Where charges for a Service are specified based on the duration of use, such as the duration of a telephone call, the following rules apply:

3.2.1 Calls are measured in durational increments identified for each Service. All calls that are fractions of a measurement increment are rounded-up to the next whole unit.

3.2.2 Timing on completed calls begins when the called party answers the call. Answering is determined by hardware answer supervision in all cases where this signaling is provided by the terminating local carrier and any intermediate carrier(s).

telephone number associated with an access line on the Company's network (such as a dedicated 800 or WATS access line), the Company will apply the rate center of the Customer's main billing telephone number.

3.3.2 The airline distance between any two-rate centers is determined as follows:

Step 1: Obtain the "V" (vertical) and "H" (horizontal) coordinates for each Rate Center from the above-referenced Bellcore document.

Step 2: Compute the difference between the "V" coordinates of the two rate centers; and the difference between the two "H" coordinates.

Step 3: Square each difference obtained in step (b) above.

Step 4: Add the square of the "V" difference and the square of the "H" difference obtained in step C) above.

Step 5: Divide the sum of the squares by 10. Round to the next higher whole number if any fraction is obtained.

Step 6: Obtain the square root of the whole number result obtained above. Round to the next higher whole number if any fraction is obtained. This is the airline mileage.

3.3.3 The formula for distance calculations is:

$$\sqrt{\frac{(V_1V_2)^2 + (H_1H_2)^2}{10}}$$

(1) Only information necessary to identify the Customer is included in these listings. The Company uses abbreviations in listings. The Company may reject a residence listing that is judged to be advertising. It may also reject a listing it judges to be objectionable. A name made up by adding a term such as Company, Shop, Agency, Works, etc. to the name of a commodity or Service will not be accepted as a listing unless the Customer is legally doing business under that name.

(2) A name may be repeated in the white pages only when only when a different address or telephone number is used.

(3) The Company reserves the right to limit the length of any listing in the directory by using abbreviations when, in its judgment, the clearness of the listing or identification of the Customer is not impaired. Where more than one line is required to properly list the Customer, no additional charge will be made.

(4) The Company may refuse a listing that is known not to constitute a legally-authorized or adopted name, obscenities in the name, or any listing that, in the opinion of the Company, is likely to mislead or deceive calling persons as to the identity of the listed party, is a contrived name used for advertising purposes, to secure a preferential position in the directory, or is more elaborate than is reasonably necessary to identify the listed party. The Company, after notification of the Company, will withdraw any listing that is found to be in violation of its rules.

(5) In order for listings to appear in an upcoming directory, the Customer must furnish the listing to the Company in time to meet the directory-publishing schedule.

Presubscription does not prevent a Customer who has presubscribed to an IntraLATA or InterLATA toll carrier from using carrier access codes or additional dialing to direct calls to an alternative long distance carrier on a per call basis.

7.1.2 Customers may select the same carrier or separate carriers for intraLATA and interLATA long distance. Depending on the Service subscribed to by the Customer, the following options for long distance pre-subscription may be available:

Option B: Customer may select the Company as the pre-subscribed carrier for IntraLATA calls, subject to pre-subscription, and some other carrier as the pre-subscribed carrier for interLATA toll calls, subject to pre-subscription.

The other carrier would be the Customer's primary interLATA Interexchange Carrier, subject to pre-subscription.

Option F: Customer may select no pre-subscribed carrier for intraLATA toll calls, which will require the Customer to dial a carrier access code to route all intraLATA toll calls to the carrier of choice, and the Company for interLATA toll calls, subject to pre-subscription.

Option G: Customer may select the Company for intraLATA toll calls subject to pre-subscription and no pre-subscribed carrier for interLATA toll calls which will require the Customer to dial a carrier access code to route all interLATA toll calls to the carrier of choice.

(B) If a new Customer is unable to make selection at the time the new Customer places an order to establish Local Exchange Service, the Company will read a random listing of all available intraLATA and interLATA carriers to aid the

Customer in selection. If selection is still not possible, the Company will inform the Customer that he/she will be given 90 calendar days in which to inform the Company of his/her choice for primary toll carrier(s) free of charge. Until the Customer informs the Company of his/her choice of primary toll carrier, the Customer will not have access to long distance Services on a pre-subscribed basis, but rather will be required to dial a carrier access code to route all toll calls to the carrier(s) of choice.
