3.2 Timing of Calls

Billing for calls placed over the Navigator network is based in part on the duration of the call as follows, unless otherwise specified in this tariff:

- 3.2.1 Call timing begins when the called party answers the call (i.e., when two way communications are established.) Answer detection is based on standard industry answer detection methods, including hardware and software answer detection.
- 3.2.2 Chargeable time for calls ends when one of the parties disconnects from the call.
- 3.2.3 For billing purposes, minimum call duration periods vary by service and are specified by product or option in subsequent sections of this tariff.
- 3.2.4 For billing purposes, usage after the initial period varies by service and is specified by product or option subsequent sections of this tariff.
- 3.2.5 The Company will not bill for unanswered calls. When a Customer indicates that he/she was billed for an incomplete call, Navigator will reasonably issue credit for the call.
