Re: Transworld Network, LLC

Notice of Discontinuance of Telecommunications Services and Request for Withdrawal of Tariff and Closure of Kentucky Telecommunications Registration

Dear Commission Staff:

Transworld Network, LLC ("Transworld" or the "Company"), Utility ID 5170300, hereby provides notice to the Kentucky Public Service Commission ("Commission") of its discontinuance of long-distance and toll-free telecommunications services within the Commonwealth of Kentucky. Upon completion of the discontinuance, Transworld intends to fully withdraw from the Kentucky telecommunications market and respectfully requests withdrawal of the Company's Kentucky interexchange tariff and closure of its remaining Kentucky telecommunications registration and authority, as applicable.

Transworld is registered with the Commission as a provider of interexchange telecommunications services and currently maintains KY PSC Tariff No. 2 for the provision of those services. The Commission was notified in 2025 of the Company's conversion from TransWorld Network, Corp. to TransWorld Network, LLC, and the Company's long-distance tariff was subsequently updated to reflect the current entity name. The Company's Kentucky Utility ID is 5170300.

Transworld currently provides the affected long-distance and/or toll-free telecommunications services to approximately fourteen (14) customers in Kentucky.

Transworld has relied exclusively upon Lumen as its underlying wholesale telecommunications carrier to support the affected long-distance services. Lumen made the underlying business decision to terminate the continued availability of the wholesale telecommunications services that Transworld has relied upon to provide its legacy long-distance offering. As a result of Lumen's decision and the resulting unavailability of the underlying wholesale service, Transworld is forced to discontinue its remaining intrastate long-distance telecommunications service in Kentucky.

Affected Kentucky customers have been provided with advance notice of the proposed discontinuance and advised of the need to make alternative arrangements if they wish to continue receiving the affected services.

A copy of the customer discontinuance notice is enclosed with this filing.

Transworld has also filed an application with the Federal Communications Commission pursuant to Section 214 of the Communications Act of 1934, as amended, and 47 C.F.R. § 63.71 concerning the proposed discontinuance. Transworld will comply with all applicable federal and Kentucky regulatory requirements associated with the discontinuance.

Upon completion of the discontinuance, Transworld will no longer provide any telecommunications services within the Commonwealth of Kentucky and intends to fully withdraw from the Kentucky telecommunications market.

Accordingly, Transworld respectfully requests that the Commission:

1. Accept this notice of discontinuance;
2. Permit withdrawal of KY PSC Tariff No. 2 upon completion of the discontinuance;
3. Update the Commission's records to reflect that Transworld Network, LLC has ceased providing interexchange telecommunications services in Kentucky;
4. Close or cancel the Company's Kentucky telecommunications registration and any remaining operating authority associated with Utility ID 5170300, as applicable; and
5. Grant such other administrative relief as may be necessary to close the Company's Kentucky interexchange telecommunications registration.

Please direct any questions concerning this filing to:

IMPORTANT NOTICE OF DISCONTINUANCE OF LONG-DISTANCE / TOLL – FREE TELEPHONE SERVICE

Date: July 24, 2026

Dear Customer,

TransWorld Network, LLC ("TWN") is providing this notice to inform you that it will be discontinuing its domestic long-distance telecommunications services, including interstate and intrastate long-distance calling and toll-free, on or after August 23, 2026, subject to approval by the Federal Communications Commission ("FCC") and completion of any applicable state regulatory requirements.

This action is necessary because TWN's underlying wholesale carrier has elected to discontinue the wholesale long-distance and toll-free services upon which TWN currently relies. As a result, TWN will no longer be able to provide these services after the proposed discontinuance date.

This discontinuance affects only TWN's long-distance telephone service. Your broadband Internet service and any other TWN services will remain unchanged unless you receive separate notice.

This discontinuance applies to affected customers receiving TWN long-distance or toll-free services in the following states

Arizona, Florida, Iowa, Illinois, Indiana, Kansas, Kentucky, Michigan, Minnesota,
North Carolina, New Mexico, Ohio, Oklahoma, Pennsylvania, Tennessee, Texas, and
Wisconsin

If you currently use TWN for long-distance or toll-free telephone service, you must arrange service with another telecommunications provider before the proposed discontinuance date if you wish to continue using those services after the discontinuance. Failure to do so may result in the loss of your ability to place or receive long-distance calls and/or maintain your existing toll-free service.

The FCC will normally authorize this proposed discontinuance of service unless it is shown that customers would be unable to receive service or a reasonable substitute from another carrier or that the public convenience and necessity is otherwise adversely affected. If you wish to object, you should file your comments as soon as possible, but no later than 15 days after the Commission releases public notice of the proposed discontinuance. You may file your comments electronically through the FCC's Electronic Comment Filing System using the docket number established in the Commission's public notice for this proceeding, or you may address them to the Federal Communications Commission, 45 L Street NE, Washington, DC 20554, and include in your comments a reference to the Section 63.71 Application of Transworld Network, LLC. Comments should include specific information about the impact of this proposed discontinuance upon you or your company, including any inability to acquire reasonable substitute service.

Re: Transworld Network, LLC
Notice of FCC Section 63.71 Application for Discontinuance of Long-Distance and Toll-Free Telecommunications Services

Dear Commission Staff:

Pursuant to Section 214 of the Communications Act of 1934, as amended, and 47 C.F.R. § 63.71, Transworld Network, LLC ("Transworld" or the "Company") hereby provides the Ohio Public Service Commission ("Commission") with a copy of its application filed with the Federal Communications Commission ("FCC") concerning the proposed discontinuance of certain domestic long-distance and toll-free telecommunications services.

Transworld currently provides affected long-distance and/or toll-free telecommunications services to customers within the State of Ohio.

Transworld has relied exclusively upon Lumen as its underlying wholesale telecommunications carrier to support the affected long-distance services. Lumen made the underlying business decision to terminate the continued availability of the wholesale telecommunications services that Transworld has relied upon to provide its legacy long-distance offering. As a result of Lumen's decision and the resulting unavailability of the underlying wholesale service, Transworld is forced to discontinue its remaining intrastate long-distance telecommunications service in Ohio.

Affected Ohio customers have been provided with advance notice of the proposed discontinuance and advised of the need to make alternative arrangements if they wish to continue receiving the affected services.

Transworld filed its application with the FCC pursuant to Section 214 of the Communications Act of 1934, as amended, and 47 C.F.R. § 63.71. A copy of that application is enclosed with this notification.

This correspondence and the enclosed FCC Application are being provided to the Commission in connection with the governmental notification requirements applicable to Transworld's federal discontinuance proceeding.

This notification is separate from, and does not replace, any state-specific filing, approval, certificate cancellation, registration withdrawal, tariff withdrawal, or other regulatory requirement that may be applicable to Transworld's discontinuance of service or withdrawal of operating authority within the State of Ohio. Transworld will separately comply with any such applicable state requirements.

Respectfully submitted,

WC Docket No. _____

SECTION 63.71 APPLICATION

Transworld Network, LLC ("Transworld" or the "Applicant"), pursuant to Section 214(a) of the Communications Act of 1934, as amended, 47 U.S.C. § 214(a), and Section 63.71 of the rules of the Federal Communications Commission ("Commission"), 47 C.F.R. § 63.71, respectfully submits this application for authority to discontinue certain domestic long-distance and toll-free telecommunications services.

Transworld provided written notice of the planned discontinuance to all affected customers by first-class U.S. Mail on July 24, 2026. The customer notice identified August 23, 2026 as the planned discontinuance date. Transworld will not discontinue the affected services before Commission authorization is effective and completion of any applicable state regulatory requirements.

The proposed discontinuance results from the decision of Transworld's underlying wholesale carrier to cease supporting the wholesale services upon which Transworld relies to provide the affected long-distance and toll-free services. Transworld's broadband Internet service and other services not identified in this Application are not the subject of this discontinuance.

I. NAME AND ADDRESS OF CARRIER

Transworld Network, LLC
4025 Tampa Road, Suite 1203
Oldsmar, Florida 34677

II. DATE OF PLANNED DISCONTINUANCE

Transworld plans to discontinue the affected domestic long-distance and toll-free telecommunications services on or after August 23, 2026, subject to Commission authorization and completion of any applicable state regulatory requirements. If Commission authorization is not effective by August 23, 2026, Transworld will discontinue the affected services as soon thereafter as Commission authorization permits.

III. GEOGRAPHIC AREAS AFFECTED

The proposed discontinuance affects customers receiving the affected services from Transworld in Arizona, Florida, Iowa, Illinois, Indiana, Kansas, Kentucky, Michigan, Minnesota, North Carolina, New Mexico, Ohio, Oklahoma, Pennsylvania, Tennessee, Texas, and Wisconsin.

PUBLIC SERVICE
COMMISSION
OF KENTUCKY

Transworld seeks authority to discontinue domestic long-distance telecommunications services, including interstate and intrastate long-distance calling, and toll-free telecommunications services provided to affected customers. The proposed discontinuance does not include Transworld's broadband Internet service. It also does not discontinue any separate interconnected Voice over Internet Protocol (VoIP) service that Transworld may provide. Services not specifically identified in this Application will continue unless customers receive separate notice.

Transworld relies upon a third-party wholesale telecommunications carrier to support the affected long-distance and toll-free services. The underlying wholesale carrier has made the decision to discontinue or cease supporting the wholesale services upon which Transworld relies. As a result, Transworld will no longer be able to continue providing the affected services after the wholesale arrangement terminates. The proposed discontinuance is therefore driven by the termination of the underlying wholesale service and is not a discontinuance of Transworld's broadband operations.

Grant of this Application is consistent with the public convenience and necessity. Affected customers received advance written notice and have an opportunity to obtain substitute long-distance and/or toll-free service from alternative providers. The proposed discontinuance
