JACKSON ENERGY COOPERATIVE CORPORATION
SCHEDULE DSM - 3
COMMERCIAL & INDUSTRIAL ADVANCED LIGHTING PROGRAM

Availability

Available to the consumers for commercial and industrial uses.

Purpose

The Commercial & Industrial Advanced Lighting Program is an energy efficiency program that encourages commercial and industrial customers to install high efficiency lamps and ballasts in their facilities.

Eligibility

To qualify for the Commercial & Industrial Advanced Lighting Program the business must have been in operation for at least two years prior to January 1, 2011, and be current on its power bill payment to the Cooperative. No empty buildings, inactive warehouses or inactive storage areas shall qualify. The business must be open or have its normal lighting load on for at least 50 hours per week. Retrofits of parking lot lighting, provided on photocell control, are eligible.

Terms and Conditions

The Cooperative will provide an incentive to the customer of \$213 for each kW of lighting load reduction for businesses open 50 hours a week or more. The Cooperative will be reimbursed by EKPC an additional \$320 for each kW of lighting load reduction, which is to compensate for lost revenue. For commercial customers, rebates are limited to \$15,000 per upgrade (total of both customer and Cooperative rebates) for any facility. For industrial customers, rebates are limited to \$30,000 per upgrade (total for both customer and Cooperative rebates) for any facility.

The Commercial & Industrial Advanced Lighting Program is an ongoing program.

Verification Procedure

Qualifying lighting must be identified or documented by the Cooperative or EKPC staff prior to retrofitting. After the customer completes the retrofit, the Cooperative or EKPC staff must verify the installed lighting retrofit. Demand and energy savings will be calculated based on lighting information gathered during the visits. The Cooperative and EKPC will utilize the manufacturer's lighting fixture specifications and known measurements to calculate the savings; rebates under this tariff will be paid after these verifications procedures are complete.
