TARIFF FORMAT SHEET

1. Page Numbering. Page numbers appear in the upper-right corner of the page. Pages are numbered sequentially. New pages may occasionally be added to the tariff. When a new page is added, the page appears as a decimal. For example, a new page added between pages 34 and 35 would be 34.1.
2. Page Revisions Numbers. Page Revision Numbers also appear in the upper-right corner of the page. These numbers are used to determine the most current page revision on file with the Kentucky Public Service Commission. For example, the fourth revised Page 34 cancels the third revised Page 34. Because of deferrals, notice periods, *etc.*, the most current page number on file with the Commission is not always the tariff page in effect. Business Customers should consult with check sheet for the page currently in effect.
3. Paragraph Numbering Sequence. There are nine levels of paragraph coding. Each level of coding is subservient to its next higher level of coding.
 - 1.

 - 1.1.1.
 - 1.1.1.A.
 - 1.1.1.A.1.

 - 1.1.1.A.1.(a)(I)
 - 1.1.1.A.1.(a)(I)(i)
 - 1.1.1.A.1.(a)(I)(i)(1)
4. Check List of Effective Pages. When a tariff filing is made with the Commission, an updated Check List of Effective Pages ("Check List") accompanies the tariff filing. The Check List lists the pages contained in the tariff, with a cross-reference to the current revision number. When new pages are added, the Check List is changed to reflect the revision. All revisions made in a given filing are designated by an asterisk (*). There will be no other symbols used on the Check List if these are the only changes made to it (i.e., the format, *etc.*). Customers should refer to the latest Check List to find out if a particular page is the most current page on file with the Commission.
5. Symbols Used in This Tariff.

 - (I) - To signify increased rate.
 - (M) - To signify a move in the location of text.
 - (N) - To signify new rate or regulation.

SECTION 3 - DESCRIPTION OF SERVICES**3.1 General**

Residential service offerings that include unlimited usage are limited to use for residential voice applications. This includes service offerings providing for unlimited local usage, unlimited intraLATA usage and/or unlimited interLATA usage. No commercial use of any form is permitted for such unlimited service offerings. Incidental calling for dial-up internet access, for data and fax type applications and for other similar restricted uses reflected in this tariff is permitted up to a maximum of 1200 minutes within any thirty-day period; any such usage beyond this threshold shall be presumed to be non-residential in nature. If, at any time, the Company determines that the Customer's usage is non-residential or is not consistent with use for residential voice applications, the Company may immediately take actions to enforce adherence to this tariff and to the Company's Statement of Terms and Conditions of Service that are applicable to interLATA, interstate and international long distance. Such actions may include the transition to a higher tier within the customer's existing service plan and the application of an High Usage Charge as specified in Section 4.6, following:

The High Usage Charge is applicable to all service plans whenever usage thresholds established in Section 4.6, following, are exceeded, including plans that offer unlimited usage and plans that do not offer unlimited usage. The existence of the High Usage Charge shall be communicated to the Customer in advance of its initial application, and shall thereafter apply automatically whenever the threshold is exceeded. Upon request, usage information will be provided pursuant to Section 4.6 of the Company's Local Exchange Tariff.

For residential service offerings that include unlimited usage, the Company will notify the Customer in writing when the previous month's usage exceeds that normally associated with residential voice applications. Such written notice will inform the Customer that a higher tier rate will apply if, after two additional months, the usage remains above usage thresholds established in the existing service plan. Customers whose excessive usage levels resulted in a higher rate will, upon request, qualify for the lower-tier rate(s) after three consecutive months of usage below usage thresholds established in the existing service plan.

SECTION 3 - DESCRIPTION OF SERVICES (Cont'd.)**3.2 Charges Based on Duration of Use**

Where charges for a service are specified based on the duration of use, such as the duration of a telephone call, the following rules apply:

- 3.2.1 Calls are measured in duration increments identified for each service. All calls which are fractions of a measurement increment are rounded up to the next whole unit
- 3.2.2 Timing on completed calls begins when the call is answered by the called party. Answering is determined by hardware answer supervision in all cases where this signaling is provided by the terminating local carrier and any intermediate carrier(s).
- 3.2.3 Timing terminates on all calls when the calling party hangs up or the Company's network receives an on-hook signal from the terminating carrier.
- 3.2.4 Calls originating in one time period and terminating in another will be billed in proportion to the rates in effect during different segments of the call.
- 3.2.5 All times refer to local times.
- 3.2.6 Rates contained herein are not distance sensitive. As such, unless otherwise indicated, mileage bands are not applicable to the services offered.
- 3.2.7 Unless otherwise indicated, rates do not vary depending upon day or the time of day (Day, Evening, and Night/Weekend).
- 3.2.8 Each call is rated and billed in whole cents. Any rated call with a fraction of a cent less than \$0.004 will be rounded down to the nearest whole cent. Any rated call with a fraction of a cent \$0.005 or greater will be rounded up to the nearest whole cent.
