C. The new supplier rate shall become the base supplier rate to be used in measuring the effect of any subsequent supplier rate change. Each such subsequent change shall be treated in the same manner as set forth above for the establishment of a new purchased water adjustment and for the establishment of a new base supplier rate. In the event that Boonesboro receives from its supplier a refund of amounts paid to such supplier in respect to a prior period, Boonesboro will apply to the Public Service Commission for authority and upon receipt thereof, make adjustments on the amounts charged to its customers under this provision as follows:

- (1) The "refundable amount" shall be the amount received by Boonesboro as a refund. Such refundable amount shall be divided by the number of cubic feet/gallons of water that Boonesboro estimates it will sell to its customers during the four month period commencing with the first day of the month following the receipt of the refund, thus determining a "refund factor".
- (2) Effective with meter readings taken on and after the first day of the second month following receipt of the refund, Boonesboro will reduce by the refund factor so determined any purchased water adjustment that would otherwise be applicable during such period. Provided, however, that the period of reduced purchased water adjustment will be adjusted, if necessary, in order to refund as nearly as possible the refundable amount.
- (3) In the event of any large or unusual refunds, Boonesboro may apply to the Public Service Commission for the right to depart from the refund procedure herein set forth.

The base rate for purchased water for the future application of this purchased water adjustment clause is:

MEMBER APPLICATION AND AGREEMENT  
BOONESBORO WATER ASSOCIATION, INC., WINCHESTER, KY.

This AGREEMENT is between BOONESBORO WATER ASSOCIATION, INC., a non-profit corporation (hereinafter called BWA), organized and existing under and by virtue of the laws of the State of Kentucky, and \_\_\_\_\_ located at \_\_\_\_\_ an applicant (hereinafter called member) for membership in BWA.

WITNESS:

WHEREAS, the member desires to purchase water for either domestic, farm, commercial, and/or industrial purposes or water and sewer service for domestic, commercial, and/or industrial purposes from BWA, and desires to enter into this agreement as required by the by-laws of BWA. Now, therefore, in consideration of the mutual covenants, promises and agreements herein contained, it is hereby understood and agreed that:

1. BWA shall furnish, subject to the limitations hereinafter provided, such quantity of water for the member's use, subject to normal availability, as the member shall desire. When sewer service is also provided, BWA shall be responsible for collection and treatment of the member's sewage within applicable state and local regulations.
2. BWA shall install a water meter for each service at the member's expense unless such meter is already in place. BWA shall have the exclusive right to use and access such water meter in order to activate or deactivate the member's service line as required by BWA rules and regulations.
3. BWA may shut off the water to the member and terminate this agreement, as well as the membership of the member in BWA, if the member allows a connection extension to be made to his service line for the purpose of supplying or selling water to another user.
4. If allocation is required in the event of a water shortage, BWA shall determine the allocation of water to the member, regardless of the cause of the shortage.
5. BWA will not install fire hydrants. Existing fire hydrants are to be used exclusively by BWA for flushing the distribution lines, unless an existing agreement is in force which permits use of a fire hydrant for one or more member's exclusive use. When such an agreement exists, BWA retains access to and use of the fire hydrant for testing and flushing as necessary.
6. The member shall pay for such water or water and sewer service, at such rates, time and place as shall be determined by BWA, including a multiple residence rate when applicable.
7. The failure of a member to pay for services in a timely manner shall result in the automatic imposition of one or more of the following penalties:
  - a. Payment after the due date will result in a penalty of 10% of the delinquent amount.
  - b. Non-payment for 30 days after the due date will result in a delinquency notice being sent to the member. If the delinquent amount has not been paid within 10 days of the date on the delinquency notice, the member's water service will be shut off. A fee of \$25.00 will be charged for a reconnection of the service and will be added to the balance due. If a lock on the meter is broken, a fee of \$15.00 will also be charged and will be added to the balance due. When the total balance due is paid, the water service will be turned on by BWA.

8. The member shall pay a security deposit not to exceed 2/12ths of the estimated annual bill. Deposits will earn interest at a rate no greater than BWA receives and at no time shall the interest payable exceed 6%. If a deposit is held for more than 18 months, it will, upon member request, be recalculated based on actual usage. If the amount on deposit differs by more than \$10.00 from 2/12ths of the actual usage than BWA will refund any over collection and may collect any underpayment. Refunds will be made by check or credit to the member's account. Deposits will be refunded at termination of this agreement or at BWA's discretion.

9. BWA shall test any meter upon the written request of the member provided such request is not made more frequently than once each twelve (12) months. If such tests show that the meter was not more than two (2) percent fast, the member agrees to pay a \$25.00 service charge.

10. The member agrees to comply with all rules and regulations of BWA.

11. The member will be charged \$10.00 for any returned check.

12. The member agrees to hold BWA harmless for any and all damages to the member or to his property as a result of a failure of BWA or BWA's supplier of water to maintain continuity of flow or as a result of temporary or sustained contamination of the water supply when the cause of said failure or contamination is deemed to be a result of causes beyond the reasonable control of BWA and/or its employees, officers and directors. Likewise, when the member also receives sewer service from BWA, the member agrees to hold BWA harmless for any and all damages that may be incurred to the member or to his property as a result of a temporary or sustained failure of the sewage collection lines and/or treatment plant when the cause of such failure is deemed to be a result of causes beyond the reasonable control of BWA and/or its employees, officers and directors.

13. Cost of maintenance or replacement of a member's service line is the sole responsibility of the member.

14. In those instances where a backflow preventer is presently installed or will be installed, to avoid any possible damage that may occur to the member's service line, fittings, and/or equipment as a result of thermal expansion, BWA recommends that the member seek professional advice regarding the installation of appropriate safety devices related to such thermal expansion and that member holds harmless and absolves BWA of any liability or responsibility relating to any such damage that may occur.

Dear Member:

Kentucky Public Service Commission Regulation 807 KAR 5:006, Section 20 states that a customer's request to test a meter must be made in writing. Such request may be made once in a twelve (12) month period. You have the opportunity to be present at such test if you desire. If the required test results is an average error of greater than 2%, the account will be adjusted for the period the meter's error is known to have existed or for one-half the period of time between the present date and last meter test date or twelve months, whichever is less. If the average error is greater than 2% slow, the customer may receive an additional bill under the same conditions as above.

After having a test made on your meter by the Boonesboro Water Association, if you are not satisfied with the results, you may make written application to the Public Service Commission to have your meter tested by the Commission. Application may be made by writing:
