DEPOSITS

PURSUANT TO 807 KAR 5:011,
SECTION 9 (1)

BY: [Signature]
PUBLIC SERVICE COMMISSION MANAGER

C
8/29/1996

1. Requirement of Deposits.

The Waco Water District (hereinafter referred to as the "Company") may require from any customer a minimum cash deposit or other guarantee to secure payment of bills.

2. Waiver of Deposits.

Deposits may be waived at the discretion of the Company upon a customer's showing of satisfactory credit or payment history.

3. Deposits as a Condition of Service.

Except as provided in 807 KAR 5:006, Section 15, customer service may be refused or discontinued for failure to pay the requested deposit.

4. Receipt of Deposit.

The Company shall issue to every customer from whom a deposit is collected a receipt of deposit. The receipt shall show the name of the customer, location of the service or a customer account number, date, and amount of deposit.

5. Subsequent Deposit Requirement.

If a deposit has been waived or has been returned, and the customer fails to maintain a satisfactory payment record as defined in the Company's currently effective tariff, the Company may require that a deposit be made in the amount calculated in accordance with the provisions hereinafter set forth. No additional or subsequent deposit shall be required of residential customers whose payment record is satisfactory, unless the customer's classification of service changes.

6. Return or Recalculation of Deposits.

If the customer has established a satisfactory payment record for eighteen months, the Company shall either return the deposit to the customer or shall notify customers in writing that, at the customer's request, the deposit will be recalculated every eighteen months based upon actual usage of the customer. The notice of deposit recalculation shall be included either on the customer's application for service or on the receipt of deposit, or may be included annually with or on customer bills. The notice of deposit recalculations shall state that if the deposit on account differs by more than \$10.00 for residential customers, or by more than 10% for non-residential customers, from the deposit calculated on actual usage, then the Company shall refund any over-collection and may collect any underpayment. Refunds shall be made either by check or by credit to the customer's bill, except that the Company shall not be required to refund any excess deposit if the customer's bill is delinquent at the time of recalculation.

7. Interest on Deposits.

Interest shall accrue on all deposits at the rate prescribed by law as set forth in KRS 74.050 beginning on the date of deposit. Interest accrued shall be refunded to the customer or credited to the customer's bill on an annual basis, except that the Company shall not be required to refund or credit interest on deposits if the customer's bill is delinquent on the anniversary of the deposit date. Upon termination of service, the deposit, any principal amounts, and interest earned and owing shall be credited to the final bill with any remainder refunded to the customer.

8. Calculation of Deposits.

(a) Customer Classification.

All customers of the Company shall be classified either as a commercial or a residential customer. A "residential customer" for purposes of this tariff shall be defined to include only a customer whose service to his particular place of residence, whether such residence be a single family home, mobile home, or individual dwelling unit within an apartment building, duplex, or the like, is metered by a single usage meter servicing only such customer's individual dwelling unit. Any customer not within the above definition of a residential customer shall be deemed to be a "commercial customer".

(b) Residential Customer Deposits.

All residential customers shall pay equal deposits in the amount of \$40.00. This amount does not exceed the amount of residential customers served by the Company and is greater than 2/12 of the average annual bills of residential customers.

JAN 1 1994

BY: [Signature]
PUBLIC SERVICE COMMISSION MANAGER

(c) Commercial Customer Deposits.

All commercial customers shall pay a deposit based upon actual usage of the customer at the same or similar premises for the most recent twelve month period preceding service connection, if such information is available. If usage information is not available, the deposit will be based upon the average bills of similar customers and premises in the system. The deposit amount shall not exceed 2/12 of the customer's actual or estimated annual bill.

RULES AND REGULATIONS

These rules and regulations are intended to supplement all bond resolutions, the rate resolutions and by-laws which have been enacted by the district and which are incorporated by reference.

1. Meters will be read monthly between the 15th and the 24th of each month.
2. Bills will be dated and mailed on the first of each month. Said bills will state that they are to be paid within 15 days. However, provisions contained in the rate resolution as to penalties; cut-offs and meter deposits will apply, and district may terminate service for failure to pay water bill. District shall give written notice of intent to terminate service at least forty-eight (48) hours prior to termination. Said termination of service shall not be effective before twenty (20) days after the mailing of the original bill.
3. All meters will be located on district mains and in the absence of C special permission from district on the property to be served. 8/29/1996
4. Complaints may be made to the operator of the system and his decisions may be appealed to the district on the property to be served.
5. The principal place of business of the district will be Waco, Kentucky.
6. Water bills may be paid c/o Manager Waco Water District.
7. The district reserves the right to discontinue services for non-compliance with the rules and regulations, for fraudulent or illegal use or for non-payment of bills. When a customer refuses or neglects to provide reasonable access to the premises for the purpose of installation operation, meter reading, maintenance, or removal of district property the district may discontinue or refuse service providing the requirements of 807 K.A.R. 5:006 E section 11, sub-section 3 is complied with.
8. The district shall discontinue services upon discovery of a dangerous condition upon customer's premises.
9. Applicant desiring an extension of ordinary service of less than 50' shall be made without charge providing that prospective customer applies for and contracts to use said service for one (1) year or more, and provides a guarantee ~~for such services.~~

Any extension over 50' as stated above shall be paid by the customer based on utilities averaged estimated costs per foot of total extension. The customer receiving services under such extension shall be reimbursed according to 807 KAR 5:066E Section 12.

Extensions to a proposed real estate subdivision shall be paid by applicant desiring such extension. Refunds to said applicant shall be made according to 807 KAR 5:066E (3).

10. The customer cannot give away or resell water without the written consent of the district.

11. Each house must be metered separately, unless the written consent of the district to do otherwise is obtained.

12. Regulatory provisions of the rate resolutions, bylaws, if any, and bond finances are made a part of this rate resolution.

13. No residence shall be served through a Field Connection, if Field Connections are authorized by the rate tariff.

C 8/29/PPG

~~14. The district does not guarantee the working condition of any fire hydrant, other than those owned by the district.~~
14. The district will provide maintenance for fire hydrants only if they are owned by the district. The hydrant is installed merely as a convenience for the purpose of serving as a re-loading station for fire fighting equipment. No one shall use any fire hydrant for any purpose other than fire fighting use.

15. If customers service has been terminated due to failure to pay bill, or at customers request, a reconnection fee of \$10.00 will be charged when service is to be turned back on.

16. A deposit may be required of any customer. This deposit shall be two (2) months estimated billing.

17. Meters are tested with a Sealed Register Portable Test Meter. Meters are checked if fluctuation in usage is noted or at customers request.

18. These rules may be amended by the district commission, subject to approval by the URC.

WATER SHORTAGE RESPONSE ORDINANCE

ORDINANCE No. 86-39

An ordinance of the City of Richmond, Kentucky authorizing the declaration of water shortage; establishing procedures and measures for the essential conservation of water resources; authorizing the issuance of administrative regulations; and prescribing certain penalties.

Be It Enacted by the Richmond City Commission:

Section 1. Purpose. The purpose of this ordinance is to provide for the declaration of official phases of water supply shortage situations and the implementation of voluntary and mandatory water conservation measures throughout the City in the event a shortage is declared. Nothing in this ordinance shall be construed to interfere with common law riparian or statutory water rights.

Section 2. Definitions.

C
8/29/1996

(a) "Advisory," as the term is used in this ordinance, shall mean that conditions exist which indicate the potential for serious water supply shortages.

(b) "Alert," as the term is used in this ordinance, shall mean that raw water supplies (i.e., streamflow, reservoir levels or groundwater levels) are consistently below seasonal averages, and if they continue to decline, may not be adequate to meet normal needs.

(d) "Any Water," as the term is used in this ordinance, shall mean any type of water, including fresh water, brackish water, wastewater, or reclaimed water.

(e) "Brackish Water," as the term is used in this ordinance, shall mean water containing more than 1000 parts per million of dissolved salts.

(f) "Customer," as the term is used in this ordinance, shall mean any person using water for any purpose from the City's water distribution system and for which either a regular charge is made or, in the case of bulk sales, a cash charge is made at the site of de

(g) "Emergency," as the term is used in this ordinance shall mean that water supplies are below the level necessary to meet normal needs and that serious shortages exist in the area.

PUBLIC SERVICE COMMISSION
OF KENTUCKY
EFFECTIVE
NOV 22 1992

PURSUANT TO 807 KAR 5:011.
SECTION 9 (1)

BY: George H. Miller
PUBLIC SERVICE COMMISSION MANAGER

(h) "Excess Use," as the term is used in this ordinance, shall mean the usage of water by a customer in excess of the water allotment provided under the water rationing provisions of this ordinance for that customer, over any applicable period.

(i) "Fresh Water," as the term is used in this ordinance, shall mean water withdrawn from surface or groundwater which has not been previously used, other than brackish water.

(j) "Non-Residential Customer," as the term is used in this ordinance, shall mean commercial, industrial, institutional, public and all other such users, with the exception of hospitals and health care facilities.

(k) "Rationing," as the term is used in this ordinance, shall mean procedures established to provide for the equitable distribution of critically-limited water supplies, in order to balance demand and limited available supplies and to assure that sufficient water is available to preserve public health and safety.

(l) "Reclaimed Water," as the term is used in this ordinance, shall mean wastewater which has been treated to allow reuse.

(m) "Residential Customer," as the term is used in this ordinance, shall mean any customer who receives water service for a single or multi-family dwelling unit. The term residential customer does not include educational or other institutions, hotels, motels, or similar commercial establishments.

(n) "Service Interruption," as the term is used in this ordinance, shall mean the temporary suspension of water supply, or reduction of pressure below that required for adequate supply, to any customer, portion of a water supply, or entire system.

(o) "Waste of Water," as the term is used in this ordinance, includes, but is not limited to (1) permitting water to escape down a gutter, ditch, or other surface drain, or (2) failure to repair a controllable leak of water due to defective plumbing.

(p) "Wastewater," as the term is used in this ordinance, shall mean water which has been previously used for industrial, municipal, domestic, or other purpose, and has not been returned to the surface or groundwater source.

(q) "Water," as the term is used in this ordinance, shall mean water available to the City of Richmond for treatment by virtue of its water rights or withdrawal permit or any treated water introduced into its water distribution system, including water offered for sale.

(r) "Water Use Classes," as the term is used in this ordinance, shall be established as follows:

Class 1: Essential Water Users

Domestic Use:

- water necessary to sustain human life and the lives of domestic pets, and to maintain minimum standards of hygiene and sanitation.

Health Care Facilities:

- patient care and rehabilitation.

Public Use:

- firefighting,
- health and public protection purposes, if specifically approved by health officials and the municipal governing body.

C
8/29/1996

Class 2: Socially or Economically Important Uses of Water

All Domestic Uses Other Than Those Included in Classes 1 and 3:

- home water use including kitchen, bathroom and laundry use.

Outdoor Non-Commercial Watering (public or private):

- agricultural irrigation for the production of food and fiber or the maintenance of livestock,
- watering by commercial nurseries at a minimum level necessary to maintain stock, to the extent that sources of water other than fresh water are not available or feasible to use,
- water use by arboretums and public gardens of national, state, or regional significance where necessary to preserve specimens, to the extent that sources of water other than fresh water are not available or feasible to use,
- use of fresh water at a minimum rate necessary to implement revegetation following earth moving, where such revegetation is required pursuant to an erosion and sedimentation control plan adopted pursuant to law or regulation, to the extent that sources of water other than fresh water are not available or feasible to use,
- watering of golf course greens.

Filling and Operation of Swimming Pools:

- residential pools which serve more than 25 dwelling units,
- pools used by health care facilities for patient care and rehabilitation,
- municipal pools.

EFFECTIVE

NOV 22 1992

PURSUANT TO 807 KAR 5:011.

SECTION 9 (1)

BY: *Cheryl Walker*
PUBLIC SERVICE COMMISSION MANAGER

Section 3. Declaration of a Water Shortage Advisory. Whenever the governing body of the City finds that a potential shortage of water supply is indicated, it shall be empowered to declare by order that a Water Shortage Advisory exists, and that the superintendent of the Richmond Water, Gas & Sewerage Works shall, on a daily basis, monitor the supply and demands upon that supply. In addition, the mayor (or his/her agent) is authorized to call upon all water customers to employ voluntary water conservation measures (see Addendum) to limit water use (especially Class 3 uses) and eliminate the waste of water. This order shall be published in the official city newspaper, and may be publicized through the general news media or any other appropriate method for making such orders public.

Section 4. Declaration of a Water Shortage Alert. Whenever the governing body of the City finds raw water supplies (i.e., streamflow, reservoir levels or groundwater levels) to be consistently below seasonal averages, and if they continue to decline and may not be adequate to meet normal needs, it shall be empowered to declare by order that a Water Shortage Alert exists. The City shall continue to encourage voluntary water conservation measures defined under the Advisory declaration, and further shall impose a ban on all Class 3 water uses for the duration of the shortage until it is declared to have ended by resolution of the governing body. Declaration of these orders shall follow the guidelines for declaration in Section 3 of this ordinance.

Section 5. Declaration of a Water Shortage Emergency. Whenever the governing body of the City finds that raw water supplies are below the level necessary to meet normal needs and that serious shortages exist, it shall be empowered to declare that a Water Shortage Emergency exists. Class 1, Essential Uses shall be identified, in specific, as targets for voluntary conservation initiatives. Also, all Class 2, Socially or Economically Important Uses shall be banned in addition to the Class 3, Non-Essential Uses. These restrictions shall be considered ongoing until the emergency is declared ended by order of the governing body. Declaration of these orders shall follow the guidelines for declaration in Section 3 of this ordinance.

Section 6. Declaration of Rationing. Whenever the governing body of the City finds a need to provide for the equitable distribution of critically-limited water supplies, in order to balance demand and limited available supplies, and to assure that sufficient water is available to preserve public health and safety, it shall be empowered to declare by order the adoption of mandatory rationing.

Section 6a. Objectives of Rationing.

- (a) It is imperative that water customers achieve an immediate further reduction in water in order to extend existing water supplies and, at the same time, assure that sufficient water is available to preserve the public health and sanitation and to provide fire protection service.

PUBLIC SERVICE COMMISSION
OF KENTUCKY
EFFECTIVE

NOV 22 1992

PURSUANT TO 807 KAR 5:011,
SECTION 9 (1)

BY: Sharon Walker
PUBLIC SERVICE COMMISSION MANAGER

- (b) The immediate further reduction in water usage is another step along a continuum of responses to the present water supply shortage. Should shortages continue, further reductions in usage may be required. It must be emphasized that the additional usage reduction in the rationed area is a valid and attainable goal reflective of the conditions which currently exist.
- (c) The plan provides for equitable reductions in water usage and for equal sacrifice on the part of each water customer. The success of this ordinance depends on the cooperation of all water customers in the emergency area.

Section 6b. Water Use Rationing for Residential Users.

C
8/29/1996

(a) Metered Residential Water Customers and Allotments:

- (1) The number of permanent residents in each dwelling unit (household) will determine the amount of water that each household will be allowed.
- (2) Each dwelling unit (household) shall be allotted 40 gallons per day for each resident of the household. Households with only one permanent resident will have a daily allotment of 55 gallons.
- (3) Residential water customers are required to provide city and utility personnel with reasonable access to read meters as necessary to enforce this rationing declaration. Where access is not readily available, all reasonable efforts to contact customers in order to arrange for access to read meters shall be made. In the event a water customer does not allow entry to read the meter after reasonable efforts to arrange for such access the dwelling unit (household) allotment will be reduced to 55 gallons per day.
- (4) (i) Where the residential water allotment provided under this section would create an extraordinary hardship, as in the case of special health-related requirements, the water customer may apply to the city for an exemption or variance from these requirements. If it is found that the allotment provided in this section would impose an extraordinary hardship, a revised allotment for the particular customer may be established.
- (ii) Any person aggrieved by a decision relating to such an exemption or variance rendered by a public utility or municipal corporation, may file a complaint with the City's Governing Body in accordance with the City's administrative procedures.

PUBLIC SERVICE COMMISSION
OF KENTUCKY
EFFECTIVE

NOV 22 1992

PURSUANT TO 807 KAR 5:011.
SECTION 9 (1)

BY: [Signature]
PUBLIC SERVICE COMMISSION MANAGER

(iii) In the case of rural water districts, appeals should be filed with the state's Public Service Commission.

(b) Non-Metered Residential Water Customers and Allotments:

- (1) In order to effectively implement and monitor the residential water conservation effort, a water allotment shall be established for the entire water system based on the lesser of 40 gallons per day per capita served or 50 percent of the water used by the entire system during March 1985.
- (2) The city and the utility will establish a communication system with the customers through public media to inform them of the requirements of the water rationing provisions of this ordinance, possible conservation measures that customers may employ, the system allotment, and a regularly scheduled report of whether the usage was within the allotment.

(c) Metered and Non-Metered Residential Customers of the Same Water Supply System.

C
12/9/1996

Where a water supply system serves both metered and non-metered residential customers, the allotments and procedures provided under both subsections (a) and (b) shall be applied, as appropriate.

(d) Suggested Conservation Measures.
See Addendum.

Section 6c. Water Use Rationing for Non-Residential Water Users.

- (a) Non-residential customers include commercial, industrial, institutional, public and all other such users, with the exception of hospitals and health care facilities.
- (b) Non-residential water customers shall further reduce their water usage to the lesser of 40 gallons per person per day or to 50 percent of use levels during March 1985, or the last recorded use level if no meter readings record the rate of the customers' use on March, 1985.
- (c) It is the primary responsibility of each non-residential customer to meet its mandated water use reduction in whatever manner possible.
- (d) The City may establish a water allotment for each non-residential water customer, based upon a required further reduction of water usage from the allotment established by reference to section 6c (b) above.

PUBLIC SERVICE COMMISSION
OF KENTUCKY
EFFECTIVE

NOV 22 1992
PURSUANT TO 807 KAR 5:011.
SECTION 9 (1)
BY: Gregg Sallee
PUBLIC SERVICE COMMISSION MANAGER

- (e) Each non-residential water user shall provide access to City personnel for purposes of meter reading and monitoring of compliance with this ordinance. All reasonable efforts will be made to contact customers to arrange for access.
- (f) (1) If the mandated further reduction in water usage cannot be obtained without imposing extraordinary hardships which threatens health and safety, the non-residential customer may apply to the city for a variance. For these purposes "extraordinary hardship" means a permanent damage to property or economic loss which is substantially more severe than the sacrifices borne by other water users subject to this water rationing ordinance. If the further reduction would cause an extraordinary hardship or threaten health or safety, a variance may be granted and a revised water use reduction requirement for the particular customer may be established.
- (2) Any person aggrieved by a decision relating to such a variance rendered by a public utility or municipal corporation may file a complaint with the City's governing body in accordance with the City's administrative procedures.
- (3) In the case of rural water districts, appeals should be filed with the state's Public Service Commission.
- (g) The City will provide each non-residential customer with suggested means to reduce usage levels.
See Addendum.

8/29/1996

ADDENDUM

Direct Residential Users to Adopt the Following Conservation Measures:

- (1) Locate and repair all leaks in faucets, toilets, and water-using appliances.
- (2) Adjust all water-using appliances to use the minimum amount of water in order to achieve the appliance's purpose.
- (3) Use automatic washing machines and dishwashers only with full loads.
- (4) Take shorter showers and shallower baths.
- (5) Turn off faucets while brushing teeth, etc.
- (6) Turn off shower while soaping up.
- (7) Set temperature settings of hot water at least 10 degrees lower to discourage lengthy shower-taking.
- (8) Where plumbing fixtures can accommodate them, install flow restricting or other water-saving devices.
- (9) Reduce the number of toilet flushes per day. Each flush uses about 5 gallons. Reduce water used per flush by installing toilet tank displacement inserts.
- (10) Use sink and tub stoppers to avoid wasting water.
- (11) Keep a bottle of chilled water in the refrigerator.

PURSUANT TO 807 KAR 5:011,
SECTION 9 (1)
BY: Glenn Heller
PUBLIC SERVICE COMMISSION MANAGER

Direct Non-Residential Users to Adopt the Following Conservation Measures:

- (1) Identify and repair all leaky fixtures and water-using equipment. Give special attention to equipment connected directly to water lines, such as processing machines, steam-using machines, washing machines, water-cooled air conditioners, and furnaces.
- (2) Assure that valves and solenoids that control water flows are shut off completely when the water-using cycle is not engaged.
- (3) Adjust water-using equipment to use the minimum amount of water required to achieve its stated purpose.

Section 6e. Enforcement of Water Rationing.

- (a) The City or its water utility will have primary responsibility for monitoring of compliance with the water rationing ordinance.
- (b) The following provisions shall govern the implementations of temporary service interruptions:

C
8/29/1996

- (1) In order to effectuate compliance with this ordinance, the City is hereby authorized and required to plan and implement temporary service interruptions to all or part of its water supply system, as may be deemed appropriate, when any and/or all of the following conditions are determined to exist:
 - (i) The mandated reduction in system-wide usage has not been achieved, and/or
 - (ii) The mandated reduction in system-wide water usage has been achieved, but has failed to have a significant impact in extending limited water supplies, and/or
 - (iii) Temporary service interruptions are necessary in order to further extend limited and/or dwindling water supplies.
- (2) In the event it is determined that temporary service interruptions are necessary, the City shall notify its customers through the public media (newspapers, radio, and television), at least one day prior to the temporary service interruptions, that a planned, temporary service interruption is to be imposed.

Such notice shall:

- (i) State the day or days when the planned, temporary service interruptions will occur;
- (ii) State the time(s) when such planned service interruptions will commence, and the time(s) such interruptions will cease;

continuation shall be issued to the customer.

- (e) For the second or subsequent excess use, service to the customer may be interrupted or shut off for a period not to exceed 48 hours, or, if the customer provides access, a flow restrictor may be installed in the customer's service line for the duration of the emergency. The cost incurred to interrupt or shut off and reinstate service, or to install and remove a flow restrictor, shall be assessed to the water customer.
- (f) Meter reading schedules are authorized to be altered to assure adequate monitoring of compliance with this ordinance.
- (g) Any customer or other person aggrieved by a decision or action imposing an excess-use charge or other remedy for non-compliance with the requirements of this ordinance may proceed in accordance with the following provisions:
 - (1) The City shall adopt procedures which provide an opportunity for the customer or aggrieved party to rebut the finding of a violation, or provide evidence of circumstances beyond the customer's control which resulted in the violation. A record of evidence regarding disputed violations shall be kept, and a written notice of the City's final decision and action in such cases shall be provided to the customer or aggrieved party.
 - (2) Any person aggrieved by the final decision or action of a public utility or municipal corporation may file a complaint in accordance with applicable Kentucky law.

C
8/28/1996

Section 7. Shortage Water Rates. Upon the declaration of a water supply shortage as provided in Section 3-6, the governing body of the City shall have the power to adopt shortage water rates by ordinance designed to conserve water supplies. Such rates may provide for, but not be limited to: (a) higher charges per unit for increasing usage (increase block rates); (b) uniform charges for water usage per unit of specified level (excess demand surcharge), or (d) discounts for conserving water beyond specified levels.

Section 8. Regulations. During the effective period of any water supply shortage as provided for in Section 3-6, the Public Service Commission of Kentucky the Richmond Water, Gas and Sewerage Works is empowered to enforce such regulations as may be necessary to carry out the provisions of this ordinance, any water supply shortage resolution, or water shortage rate ordinance. Such regulations shall be subject to the approval of the governing body at its next regular or emergency meeting.

NOV 22 1992

Section 9. Penalties. Any person who violates any provision of this ordinance, who fails to carry out the duties and responsibilities

PURSUANT TO 807 KAR 5.0
SECTION 9 (1)

PUBLIC SERVICE COMMISSION

- (iii) State whether the planned, temporary service interruptions are to be imposed on the entire system or part thereof, and, if only part(s) of the system will experience planned, temporary service interruptions, identify geographic boundaries within which such interruptions will occur, and
- (iv) Advise all customers within the areas affected by planned, temporary service interruptions how to treat any water received from the system, for human consumption, during the period(s) of such interruptions and for such additional time as may be necessary until full pressure is restored to the system.
- (3) If a planned, temporary service interruption is imposed as authorized and required by this ordinance, it must provide for the continued delivery of water to health care facilities within the area(s) affected by such interruptions, by means of any adequate, alternative delivery measures that may be necessary.
- (4) If a planned, temporary service interruption is implemented, it must make provision, by any means possible, for the continued delivery of such water as may be necessary for the proper operation of sewage collection, treatment, and disposal systems and facilities.

imposed by this ordinance, or who impedes or interferes with any action undertaken or ordered pursuant to this ordinance shall be subject to the following penalties.

- (a) If the mayor, city manager, water superintendent, or other city official or officials charged with implementation and enforcement of this ordinance or a water supply shortage resolution learns of any violation of any water use restriction imposed pursuant to this ordinance, a written notice of the violation shall be affixed to the property where the violation occurred and mailed to the customer of record and to any other person known to the City who is responsible for the violation or its correction. Said notice shall describe the violation and order that it be corrected, cured, or abated immediately or within such specified time as the City determines is reasonable under the circumstances. If the order is not complied with, the City may terminate water service to the customer subject to the following procedures
- (1) The City shall give the customer notice by mail that, due to the violation, water services will be discontinued within a specified time and that the customer will have the opportunity to appeal the termination by requesting a hearing scheduled before the City governing body or a City official designated as a hearing officer by the governing body. Reasonable effort will be made to make personal contact with the customer.
 - (2) If such a hearing is requested by the customer charged with the violation, he or she shall be given a full opportunity to be heard before termination is ordered; and
 - (3) The governing body or hearing officer shall make findings of fact and order whether service should continue or be terminated.
