RE: Taxpayer 005157600

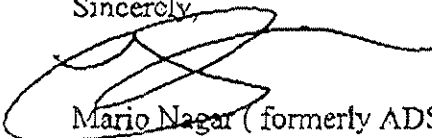

Dear Ms. Stephenson:

This letter is concerning the attached communication from your division. Please be advised that ADS-Telcom, Inc. filed bankruptcy in April and closed its doors. I have written to your department, the PSC and SOS offices advising of our closure. I sent notice to have our tariffs deleted and our corporation dissolved. We have not had any business in Kentucky in 5 years. We had just been paying the minimum liability in case we did get any new business there.

Please advise on what we need to do to stop all of this new billing. We have all we have been asked to do and the company does not exist and the company ad myself personally had to file bankruptcy.

Any help you can provide will be greatly appreciated.

Sincerely,

Mario Nagar (formerly ADS-Telcom)

TARIFF FORMAT

- A. Page Numbering** - Sheet numbers appear in the upper right corner of the page. Sheets are numbered sequentially. However, new sheets are occasionally added to the tariff. When a new sheet is added between sheets already in effect, a decimal is added. For example, a new sheet added between sheets 14 and 15 would be 14.1.
- B. Page Revision Numbers** - Revision numbers also appear in the upper right corner of each page. These numbers are used to determine the most current sheet version on file with the Commission. For example, the 4th revised Sheet 14 cancels the 3rd revised Sheet 14. Because of various suspension periods, deferrals, etc., the most current sheet number on file with the Commission is not always the tariff page in effect. Consult the Check Sheet for the sheet currently in effect.
- C. Paragraph Numbering Sequence** - There are nine levels of paragraph coding. Each level of coding is subservient to its next higher level:
 - 2.
 - 2.1.
 - 2.1.1.
 - 2.1.1.A.
 - 2.1.1.A.1.
 - 2.1.1.A.1.(a).
 - 2.1.1.A.1.(a).I.
 - 2.1.1.A.1.(a).I.(i).
 - 2.1.1.A.1.(a).I.(i).(1).
- D. Check Sheets** - When a tariff filing is made with the Commission, an updated Check Sheet accompanies the tariff filing. The Check Sheet lists the sheets contained in the tariff, with a cross reference to the current revision number. When new pages are added, the Check Sheet is changed to reflect the revision. All revisions made in a given filing are designated by an asterisk (*). There will be no other symbols used on this page if these are the only changes made to it (i.e., the format, etc. remain the same, just revised revision levels on some pages). The tariff user should refer to the latest Check Sheet to find out if a particular page is the most current on file with the Commission.

SECTION 2 - RULES AND REGULATIONS, cont'd.**2.3 Payment and Credit Regulations****2.3.1 Payment Arrangements**

The Customer is responsible for payment of all charges for services and equipment furnished to the Customer for transmission of calls via the Company. The Customer agrees to pay to the Company or its authorized agent any cost(s) incurred as a result of any delegation of authority resulting in the use of his or her communications equipment and/or network services which result in the placement of calls via the Company. The Customer agrees to pay the Company or its authorized agent any and all cost(s) incurred as a result of the use of the service arrangement, including calls which the Customer did not individually authorize.

All charges due by the Customer are payable to the Company or any agency duly authorized to receive such payments. SECTION 2 - RULES AND REGULATIONS, cont'd.**2.3 Payment and Credit Regulations, cont'd.****2.3.2 Deposits**

The Company reserves the right to examine the credit record of the Customer, using any lawful sources for determining credit standing. If the Customer's financial condition is unknown or unacceptable to the Company, the Customer may be required to provide the Company with a security deposit which the Company may apply against overdue charges. The amount of the security deposit shall be no greater than three months' estimated usage but may vary with the Customer's credit history and projected usage. The Customer shall be apprized that after one year of service the Account shall be reviewed, and in the event that all amounts due have been paid within the terms and conditions of this tariff, the deposit shall be refunded in full with interest as required by law or regulations. If subsequent payment or usage patterns change, the Company may request an increase in or resubmission of the security deposit as appropriate. The Company may also require a security deposit before service is restored (along with the payment of overdue charges) from the Customer whose service has been discontinued for nonpayment of overdue charges. Such security deposit may be based on a new credit history (taking into account the discontinuance of service) and estimates of usage.

Interest on deposits held will be paid annually at the interest rate prescribed by the Commission, unless the Customer's account is delinquent on the anniversary date of the deposit, in accordance with the provisions of 807 KAR 5:006 §7(6). Interest may be paid by refund or credit to the Customer's bill.

The fact that a security deposit has been made in no way relieves the Customer from the prompt payment of bills upon presentation.

2.3.3 Advance Payments

For Customers whom the Company determines an advance payment is necessary, the Company reserves the right to collect an amount not to exceed one (1) month's estimated charges as an advance payment for service. This will be applied against the next month's charges and a new advance payment may be collected for the next month.

A. Pay Telephone Surcharge

In order to recover the Company's expenses to comply with the FCC's pay telephone compensation plan effective on October 7, 1997 (FCC 97-371), an undiscountable per call charge is applicable to all interstate, intrastate and international calls that originate from any domestic pay telephone used to access the Company's services. The Pay Telephone Surcharge, which is in addition to standard tariffed usage charges and any applicable service charges and surcharges associated with the Company's service, applies for the use of the instrument used to access the Company service and is unrelated to the Company's service accessed from the pay telephone.

Pay telephones include coin-operated and coinless phones owned by local telephone companies, independent companies and other interexchange carriers. The Pay Telephone Surcharge applies to the initial completed call and any reoriginated call (i.e., using the "#" symbol).

Whenever possible, the Pay Telephone Surcharge will appear on the same invoice containing the usage charges for the surcharged call. In cases where proper pay telephone coding digits are not transmitted to the Company prior to completion of a call, the Public Pay Telephone Surcharge may be billed on a subsequent invoice after the Company has obtained information that the originating station is an eligible pay telephone.

The Pay Telephone Surcharge does not apply to calls placed from pay telephones at which the Customer pays for service by inserting coins during the progress of the call.

2.5 Refunds or Credits for Service Outages or Deficiencies

2.5.1 Interruption of Service

Credit allowances for interruptions of service which are not due to the Company's testing or adjusting, to the negligence of the Customer, or to the failure of channels, equipment or communications systems provided by the Customer, are subject to the general liability provisions set forth in Section 2.6 herein. No credit is issued for outages less than 1/2 hour in duration. Credit for outages greater than 1/2 hour in duration is issued for fixed recurring monthly charges only. Outage credits are calculated in thirty minute intervals. The amount of the credit is determined by pro-rating the monthly recurring charge for the time of the outage (in thirty-minute intervals). It shall be the obligation of the Customer to notify the Company immediately of any interruption in service for which a credit allowance is desired by Customer. Before giving such notice, the Customer shall ascertain that the trouble is not within his or her control, or is not in wiring or equipment, if any, furnished by the Customer and connected to the Company's terminal. Interruptions caused by Customer-provided or Company-provided automatic dialing equipment are not deemed an interruption of service as defined herein since the Customer has the option of using the long distance network via local exchange company access.

Credit allowances for interruptions of service billed on a usage basis shall be limited to the rate applicable to the initial period of the call to compensate for re-establishment of the connection.

SECTION 3 - DESCRIPTION OF SERVICES AND RATES
3.1 General

ADS provides automated operator assisted collect-only calling services for use by Inmates of prisons, jails or other Confinement Institutions for communications originating and terminating within the State of Kentucky. The Company's services are available twenty-four hours per day, seven days a week. Intrastate service is offered in conjunction with interstate service. Inmate access to the Company's services may be restricted by the administration of the Institution served.

Customers are charged individually for each call placed through the Company's network. Charges may vary by service offering, mileage band, class of call, time of day, day of week and/or call duration. Customers are billed based on their use of ADS' services and network. No installation charges apply. Where service is provided on a sent-paid basis by deposit of coins or other currency, the Company will round up call charges to the next \$0.05 increment.

3.2 Timing of Calls

Billing for calls placed over the ADS network is based in part on the duration of the call as follows, unless otherwise specified in this tariff:

- 3.2.1** Timing of each call begins when the called station is answered (i.e. when two way communications are established.) Answer detection is based on standard industry answer detection methods, including hardware and software answer detection. For Collect Calls, charges apply only if the called party accepts the responsibility for payment. For Person to Person Calls, charges apply only if the calling party is connected with the designated called party or an agreed upon substitute.
- 3.2.2** Chargeable time for calls ends when one of the parties disconnects from the call.
- 3.2.3** Unless otherwise specified in this tariff, the minimum initial period for billing purposes is one (1) minute.
- 3.2.4** Unless otherwise specified in this tariff, billing for usage after the initial period is in full one (1) minute increments.
- 3.2.5** The Company will not knowingly bill for unanswered calls. When a Customer indicates that he/she was billed for an incomplete call, ADS will reasonably issue credit for the call.

SECTION 3 - DESCRIPTION OF SERVICES AND RATES, cont'd.

3.3 Institutional Operator Assisted Calling

Institutional operator assisted service allows inmates to place collect calls through an automated call processing system. The call processing system prompts the inmate and the called party such that the call is completed without live operator assistance. Calls are placed on a collect-only basis to the called party.

A number of special blocking and screening capabilities are available with institutional operator services provided by The Company. These capabilities allow Institutions to control Inmate access to telecommunications services, reduce fraudulent use of the Company's services, and eliminate harassing calls to persons outside the institution.

For services provided to inmates of institutions, the following special conditions apply:

- a. Calls to "900", "976" or other pay-per-call services are blocked by The Company.
- b. At the request of the institution, The Company may block inmate access to toll-free numbers (e.g., 800, 888) and dialing sequences used to access other carriers or operator service providers (e.g., 950-XXXX, 10XXXX).
- c. At the request of the Institution, The Company may block inmate access to "911", "411", or local operators reached through "0-" dialing.
- d. At the request of the Institution, The Company may block inmate access to specific telephone numbers.
- e. Availability of The Company's services may be restricted by the institution to certain hours and/or days of the week.
- f. At the request of the institution, no notices or signage concerning the Company's services will be posted with its instruments. Information concerning The Company's services is provided to the administration of each institution where the Company's services are offered. Inmates may obtain information regarding rates and charges by requesting such information from the institution's administration.
- g. At the request of the institution, The Company may impose time limits on local and long distance calls placed using its services.
- h. At the request of the institution, equipment may be provided which permits monitoring of inmate calls by legally authorized government officials.

3.6 Debit Services

ADS Telcom's Debit Services are offered for Customer use twenty-four (24) hours a day, seven (7) days a week to all valid terminating locations specified in this section.

Access to ADS Telcom's Debit Services is via a toll-free number. The Customer must input a valid Authorization Code in addition to the destination number with country code and/or area code.

Purchase of a Debit Card or establishment of a Debit Account entitles the consumer to access the Carrier's network for a preset amount of usage. Usage will be debited from the available card or account balance in full-minute increments on a real-time basis. Customers will be interrupted with an announcement when the account balance is about to be exhausted.

Balances in debit accounts are non-refundable and will expire on the date specified on the Debit Card or package in which the card is enclosed. In the case of service provided without a Debit Card, expiration occurs within one year from the date of establishment or last renewal unless otherwise specified in writing by the Carrier.

Unlike a deposit or advance payment, the debit card account balance is not held against future payment as all service is available for immediate consumption.

Debit Service rates provided in this section apply to calls placed from locations within the state of Kentucky. Rates are applicable to ADS Telcom's Inmate-only Debit Account Service.

For Customer accounts provided with a renewal option, Customers may renew or increase the available usage balance within an account by making additional payments to the Company or the Company's authorized agents.

For billing purposes, call timing is rounded up to the next full minute increment after a minimum initial period of one (1) minute. No time of day, holiday or volume discounts apply. The Per Minute rates listed below are inclusive of all applicable taxes.
