SHEET NO. 27
CANCELLING P.S.C. KY NO. 19
SHEET NO. 27

RATES AND CHARGES
SCHEDULE NM – NET METERING

Applicable

To entire territory served.

Available

Net Metering is available to eligible Member-generators in Jackson Purchase Energy Corporation's (JPEC's) service territory, upon request, and on a first-come, first-served basis up to a cumulative capacity of one percent (1%) of JPEC's single hour peak load in Kentucky during the previous year. If the cumulative generating capacity of net metering systems reaches 1% of JPEC's single hour peak load during the previous year, upon Commission approval, JPEC's obligation to offer net metering to a new Member-generator may be limited. An eligible Member-generator shall mean a retail electric Member of JPEC with a generating facility that:

1. Generates electricity using solar energy, wind energy, biomass or biogas energy, or hydro energy;
2. Has a rated capacity of not greater than thirty (30) kilowatts;
3. Is located on the Member's premises;
4. Is owned and operated by the Member;
5. Is connected in parallel with JPEC's electric distribution system; and
6. Has the primary purpose of supplying all or part of the Member's own electricity requirements.

At its sole discretion, JPEC may provide Net Metering to other Member-generators not meeting all the conditions listed above on a case-by-case basis.

The term "Member" hereinafter shall refer to any Member requesting or receiving Net Metering services under this tariff.
