RULES AND REGULATIONS

These Rules and Regulations govern the furnishing of water service by Jonathan Creek Water Association hereinafter referred to as the Association and apply to all service received from the Association. No employee or individual Commissioner of the Association is permitted to make an exception to these Rates, Rules, or Regulations. These Rules and Regulations are to be in effect so long as they are not in conflict with the Kentucky Public Service Commission's Rules and Regulations (807 KAR 5:001-5:076). The Association is subject to all Rules and Regulations of the Kentucky Public Service Commission even though not Contained herein.

1. Scope

This Schedule of Rules and Regulations is a part of all contracts for receiving water service from the Association, and applies to all service received from the Association whether the service is based upon contract, agreement, signed application, or otherwise. A copy of this schedule, together with a copy of the Association's Schedule of Rates and Charges shall be kept open to inspection at the office of the Association. The rules are promulgated under direction and authority granted pursuant to Chapter 5 of Kentucky Administrative Regulations (807 KAR 5). The aforesaid rules and regulations are hereby adopted and included the same as if herein written.

2. Revisions

These Rules and Regulations may be revised, amended supplemented, or otherwise changed from time to time by either of the two (2) following methods:

- A. By order of the Kentucky Public Service Commission upon formal application by the Association, and after hearing as provided by Commission Regulation set forth in 807 KAR 5:011.

RULES AND REGULATIONS

B. By issuing and filing on at least twenty (20) days notice to the Kentucky Public Service Commission and the public all proposed changes in the Rules and Regulations, as provided by Commission Regulations set for in 807 KAR 5:011.

3. Conflicts

In case of conflict between any provisions of any rate schedule and the schedule of rules and regulations, the rate schedule shall apply. Also, should the rules contained herein conflict with rules in effect under 807 KAR 5, the provisions of 807 KAR 5 shall take precedence over those contained herein.

4. Application for Service

Any person, firm, agency or governmental entity within the current boundary of the Association may request service. Applications for service must be in writing on a form approved by the Association.

Each applicant for service shall be required to execute and sign the Association's standard application for water service before service is supplied by the Association. Under Kentucky Public Service Commission Order, dated September 1, 1981, Case No. 8248, a 5/8" x 3/4" meter shall be the standard customer service meter and should be installed at all points of service unless the customer provides sufficient justification for the installation of a larger meter.

PUBLIC SERVICE COMMISSION OF KENTUCKY

JAN 1 1990

5. Non-Standard Service

Each prospective customer requiring a non-standard service (i.e., other than a 5/8" x 3/4" meter) shall present to the Association sufficient justification for same. Insofar as prospective customer requirement may meet those non-standard service presently in effect by Association same be applied.

6. Point of Delivery

The point of delivery is the point where the meter or vault is located on the customer's premises. All water lines, plumbing, and equipment beyond the meter shall be installed and maintained by the customer. The Association reserves the right to determine the location of point of delivery with full regard to those wishes of the prospective customer.

7. Customer's Service Line

All service lines beyond the metering point should be installed of material consisting of copper, galvanized, PVC or PE pipe with rating not less than 200 psi. The size of service line beyond the point of delivery should not be less than 3/4".

Should an applicant for service desire a higher pressure due to his location or need, he may make provision for an individual pressure booster system. The manner of connection, location cross-connection protection and type is subject to approval by the Association. The Association reserves the right to require discontinuance and disconnection should the private booster system have a detrimental effect on the Association's system.

8. Ownership of Mains, Services & Appurtenances

All mains, fire hydrants, valves, crossings and other appurtenances are and shall remain the property of the Association, whether installed by the Association or the customer.

All service lines from main to meter with appurtenances shall be and remain the property of the Association, whether installed by the Association or the customer.

9. Discontinuance of Service by Association

Water service may be discontinued by the Association for any violation of any rule, regulation, or condition, and especially for any of the following reasons:

- A. Misrepresentation in the application or contract as to the property or fixtures to be supplied or additional use to be made of water, with 10 days notice.
- B. Resale of water.
- C. Waste or misuse of waste due to improper or imperfect service pipes and/or failure to keep such pipes in a suitable state of repair.
- D. Tampering with meter, meter seal, service, or valves, or permitting such tampering by others, pursuant to Section 14 (3)(g).
- E. Connection, cross-connection, or permitting the same, of any separate water supply to premises which receive water from the Association.
- F. Non-payment of bills, pursuant to Section 14, (2).
- G. When a dangerous condition is found to exist on the customer's or applicant's premises, with reference to the continuation of water service, water service shall be cut off without notice or shall be refused, provided the Association shall notify the customer or applicant immediately of the reasons for the discontinuance or refusal and the corrective action to be taken by the applicant or customer before service can be restored.

10. Billing

Bills and notices relating to the conduct of the business of the Association will be mailed to the customer at the address listed on the "User's Agreement" unless a change of address has been filed in writing with the Association; and then Association shall not otherwise be responsible for delivery of any bill or notice nor will the customer be excused from the payment of any bill or any performance required in said notice.

Bills for water service are due and payable at the office of the Association, or to any designated agent on the date of issue. The past due date shall be the twentieth (20th) day after the date of issue. Bills will be dated and mailed on or about the twenty-third (23rd) of each month.

A bill not paid on or before the past due date shall be deemed delinquent. When a bill has been delinquent for a period of twenty days, the Association shall serve the delinquent customer a written final notice of said delinquency, and of the intent of the Association to discontinue service ten days after the date of such notice unless such bill is paid prior to the expiration of such ten days. If a delinquent bill is not paid within ten days after date of such final notice (thirty days from the past due date), the water supply to the customer may be discontinued without further notice; provided, however, if, prior to discontinuance of service, there is delivered to the Association, or its employee empowered to discontinue service, a written certificate signed by a physician, a registered nurse, or a public health officer that, in the opinion of the certifier, discontinuance of service will aggravate an existing illness or infirmity of the affected premises, service shall not be discontinued until the affected resident can make other living arrangements or until ^{thirty} 30 days elapse from the time of the Association receipt of said certification, whichever occurs first.

RULES AND REGULATIONS

11. Discontinuance of Service by Customer

Any customer having fulfilled their contract terms and desiring to discontinue the water service to his premises for any reason must give notice of discontinuance in writing at the business office of the Association at least three (3) days prior to the date on which the customer desires to discontinued service. If such notice in writing is not given, a customer shall remain liable for all water used and service rendered to his premises by the Association until said notice is received by the Association.

12. Reconnection Fee

Where the water supply to the customer has been discontinued for non-payment of delinquent bills, a charge of \$15.00 will be made for reconnection of water service, but the reconnection will not be made until all delinquent bills and other charges, if any, owed by the customer to the Association have been paid.

13. Deposit

The Association reserves the right to require that a nominal amount be placed on deposit with the Association for the purpose of establishing or maintaining any customer's credit. The deposit will not exceed two-twelfths (2/12) of the customer's estimated annual bill. Upon payment of deposit, the Association shall issue to the customer a certificate of deposit, showing the name of the customer, the location of the initial premises occupied by the customer, and the date and amount of the deposit.

RULES AND REGULATIONS

Interest will be paid on deposits as required by law, on an annual basis either by refund or credit to the customer's bill, except that no refund or credit will be made if the customer's bill is delinquent on the anniversary date of the deposit.

14. Adjustment Relative to Erronous Meter

If upon periodic test, request test, or complaint test a meter in service is found to be more than two percent fast, additional tests shall be made to determine the average error of the meter. Said tests shall be made in accordance with commission regulations applicable to the type of meter involved.

A. If test results show an average error greater than two percent fast or slow, or if a customer has been incorrectly billed for any other reason the utility shall immediately determine the period during which the error has existed, and shall recompute and adjust the customers bill to either provide a refund to the customer or collect an additional amount of revenue from the underbilled customer. The utility shall readjust the account based upon the period during which the error is known to have existed. If the period during which the error existed cannot be determined with reasonable precision, the time period shall be estimated using such data as elapsed time since the last meter test, if applicable, and historical usage data for the customer. If that data is not available, the average usage of similiar customer loads shall be used for comparison purposes in calculating the time period. If the customer and the utility are unable to agree on an estimate of the time period during which the error existed, the commission shall determine the issue. In all instances of overbilling the customer's account shall be credited or the overbilled amount refunded at the discretion of the customer within 30 days after final meter test results. Customer repayment of underbilling will not be made over a period shorter than a period coextensive with the underbilling.

RULES AND REGULATIONS

"Interest will be paid on all sums held on deposit at the rate of 6 percent annually. The interest will be applied as a credit to the customer's bill or will be paid to the customer on an annual basis. If the deposit is refunded or credited to the customer's bill prior to the deposit anniversary date, interest will be paid or credited to the customer's bill on a pro-rated basis. If interest is not credited to the customer's bill or paid to the customer annually, interest will be computed by a method which will result in an amount no less than that obtained by using a middle course method between simple and compound interest in compliance with Commission Order dated October 31, 1989 in Case No. 89-057. Interest on deposits computed in this manner will accrue until credited to the customer's bill or paid to the customer."

14. Adjustment Relative to Erroneous Meter

If a meter is inaccurate in excess of +2%, whether upon periodic testing or upon requested testing, additional tests shall be made at once to determine the average error of the meter, and the adjustments shall be made in the customer's water bills as follows:

- A. If the result of such tests show an average error greater than 2% fast, the customer's bill for the period during which the meter error is known to have existed, shall be recomputed and the account adjusted on the basis of the test. If the period during which the meter error existed cannot be determined, then the customer's bill shall be recomputed for one-half (1/2) of the elapsed time since the last periodic test, but in no event to exceed 12 months. If however, the time for a periodic test has overrun to the extent that 1/2 of the time elapsed since the last periodic test exceeds 12 months, the refund shall be for the 12 months specified above, plus those months exceeding the periodic test period. The Kentucky Public Service Commission may not require a refund for the overrun period if failure to make the periodic test was due to causes beyond the control of the Association.

17. Right of Access

The customer must agree to permit the Association to lay, maintain, repair, or remove its water lines that are located on the customer's property with the right of ingress-and-egress over customer's property. The Association's duly authorized representative and/or other duly authorized employee of the State Health Department bearing proper credentials and identification shall be permitted to enter upon all properties for the purpose of inspection, observation, measurement, sampling and testing in accordance with the provisions of these Rules and Regulations.

18. Interruption of Service

The Association will use reasonable diligence in supplying water service, but shall not be liable for loss, injury, or damage to persons or property resulting from interruptions in service, excessive or inadequate water pressure. The Association does hereby explicitly state that its system is one for rural domestic consumption and that its allowance of connections to its system for fire protection whether by design or implication is only for such benefit as a customer may be able to derive from such connection.

The Association's system is not designed nor intended for us for fire protection in any manner whatsoever. Any customer using same for fire protection does so at their own full and sole responsibility.

The Association shall in no event be held responsible for any claim made against it by reason of breaking of any mains or service pipes or by reason of any other interruption of the supply of water caused by the failure of machinery or stoppage for necessary repairs. No person shall be entitled to damages nor for any portion of a payment refunded for any interruption of service which in the opinion of the Association may be deemed necessary.

RULES AND REGULATIONS

The Association shall make all reasonable efforts to eliminate interruption of service and when such interruption occur will endeavor to restore service with the shortest possible delay. When the service is interrupted all consumers affected by such interruption will be notified in advance whenever it is possible to do so.

19. Boilers and/or Pressure Vessels

Customers having boilers and/or pressure vessels receiving a supply of water from the Association must have a check valve on the water supply line and a vacuum valve on the stream line to prevent collapse in case the water supply from the Association is discontinued or interrupted for any reason, with or without notice. It is the responsibility of the customer to make provisions for protection of his equipment in case of interrupted or intermittent service.

20. Back Flow Preventors

Special Services and fire connections shall have back flow preventors of a type approved by the Association, installed at the cost of the customer or applicant for service.

21. Cross-Connection

Kentucky Department of Health, Kentucky Public Service commission and these Rules and Regulations do hereby explicitly state that cross-connection of the Association's system with any other source is hereby prohibited.

22. Relocation of Water Facility

Association may, at the request of a customer or other person relocate, change or modify existing Association owned equipment, mains or appurtenances. Same shall reimburse Association for such changes at actual cost including appropriate legal, administrative, engineering and overhead cost.

RULES AND REGULATIONS

23. Damage to Association's Water System

No person shall maliciously, willfully or negligently break, damage, destroy, uncover, deface, or tamper with any structure appurtenance, or equipment which is a part of the Association's water works. Any person violating this provision shall be subject to immediate arrest and/or discontinuation of water service and shall pay the cost of repairing or replacing the pipe or appurtenance.

Any person, firm or organization involved in work around or near the Association's distribution mains or appurtenances may request the Association to indicate location of same. However, indication by the Association of same does not relieve such person of complete responsibility and liability for any and all damages., liability and loss resulting from any act of such person or his assigns and/or agent.

24. Additional Load

The service connection supplied by the Association for each customer has a definite capacity, and no addition to the equipment or load connected thereto will be allowed except by consent of the Association. Failure to give notice of additions or changes in load, and to obtain the Association's consent for same, shall render the customer liable for any damage to any of the Association's lines or equipment caused by the additional or changed installation.

25. Notice of Trouble

The customer shall notify the Association immediately should the service be unsatisfactory for any reason, or should there be any defects, trouble or accidents affecting the supply of water.

26. Water Main Extensions

Any person desiring an extension to the Association system shall request in writing, in a form approved by the Association, for such extension. Any requested extension may be provided under one of the following options:

OPTION I - Association shall construct main extensions under the authority and procedure stipulated in Public Service Commission Regulation 807 KAR 5:066, Section 12; A copy is attached hereto as Appendix I any extension made under this option shall be subject to refund as outlined in said regulation.

OPTION II - Applicant may construct and donate to Association, the extension, as a contribution in aid of construction, meeting all Association's specifications and approval. Association reserves the right to stipulate applicable engineering, legal and administrative factors. Applicant shall pay all cost of Association as a contribution in aid of construction. Any extension made under this option shall not be eligible for refund.

The applicant or group of applicants shall have the right to elect the option by which said extension shall be made. In either case applicant must execute a contract and agreement for line extension for form approved by Association.

Extender applicant is hereby notified that regardless of option selected all other rules, rates and schedules of fees applicable to size and type of service requested shall be paid in addition to cost of extension.

RULES AND REGULATIONS

SCHEDULE OF SPECIAL SERVICE CHARGES

The following charges for special services shall be made:

1. Service Re-connection Charge. A charge of \$15.00 shall be made for all service re-connections made during regular working hours, except that there shall be no connection charges made for service on the original installation of facilities. If service is re-connected other than during regular working hours, the charge shall be \$20.00.
2. Meter Reading Re-check Charge. A charge of \$10.00 shall be made for a trip to re-check a meter reading when the customer requests the meter to be re-checked for a correct reading and the meter was not misread.
3. Meter Test. Upon request and payment of \$15.00 a customer may have his meter tested provided request by the customer is not more frequent than once each twelve months. If such test shows the meter to be more than two percent fast, a refund of the \$15.00 charge shall be made and the bill adjusted accordingly. If the periodic testing requirement of 807 KAR 5:066 (17) has not been met for the meter tested, no charge will be made for the test regardless of the results of the test.
4. PSC Meter Test Complaint. Any customer of the Association may request a meter test by written application to the Kentucky Public Service Commission.
5. Contribution in Aid of Construction. The established contribution fee is based on the size of the installed metering equipment as noted below:

5/8 inch meter-----	\$400.00
1 inch and larger meters-----	Actual Cost of of Installation

MONITORING OF CUSTOMER USAGE

At least once annually the Company will monitor the usage of each customer according to the following procedure:

1. The customer's annual usage for the most recent 12-month period will be compared with the annual usage for the 12 months immediately preceding that period.
2. If the annual usage for the two periods are substantially the same or if any difference is know to be attributed to unique circumstances, such as unusual weather conditions, common to all customers, no further review will be done.
3. If the annual usages differ by 3.0 percent or more and cannot be attributed to a readily identified common cause, the Company will compare the customer's monthly usage records for the 12-month period with the monthly usage for the same months of the preceding year.
4. If the cause for the usage deviation cannot be determined from analysis of the customer's meter reading and billing records, the Company will contact the customer by telephone or in writing to determine whether there have been changes such as different number of household members or work staff, additional or different appliances, changes in business volume, or know leaks in the customer's service line.
5. Where the deviation is not otherwise explained, the Company will test the customer's meter to determine whether it shows an average error greater than 2 percent fast or slow.
6. The Company will notify the customers of the investigation, its findings, and any refunds or backbilling in accordance with 807 KAR 5:006, Section 10(4) and (5).

In addition to the annual monitoring, the Company will immediately investigate usage deviations brought to its attention as a result of meter reading or billing processes or customer inquiry.

RULES AND REGULATIONS

REQUIREMENT'S FOR SERVICE LINE FROM THE METER TO YOUR RESIDENCE OR PLACE OF BUSINESS

1. Service lines should be at least thirty (30) inches in depth. The first six (6) inches of backfill should be minus of rock.
2. All service tubing will be at least 3/4" in size and at least 200 PSI. If a larger line needs to be run, the Water Association has the right to explain
3. the reason and purpose of such.
3. A cut off valve will be installed outside the meter vault for your use. The valve inside the vault is for Water Association Personnel only.
4. A Watts No. 7 Back Flow Preventer is to be placed on your line at any connection's for yard hydrant or service lines to other fixtures. These backflow preventers are to protect your hot water heater elements from burning out in case of a leak or shut off of the Association line's and to protect you from any contamination that may happen on your premises.
5. Brass fittings will be used when connecting to the meter, valves and regulator. The regular is an option that we leave up to you the customer. We are required to furnish 35 PSI at the meter connection, not to exceed 150 PSI. A Water employee can give you the approximate pressure at your location.
6. The service line shall be left open for the inspection of the Water Association and the Marshall County Plumbing Inspector.
7. Any deviation from these rules must be approved by the Water Association and the Plumbing Inspector of Marshall County.
8. After the proper inspection's have been approved the water meter will be placed in the meter vault.

DELINQUENT NOTICE

Our records indicate that your Water Bill is past due.

If you have paid your account for water, please notify us immediately as we have not recorded such payment.

Unless we hear from you within (5) days from the postmark date on this notice, we regret that it will be necessary for us to discontinue your water service.

Should it become necessary to disconnect your services or call at your premises there will be a 15.00 additional charge.

Please cooperate with us in this matter, and send in your payment promptly each month. We will not tolerate one continuous month in arrears.

An extra charge will be made if service is restored outside of regular working hours.

Sincerely yours,

CONTRACT FOR WATER SERVICES

THIS CONTRACT made and entered into this day of, 19
between
whose address is, party of the
FIRST PART, and
KENTUCKY, Party of the SECOND PART:

WITNESSETH THAT for and in consideration of the effort of the Water Assoc. Commissioners:
..... and
to secure financing of the construction of this Assoc., and in consideration of the other users signing
similar Contracts, the party or parties of the FIRST PART hereby agree to connect to the Waterworks
System.

The party of the FIRST PART hereby agrees to connect to the proposed Waterworks System of the
party of the SECOND PART. The tap on fee of the proposed system is \$. The party of the
FIRST PART will pay on demand \$.

ADVANCE DEPOSIT

..... CLASS C Connection: Farms, Residences and Business
..... CLASS D Connection: Special Application; Connect fee to be determined by the
Board of Commissioners.

NOTE: If more than one connection is wanted, the party of the FIRST PART shall indicate the number of
each type.

The Monthly Water Rates will be reasonable and approved by the Public Service Commission.
It is understood and agreed that the party of the SECOND PART reserves the right to determine
the size of service connection to be used to supply water to the party of the FIRST PART.

Meter will be used unless the party of the FIRST PART contracts for a large meter. A separate
meter must be installed for each residence.

It is understood and agreed that at such time as the System is constructed, the party of the SECOND
PART agrees to connect to said System, but in the event the party of the FIRST PART desires to
connect or pay the minimum monthly water bill prescribed by the Assoc. when due, the party of the
FIRST PART shall be liable for his connection fee, and if, thereafter, party of the FIRST PART desires
to connect to said system, the party of the FIRST PART shall be obliged to pay again the full connection
charge as then stipulated by the party of the SECOND PART. The FIRST PARTY agrees not to resell
or give away water purchased hereunder. If the system is constructed, but the property is not reached
by the District line, any payment shall be fully refunded.

The FIRST PART'S rights hereunder are subject to such further rules and regulations as the Assoc.
Commissioners may prescribe. The Assoc. may terminate service to any customer failing to pay a
water bill when thirty (30) days past due or for violating a Assoc. regulation.

Deposits to insure payment of monthly water bills and penalties on delinquent water accounts shall
be as the party of the SECOND PART may hereafter prescribe.

The signing of this CONTRACT by a Commissioner of the Water Assoc. is by authority of the Board
of Commissioners, and said execution thereof is in his official capacity only, and said Commissioners
shall not be personally liable on this Contract.

The party of the FIRST PART agrees to permit the Assoc. to lay, maintain, repair, remove and
disconnect a service line and meter, and read meters at a point on customer's property to be designated
by the Assoc. for each signed connection with right of ingress and egress for these purposes over
customer's property.

The party of the FIRST PART agrees to install and maintain at his own expense a service line which
shall begin at property line and extend to the dwelling or place of business and other portion of his premises.

APPENDIX I
Rules and Regulations of the
Jonathan Creek Water Association

CHAPTER 5

807 KAR 5:066. Water

Section 12. Extension of Service.

(1) Normal Extension:

An extension of fifty (50) feet or less shall be made by a utility to its existing distribution main without charge for a prospective customer who shall apply for and contract to use service for one (1) year or more and provides a guarantee for such service.

(2) Other Extensions:

(a) When an extension of the utility's main to serve an applicant or group of applicants amounts to more than fifty (50) feet per applicant, the utility may if not inconsistent with its filed tariff require the total cost of the excessive footage over fifty (50) feet per customer to be deposited with the utility by the applicant or the applicants, based on the average estimated cost per foot of the total extension.

(b) Each customer receiving service under such extension will be reimbursed under the following plan: Each year for a period of not less than ten (10) years, which for the purpose of this rule shall be the refund period, the utility shall refund to the customer or customers who paid for the excessive footage the cost of fifty (50) feet of the extension in place for each additional customer connected during the year whose service line is directly

connected to the extension installed and not to extensions or laterals therefrom, but in no case shall the total amount refunded exceed the amount paid the utility. After the end of the refund period, no refund will be required to be made.

(3) An applicant desiring an extension to a proposed real estate subdivision may be required to pay the entire cost of the extension. Each year for a period of not less than ten (10) years the utility shall refund to the applicant who paid for the extension a sum equal to the cost of fifty (50) feet of the extension installed for each additional customer connected during the year but in no case shall the total amount refunded exceed the amount paid to the utility. After the end of the refund period from the completion of the extension, no refund will be required to be made.

(4) Nothing contained herein shall be construed to prohibit the utility from making extensions under different arrangements provided such arrangements have been approved by the Commission.

(5) Nothing contained herein shall be construed as to prohibit a utility from making at its expense greater extensions than herein prescribed, should its judgment so dictate, provided like free extensions are made to other customers under similar conditions.

(6) Upon complaint to and investigation by the commission, a utility may be required to construct extensions greater than fifty (50) feet upon a finding by the commission that such extension is reasonable.

WATER SHORTAGE RESPONSE PLAN

JONATHAN CREEK WATER ASSOCIATION

Section 1. Purpose. The purpose of this Plan is to provide for the declaration of official phases of water supply shortages and the implementation of voluntary and mandatory water conservation measures throughout the Association in the event a shortage is declared.

Section 2. Definitions. These terms are applicable only for this Plan unless specifically noted.

- (a) "Customer" shall mean any person or entity using water for any purpose from the Association water distribution system and for which either a regular charge is made or, in the case of bulk sales, a cash charge is made at the site of delivery.
- (b) "Raw Water Supplies" shall mean all water potentially available to persons in the Association.
- (c) "Treated Water" shall mean water that has been introduced by the Association into its water distribution system, including water offered for sale. Uses of treated water are classified as follows:

Essential Water uses (Class 1):

The following uses of water, listed by site or user type, are essential.

Domestic:

- Water necessary to sustain human life and the lives of domestic pets, and to maintain minimum standards of hygiene and sanitation.

Health Care Facilities:

- Patient care and rehabilitation, including related filling and operation of swimming pools.

Water Hauling:

- Sales of domestic use where not reasonably available elsewhere.

Public Use:

- Fire Fighting,
- Health and public protection purposes, if specifically approved health officials.

Socially or Economically Important Uses (Class 2):

The following uses of water, listed by site or user type, are socially or economically important.

Domestic:

- Personal, in-house water use including kitchen, bathroom and laundry.

RULES AND REGULATIONS

"ALERT" shall mean the raw or treated water supplies are consistently below seasonal averages, and if they continue to decline, may not be adequate to meet normal needs.

"EMERGENCY" shall mean that raw or treated water supplies are below the level necessary to meet normal needs and that serious shortages exist in the area.

(h) "RATIONING" shall mean that procedures must be established to provide for the equitable distribution of critically-limited raw or treated water supplies, in order to balance demand and limited available supplies, and to assure that sufficient water is available to preserve public health and safety.

Section 3. Applicability. The provisions of this Plan shall apply to all retail and wholesale customers of the Association. When implemented, this Plan becomes Jonathan Creek Water Association Water Shortage Response Regulation.

Section 4. Entitlements. Entitlements shall be established for each customer by adjusting the base entitlement to reflect any known change in usage pattern.

Section 5. Determination of Water Shortage. Water supply and usage shall be monitored on a continuous basis. Unrestricted demand shall be projected from past records and adjusted for changes such as new development and weather conditions on a regular basis. Water shortages generally occur for two reasons, a reduction in available supplies or a system failure. Each of these has a distinct influence on the nature and duration of the conservation program implemented. Official declaration of a water shortage stage and implementation of the measures necessary to curtail water use shall be approved by the Commissioners.

RULES AND REGULATIONS

Section 6. Term of Water Shortage Declaration. Any water shortage declaration shall remain in effect until water supplies of service conditions have returned to normal. A final determination as to terminating a water shortage declaration shall be made by the Commissioners of Jonathan Creek Water Association.

Section 7. Water Shortage Stage, Conservation and Curtailment Measures.

A. Advisory Stage:

(1) Criteria: A water advisory shall be declared when the amount of treated or raw water available for treatment is projected to be up to 20% below demand, or there are periods of low water system failure or inadequacies or the State Division of Water issues a Water Shortage Watch which includes the areas from which the Association draws water.

(2) Conservation and Curtailment Measures:

(a) Declare a Water Shortage Advisory.

(b) Provide proper notice to all customers and to all local news media.

(c) Eliminate all water leaks.

(d) Request voluntary conservation of all non-essential (Class 3 water use.

(e) Request wholesale customers also issue request for voluntary conservation by their customers of all non-essential (Class 3) water use.

B. Alert Stage:

(1) Criteria: A water alert shall be declared when the amount of treated water available is projected to be up to 30% below demand, or raw water supplies are consistently below seasonal averages and if they continue to decline, may not be adequate to meet normal needs.

(2) Conservation and Curtailment Measures:

- (a) Declare a Water Shortage Alert.
- (b) Provide proper notice to all customers and to all local news media.
- (c) Eliminate all water leaks.
- (d) Prohibit all non-essential (Class 3) water uses.
- (e) Curtail entitlements to all customers by the same percentage as the projected shortage.
- (f) Begin billing all customers water usage in excess of curtailed entitlement at the normal rate plus and excess usage charge of \$5.00 per 1,000 gallons.

C. Emergency Stage:

(1) Criteria: A Water Emergency shall be declared when the amount of treated water available is projected to be up to 40% below demand, or there are periods of no water in one or more areas of the distribution system due to low water supply or raw water supplies below the level necessary to meet normal needs.

- (b) The notice will inform the customer of his or her right to appeal by requesting a hearing before the utility's designee. If a hearing is requested by the customer, he or she shall be given full opportunity to be heard before termination. The governing body shall make findings of fact and decide whether service should continue or terminate.
- (c) Any customer whose water service is terminated for violating provisions of this water curtailment plan shall be subject to the approved reconnection fee prior to reconnection of service.
- (d) The excess usage charge billing provisions of this Plan shall not be put in effect if a county or city ordinance containing penalty provisions is in effect to assist enforcement of this Plan.

Section 9. Request for Exception.

- (a) Exception to water use restrictions: If compliance with any curtailment measure authorized herein would cause a customer to bear extraordinary hardship, that individual or entity may apply to the Association for an exception. For these purposes, "Extraordinary hardship" shall be defined as a condition which may threaten health and safety, or cause property or economic losses, each of which must be shown to be substantially more severe than the sacrifices borne by other users. If extraordinary hardship is found to exist, then an exception shall be granted and a written waiver issued to the customer. If an appeal is made, water service shall be continued until a decision is announced. Any person aggrieved by the decision may file a complaint with the Public Service Commission.
