- (e) "Curtailed entitlement" shall mean the monthly usage for a customer after any curtailment percentage has been applied.
- (f) "Curtailement" shall mean the reduction in entitlement by some percentage to meet anticipated water shortages.
- (g) **Water Shortage Response Phases:**
- "Advisory" shall mean that conditions exist which indicate the potential for serious raw or treated water supply shortages.
- "Alert" shall mean the raw or treated water supplies are consistently below seasonal averages, and if they continue to decline, may not be adequate to meet normal needs.

- (h) "**Rationing**" shall mean that procedures must be established to provide for the equitable distribution of critically-limited raw or treated water supplies, in order to balance demand and limited available supplies, and to assure that sufficient water is available to preserve public health and safety.

C6/01

Section 3. Applicability. The provisions of this plan shall apply to all retail and wholesale customers of the DEWITT WATER DISTRICT. When implemented, this plan becomes DEWITT WATER DISTRICT'S water shortage response regulation.

Section 4. Entitlements. Entitlements shall be established for each customer by adjusting the base entitlement to reflect any known change in usage pattern.

Section 5. Determination of Water Shortage. As DWWD buys some of its water from, the City of Corbin, and the East Knox County Utility District, both should have input into this Water Shortage Plan. Water supply and usage shall be monitored on a continuous basis. Unrestricted demand shall be projected from past records and adjusted for changes such as new developments and weather conditions on a regular basis. (NOTE: A sample calculation page is attached as Appendix A to assist in determining overall water levels. It is important that accurate water measurements be used.) Water shortages generally occur for two reasons, a reduction in available supplies or a system failure. Each of these has a distinct influence on the nature and duration of the conservation program implemented. Official declaration of a water shortage stage and implementation of the measures necessary to curtail water shall be approved by the BOARD OF COMMISSIONERS

Section 6. Term of Water Shortage Declaration.

Any Water Shortage declaration shall remain in effect until water supplies of service conditions have returned to normal. A final determination as to terminating a water shortage declaration shall be made by the BOARD OF COMMISSIONERS.

Section 7. Water Shortage Stage, Criteria, Conservation and Curtailment Measures.

A. Advisory Stage:

(1) Criteria: A water advisory shall be declared when the amount of treated water or raw water available for treatment is projected to be up to TEN (10) percent below demand, or there are periods of low water pressure in one or more areas of the distribution system due to system failure or inadequacies. Or if the State Division of Water issues a Water Shortage Watch which includes the Cumberland River from which the EKCWD draws water, or the area effecting the City of Corbin.
