TARIFF FORMAT

A. Sheet Numbering - Sheet numbers appear in the upper right corner of the page. Sheets are numbered sequentially. However, new sheets are occasionally added to the tariff. When a new sheet is added between sheets already in effect, a decimal is added. For example, a new sheet added between sheets 14 and 15 would be 14.1.

B. Sheet Revision Numbers - Revision numbers also appear in the upper right corner of each page. These numbers are used to determine the most current sheet version on file with the Kentucky PUC. For example, the 4th revised Sheet 14 cancels the 3rd revised Sheet 14. Because of various suspension periods, deferrals, etc., the Kentucky PUC follow in their tariff approval process, the most current sheet number on file with the PUC is not always the tariff page in effect. Consult the Check Sheet for the sheet currently in effect.

C. Paragraph Numbering Sequence - There are seven levels of paragraph coding. Each level of coding is subservient to its next higher level:

- 2.1
- 2.1.(A).
- 2.1.(A).1
- 2.1.(A).1.(a)
- 2.1.(A).1.(a).I.
- 2.1.(A).1.(a).I.(i).

D. Check Sheets - When a tariff filing is made with the Kentucky PUC, an updated check sheet accompanies the tariff filing. The check sheet lists the sheets contained in the tariff, with a cross reference to the current revision number. When new pages are added, the check sheet is changed to reflect the revision.

SECTION 5 – LIFELINE PROGRAM

5.1 General

(A) The Lifeline program is designed to increase the availability of telecommunications services to low income subscribers by providing a credit to monthly recurring local service for qualifying residential subscribers. Basic terms and conditions are in compliance with the FCC's Order on Universal Service in CC Docket No. 97-157, which adopts the Federal-State Joint Board's recommendation in CC Docket No. 96-45, which complies with the Telecommunications Act of 1996.

(B) Lifeline is supported by the federal universal service support mechanism.

(C) Federal baseline support of eight dollars and twenty-five cents (\$8.25) is available for each Lifeline service and is passed through to the subscriber. An additional three dollars and fifty cents (\$3.50) credit is provided by the State. Supplemental federal support of one dollar and seventy-five cents (\$1.75), matching one half of the Company contribution, will also be passed along to the Lifeline subscriber. The total Lifeline credit available to an eligible customer in Kentucky is thirteen dollars and fifty cents (\$13.50). The amount of credit will not exceed the charge for local service, which includes the access line, the Subscriber Line Charge and local usage.

5.2 Regulations

(A) General

(1) Customers eligible under the Lifeline program are also eligible for connection assistance under the Link-Up program.

(2) One low income credit is available per household and is applicable to the primary residential connection only. The named subscriber must be a current recipient of any of the low income assistance programs identified below.

(3) A Lifeline customer may subscribe to any local service offering available to other residential customers. Since the Lifeline credit is applicable to the primary residential connection only, it may not be applied to multiple lines in a package for local service.

(4) Toll blocking, if elected, will be provided at no charge to the Lifeline subscriber.

(6) Lifeline subscriber's local service will not be disconnected for non-payment of regulated toll charges. Local service may be denied for non-payment of local calls. Access to toll service may be denied for non-payment of regulated tolls.

(7) At no time shall a customer's Lifeline rate go below zero.
