CLASSIFICATION OF SERVICE

SCHEDULE R - RESIDENTIAL

RATE
 PER UNIT

APPLICABILITY:

Applicable to consumers with installed transformer capacity of 25 KVA or less, subject to the established rules of the seller.

AVAILABILITY:

Availability to all residential consumers for use in the home and on the farm, and also available to small schools, small churches, small public buildings and small community halls requiring less than 25 KVA capacity.

TYPE OF SERVICE:

Single-phase, 60 cycles at available secondary voltages.

RATE:

Service Charge		Minimum per month	\$6.15	
First	400 KWH	Per KWH per month	.06560	(R)
Next	600 KWH	Per KWH per month	.04797	(R)
Over	1,000 KWH	Per KWH per month	.04446	(R)

FUEL ADJUSTMENT:

See Sheet No. 6.0 for applicable fuel adjustment.

MINIMUM CHARGE:

The minimum monthly charge under the above rate shall be \$6.15 where 5 KVA or less of transformer capacity is required. For consumers requiring more than 5 KVA of transformer capacity, the minimum monthly charge shall be increased at the rate of 75 cents for each additional KVA or fraction thereof required. Payment of the minimum charge shall entitle the consumer in all cases to the use of the number of kilowatt-hours corresponding to the minimum charge in accordance with the foregoing rate.

CLASSIFICATION OF SERVICE

SCHEDULE D - Comm. & Industrial, Single & Three Phase Service over 25KVA RATE PER UNIT

AVAILABILITY:

Available for commercial and industrial and all other three phase service regardless of classification where installed transformer capacity is greater than 25 KVA, for all uses subject to the established rules and regulations of the seller.

CHARACTER OF SERVICE:

Single phase or three phase, 60 cycles at available secondary voltages.

MONTHLY RATES:

Service Charge	Minimum per month	\$15.00
Demand Charge	Per KW per month	\$4.50
Energy Charge		
First , , 200 KWH per KW	Per KWH per month	.03336 (R)
Over 200 KWH per KW	Per KWH per month	.03102 (R)

FUEL ADJUSTMENT:

See Sheet No. 6.0 for applicable fuel adjustment.

DETERMINATION OF BILLING DEMAND:

The billing demand shall be the maximum kilowatt demand established by the consumer for any period of fifteen (15) minutes during the month for which the bill is rendered, as indicated or recorded by a demand meter and adjusted for power factor. Demand charge will be adjusted for consumers with 50 KW or more of measured demand to correct for average power factors lower than eighty (80) percent and may be so adjusted for other consumers if and when the seller deems necessary. Such adjustments will be made by increasing the measured demand one (1) percent for each one (1) percent by which the average power factor is less than eighty (80) percent lagging.

RULES AND REGULATIONS

shall be borne by the applicant.

- (q) In unusual circumstances, when the application of these rules appear impracticable or unjust to either party, or discriminatory to other customers, the Cooperative or applicant shall refer the matter to the Public Service Commission for a special ruling or for the approval of special conditions which may be mutually agreed upon, prior to commencing construction.

4. INSTALLATION OF UNDERGROUND FACILITIES TO INDIVIDUAL SERVICE DELIVERY POINTS:

- (a) Where primary and secondary conductors are involved, the Cooperative shall estimate the cost to provide adequate service both overhead and underground, and the applicant shall pay such difference in cost as a non-refundable contribution prior to the commencement of such construction. Where an indeterminate consumer is the applicant, the Cooperative may require an advance deposit in addition to the contribution and which deposit shall be returned to the applicant as provided in the Indeterminate Extension Policy and in accordance with the Kentucky Public Service Commission rules governing such construction deposits. All other terms and conditions set forth in Section "E", 1, 2, and 3 which are not in conflict with this Section "E", 4 shall also apply.
- (b) Where only secondary conductors are involved, the Cooperative shall install underground conductors as follows:
1. If the Cooperative trenches and backfills and installs the secondary conductor, the applicant shall pay eighty-eight cents (88¢) per ground foot (pole to house) prior to the commencement of such construction.
 2. Where the applicant performs the trenching and backfilling with the Cooperative installing the secondary conductors, a thirty cent (30¢) per foot credit shall be allowed under "b", 1, above.
