AVAILABILITY

Applicable to non-residential customers willing to contract for demands of 500 KW or greater with a minimum contracted monthly energy (kwh) of 425 hours per kw of contract demand. To determine the minimum contracted monthly energy usage (kwh), the 425 hours is multiplied by the contract demand. The electric power and energy furnished hereunder shall be separately metered for each point of delivery.

- \$ 840.00 Facility Charge
- \$ 7.17 Demand Charge per kW of Contract Demand
- \$ 9.98 Demand Charge per kW for Billing Demand in Excess of Contract Demand

Excess demand occurs when the consumer's highest demand, during the current month, exceeds the contract demand. The consumer's peak demand is its highest average rate at which energy is used during any fifteen-minute interval, in the below listed hours for each month, and adjusted for power factor as provided herein:

Months Hours Applicable for Demand Billing -EPT
May through September 10:00 a.m. to 10:00 p.m.

MINIMUM MONTHLY CHARGE

The minimum monthly charge shall not be less than the sum of (a) through (d) below:

- a. Facility Charge
- b. The product of the contract demand multiplied by the contract demand charge, plus
- c. The product of the contract demand multiplied by 425 hours and the energy charge per KWH.
- d. Any charges arising from contractual provisions that reflect special facilities requirements.

POWER FACTOR ADJUSTMENT

The customer agrees to maintain a unity power factor as nearly as practicable at each delivery point. When power factor measurements indicate that the power factor at the time of the maximum demand is less than the minimum required wholesale power factor, the demand for billing purposes shall be demand as indicated or recorded, multiplied by the minimum required wholesale power factor and divided by the measured power factor.

FUEL ADJUSTMENT CLAUSE

All rates are applicable to the fuel adjustment clause and may be increased or decreased by an amount per kWh equal to fuel adjustment amount per kWh as billed by the wholesale power supplier plus an allowance for line losses. The allowance for line losses will not exceed 10% and is based on a twelve-month moving average of such losses. This clause is only applicable to actual energy usage. This fuel clause is subject to all other applicable provisions as set forth in 807 KAR 5:056.
