 SHEET NO. 115

RATES AND CHARGES

SCHEDULE FAC – FUEL ADJUSTMENT CLAUSE

Applicability

Entire service territory.

Availability of Service

This Fuel Adjustment Clause (FAC) is a rider to all rate schedules of JPEC.

1. Billings to Members Served from Non-Dedicated Delivery Points:

Billings computed pursuant to rate schedules to which this section is applicable shall be adjusted based on the following formula where all references to costs and revenues will exclude amounts associated with Members served from dedicated delivery points.

The FAC rate applicable to kWh sold in the current month under each rate to which this section applies shall be based upon the following formula:

$$\text{FAC} = \frac{\text{WFAC} - \text{O} + \text{U}}{\text{P (m)} \times \text{L}} - \text{F (b)}$$

Where:

FAC = The Fuel Adjustment rate per kWh for the current month.

WFAC = The FAC amount charged by JPEC's wholesale power supplier on the power bill for the second month preceding the month in which the FAC is applied.

P (m) = The kWh purchased in the second month preceding the month in which the FAC is applied.

L = One minus the percent system energy losses equal to the rolling twelve (12) month average not to exceed ten percent (10%).

O = Any over recovery amount from the second preceding month.

U = Any under recovery amount from the second preceding month.

F (b) = Base Fuel Adjustment factor of \$0.00000 per kWh.
