P.S.C. Ky. NO. _____

First Revised SHEET NO. 1

Cancelling P.S.C. Ky. No. _____

Original SHEET NO. 1

BOONESBORO WATER ASSOCIATION, INC.

RULES AND REGULATIONS

T This schedule of rules and regulations governs the furnishing of water service by Boonesboro Water Association, Inc., hereinafter referred to as Boonesboro, and applies to all service received from Boonesboro. No employee or individual director of Boonesboro is permitted to make an exception to rates, rules, or regulations. All rules and regulations are to be in effect so long as they are not in conflict with Public Service Commission rules and regulations. Boonesboro is further subject to all rules and regulations of the Public Service Commission even though not contained herein.

1. REVISIONS. These rules and regulations may be revised, amended, supplemented or otherwise changed from time to time subject to approval of the Public Service Commission, and shall have the same force as the present rules and regulations.

T 2. SERVICE AREA. Boonesboro furnishes water service to portions of southern and western Clark County, Kentucky.

3. AVAILABILITY. Water service is available to any domestic, commercial, or industrial consumer within Boonesboro's area.

4. WATER FAILURE. Boonesboro is responsible for water failures only when in control of Boonesboro's employees. No consumer is paid damages for equipment unless such damages are specifically found to be caused by an act of negligence on the part of Boonesboro or its employees.

N 5. PROTECTION BY CONSUMER. The consumer shall protect the equipment of Boonesboro on their premises and shall not interfere with Boonesboro's property or permit interference except by duly authorized representatives of Boonesboro. If any customer, his employee or agent, or any contractor at the direction of a customer, damages the meter tub and/or the meter service(meter, setter, and service line), the customer may be required to pay the cost of repairs or replacement.

RULES AND REGULATIONS

6. NOTICE OF TROUBLE. The consumer shall give immediate notice to Boonesboro of any irregularities or unsatisfactory service and of any defects known to the consumer.

7. MAINTENANCE. Boonesboro may at any time deemed necessary suspend water service to any customer or consumers for the purposes of making repairs, changes, or improvements upon any part of its water system. Boonesboro, when possible, shall give reasonable notice to such suspension of service to the consumer. Boonesboro shall be responsible for the maintenance of that portion of the service line installed by Boonesboro. The consumer shall be responsible for the maintenance of that portion installed by the consumer.

8. EXTENSION OF SERVICE. Extension of service shall be in accordance with 807 KAR 5:066, Section 11.

9. LINE RELOCATIONS. When necessary to move or relocate facilities, the cost will be paid by the party or parties requesting such relocation.

10. BILLING, COLLECTION AND PENALTY. Bills for water service furnished by Boonesboro will be mailed no later than the 5th day of each month and will be due and payable within 15 days after the billing date. A 10% late payment penalty charge will be applicable after the due date of any account. If payment is not made by the due date, then item 12 will be implemented. Penalty will be assessed only once on any bill per 5:006, Section 8(3)(h).

11. DEPOSITS. Boonesboro shall require from any customer or applicant for service a cash deposit or other guaranty to secure payment of bills not to exceed 2/12ths of the estimated annual bill of such customer or applicant. See details on sheets 14, 15, and 16.

12. REFUSAL OR TERMINATION OF SERVICE BY BOONESBORO. Boonesboro may refuse or terminate service to an applicant or customer after proper notice, for failure to comply with its rules and regulations of state and municipal rules and regulations when a customer or applicant refuses or neglects to provide reasonable access to the premises, for fraudulent or

T illegal use of service, or for nonpayment of bills. If termination is for nonpayment of bills, the customer shall be given 5 days written notice of intent to terminate. Under no circumstances shall service be terminated before twenty days after the mailing date of the original unpaid bill. Service shall not be terminated for thirty (30) days beyond the termination date if physician, registered nurse or public health officer certifies in writing that termination of service will aggravate a debilitating illness or infirmity on the affected premises. When a dangerous condition is found to exist on the customer's or applicant's premises, the service shall be terminated or refused without advance notice. The utility shall notify the customer immediately in writing, and, if possible, orally of the reasons for the termination or refusal. Termination for noncompliance with the utility's tariffed rules or commission regulations and for refusal of access can be made only after reasonable efforts have been made to obtain customer compliance and the customer has been given at least (10) days written notice of termination. Termination for noncompliance with state, local or other codes may be made only after ten (10) days written notice is provided to customer unless ordered to terminate immediately by a governmental official. All notices of termination shall be issued pursuant to 807 KAR 5:006 Section 13 (5).

13. INITIAL COMMENCEMENT OF SERVICE. After payment of the tap on or connection fee, there will be no charge for commencement of service to the first or initial customer using the service at that location.

T 14. INITIATION OF SERVICE. After termination of service to the first or initial customer at a location, new customers at that same location shall pay a turn-on charge of \$25.00 for new commencement of service. This sum is payable before service is initiated. This also applies to seasonal turn-on or temporary service.

T 15. TERMINATION OR FIELD COLLECTION CHARGE. Initiation of water service after that service has been discontinued for nonpayment of charges for services shall be accomplished only after the customer whose service was terminated for nonpayment has first paid all past due and current amounts owed to Boonesboro and the reconnect fee of \$25.00. An additional security deposit may be required. A termination or field collection charge may be assessed when a utility representative makes a trip to the premises of a

BOONESBORO WATER ASSOCIATION, INC.

RULES AND REGULATIONS

16. **TERMINATION OF SERVICE.** Service will be terminated for any customer or at any location upon request. No charge will be made for termination of service.

17. **METER TEST CHARGE.** Boonesboro shall make a test of any meter upon written request of any customer if the request is not made more frequently than once each twelve (12) months. The customer shall be given the opportunity to be present at the request tests. If the tests show that the meter was not more than two percent (2%) fast, there will be a charge of \$25.00 for the test. After having first obtained a test from the utility, any customer may request a meter test by the commission upon written application. Such request shall not be made more frequently on one meter than once each twelve (12) months.

18. **REREADING METERS.** If requested by a customer, a meter will be read a second time. If the second reading confirms that the first reading was accurate, then a fee of \$10.00 will be paid by the customer. If the second reading confirms that the first reading was not accurate, then no charge will be made for the re-reading, and the approximate adjustment will be made to the customer for the preceding month.

19. **FAILURE OF METER.** If a meter fails to register water consumption for any reason, the customer will be billed an amount equal to the average charge incurred by that customer for the previous twelve month period, or the average charge incurred by the prior resident of that location during the previous twelve month period, or the average charge of similar premises nearby.

20. **NEGLIGENT BREAKAGE OF LINE.** If any customer, his employee, or agent, or any contractor at the direction of a customer, breaks a water distribution line owned and maintained by Boonesboro, the customer shall pay the actual cost of repairing or replacing the line and restoring it to its original condition.

21. **RETURNED CHECKS.** Any check or other bank draft returned to Boonesboro for nonsufficient funds, no funds, stop payment order, or any other reason, will cause the customer to be charged a fee of \$10.00 for each such check returned.

22. TEMPORARY SERVICE. Any customer desiring temporary service such as contractors, circuses, carnivals, fairs, etc., shall pay in advance a fee equal to the reasonable estimated cost of installing and removing the service, and the estimated cost of the water to be consumed by the temporary customer during the period of use of the service.

23. PURCHASED WATER ADJUSTMENT APPLICABLE TO ALL RATE SCHEDULES. The rates authorized herein are based upon a wholesale cost of water to Boonesboro as computed upon rates of its wholesale suppliers then currently in effect under valid contracts or under wholesale tariffs of the Public Service Commission. For the purpose of this purchased water adjustment clause, these rates shall be considered as the base rate for purchased water. In the event there is an increase in the base rate, Boonesboro shall file with the Public Service Commission the following information:

- A. A copy of the wholesale supplier tariff or wholesale tariff of the Public Service Commission effecting the change in the base rate and a statement relative to the effective date of such proposed change.
- B. A statement setting out the details of water purchased under the provision of the base rate for the previous twelve months showing billing under the base rate and under the proposed revised rate applicable to this service.
- C. A statement setting out the details of water sold for the previous twelve months.
- D. A balance sheet as of the end of the latest twelve month period and a statement of operating expenses and revenues and the same detail as reported to the Public Service Commission in Boonesboro's Annual Report.
- E. Such other information as the Public Service Commission may request for the proper determination of the purchased water adjustment.

_____ SHEET NO. _____

BOONESBORO WATER ASSOCIATION, INC.

RULES AND REGULATIONS

In the event there is a decrease in purchased water costs or refund, Boonesboro shall file the information required in paragraphs A, B, and D above.

Upon receipt of this information, the Public Service Commission will review the effect of the revised rate on the operation of Boonesboro and will issue its order setting out the purchased water adjustment that Boonesboro shall apply to its rates.

The maximum amount of the adjustment so prescribed shall not produce revenue adjustment based on the actual preceding twelve month period greater than the difference between the purchased water billed at the then existing rates and the purchased water billed at the revised rate.

On and after the effective date of this rate schedule, if any increase or decrease is made in the rate at which Boonesboro's suppliers sell water to Boonesboro, the unit charges of the aforesaid rate schedule shall be increased or decreased by the purchased water adjustment determined as follows:

- A. Water purchases will be determined by Boonesboro under the supplier's applicable rate schedule during a period of twelve calendar months ending within three months preceding the month of the effective date of the supplier's rate change. Such purchases shall be (1) at the base supplier rate and (2) at the new supplier rate.
- B. The difference between the amounts so determined shall be divided by the number of cubic feet/gallons of water sold by Boonesboro during the said twelve month period, unless purchases are in excess of 115% of total sales. In such instance, the said difference shall be divided by sales plus 15%. The unit charge or credit so determined, expressed in cents or cubic feet/gallons, shall be the purchased water adjustment applicable to consumer billings.

RULES AND REGULATIONS

C. The new supplier rate shall become the base supplier rate to be used in measuring the effect of any subsequent supplier rate change. Each such subsequent change shall be treated in the same manner as set forth above for the establishment of a new purchased water adjustment and for the establishment of a new base supplier rate. In the event that Boonesboro receives from its supplier a refund of amounts paid to such supplier in respect to a prior period, Boonesboro will apply to the Public Service Commission for authority and upon receipt thereof, make adjustments on the amounts charged to its customers under this provision as follows:

- (1) The "refundable amount" shall be the amount received by Boonesboro as a refund. Such refundable amount shall be divided by the number of cubic feet/gallons of water that Boonesboro estimates it will sell to its customers during the month following the receipt of the refund, thus determining a "refund factor".
- (2) Effective with meter readings taken on and after the first day of the second month following receipt of the refund, Boonesboro will reduce by the refund factor so determined any purchased water adjustment that would otherwise be applicable during such period. Provided, however, that the period of reduced purchased water adjustment will be adjusted, if necessary, in order to refund as nearly as possible the refundable amount.
- (3) In the event of any large or unusual refunds, Boonesboro may apply to the Public Service Commission for the right to depart from the refund procedure herein set forth.

The base rate for purchased water for the future application of this purchased water adjustment clause is:

26. ADJUSTMENT OF BILLS. (1) If upon periodic test, request test, or complaint test a meter in service is found to be more than two percent (2%) fast or slow, additional tests shall be made to determine the average error of the meter. Said tests shall be in accordance with commission regulations applicable to the type of meter involved.

(2) If test results on a customer's meter show an average error greater than two percent (2%) fast or slow, or if a customer has been incorrectly billed for any other reason, except in an instance where a utility has filed a verified complaint with the appropriate law enforcement agency alleging fraud or theft by a customer, the utility shall immediately determine the period during which the error has existed, and shall recompute and adjust the customer's bill to either provide a refund to the customer or collect an additional amount of revenue from the underbilled customer. The utility shall readjust the account based upon the period during which the error is known to have existed. If the period during which the error existed cannot be determined with reasonable precision, the time period shall be estimated using such data as elapsed time since the last meter test, if applicable, and historical usage data for the customer. If that data is not available, the average usage of similar customer loads shall be used for comparison purposes in calculating the time period. If the customer and the utility are unable to agree on an estimate of the time period during which the error existed, the commission shall determine the issue. In all instances of customer overbilling, the customer's account shall be credited or the overbilled amount refunded at the discretion of the customer within thirty (30) days after final meter test results. A utility shall not require customer repayment of any underbilling to be made over a period shorter than a period coextensive with the underbilling.

Rules and Regulations of the
Boonesboro Water Association, Inc.

CHAPTER 5

807 KAR 5:066. Water

SECTION 11. EXTENSION OF SERVICE

(1) Normal extension:

An extension of fifty (50) feet or less shall be made by a utility to its existing distribution main without charge for a prospective customer who shall apply for and contract to use service for one (1) year or more and provide a guarantee of such service.

(2) Other extensions:

The Association shall determine the total cost of the proposed water main extension (exclusive of the meter connections) and the total length of the extension. The Association shall pay that portion of the cost of the water main extension equal to 50 feet for each applicant for service. That part of the cost not covered by the Association's portion shall be contributed equally by those applicants desiring service on the main extension. Each applicant will also be required to pay the Association's approved "Tap-on Fee" for a meter connection to the main extension.

For a period of five years after the original construction of the main extension each additional customer directly connected to each particular extension will be required to contribute to the cost of the water main extension based on a recomputation of both the Association's portion of the total cost and each customer's contribution as set out above.

BOONESBORO WATER ASSOCIATION, INC.

RULES AND REGULATIONS

T Association must refund to those customers that have previously contributed to the cost of each main extension itself that amount necessary to reduce their contribution to the currently calculated amount for each customer connected to that extension. All customers directly connected to each main extension for a five year period after it is placed in service are to contribute equally to cost of construction of the water main extension itself. In addition, each customer must pay the approved "Tap-on Fee" applicable at the time of their application for the meter connection. The "Tap-on Fee" is not part of the refundable cost of the extension and may be changed during the refund period. After the five year refund period expires, any additional customer applying for service on each main extension must be connected for the amount of the approved "Tap-on Fee" only. Also, after the five year refund period expires, the Association will be required to make refunds for an additional five year period in accordance with 807 KAR 5:066 Section 11 (2)(b)(2).

An applicant desiring an extension to a proposed real estate development may be required to pay the entire cost of the extension.

(3) Nothing contained herein shall be construed as to prohibit a utility from making extensions under different arrangements provided such arrangements have been approved by the Commission.

(4) Nothing contained herein shall be construed as to prohibit a utility from making at its expense greater extensions than herein prescribed, should its judgement so dictate, provided like free extensions are made to other customers under similar conditions.

(5) Upon complaint to and investigation by the Commission, a utility may be required to construct extensions greater than fifty (50) feet upon a finding by the Commission that such extension is reasonable.

Fire Protection

Boonesboro Water Association, Inc. does not offer fire protection. The fire hydrants on the system are for the purpose of flushing out lines only.

Deposits

The Association may require a minimum cash deposit or other guaranty to secure payment of bills.

Service may be refused or discontinued for failure to pay the requested deposit. Interest, as prescribed by KRS 273.392, will be paid annually either by refund or credit to the customer's bill, except that no refund or credit will be made if the customer's bill is delinquent on the anniversary date of the deposit.

The deposit may be waived upon a customer's showing of satisfactory credit or payment history, and required deposits will be returned after eighteen (18) months if the customer has established a satisfactory payment record for that period. If a deposit has been waived or returned and the customer fails to maintain a satisfactory payment record, a deposit may then be required. The Association may require a deposit in addition to the initial deposit, if the customer's classification of service changes or if there is a substantial change in usage. Upon termination of service, the deposit, any principal amounts, and any interest earned and owing will be credited to the final bill with any remainder refunded to the customer.

In determining whether a deposit will be required or waived, the following criteria will be considered:

1. Previous payment history with the Association.
2. If the customer has no previous history with the Association, statements from other utilities, banks, etc, may be presented by the customer as evidence of good credit.

RULES AND REGULATIONS

MONITORING OF CUSTOMER USAGE

Boonesboro monitors the usage of its customers according to the following procedure:

1. Each month after the meter readings are entered into the computer, we review the resulting edit for higher-than-average usage and notify the customers by telephone or by postcard to alert them to the possibility of a leak if they do not have a reason for the increased usage.
2. When a customer has no usage for more than one month, we inspect the meter to see if it is in working order. If the meter is in working order, we contact the customer to see if there is a reason for no usage.
3. Where the deviation is not otherwise explained, the Association will test the customer's meter to determine whether it shows an average error greater than 2 percent fast or slow.
4. The Association will notify the customers of the investigation, its findings, and any refunds or backbilling in accordance with 807 KAR 5:006, Section 10(4) and (5).

In addition to the monthly monitoring, the Association will immediately investigate usage deviations brought to its attention as a result of its on-going meter testing or customer inquiry.

**MEMBER APPLICATION AND AGREEMENT
BOONESBORO WATER ASSOCIATION, INC., WINCHESTER, KY.**

This AGREEMENT is between BOONESBORO WATER ASSOCIATION, INC., a non-profit corporation (hereinafter called BWA), organized and existing under and by virtue of the laws of the State of Kentucky, and _____ located at _____, an applicant (hereinafter called member) for membership in BWA.

WITNESS:

WHEREAS, the member desires to purchase water for either domestic, commercial, and/or industrial purposes and/or sewer service for domestic purposes from BWA, and desires to enter into this agreement as required by the by-laws of BWA. Now, therefore, in consideration of mutual covenants, promises and agreements herein contained, it is hereby understood and agreed that:

1. BWA shall furnish, subject to the limitations hereinafter provided, such quantity of water for the member's use, subject to normal availability, as the member shall desire. When sewer service is also provided provided, BWA shall be responsible for collection and treatment of the member's sewage within applicable state and local regulations.
2. BWA shall install a water meter for each service at the member's expense unless such meter is already in place. BWA shall have the exclusive right to use and access such water meter in order to activate or deactivate the member's service line as required by BWA rules and regulations.
3. BWA may shut off the water to the member and terminate this agreement, as well as the membership of the member in BWA, if the member allows a connection or extension to be made to his service line for the purpose of supplying or selling water to another user.
4. If allocation is required in the event of a water shortage, BWA shall determine the allocation of water to the member, regardless of the cause of the shortage, in accordance with approved Water Shortage Response Plan.
5. BWA will not install fire hydrants. Existing fire hydrants are to be used exclusively by BWA for flushing the distribution lines, unless an existing agreement is in force which permits use of a fire hydrant for one or more member's exclusive use. When such an agreement exists, BWA retains access to and use of the fire hydrant for testing and flushing as necessary.
6. The member shall pay for such water or water and sewer service, at such rates, time and place as shall be determined by BWA, including a multiple residence rate when applicable. Each member must pay the current minimum bill for the applicable meter size unless the member has requested BWA to discontinue the service.

PUBLIC SERVICE COMMISSION
OF KENTUCKY
EFFECTIVE

CANCELLED
AUG 2000 MAY 31 1995

7. The failure of a member to pay for services in a timely manner shall result in the automatic imposition of one or more of the following penalties:

- a. Payment after the due date will result in a penalty of 10% of the delinquent amount. Penalty will be assessed in accordance with 5:006, Section 9(1)
- b. Non-payment by the due date will result in a delinquency notice notice being sent to the member. If the delinquent amount has not been paid within 10 days of the date on the delinquency notice, the member's water service will be shut off. A fee of \$25.00 will be charged for a reconnection of the service and will be added to the balance due. If a lock on the meter is broken or damaged, regardless of cause, a fee of \$15.00 will also be charged and will be added to the balance due. When the total balance due is paid, the water service will be turned on by BWA.

PURSUANT TO 807 KAR 5011,
SECTION 9(1)
BY James C. Neal
FOR THE PUBLIC SERVICE COMMISSION

IF

R

8. The member shall pay a security deposit not to exceed 2/12ths of the estimated annual bill. Deposits will earn interest at a rate no greater than BWA receives and at no time shall the interest payable exceed 6%. If a deposit is held for more than 18 months, it will, upon member request, be recalculated based on actual usage. If the amount on deposit differs by more than \$10.00 from 2/12ths of the actual usage then BWA will refund any over collection and may collect any underpayment. Refunds will be made by check or credit to the member's account. Deposits will be refunded at termination of this agreement or at BWA's discretion.

9. BWA shall test any meter upon the written request of the member provided such request is not made more frequently than once each twelve (12) months. If such tests show that the meter was not more than two (2) percent fast, the member agrees to pay a \$25.00 service charge.

10. The member agrees to comply with all rules and regulations of BWA.

11. The member will be charged \$10.00 for any returned check.

12. The member agrees to hold BWA harmless for any and all damages to the member or to his property as a result of a failure of BWA or BWA's supplier of water to maintain continuity of flow or as a result of temporary or sustained contamination of the water supply when the cause of said failure or contamination is deemed to be a result of causes beyond the reasonable control of BWA and/or its employees, officers and directors. Likewise, when the member also receives sewer service from BWA, the member agrees to hold BWA harmless for any and all damages that may be incurred to the member or to his property as a result of a temporary or sustained failure of the sewage collection lines and/or treatment plant when the cause of such failure is deemed to be a result of causes beyond the reasonable control of BWA and/or its employees, officers and directors.

13. Cost of maintenance or replacement of a member's service line is the sole responsibility of the member.

14. In those instances where a backflow preventer is presently installed or will be installed, to avoid any possible damage that may occur to the member's service line, fittings, and/or equipment as a result of thermal expansion, BWA recommends that the member seek professional advice regarding the installation of appropriate safety devices related to such thermal expansion and that member holds harmless and absolves BWA of any liability or responsibility relating to any such damage that may occur.

BY: Shirley Deller
PUBLIC SERVICE COMMISSION MANAGER

APPLICATION FOR WATER CONNECTION

The undersigned does hereby apply to become a member of Boonesboro Water Association, Inc., and requests said Association to make a connection and install a _____ inch meter on the property of undersigned located at _____.

The undersigned does hereby pay the sum of \$ _____ for the installation of said meter, and will pay for the use of water or the monthly minimum in accordance with published rates of the Association and shall comply with all rules and regulations of said Association.

The undersigned also agrees to the requirements listed below:

1. Member agrees to install or have installed, at his own expense, a water service line which shall begin at the meter connection and extend to the dwelling or other location on their premises.
2. There must be a separate cut off valve between the meter box and house.
3. The minimum size of the service shall be 3/4" PVC with a minimum pressure of 160 psi.
4. The minimum depth of the service line shall be 24".
5. BWA recommends a backflow preventor for all services; however, a backflow preventor is required for all commercial, industrial and farm services except for the farm residence/s. In those instances where a backflow preventor is presently installed or will be installed, to avoid any possible damage that may occur to the member's service line, fittings, and/or equipment as a result of thermal expansion, BWA recommends that the member seek professional advice regarding the installation of appropriate safety devices related to such thermal expansion and that member holds harmless and absolves of any liability or responsibility relating to any such damage that may occur.
6. BWA shall have final jurisdiction in any question of location of any service line connection to its water or sewer distribution system, as well as placement of the water meter.
7. Member must furnish to BWA a copy of inspection and approval by the state plumbing inspector before service is initiated (activated).
8. If locks or lockout devices are damaged or broken, regardless of cause, there will be a charge of \$15.00.
9. If any customer, his employee or agent, or any contractor at the direction of a customer, damages the meter tub and/or the meter service (meter, setter and/or service lines), the customer may be required to pay the cost of repair or replacement.
10. Member agrees that access will be available to Boonesboro Water Association, Inc. for the purpose of operation and maintenance of service line up to and including the meter.

Dear Member:

T
Kentucky Public Service Commission Regulation 807 KAR 5:006, Section 18 states that a customer's request to test a meter must be made in writing. Such request may be made once in a twelve (12) month period. You have the opportunity to be present at such test if you desire. If the required test results in an average error of greater than 2%, the account will be adjusted for the period the meter's error is known to have existed or for one-half the period of time between the present date and last meter test date or twelve months, whichever is less. If the average error is greater than 2% slow, the customer may receive an additional bill under the same conditions as above.

After having a test made on your meter by the Boonesboro Water Association, if you are not satisfied with the results, you may make written application to the Public Service Commission to have your meter tested by the Commission. Application may be made by writing:

Commonwealth of Kentucky
Public Service Commission
730 Schenkel Lane
P. O. Box 615
Frankfort, Kentucky 40602

Such request of the Commission may not be made more frequently than one each twelve (12) months.

If you desire a meter test by the Boonesboro Water Association, please sign below and return this form to our office. EFFECTIVE

Standard Operating Procedures
For All Contractors or Any Other Person Who Desires
to Construct Water Lines

1. All developers must submit project development plans to Boonesboro Water Association for review and approval. The Association shall determine the total cost of the proposed water main extension or project and study the feasibility of the project.

2. The Developer shall provide detailed construction plans for the water lines and/or mains which shall state the expected maximum number of potential retail water customers and, which shall comply with all regulations of any responsible agency of the Commonwealth of Kentucky. Said plans shall be prepared in consultation with the Field Manager of the Association and shall comply with specifications established by the Association. The Developer shall obtain approval in writing from the Kentucky Department for Natural Resources and Environmental Protection, Bureau of Environmental Protection, Division of Sanitary Engineering, Frankfort Office Park, 14 Reilly Road, Frankfort, Kentucky 40601 and all other regulatory agencies before any work is performed on extending any water lines and/or mains. These plans must be approved by the Association prior to being submitted to PUBLIC SERVICE COMMISSION for Natural Resources and Environmental Protection. This regulation is in accordance with the Kentucky Public and Semipublic Water REGULATIONS OFFICE is in accordance with the Kentucky Public and Semipublic Water Regulations (401 KAR 6015) as relates to the Kentucky Revised Statute Chapter 224.

MAY 31 1995

DIVISION OF WATER GUIDELINES:

PURSUANT TO 807 KAR 5011,

- a. If PVC piping is used, it must be NSF approved and manufactured in accordance with ASTM standards with a minimum 200 PSI. *Jordan C. Neal*
- b. Upon completion of construction, disinfection shall be performed in accordance with the procedure designated in the State Regulations, which reads as follows:

"All new water distribution systems including storage distribution tanks and repaired portions of, or all extensions to existing systems shall be thoroughly disinfected before being placed in service, the use of chlorine or chlorine compounds in such amount as to produce a concentration of at least fifty (50) ppm and a residual of at least twenty five (25) ppm at the end of 24 hours and followed by thorough flushing."

- c. A minimum pressure of 30 psi must be available on the discharge side of all meters.
- d. Water lines must be located at a minimum lateral distance of 10 feet from any existing or future sewer line and sanitary sewer man-holes measured from outside diameters. Where a water line must be placed in the same trench as a sewer line, the water line must be located on a shelf, 2 feet above and 2 feet to the side of the point of crossover.

Water lines crossing under sewer lines, or crossing less than 2 feet above sewer lines, must be encased for a distance not less than 5 feet on either side of the point of crossover.

CANCELLED
AUG 2000

e. Upon completion, a letter must be submitted by the Consulting Engineers to this office (Division of Water) certifying that this project has been constructed in accordance with the approved plans and specifications and the above stipulations.

f. Unless construction of this project is begun within one year from the date of approval, this approval shall expire.

3. All material used in construction of a distribution line shall be specified and/or approved by the Boonesboro Water Association, Inc. before the material is purchased by the developer.

4. No pipe will be covered or buried until the installation is approved by the Boonesboro Water Association, Inc.

5. All pipes will be bedded in sand, if necessary and covered, when in rock. Sand bedding will be six (6) inches on the bottom side of the laid pipe and shall cover laid pipe at least six (6) inches on top. Boonesboro Water Association, Inc., shall have the discretion to classify the material as to rock.

6. All lines that are not laid on rock shall have the bell dug out and the barrel shall be in contact with the ditch bottom for its entire length.

7. All pipe will have a minimum of 36 inches cover from the outside diameter of the pipe.

8. The contractor will be responsible for all tie-ends; however, Boonesboro Water Association, Inc. must oversee the work in progress and will perform a final inspection prior to the lines being covered. BWA requires at least a 48 hour notice from the contractor for scheduling this work.

9. No valves located on the Boonesboro Water Association, Inc. system will be cut off or turned on except through the authority of the Boonesboro Water Association, Inc.

10. If line is to be constructed near a sewer main, then the contractor or developer must follow those guidelines stipulated by the Division of Water.

11. The Contractor will perform hydrostatic tests according to the Association specifications.

12. The Contractor will perform bacteriological tests after disinfection of the water lines according to requirements established by the Division of Water.

13. The Boonesboro Water Association, Inc. will not furnish water to any individual or company that is indebted to the Utility until such indebtedness is paid in full.

T

14. The contractor will contact the Field Manager of the Boonesboro Water Association, Inc. and review the project before beginning any construction and shall continue to do so during constructions if any problems or faults arise.

15. All contacts with the Boonesboro Water Association, Inc. shall be during the regular field business hours from 7:30 a.m. to 4:00 p.m., Monday through Friday, except for holidays.

16. An easement must be provided to the Boonesboro Water Association, Inc. for the purpose of operation and maintenance of the constructed lines.

I hereby agree to the aforementioned terms and will abide by them:

Developer and/or Contractor

Boonesboro Water Association, Inc., President

WATER SHORTAGE RESPONSE PLAN

PUBLIC SERVICE
COMMISSION

BOONESBORO WATER ASSOCIATION, INC.

Section 1. Purpose. The purpose of this Plan is to provide for the declaration of official phases of water supply shortages and the implementation of voluntary and mandatory water conservation measures throughout Southeastern Clark County in the event a shortage is declared.

Section 2. Definitions. These terms are applicable only for this Plan unless specifically noted.

- A. "Customer" shall mean any person or entity using water for any purpose from the Boonesboro Water Association water distribution system and for which a regular charge is made.
- B. "Raw Water Supplies" shall mean all water potentially available to persons in the Boonesboro Water Association service area.
- C. "Treated Water" shall mean water that has been introduced by the Boonesboro Water Association into its water distribution system, including water offered for sale. Uses of treated water are classified as follows.

Essential Water Uses (Class 1):

The following uses of water, listed by site or user type, are essential.

Domestic:

- water necessary to sustain human life and the lives of domestic pets, and to maintain minimum standards of hygiene and sanitation.

Health Care Facilities:

- patient care and rehabilitation, including related filling and operation of swimming pools.

Water Hauling:

- sales of domestic use where not reasonably available.

SECTION 9 (1)
BY: *[Signature]*
PUBLIC SERVICE COMMISSION MANAGER

Public Use:

- firefighting,
- health and public protection purposes, if specifically approved by health officials.

Socially or Economically Important Uses (Class 2):

The following uses of water, listed by site or user type, are socially or economically important.

Domestic:

- personal, in-house water use including kitchen, bathroom and laundry.

Water Hauling:

- non-domestic, when other sources are not reasonably available elsewhere.

Commercial and Civic Use:

- commercial car and truck washes,
- laundromats,
- restaurants, clubs and eating places,
- schools, churches, motels/hotels and similar commercial establishments.

Outdoor Non-Commercial Watering:

- minimal watering of vegetable gardens,
- Minimum watering of trees where necessary to preserve them.

Outdoor Commercial or Public Watering (using conservation methods and when other sources of water are not available or feasible to use):

- agricultural irrigation for the production of food and fiber or the maintenance of livestock,
- watering by arboretums and public gardens of national, state, regional or community significance where necessary to preserve specimen,
- watering by commercial nurseries at minimum level necessary to maintain

- watering at a minimum rate necessary to establish or maintain revegetation or landscape plantings required pursuant to law or regulation,
- watering of woody plants where necessary to preserve them,
- minimum watering of golf course greens.

Recreational:

- operation of municipal swimming pools and residential pools that serve more than 25 dwelling units.

Air Conditioning:

- refilling for startup at the beginning of the cooling season,
- makeup of water during the cooling season,
- refilling specifically approved by health officials where the system has been drained for health protection or repair services.

Non-Essential Uses (Class 3):

Any waste of water, as defined herein, is non-essential. The following uses of water, listed by site or user type, are non-essential.

Public Use:

- use of fire hydrants (excluding Class 1 and Class 2 uses), including use of sprinkler caps, testing fire apparatus and fire department drills,
- flushing of sewers and hydrants except as needed to ensure public health and safety as approved by health officials.

Commercial and Civic Use:

- serving water in restaurants, clubs, eating places, except by customer request,
- failure to repair a controllable leak,

- increasing water levels in scenic and recreational ponds and lakes, except for the minimum amount required to support fish and wildlife.

Ornamental Purposes:

- fountains, reflecting pools and artificial waterfalls.

Outdoor Non-Commercial Watering:

- use of water for dirt control or compaction,
- watering of annual or non-woody plants, lawns, parks, golf course fairways, playing fields and other recreational areas,
- washing sidewalks, walkways, driveways, parking lots, tennis courts or other hard-surface areas,
- washing down buildings or structures for purposes other than immediate fire protection,
- flushing gutters or permitting water to run or accumulate in any gutter or street.

Outdoor Commercial or Public Watering:

- expanding nursery facilities, placing new irrigated agricultural land in production, or planting of landscaping except when required by a site design review process,
- use of water for dirt control or compaction,
- watering of lawns, parks, golf course fairways, playing fields and other recreational areas,
- washing sidewalks, walkways, driveways, parking lots, tennis courts or other hard-surface areas,

SECTION 9 (1)

BY: Sharon L. Lister
PUBLIC SERVICE COMMISSION MANAGER

- flushing gutters or permitting water to run or accumulate in any gutter or street.

D. "Distribution System" shall mean the portion of the water system used to transport the treated water from the point the water is purchased by Boonesboro Water Association to Boonesboro Water Association customers' water meters.

E. "Base Entitlement" shall mean the monthly usage for a customer during the same month of the preceding calendar year or the average per customer usage for each class of service during the same month of the preceding year.

F. "Curtailed Entitlement" shall mean the monthly usage for a customer after any curtailment percentage has been applied.

G. "Curtailment" shall mean the reduction in entitlement by some percentage to meet anticipated water shortages.

H. Water Shortage Response Phases:

"Advisory" shall mean that conditions exist which indicate the potential for serious raw or treated water supply shortages.

"Alert" shall mean the raw or treated water supplies are consistently below seasonal averages, and if they continue to decline, may not be adequate to meet normal needs.

"Emergency" shall mean that raw or treated water supplies are below the level necessary to meet normal needs and that serious shortages exist in the area.

"Rationing" shall mean that procedures must be established to provide for the equitable distribution of critically-limited raw or treated water supplies, in order to balance demand and limited available supplies, and to assure that sufficient water is available to preserve public health and safety.

I. "Distribution System" may be added in to any one of the above described phases listed due to the distribution system's capacity being over loaded due to customer demands being greater than the distribution systems ability to transport sufficient volumes to meet the customers demand.

PUBLIC SERVICE COMMISSION
OF KENTUCKY
EFFECTIVE
NOV 17 1993

AUG 2000

PURSUANT TO 807 KAR 5:011,
SECTION 9 (1)

BY: *[Signature]*
PUBLIC SERVICE COMMISSION MANAGER

J. It is recognized that the Boonesboro Water Association purchases its water from the City of Winchester and all Water Shortage Response Phases which are problems related to raw water, Water Treatment Plant, or the City of Winchester's transmission system to deliver water to the Association will be implemented when a request is received by the Boonesboro Water Association from the City of Winchester to implement a particular phase of the Water Shortage Response Plan. The Boonesboro Water Association may implement a particular phase of the Water Shortage Response Plan independent of the City of Winchester due to problems on the Boonesboro Water Association's distribution system.

Section 3. Applicability. The provisions of this Plan shall apply to all retail and wholesale customers of the Boonesboro Water Association. When implemented, this Plan becomes Boonesboro Water Association Water Shortage Response Regulation.

Section 4. Entitlements. Entitlements shall be established for each customer by adjusting the base entitlement to reflect any known change in usage pattern.

Section 5. Determination of Water Shortage. Water supply and usage shall be monitored on a continuous basis. Unrestricted demand shall be projected from past records and adjusted for changes such as new developments and weather conditions on a regular basis. Water shortages generally occur for two reasons, a reduction in available supplies or a system failure. Each of these has a distinct influence on the nature and duration of the conservation program implemented. Official declaration of a water shortage stage and implementation of the measures necessary to curtail water use shall be approved by the Board of Directors of Boonesboro Water Association, Inc.

Section 6. Term of Water Shortage Declaration. Any water shortage declaration shall remain in effect until water supplies or service conditions have returned to normal. A final determination as to terminating a water shortage declaration shall be made by the Board of Directors of Boonesboro Water Association, Inc.

Section 7. Water Shortage Stage, Criteria, Conservation and Curtailment Measures.

PUBLIC SERVICE COMMISSION MANAGER

A. Advisory Stage:

- (1) Criteria: A water advisory shall be declared when the amount of treated water or raw water available for treatment is projected to be up to 20% below demand, or there are periods of low water pressure in one or more areas of the distribution system due to system failure or inadequacies or the State Division of Water issues a Water Shortage Watch which includes the areas from which the supplier of Boonesboro Water Association, Winchester Municipal Utilities, draws water. (Note: Additional conditions may be added based on local conditions.)
- (2) Conservation and Curtailment Measures:
- (a) Declare Water Shortage Advisory.
 - (b) Provide proper notice to all customers and to local news media.
 - (c) Eliminate all water leaks.
 - (d) Request voluntary conservation of all non-essential (Class 3) water use.
 - (e) Request wholesale customers also issue request for voluntary conservation by their customers of all non-essential (Class 3) water use.

B. Alert Stage:

- (1) Criteria: A water alert shall be declared when the amount of treated water available is projected to be up to 25% below demand, or raw water supplies are consistently below seasonal averages and if they continue to decline, may not be adequate to meet normal needs. (Note: Additional conditions may be added based on local conditions.)
- (2) Conservation and Curtailment Measures:
- (a) Declare Water Shortage Alert.
 - (b) Provide proper notice to all customers and to all local news media.
 - (c) Eliminate all water leaks.

PUBLIC SERVICE COMMISSION MANAGER

- (d) Prohibit all non-essential (Class 3) water uses.
- (e) Curtail entitlements to all customers by the same percentage as the projected shortage.
- (f) Begin billing all customer water usage in excess of curtailed entitlement at the normal rate plus an excess usage charge of \$5.00 per 1,000 gallons.

C. Emergency Stage:

- (1) Criteria: A water Emergency shall be declared when the amount of treated water available is projected to be up to 30% below demand, or there are periods of no water in one or more areas of the distribution system due to low water supply or raw water supplies below the level necessary to meet normal needs. (Note: Additional conditions may be added based on local conditions.)

2. Conservation and Curtailment Measures:

- (a) Declare Water Shortage Emergency.
- (b) Provide proper notice to all customers and to all local news media.
- (c) Eliminate all water leaks.
- (d) Prohibit all Class 3 uses of water.
- (e) Prohibit all Class 2 uses of water except domestic uses for kitchens, bathrooms and laundries.
- (f) Curtail all commercial and industrial entitlements (except Health Care Facilities) by 100%.
- (g) Curtail Residential entitlements by the same percentage as the projected shortage.
- (h) Curtail entitlements to all customers by the same percentage as the projected shortage.
- (i) Begin billing all customer water usage in excess of curtailed entitlement at the normal rate plus an excess usage charge of \$10.00 per 1,000 gallons.

AUG 2000

D. Rationing Stage:

1. Criteria: Treated water available is greater than 35% below demand or raw water supplies are below the level necessary to meet essential needs, there are extended periods of no water in areas of the distribution system due to the increased customer demand, low water supply from the Association's wholesale supplier, the City of Winchester, and in the opinion of the Board of Directors of Boonesboro Water Association mandatory rationing is required to insure adequate water is available to maintain public health and safety.

2. Conservation and Curtailment Measures:

- (a) Declare Water Shortage Rationing.
- (b) Provide proper notice to all customers and to all local news media.
- (c) Eliminate all water leaks.
- (d) Prohibit all Class 3 and Class 2 uses of water.
- (e) Curtail all commercial and industrial entitlement (except Health Care Facilities) by 100%.
- (f) Curtail all residential and wholesale entitlements by the same percentage as the projected shortage.
- (g) Implement service interruptions to portions of system in accordance with approved published schedule. The schedule shall be provided to all local media.
- (h) Begin billing customer water usage in excess of curtailment entitlement at the normal rate plus an excess usage charge of \$15.00 per 1,000 gallons.

Section 8.

Enforcement of Water Restriction. Any person who violates the provisions of this Plan, who fails to carry out the duties and responsibilities imposed by this Plan, or who impedes or interferes with any action undertaken or ordered pursuant to this Plan, shall be subject to the following:

SECTION 9 (1)
BY: *Sharon J. Miller*
PUBLIC SERVICE COMMISSION MANAGER

A. A written notice of the violation of any water use restrictions imposed pursuant to these regulations shall be affixed to the property where the violation occurred and mailed to the customer of record and to any person known to the Association who is responsible for the violation or its correction. Said notice shall describe the violation and order that it be corrected immediately or within such specified time as the Association determines is reasonable under the circumstances. If said violation is not corrected, then the Association may terminate the customer's water service subject to the following:

1. The customer shall have the opportunity to appeal the termination by requesting a hearing scheduled before water Association officials.
2. If such a hearing is requested, the customer shall be given full opportunity to be heard before termination is ordered.
3. Any customer whose water service is terminated for violating provisions of this water curtailment plan shall be subject to the approved reconnection fee prior to reconnection of service.
4. The excess usage charge billing provisions of this Plan shall not be put into effect if a county ordinance containing penalty provisions is in effect to assist enforcement of this Plan.

B. The charge for reconnection of service shall be paid prior to reconnection of any water service.

C. The reconnection fee will be applied in addition to, separately from, excess usage charge described in earlier sections.

D. Violations of this regulation may be prosecuted in the appropriate Court.

PUBLIC SERVICE COMMISSION MANAGER

of Directors of Boonesboro Water Association for an exception. For these purposes, "extraordinary hardship" shall be defined as a condition which may threaten health and safety, or cause property or economic losses, each of which must be shown to be substantially more severe than the sacrifices borne by other users. If extraordinary hardship is found to exist, then an exception shall be granted and a written waiver issued to the customer. If an appeal is made, water service shall be continued until a decision is announced. Any person aggrieved by the decision may file a complaint with the Public Service Commission.

B. Exception to curtailment surcharge: Exceptions to excess use charges shall not be considered or granted.

Section 10. Severability. If any provision of this Plan is declared invalid by the courts, the remainder of the Plan and its applicability to other persons and circumstances shall not be affected by that declaration.

Section 11. Effective Date. This Plan shall take effect immediately upon approval by the Public Service Commission.

Section 12. Effective Period. This regulation will remain in effect until terminated by the Boonesboro Water Association.
