RULES AND REGULATIONS

DIVISION VII - SERVICE INSTALLATIONS (cont)

- 7. In cases where the property owner desires a water pressure other than that pressure provided by the Water District mains in the surrounding area, it shall be the responsibility of the property owner to install the necessary devices to provide the desired pressure. In no event, however, shall the pressure at the customer's service pipe under normal conditions fall below 30 psig nor shall the static pressure exceed 150psig.
- 8. The District requires that no solder joints be made under ground in regards to the service line from the point of the curb box location to the point where the service line enters the building.
- 9. The District requires that copper pipe be used on all service lines, when the meter location is inside the building.
- 10. The District requires that a check valve must be installed in the service line , when there is a direct connection between the water line and any type equipment such as Heating/Air-conditioning equipment, etc., and where said equipment could be damaged from a back flow of water resulting from a mainline break or problem. The check valve is also required to prevent a contamination of the District main.
- 11. The District requires an approved backflow device to be installed on (A) any service that is determined to be potentially hazardous to the distribution system, with respect to cross-connections. All new applications will be reviewed to determine whether cross connection protection will be required.

RULES AND REGULATIONS

DIVISION VII - METER LOCATION AND REQUIREMENTS

1. The Water District will determine or approve all meter locations. The owner or water user shall be responsible for making a safe accessible place for the meter to be installed, either in a tile concrete box with approved covering in the yard or in the basement of the house, "or if the property owner desires a remote reading to a meter installed in the basement the Water District will install said equipment upon payment for the cost of the equipment and installation". The property owner or water user will be responsible for placing the proper fittings so spaced as to facilitate the meter setting as required by the District.

RULES AND REGULATION

DIVISION IX - WATER FOR TEMPORARY USE

1. Where water is required for temporary use in connection with construction, the party desiring the temporary service shall apply for a permit from the District at the District office. Unmetered water shall be paid for on the basis of metered rates according to the estimated amount used or to be used.
2. In the case of a large construction project the District may require the use of a special meter to register water consumed. The meter in such case shall be furnished by the District without charge, providing that the person obtaining the meter shall be charged for the cost of the meter itself if it is not returned promptly after the discontinuance of its use.
3. Any special connections or taps required to make temporary use of water available shall be made by the District and shall be paid for by the party desiring the temporary service. Charges shall be the cost plus 10% of the installation cost. A temporary service will not be installed where a permanent service will be required at a future date.

RULES AND REGULATIONS

DIVISION XI - WATER MAIN INSTALLATIONS (cont)

3. The District reserves the right to require all transmission mains constructed hereunder to be at least as large in diameter as the main to which it is connected and shall be a minimum of 6" in diameter in subdivisions and improved areas and shall be greater in diameter where the District believes the future growth of the area warrants. The District also requires that all mains six inches (6") or larger be Ductile Cast Iron with a minimum of class 52, and where less than (C) six (6") is allowed by the District then such main must be copper.
4. Failure to comply with any of these rules and regulations shall be sufficient justification for the Water District to discontinue the service. Before service is disconnect, a shut off notice will be mailed to the customer, which will give the customer 10 days advantace notice, and state the date of cut-off.

DIVISION XII - SPECIAL CONTRACTS

1. The District reserves the right to provide special services for a user on a contract basis.
