service to a Customer for violation of its Rules and Regulations or for non-payment of bills however, service shall not be discontinued until the Company has diligently tried to induce the Customer to comply with its Rules and Regulations, or has diligently attempted to induce the Customer to pay the bills. After such efforts on the part of the Company the service may be discontinued only after at least twenty-four (24) hours written notice of such intention shall have been given to the Customer by the Company.

WESTERN KENTUCKY GAS COMPANY

BY
Name or Issuing Corporation

CLASSIFICATION OF SERVICE

RULES AND REGULATIONS GOVERNING NATURAL GAS SERVICE

Where a dangerous condition is found to exist on the Customer's premises the service may be discontinued without notice.

Where necessary for construction, maintenance or operation purposes, the Company may temporarily discontinue service to a Customer, however, notice shall be given whenever practical to do so.

The Company may discontinue service to a Customer immediately and without notice where it is discovered that the Customer has been or is using gas without same being partially or wholly measured through the meter or where the gas is, or has been, used fraudently, or where the Company's equipment has been tampered with. Where the service has been discontinued for any of these reasons the Company, by written notice to the Customer, may require the Customer, at his expense, to make proper changes or corrections as required by the Company before service is restored.

In addition to the foregoing the Company may require the Customer to pay the Company the cost of any and all damages to the Company's equipment, the deficiency in revenue estimated on as accurate a basis as is available, and the cost incurred by the Company in the correction of the defects or diversion including the cost of removal and installation of meters and regulators and the cost of restoring the service.

Neglect or refusal on the part of the Customer to provide reasonable access to the premises for the purposes of reading meters, inspection, maintenance and operation shall also be deemed to be sufficient cause for the Company to discontinue the service.

23. RECONNECT CHARGE:

A Reconnect Charge will be made by the Company to cover the expenses incurred in reconnecting the meter or service when (a) the customer's gas service has been disconnected for non-payment of bills or for violation of the Company's Rules and Regulations,

and the Customer has qualified for and requested the service to be reconnected, or (b) the Customer discontinues using gas and at any time within twelve (12) months thereafter resumes service at the same location.

This Reconnect Charge to be made by the Company and paid by the Customer shall be an amount as provided for in General Service Rate 1 as approved by the Public Service Commission, and is payable before or at the time service is reconnected.

24. REFUSAL OF SERVICE:

The Company will not render service to any Customer unless the Customer's service line, housepiping, appliances and equipment are properly installed and in safe operating condition, or where the Customer continually fails to comply with the Company's Rules and Regulations.

The Company will not furnish service to any applicant who owes the Company any past due bill or a delinquent account for service furnished either at the same or other location, until such indebtedness shall have been paid in full.

The Company reserves the right to refuse or to defer full service to an applicant where the existing mains are inadequate to serve the applicant's requirements without adversely affecting the service to Customers already connected and being served.

25. NOTICE OF ESCAPING GAS OR UNSAFE CONDITIONS:

Immediate notice must be given by the Customer to the office or employees of the Company if any escaping gas or unsafe conditions are detected or any defects or improper installations are discovered in the piping and equipment of either the Company or the Customer which are on the Customer's premises.

WESTERN KENTUCKY GAS COMPANY

Name or Issuing Corporation

CLASSIFICATION OF SERVICE

RULES AND REGULATIONS GOVERNING NATURAL GAS SERVICE

No flames or lights are to be taken near any escape of gas and the gas must be shut-off at the meter cock or valve until the hazard is eliminated and the gas service is not to be turned on again except by a Company employee.

The Company will not be responsible or assume any liability for any injury, loss or damage which may arise from the carelessness or negligence of the Customer or his agents or representatives.

26. TURNING OFF GAS SERVICE AND RESTORING SAME:

The gas service may be turned off at the meter when justified by the Customer or his agent or any constituted authorities but no person, unless in the employ of the gas Company or having permission from the gas Company, shall turn the gas on or restore service.

27. SPECIAL PROVISIONS - LARGE VOLUME CUSTOMERS:

Industrial, Commercial or other Customers using large volumes of gas on a varying basis shall install and maintain at their expense adequate piping and suitable regulating and control equipment to provide reasonable and practical limitation of intermittance or fluctuation in the pressure, volume or flow of gas, and shall so regulate and control their operations and the use of gas hereunder so as not to interfere with gas service being furnished to them or to any other Customers, or with the proper and accurate metering of gas at their or any other location.

28. SPECIAL RULES FOR CUSTOMERS SERVED FROM TRANSMISSION MAINS:

In addition to the Standard Rules and Regulations the following special Rules and Regulations shall apply to all Customers served directly from a high pressure transmission main which is the property of the Company or one of its Suppliers:

- (a) All service connections to a high pressure transmission line shall be subject to the special requirements, consent and approval of the Owner of said line. In case the connection is to a line not the property of the Company, proper approval must be obtained from both the Owner and the Company.
- (b) A special form application and service contract or agreement shall be executed by the Customer and approved and accepted by both the Owner of the transmission line and the Company prior to the time the tap or connection is made. If the transmission line is owned by the Company only the approval and acceptance of the Company is necessary.
- (c) All meters, regulators, equipment and connections necessary to serve the Customer from a high pressure transmission line shall be installed on the Customer's premises at or as near the transmission line as is practical.
- (d) Suitable site or location for the equipment owned by the Company or the owner of the line shall be provided and furnished by the Customer without any expense to the Company or Owner of the line. The Company or Owner of the line shall have the right of ingress, egress and regress to and from this location at any time without any expense or charges from the Customer
- (e) The Customer's service line extending from the outlet of the meter shall be installed and maintained by the Customer at his expense.
- (f) The Customer shall notify the Company promptly of any leaks in the transmission line or equipment, also, of any hazards or damages to same.
- (g) Customers may be required to send in monthly meter readings to the Company on suitable forms provided by the Company.

CLASSIFICATION OF SERVICE

RULES AND REGULATIONS GOVERNING NATURAL GAS SERVICE

29. CURTAILMENT ORDER:

In case of impairment of gas supply or partial or total interruption and when it appears the Company is, or will be, unable to supply, at any time, the requirements of all its Customers in any system or segment thereof, due to any cause whatsoever, then the Order of Curtailment or Interruption of Service, insofar as practicable shall be:

- Step 1. Deliveries to industrial or other Customers under contracts providing for interruptible service and curtailment.
- Step 2. Deliveries to industrial Customers under contracts or rate schedules providing for firm service.
- Step 3. Deliveries to commercial Customers for space heating purposes.
- Step 4. Deliveries to commercial Customers for non-space heating purposes.

When the curtailments or interruptions of deliveries in the above steps fail to provide sufficient gas to meet the requirements of the remaining Customers, the Company shall exercise its best judgment and distribute as equitably as possible the gas that is available, taking into consideration the Customers affected and their gas utilization, the operation of its system and any other factors it deems necessary in the best interests of service, public health and safety.

When the causes or contingencies of the curtailments or interruptions cease to be operative the Company shall restore full service to all Customers as promptly as possible in the reverse order of the curtailments or interruptions insofar as is practicable.

Regardless of impairment of supply or other similar reasons,

Industrial and other Customers under contracts providing for interruptible service and curtailment will be interrupted or curtailed for "peak shaving" purposes to avoid an increased Maximum Daily Demand in the Company's gas purchases, and for other reasons as justified or necessary in accordance with the provisions of the contract.

The Company will curtail or interrupt these Customers on an equitable basis as is practicable, using its best judgment, and taking into consideration its operations and related factors and the operations and gas utilization of the Customers affected.

30. DISTRIBUTION MAIN EXTENSIONS:

The Company will extend without charge its existing distribution mains one hundred (100) feet for any one Customer provided the existing mains are of sufficient capacity to properly supply the additional Customers and provided that the Customer contracts to use gas on a continuous basis for one (1) year or more, and, provided, the potential consumption and revenue will be of such amount and permanency as to warrant the capital expenditures involved and to make the investment economically feasible.

Whenever an extension exceeds one hundred (100) feet per Customer, the Company will enter into an agreement with the Customer or Subscriber which will provide for such additional extension on a cost per foot basis, with the amount to be deposited by the Customer or Subscriber, and for a proportionate and equitable refund in the event other Customers are connected to the extension within five (5) years. Any further or lateral extension shall be treated as a new and separate extension. Refunds shall be made only after the Customer has used gas service for a minimum continuous period of one (1) year. The Company reserves the right to determine the length of the extension and to specify the pipe size and location of the extension. All extensions will be made dependent on the economic feasibility of the extension. Title to all extensions covered by agreements shall be and remain in the Company and in no case shall the

amount of the refunds exceed the original deposit.

Nothing contained herein shall be construed as to prohibit the Company from making at its expense greater extensions to its distribution mains or the granting of more favorable terms than herein prescribed, should its judgment so dictate, provided like extensions are made for other Customers, or Subscribers, under similar conditions.

31. NO EXCEPTIONS TO RULES AND REGULATIONS:

No agent, representative or employee of the Company shall make any promise, agreement or representation, not incorporated in or provided for by the Rules and Regulations of the Public Service Commission of Kentucky or of this Company and neither has any agent, representative or employee of the Company any right or power to amend, modify, alter or waive any of the said Rules and Regulations, except as hereinafter provided.

32. RULES AND REGULATIONS MAY BE AMENDED:

The Company reserves the right to amend or modify its Rules and Regulations or to adopt such additional Rules and Regulations as the Company deems necessary in the proper conduct of its business, subject to the approval of the Public Service Commission of Kentucky.

33. SUPERSEDE PREVIOUS RULES AND REGULATIONS:

These Rules and Regulations or Terms and Conditions of Service replace and supersede all previous Rules and Regulations or Terms and Conditions under which the Company has previously supplied gas service.

WESTERN KENTUCKY GAS COMPANY
OWENSBORO, KENTUCKY

RULES AND REGULATIONS
FOR FURNISHING NATURAL GAS
AT ALL TOWNS IN THE ENTIRE
SERVICE AREA OF THE COMPANY

1. COMMISSION'S RULES AND REGULATIONS:

All gas service rendered by the Company shall be in accordance with the "Rules and Regulations for the Government of Gas Utilities" which have been adopted by the Public Service Commission of Kentucky and all amendments thereto and modifications thereof which may be made by the Commission.

2. COMPANY'S RULES AND REGULATIONS:

In addition to the Rules and Regulations prescribed by the Commission, all gas service rendered shall, also, be in accordance with the following Rules and Regulations adopted by the Company, provided same do not conflict with those of the Public Service Commission.

3. FILING OF RATES, RULES AND REGULATIONS:

A copy of all schedules of rates, rules and regulations under which gas service is rendered is on file for the public's benefit with the Public Service Commission of Kentucky and in the various offices of the Company.

4. APPLICATIONS FOR SERVICE:

All applications for service shall be made on the Company's standard application or contract form which shall be signed by the Customer, or his duly authorized agent, and accepted by the Company before any service is rendered.

A separate application or contract shall be made for each class of service at each separate location.

In cases where unusual construction or equipment expense is necessary to furnish the service, the Company may require a contract for a minimum period of one (1) year.

ek
8-30-55
HW

5. OWNER'S CONSENT TO OCCUPY:

In case the Customer is not the owner of the premises or of the intervening property between the premises and the Company's service connection, it shall be the Customer's responsibility to obtain from the property owner or owners the necessary consent to install and maintain in, on or over said premises all such piping and other equipment as are required or necessary for supplying gas service to the Customer whether the piping and equipment be the property of the Customer or the Company.

6. SECURITY DEPOSITS:

The Company may require from all Customers as a guaranty or security a cash deposit equal to the estimated maximum consumption for a period of two months; minimum deposit shall be \$5.00. Such deposit less any unpaid amounts for service rendered the Customer shall be returned upon the discontinuance of service.

Where the monthly bills are in excess of the deposit, or where the Customer has delinquent bills, the Company may require the deposit to be increased, but such deposit shall not exceed the amount of two months' estimated maximum consumption. Interest will be paid at the rate of six per cent (6%) annually upon demand or upon return of the deposit for the period between the deposit date and the date service is discontinued. The original security deposit receipt should be presented when demand is made for payment of interest or refund of deposit.

No deposit shall be required of any receiver or trustee operating a business requiring utility service under an order of court.

7. ACCESS TO PREMISES:

The Company shall have the right of access to the Customer's premises at all reasonable times for the purpose of installing, reading, inspecting, repairing or removing its meters, regulators or other equipment used in connection with its supply of gas service or for the purpose of turning on or shutting off the gas supply when necessary and for all other proper purposes.

8. COMPANY'S EQUIPMENT AND INSTALLATION:

The Company shall furnish, install and maintain at its expense the necessary service connection extending from its main to the Customer's nearest curb or property line. The location of this service connection will be made at the discretion and judgment of the Company.

The Company will furnish, install and maintain at its expense the necessary meter, regulator and connections which will be located at or near the main, service connection, property line, near or in the building, at the discretion or judgment of the Company. Whenever practical, in the judgment of the Company, the location will be as near the supply main as possible and outside of buildings. Suitable site

CK
8-30-56
M

or location for the meter, regulator and connections shall be provided by the Customer, and the title to this equipment shall remain in the Company, with the right to install, operate, maintain and remove same, and no charge shall be made by the Customer for use of the premises as occupied or used.

9. CUSTOMER'S EQUIPMENT AND INSTALLATION:

The Customer shall furnish, install and maintain at his expense the necessary Customer's service line extending from the Company's service connection at the curb or property line to the building or place of utilization of the gas.

The installation of the Customer's service line shall be made in accordance with the requirements of the constituted authorities and the Company's specifications covering location, installation, kind and size of pipe, type of pipe coating or wrapping and method of connecting the joints of pipe. The location shall be the point of easiest access to the Company from its facilities and the Company shall be consulted and its approval obtained before the installation is made.

In the installation of the service line the Customer shall not install any tees or branch connection and must leave the trench open and pipe uncovered until it is examined by an inspector of the Company and shown to be free from any irregularity or defect. The Customer shall not make any change in or interfere with his service line without the written consent of the Company.

In all cases where practical the Customer's service line shall not be installed entering a building underground but shall be brought up out of the ground with a riser and entrance made to the building through the wall or foundation a minimum of six (6) inches above the ground.

The Customer shall furnish, install and maintain at his expense the necessary housepiping, connections and appliances and same shall be installed in accordance with the requirements and specifications of "INSTALLATION OF GAS PIPING AND GAS APPLIANCES IN BUILDINGS" as compiled and approved by the American Standards Association, the National Board of Fire Underwriters, the American Gas Association and other similar bodies on December 5th, 1950 (ASA - Z 21. 30- 1950), and any revisions thereof which are herewith incorporated by reference as a part of the Company's Rules and Regulations where applicable and when not in conflict with the requirements of the constituted authorities.

No appliances should be used which are not of a standard design and which have not been approved by the American Gas Association or a similar or equally qualified agency.

All of the Customer's service line, piping, connections and appliances shall be suitable for the purposes thereof and shall be maintained by the Customer at his expense at all times in a good, safe and servicable condition.

The Company shall not assume any responsibility and shall not be held liable in any way for the making of any periodic inspection of the Customer's service line, piping, connections or appliances, or for the Customer's failure to properly and safely install, operate and maintain same.

10. METERING:

The gas consumed shall be measured by a meter or meters to be installed by the Company upon the Customer's premises at a point most accessible or convenient for the Company and all bills shall be calculated upon the registration of said meter or meters except as hereinafter provided. If more than one meter is installed for the same or different classes of service at different locations on the Customer's premises, each meter shall be considered separately in calculating the amount of any bills. Meters include all measuring instruments and equipment.

11. PROTECTION OF COMPANY'S PROPERTY:

All meters, piping and other appliances and equipment furnished by and at the expense of the Company, which may at any time be in or on Customer's premises shall, unless otherwise expressly provided herein, be and remain the property of the Company, and the Customer shall protect such property from loss or damage, and no one who is not an agent of the Company shall be permitted to remove such property or to tamper with or damage same.

12. EXCLUSIVE SERVICE:

Except in cases where the Customer has a special contract with the Company for reserve or auxiliary service, no other fuel service shall be used by the Customer on the same installation in conjunction with the Company's service connection, either by means of valves or any other connection.

The Customer shall not sell the gas purchased from the Company to any other Customer, Company or Person, and the Customer shall not deliver gas purchased from the Company to any connection wherein said gas is to be used off of Customer's premises or by persons over whom Customer has no control.

13. POINT OF DELIVERY OF GAS:

The point of delivery of gas supplied by the Company shall be at the point where the gas passes from the pipes of the Company's service connection into the Customer's service line or pipe of the Customer, or at the outlet of the meter, whichever is nearest the delivery main of the Company.

C/K
8-30-56
104

14. CUSTOMER'S LIABILITY:

The Customer shall assume all responsibility for the gas service in or on the Customer's premises at and from the point of delivery of gas and for all the piping, appliances and equipment used in connection therewith which are not the property of the Company, and will protect and save the Company harmless from all claims for injury or damage to persons or property occurring on the Customer's premises or at and from the point of delivery of gas, occasioned by such gas or gas service and equipment, except where said injury or damage will be shown to have been caused solely by the negligence of the Company.

15. CONTINUOUS OR UNIFORM SERVICE:

The Company will endeavor to supply gas continuously and without interruption, however, the Company shall not be responsible in damages or otherwise for any failure to supply gas or for any interruptions of the supply when such failure is without wilful fault or neglect on its part.

The Company cannot and does not guarantee either a sufficient supply or an adequate or uniform pressure of the gas supplied and shall not be liable for any damage or loss resulting from an inadequate or interrupted supply or from any pressure variations when such conditions are not due to wilful fault or neglect on its part.

16. MONTHLY BILLS:

- (a) Bills for gas service will be rendered monthly unless otherwise specified. The term "month" for billing purposes shall mean the period between any two consecutive readings of the meter by the Company, such readings to be taken as near as practicable every thirty (30) days.
- (b) Bills are due upon rendition and shall be due and payable within a period not exceeding ten (10) days thereafter.
- (c) Service shall be subject to being discontinued if bills are not paid in full within fifteen (15) days after rendition of bills.
- (d) Failure to receive a bill does not exempt a Customer from these provisions.
- (e) When the Company is unable to read the meter after a reasonable effort, or where the meter fails to operate, the Customer will be billed on an estimated basis at the average of three (3) immediately preceding months, or similar months of utilization, and the billing adjusted as necessary when the meter is read.

17. MEASUREMENT BASE:

The rates of the Company are based upon gas delivered to the Customer on a basis of four (4) ounces per square inch above an assumed atmospheric pressure of fourteen and four tenths (14.4) pounds per square inch, or fourteen and sixty-five hundredths (14.65) pounds per square inch absolute pressure, at an assumed temperature of sixty (60) degrees Fahrenheit; provided, however, the Company reserves the right to correct as necessary the actual temperature to a sixty (60) degree F. basis in the cases of large volume industrial customers.

All gas measured at pressures higher than the standard pressure for low pressure distribution systems shall be corrected to a pressure base of fourteen and sixty-five hundredths (14.65) pounds per square inch absolute.

*CLC
8-30-56
1/24*

18. CHARACTER OF SERVICE:

The Company will normally supply natural gas having a heating value of approximately one thousand (1,000) Btu per cubic foot and a specific gravity of approximately six tenths (0.6), however, when necessary to supplement the supply of natural gas, the Company reserves the right, at its discretion, to supply an interchangeable mixture of vaporized liquified petroleum gas and air, or a combination of same with natural gas.

19. ASSIGNMENT OF CONTRACT:

The benefits and obligations of any service application or contract shall begin when the Company commences to supply gas service and shall inure to and be binding upon the successors and assigns, survivors and executors or administrators, as the case may be, of the original parties thereto, respectively, for the full term thereof, provided, however, that no application, agreement or contract for service may be assigned or transferred without the written consent or approval of the Company.

When the gas supply has been disconnected for non-payment of bills or other violation of the Company's Rules and Regulations, the service will not be restored at the same location, or connected at another location, for the same or related occupants under a different contract or name when it is evident the change of name is a subterfuge designed to defraud or penalize the Company.

20. RENEWAL OF CONTRACT:

If, upon the expiration of any service contract for a specified term, the Customer continues to use the service, the contract (unless otherwise provided therein) will be automatically renewed and extended for successive periods of one year each, subject to termination at the end of any year upon thirty days written notice by either Party.

C/C
8-30-56
JW

21. CUSTOMER'S DISCONTINUANCE OF SERVICE:

Any Customer desiring service discontinued or changed from one location to another shall give the Company three (3) day's advance notice in person, by phone, or in writing, provided such notice does not violate contractual obligations.

The Customer shall be held responsible for all gas consumed until such notice is received by the Company and three (3) days time allowed to read the meter and render final bill.

22. COMPANY'S DISCONTINUANCE OF SERVICE FOR CAUSE:

The Company has the right to discontinue service to a Customer for violation of its Rules and Regulations or for non-payment of bills, however, service shall not be discontinued until the Company has diligently tried to induce the Customer to comply with its Rules and Regulations, or has diligently attempted to induce the Customer to pay the bills. After such efforts on the part of the Company the

service may be discontinued only after at least twenty-four (24) hours written notice of such intention shall have been given to the Customer by the Company.

Where a dangerous condition is found to exist on the Customer's premises the service may be discontinued without notice.

Where necessary for construction, maintenance or operation purposes, the Company may temporarily discontinue service to a Customer, however, notice shall be given whenever practical to do so.

The Company may discontinue service to a Customer immediately and without notice where it is discovered that the Customer has been or is using gas without same being partially or wholly measured through the meter or where the gas is, or has been, used fraudulently, or where the Company's equipment has been tampered with. Where the service has been discontinued for any of these reasons the Company, by written notice to the Customer, may require the Customer, at his expense, to make proper changes or corrections as required by the Company before service is restored.

In addition to the foregoing the Company may require the Customer to pay the Company the cost of any and all damages to the Company's equipment, the deficiency in revenue estimated on as accurate a basis as is available, and the cost incurred by the Company in the correction of the defects or diversion including the cost of removal and installation of meters and regulators and the cost of restoring the service.

Neglect or refusal on the part of the Customer to provide reasonable access to the premises for the purposes of reading meters, inspection, maintenance and operation shall also be deemed to be sufficient cause for the Company to discontinue the service.

CK
8-30-56
New

23. RECONNECT CHARGE:

A Reconnect Charge will be made by the Company to cover the expenses incurred in reconnecting the meter or service when (a) the customer's gas service has been disconnected for non-payment of bills or for violation of the Company's Rules and Regulations, and the Customer has qualified for and requested the service to be reconnected, or (b) the Customer discontinues using gas and at anytime within twelve (12) months thereafter resumes service at the same location.

This Reconnect Charge to be made by the Company and paid by the Customer shall be \$5.00 as provided for in General Gas Rate 1, effective February 25th, 1953 (PSC Case No. 2457), and is payable before or at the time the service is reconnected.

24. REFUSAL OF SERVICE:

The Company will not render service to any Customer unless the Customer's service line, housepiping, appliances and equipment are properly installed and in safe operating condition, or where the Customer continually fails to comply with the Company's Rules and Regulations.

The Company will not furnish service to any applicant who owes the Company any past due bill or a delinquent account for service furnished either at the same or other location, until such indebtedness shall have been paid in full.

The Company reserves the right to refuse or to defer full service to an applicant where the existing mains are inadequate to serve the applicant's requirements without adversely affecting the service to Customers already connected and being served.

25. NOTICE OF ESCAPING GAS OR UNSAFE CONDITIONS:

Immediate notice must be given by the Customer to the office or employees of the Company if any escaping gas or unsafe conditions are detected or any defects or improper installations are discovered in the piping and equipment of either the Company or the Customer which are on the Customer's premises.

No flames or lights are to be taken near any escape of gas and the gas must be shut-off at the meter cock or valve until the hazard is eliminated and the gas service is not to be turned on again except by a Company employee.

The Company will not be responsible or assume any liability for any injury, loss or damage which may arise from the carelessness or negligence of the Customer or his agents or representatives.

26. TURNING OFF GAS SERVICE AND RESTORING SAME:

The gas service may be turned off at the meter when necessary or justified by the Customer or his agent or any constituted authorities but no person, unless in the employ of the gas Company or having permission from the gas Company, shall turn the gas on or restore service.

CA
8-30-56
HW

27. SPECIAL PROVISIONS - LARGE VOLUME CUSTOMERS:

Industrial, Commercial or other Customers using large volumes of gas on a varying basis shall provide and maintain at their expense suitable equipment to insure reasonable limitation of intermittance or fluctuation in the use of gas and shall so regulate their operations and the use of gas hereunder so as not to interfere with gas service being furnished to other Customers or with the proper metering of gas at any location.

28. SPECIAL RULES FOR CUSTOMERS SERVED FROM TRANSMISSION MAINS:

In addition to the Standard Rules and Regulations the following special Rules and Regulations shall apply to all Customers served directly from a high pressure transmission main which is the property of the Company or one of its Suppliers:

- (a) All service connections to a high pressure transmission line shall be subject to the special requirements, consent and approval of the Owner of said line. In case the connection is to a line not the property of the Company, proper approval must be obtained from both the Owner and the Company.
- (b) A special form application and service contract or agreement shall be executed by the Customer and approved and accepted by both the Owner of the transmission line and the Company prior to the time the tap or connection is made. If the transmission line is owned by the Company only the approval and acceptance of the Company is necessary.
- (c) All meters, regulators, equipment and connections necessary to serve the Customer from a high pressure transmission line shall be installed on the Customer's premises at or as near the transmission line as is practical.
- (d) Suitable site or location for the Company's and Owner of the line equipment shall be provided and furnished by the Customer without any expense to the Company or Owner of the line.

The Company or Owner of the line shall have the right of ingress, egress and regress to and from this location at any time without any expense or charges from the Customer.

- (e) The Customer's service line extending from the outlet of the meter shall be installed and maintained by the Customer at his expense.
- (f) The Customer shall notify the Company promptly of any leaks in the transmission line or equipment, also, of any hazards or damages to same.
- (g) Customers may be required to send in monthly meter readings to the Company on suitable forms provided by the Company.

ck

174/

29. CURTAILMENT ORDER:

In case of impairment of supply or partial or total interruption and when it appears the Company is, or will be, unable to supply fully, at any time, the requirements of all of its Customers, due to any cause whatsoever, then the Order of Curtailment or Interruption of Service, insofar as practicable shall be:

Step 1. Deliveries to industrial or other Customers under contracts ~~or rate schedules~~ providing for interruptible service and curtailment.

Step 2. Deliveries to industrial ~~or commercial~~ Customers under contracts or rate schedules providing for firm service.

Step 3. Deliveries to commercial Customers for space heating purposes.

Step 4. Deliveries to commercial Customers for non-space heating purposes.

When the curtailment or interruption of deliveries in the above steps fail to provide enough gas to meet the requirements of remaining Customers, the Company shall exercise its best judgment and curtail or interrupt as equitably as possible the gas that is available for distribution.

When the causes or contingencies of the curtailments or interruptions cease to be operative the Company shall restore full service to all Customers as promptly as possible in the reverse order of the curtailments or interruptions insofar as is practicable.

30. DISTRIBUTION MAIN EXTENSIONS:

The Company will extend without charge its existing distribution mains one hundred (100) feet for any one Customer provided the existing mains are of sufficient capacity to properly supply the additional Customers and provided that the Customer contracts to use gas on a continuous basis for one (1) year or more, and, provided, the potential consumption and revenue will be of such amount and permanency as to warrant the capital expenditures involved and to make the investment economically feasible.

Whenever an extension exceeds one hundred (100) feet per Customer, the Company will enter into an agreement with the Customer or Subscriber which will provide for such additional extension on a cost per foot basis, with the amount to be deposited by the Customer or Subscriber, and for a proportionate and equitable refund in the event other Customers are connected to the extension within five (5) years. Any further or lateral extension shall be treated as a new and separate extension. Refunds shall be made only after the Customer has used gas service for a minimum continuous period of one (1) year. The Company reserves the right to determine the length of the extension and to specify the pipe size and location of the extension. All extensions will be made dependent on the economic feasibility of the extension. Title to all extensions covered by agreements shall be and remain in the Company and in no case shall the amount of the refunds exceed the original deposit.

Nothing contained herein shall be construed as to prohibit the Company from making at its expense greater extensions to its distribution mains or the granting of more favorable terms than herein prescribed, should its judgment so dictate, provided like extensions are made for other Customers, or Subscribers, under similar conditions.

31. NO EXCEPTIONS TO RULES AND REGULATIONS:

No agent, representative or employee of the Company shall make any promise, agreement or representation, not incorporated in or provided for by the Rules and Regulations of the Public Service Commission of Kentucky or of this Company and neither has any agent, representative or employee of the Company any right or power

CIC
8-30-56
142

to amend, modify, alter or waive any of the said Rules and Regulations, except as hereinafter provided.

32. RULES AND REGULATIONS MAY BE AMENDED:

The Company reserves the right to amend or modify its Rules and Regulations or to adopt such additional Rules and Regulations as the Company deems necessary in the proper conduct of its business, subject to the approval of the Public Service Commission of Kentucky.

33. SUPERSEDE PREVIOUS RULES AND REGULATIONS:

These Rules and Regulations or Terms and Conditions of Service replace and supersede all previous Rules and Regulations or Terms and Conditions under which the Company has previously supplied gas service.

RATE PER UNIT

until an actual base is established. Such estimate shall consider connected load and hours of use.

The EXCESS GAS for such billing month shall be the remainder, if any, after deducting the base load Mcf from the total delivery for such month. During any billing month where customer complied fully with any partial or complete curtailment order of the Company, or where gas is used for processing only with 100% standby available and customer is subject to immediate interruption without advance notice, no gas shall be billed at the excess gas price.

Character of Service

Natural gas having approximately 1,000 Btu content per cubic foot.

Gas sold under this rate schedule shall be subject to curtailment or complete interruption when gas is needed to safeguard service to customers under the general rate schedule of the Company. The Company shall exercise its best judgment during any such period of curtailment or interruption as to the customers to be affected under this schedule, taking into consideration the operation of its system and any factors it deems necessary to safeguard service to customers under the general rate or to comply with limitations imposed on its supply from its suppliers of natural gas.

Special Provisions

- (a) A written contract with a minimum term of one year shall be required. Such contract shall specify the daily and hourly contract Mcf volumes, mutually agreeable to the Company and Customer.
- (b) The Company's standard rules and regulations shall apply.
- (c) All gas measured at pressures higher than low pressure distribution pressures shall be corrected to a base pressure of 14.65 pounds per square inch absolute.
- (d) It shall be the customer's responsibility to provide adequate standby facilities and standby fuel.
- (e) Not available for resale.

WESTERN KENTUCKY GAS COMPANY

INCORPORATED

POST OFFICE BOX 526

OWENSBORO, KENTUCKY

June 19, 1958

Public Service Commission
Frankfort, Kentucky

Gentlemen:

Re: Case No. 3458, Application of Western Kentucky Gas Company to Construct and Operate Gas Distribution System in Central City, Kentucky

In the above-styled case a Certificate of Convenience and Necessity was granted us to construct, operate and maintain a transmission and distribution system for natural gas in and to the City of Central City and environs.

It was further ordered that twenty (20) days prior to serving any customer with gas that we file a revised tariff to include Central City and its environs.

Since our uniform rate schedules will apply which are applicable to the "Entire service area of the Company," we are filing herewith a revised list of the "Towns in Service Area," P. S. C. No. 10, Revised Sheet No. 10-A, cancelling P. S. C. No. 10, Original Sheet No. 10.

We believe this filing complies fully with the intent of the Order. If not, please advise.

We are sending you three copies of this filing. Please approve one copy and return for our files.

We expect to initiate gas service in Central City on or about July 15. Notices of applicable rates will be published in the local newspaper for three consecutive weeks prior to the starting of gas service.

Yours very truly,

WESTERN KENTUCKY GAS COMPANY
