 Effective December

(D) **TARIFF D. S.**  
(Full Domestic Electric Service)

**AVAILABILITY OF SERVICE.**

Available for full domestic electric service through 1 meter to individual residential customers including rural domestic customers engaged principally in agricultural pursuits who were served under this tariff on Jan. 1, 1965 and only at the premises occupied by the customer on that date. If service hereunder is discontinued at the customer's option, it shall not again be available.

**RATE.**

For the first	30 kwhrs used per month	5.0 cents per kwhr
" " next	40 " " " "	4.0 " " "
" " next	150 " " " "	2.4 " " "
" " next	580 " " " "	1.5 " " "
" " next	2200 " " " "	1.2 " " "
" all over	3000 " " " "	1.0 " " "

**MINIMUM CHARGE.**

This tariff is subject to a minimum monthly bill of \$2.00 for each meter installed. The minimum monthly charge shall be subject to adjustments as determined under the "Fuel Clause."

**PAYMENT.**

Bills are due and payable at the main or branch offices of the company within 15 days of the mailing date.

**FUEL CLAUSE.**

This rate is based upon the weighted average cost of fuel of Kentucky Power Company's Big Sandy Plant.

If during any monthly period such average is above 16.6 cents per 1,000,000 BTU, by at least .5 cent, an additional charge during the second month thereafter will be made on the actual kwhrs used during said second month at the rate of .005 cent per kwhr for each full .5 cent increase in the cost of fuel above 16.6 cents per 1,000,000 BTU.

If during any monthly period such average cost is less than 15.6 cents per 1,000,000 BTU, by at least .5 cent, the bill rendered to the customer for the second succeeding month shall be decreased by an amount equal to the actual kwhrs used during said second month multiplied by .005 cent per kwhr for each full .5 cent decrease in the cost of fuel below 15.6 cents per 1,000,000 BTU.

**TERM.**

Annual contract.

**WATER HEATER SERVICE.**

A—Where a customer has installed and in regular use a standard approved type of electric water heater of from 30 to 49 gallons capacity, the 240 kwhrs of use following the first 200 kwhrs used in any month shall be billed at the rate of 1 cent per kwhr.

B—Where a customer has installed and in regular use a standard approved type of electric water heater of from 50 to 74 gallons capacity, the 360 kwhrs of use following the first 200 kwhrs used in any month shall be billed at the rate of 1 cent per kwhr.

C—Where a customer has installed and in regular use a standard approved type of electric water heater of 75 gallons capacity, the 520 kwhrs of use following the first 200 kwhrs used in any month shall be billed at the rate of 1 cent per kwhr.

These provisions, however, shall in no event apply to the first 200 kwhrs used in any month which shall be billed in accordance with the "Rate" as set forth above.

**SPECIAL TERMS AND CONDITIONS.**

See Sheets No. 2, 3, 4 and 5 for Terms and Conditions of Service.

This tariff is available to rural domestic customers engaged principally in agricultural pursuits where service is taken through one meter for residential purposes as well as for the usual farm uses outside the

(D) Discontinued rate.

**SPECIAL TERMS AND CONDITIONS. (Continued)**

home, but it is not extended to operations of a commercial nature or operations such as processing, preparing or distributing products not raised or produced on the farm, unless such operation is incidental to the usual residential and farm uses.

This tariff is available for single phase service only. Where 3-phase power service is required and/or where motors or heating equipment are used for commercial or industrial purposes, the applicable power tariff will apply to such power service.

(T) The standard approved type of electric water heater to be served under paragraph "Water Heater Service" shall consist of a permanently installed tank of not less than 30 gallons capacity meeting the requirements (except as to element sizes) of "Household Automatic Electric Storage-type Water Heaters" approved by American Standards Association (ASA) as in effect at the time of installation. The heater shall be equipped with thermostatically controlled heating elements totaling at least 1,000 watts. No single element shall exceed 4500 watts. If the total of the elements exceeds 4500 watts, the elements must be interlocked so that only one may operate at one time.

(N) There shall be installed in connection with each heater such temperature and pressure protection equipment as may be specified by any governmental inspection service having jurisdiction.

The company shall have the option of reading meters monthly or bimonthly and rendering bills accordingly. When bills are rendered bimonthly the minimum charge and the quantity of kWhrs in each block of the rate shall be multiplied by 2. If an approved water heater is installed and the customer is billed bimonthly, the kWhrs allowable at the rate of 1 cent per kWhr shall be multiplied by 2, but no kWhrs shall be billed at 1 cent per kWhr until the customer shall have been billed at the rate as modified for the first 400 kWhrs used during the bimonthly period.

PUBLIC SERVICE  
COMMISSION

**AVAILABILITY OF SERVICE.**

Available to industrial customers, not including coal mines, whose plants are located adjacent to existing transmission lines of the company when the company has sufficient capacity in generating stations and other facilities to supply the customer's requirements. The company reserves the right to specify the times at which deliveries hereunder shall commence.

The customer shall contract for a definite amount of electrical capacity which shall be sufficient to meet his normal maximum requirements and the company shall not be required to supply capacity in excess of that contracted for except by mutual agreement. Contracts hereunder will be made for minimum capacities of 18,000 kilowatts and in no event will the company supply capacity to any customer in excess of 65,000 kw.

**MONTHLY BILLING DEMAND.**

Monthly billing demand in kw shall be taken as the highest single 30-minute integrated peak in kw as registered during the month by a demand meter or indicator, but the monthly billing demand so established shall in no event be less than:

1. 60% of the contract capacity of the customer
2. 18,000 kw.

The reactive demand in kvars shall be taken each month as the highest single 30-minute integrated peak in kvars as registered during the month by a demand meter or indicator, or, at the company's option, as the highest registration of a thermal type demand meter or indicator.

**RATE.**

**Primary Portion:**

For the first 15,000 kw of monthly billing demand.....	\$2.45 per kw
All over 15,000 kw of monthly billing demand.....	\$2.15 per kw

The customer shall be allowed 216 kwhrs for each kw of monthly billing demand.

**Secondary Portion:**

Energy in excess of 216 kwhrs per kw of monthly billing demand.....\$.005 per kwhr

**Reactive Demand Charge:**

For each kilovar of lagging reactive demand in excess of 50% of the kw of monthly billing demand.....\$.25 per kvar

**MINIMUM CHARGE.**

This tariff is subject to a monthly minimum charge equal to the primary portion of the rate set forth above subject to adjustments as determined under the "Fuel Clause."

**PAYMENT.**

Bills computed under this tariff are due and payable within fifteen days of date of bill. If customer does not make payment within fifteen days of date of bill, customer shall pay company interest on the total amount billed at the rate of 6% per annum from the due date to the date of payment.

**TARIFF I. P. (Continued)**  
**(Industrial Power)**  
**(High Tension Transmission)**

**DELIVERY VOLTAGE.**

The customer shall own, operate and maintain all necessary substations and appurtenances thereto for receiving and purchasing all electric energy at transmission voltage of 34,500 volts or over as specified by company. The company will, however, install, own, operate and maintain high-tension oil switch at point of delivery and necessary metering equipment.

**(T) FUEL CLAUSE.**

This rate is based upon the weighted average cost of fuel of Kentucky Power Company's Big Sandy Plant.

If during any monthly period such average cost is above 16.1 cents per 1,000,000 BTU, by at least .5 cent, an additional charge during the second month thereafter will be made on the actual kWhrs used during said second month at the rate of .005 cent per kwhr for each full .5 cent increase in the cost of fuel above 16.1 cents per 1,000,000 BTU.

If during any monthly period such average cost is less than 16.1 cents per 1,000,000 BTU by at least .5 cent, the bill rendered to the customer for the second succeeding month shall be decreased by an amount equal to the actual kWhrs used during said second month multiplied by .005 cent per kwhr for each full .5 cent decrease in the cost of fuel below 16.1 cents per 1,000,000 BTU.

**TERM OF CONTRACT.**

Contracts under this tariff will be made for a term of years taking into consideration the size of the load, the location of the load, and the amount of facilities to be furnished by the company in serving the load, but contracts will not be made for initial periods of less than 3 years with self-renewal provisions for successive periods of not less than 2 years each. Contracts may be cancelled by either party at the end of initial or renewal periods on 12 months' prior written notice to the other party.

**SPECIAL TERMS AND CONDITIONS.**

See Sheets No. 2, 3, 4 and 5 for Terms and Conditions of Service.

This tariff is also available to customers having other sources of energy supply.

Case No. 4360, dated April 13, 1964

**TARIFF S. P.**  
 (Small Power)

**AVAILABILITY OF SERVICE.**

Available for general power service only to customers who were served under this tariff on May 10, 1950, and only at the premises occupied by the customer on that date. If service hereunder is discontinued at the customer's option, it shall not again be available.

**RATE.**

For the first 100 kWhrs used in any month	.....	5.0	cents	per	kwhr
" " next 400 " " " same "	.....	4.0	"	"	"
" " " 2,000 " " " " "	.....	3.0	"	"	"
" all over 2,500 " " " " "	.....	2.5	"	"	"

**MINIMUM CHARGE.**

This tariff is subject to a minimum monthly charge of \$1.00 per horsepower for the first 10 hp and \$.50 for each additional hp of connected load, but in no case less than \$2.00 per month.

The minimum monthly charge shall be subject to adjustments as determined under the "Fuel Clause."

**DELAYED PAYMENT CHARGE.**

This tariff is net if account is paid in full within 15 days of date of bill. On all accounts not so paid an additional charge of 5% of the amount of such bill (but not less than \$.10) will be made.

**(T) FUEL CLAUSE.**

This rate is based upon the weighted average cost of fuel of Kentucky Power Company's Big Sandy Plant.

If during any monthly period such average cost is above 16.6 cents per 1,000,000 BTU, by at least .5 cent, an additional charge during the second month thereafter will be made on the actual kWhrs used during said second month at the rate of .005 cent per kwhr for each full .5 cent increase in the cost of fuel above 16.6 cents per 1,000,000 BTU.

If during any monthly period such average cost is less than 15.6 cents per 1,000,000 BTU, by at least .5 cent, the bill rendered to the customer for the second succeeding month shall be decreased by an amount equal to the actual kWhrs used during said second month multiplied by .005 cent per kwhr for each full .5 cent decrease in the cost of fuel below 15.6 cents per 1,000,000 BTU.

**TERM.**

Annual contract.

**SPECIAL TERMS AND CONDITIONS.**

See Sheets No. 2, 3, 4 and 5 for Terms and Conditions of Service.

In industrial power installations where the consumption of energy for lighting is incidental to the energy used for manufacturing purposes and does not exceed 25% of the energy used for power, the total energy consumption may be billed under this tariff; the minimum charge set forth above for single-phase customers to be increased at the rate of \$1.50 per month for each kw or fraction thereof of such lighting load as may be connected.

The company shall have the option of reading meters monthly or bimonthly and rendering bills accordingly. When bills are rendered bimonthly the minimum charge and the quantity of kWhrs in each block of the rate shall be multiplied by 2.

Issued by  
 F. M. BAKER, Vice President and General Manager  
 Ashland, Kentucky

Issued April 15, 1964

Effective with bills rendered  
 on and after April 15, 1964

**(T) Change in Text.**

**TARIFF G. S. O.**  
(General Service—Optional)

**AVAILABILITY OF SERVICE.**

Available only to power users contracting for a definite amount of electrical capacity but not less than 50 kilowatts who were served under this tariff on May 10, 1950, and only at the premises occupied by the customer on that date. If service hereunder is discontinued at the customer's option, it shall not again be available.

**RATE.**

**Primary Portion.**

For each kw of integrated monthly 15-minute maximum demand, \$1.25 per kw, to which will be added:

**Secondary Portion.**

For the first	10,000	kwhrs used in any month	.....	2.14	cents per kwhr
" " next	30,000	" " " same "	.....	1.74	" " "
" " "	60,000	" " " " "	.....	1.34	" " "
" " "	400,000	" " " " "	.....	1.14	" " "
" " "	500,000	" " " " "	.....	1.09	" " "
" " "	500,000	" " " " "	.....	0.99	" " "
All over	1,500,000	" " " " "	.....	0.94	" " "

**DELIVERY AND VOLTAGE.**

This tariff is based on the delivery and measurement of energy at the transmission or distribution voltage established by the company, but not less than 2,400 volts. For the delivery and measurement at any voltage lower than that so established, the primary portion charge shall be increased \$.15 per month per kw of demand.

**BILLING DEMAND.**

Billing demand shall be based each month upon the highest registration of a 15-minute integrating demand meter or indicator. Monthly billing demand so established shall not be less than the customer's contract capacity except that where the customer purchases his entire requirements for electric light, heat and power under this tariff the monthly billing demand shall not be less than 60% of the contract capacity.

**DELAYED PAYMENT CHARGE.**

This tariff is net if account is paid in full within 20 days of date of bill. On all accounts not so paid an additional charge of 2% of the total amount billed will be made.

**(T) FUEL CLAUSE.**

This rate is based upon the weighted average cost of fuel of Kentucky Power Company's Big Sandy Plant.

If during any monthly period such average cost is above 16.1 cents per 1,000,000 BTU, by at least .5 cent, an additional charge during the second month thereafter will be made on the actual kwhrs used during said second month at the rate of .005 cent per kwhr for each full .5 cent increase in the cost of fuel above 16.1 cents per 1,000,000 BTU.

If during any monthly period such average cost is less than 16.1 cents per 1,000,000 BTU by at least .5 cent, the bill rendered to the customer for the second succeeding month shall be decreased by an amount equal to the actual kwhrs used during said second month multiplied by .005 cent per kwhr for each full .5 cent decrease in the cost of fuel below 16.1 cents per 1,000,000 BTU.

**TERM OF CONTRACT.**

Annual.

**SPECIAL TERMS AND CONDITIONS.**

See Sheets No. 2, 3, 4 and 5 for Terms and Conditions of Service.

This tariff is available to legitimate electric public utilities for resale.

This tariff is also available to customers having other sources of energy supply but who desire to purchase service from the company. Where such conditions exist the monthly billing demand shall not be less than the customer's contract capacity. The preceding sentence does not apply where customers served under this tariff had other sources of energy supply on August 1, 1940, and where the service is covered by a contract made prior to that date.

Issued by  
F. M. BAKER, Vice President and General Manager  
Ashland, Kentucky

**TARIFF A. E. H.**  
**(All-Electric Homes)**

**AVAILABILITY OF SERVICE.**

Available on an optional basis for year round domestic service through one meter to individual residential customers whose principal energy requirements for lighting, the operation of all major appliances including air conditioning equipment, water heating, and heating of all dwelling space in the home are furnished by electric service delivered by the company.

**(R) RATE.**

For the first 200 kwhrs or any part thereof used in any month .....	\$6.00
" " next 600 " used in the same month .....	1.5¢ per kwhr
" " next 1200 " " " " " " .....	1.2¢ " "
" all over 2000 " " " " " " .....	1.0¢ " "

**(T) WATER HEATER SERVICE.**

Where a customer has installed and in regular use an electric water heater or heaters meeting the requirements set forth below, the last 400 kwhrs used in any month shall be billed at the rate of 1 cent per kwhr provided that the customer first uses at least 200 kwhrs billed in accordance with the rate set forth above. The standard approved type of electric water heater shall consist of a permanently installed tank of not less than 30 gallons capacity meeting the requirements (except as to element sizes) of "Household Automatic Electric Storage-type Water Heaters" approved by American Standards Association (ASA) as in effect at the time of installation. The heater shall be equipped with thermostatically controlled heating elements totaling at least 1,000 watts. No single element shall exceed 4500 watts. If the total of the elements exceeds 4500 watts, the elements must be interlocked so that only one may operate at one time.

There shall be installed in connection with each heater such temperature and pressure protection equipment as may be specified by any governmental inspection service having jurisdiction.

**FUEL CLAUSE.**

This rate is based upon the weighted average cost of fuel of Kentucky Power Company's Big Sandy Plant.

If during any monthly period such average is above 16.6 cents per 1,000,000 BTU, by at least .5 cent, an additional charge during the second month thereafter will be made on the actual kwhrs used during said second month at the rate of .005 cent per kwhr for each full .5 cent increase in the cost of fuel above 16.6 cents per 1,000,000 BTU.

If during any monthly period such average cost is less than 15.6 cents per 1,000,000 BTU, by at least .5 cent, the bill rendered to the customer for the second succeeding month shall be decreased by an amount equal to the actual kwhrs used during said second month multiplied by .005 cent per kwhr for each full .5 cent decrease in the cost of fuel below 15.6 cents per 1,000,000 BTU.

**MINIMUM CHARGE.**

This tariff is subject to a minimum monthly charge of \$6.00 per customer, and adjustments as determined under "Fuel Clause."

**PAYMENT.**

Bills are due and payable at the main or branch offices of the company within 15 days of the mailing date.

**TERM OF CONTRACT.**

Annual.

**SPECIAL TERMS AND CONDITIONS.**

See Sheets No. 2, 3, 4 and 5 for Terms and Conditions of Service.

This tariff is available for single-phase service only. Where 3-phase power service is required and/or where motors or heating equipment are used for commercial or industrial purposes, the applicable general service or power tariff will apply to such power service.

This tariff is available to rural domestic customers engaged principally in agricultural pursuits where service is taken through one meter for residential purposes as well as for the usual farm uses outside the home, but it is not extended to operations of a commercial nature or operations such as processing, preparing or distributing products not raised or produced on the farm, unless such operation is incidental to the usual residential and farm uses.

The company shall have the option of reading meters monthly or bimonthly and rendering bills accordingly. When bills are rendered bimonthly the minimum charge and the quantity of kwhrs in each block of the rate shall be multiplied by 2. If an approved water heater is installed and the customer is billed bimonthly, the kwhrs allowable at the rate of 1 cent per kwhr shall be multiplied by 2, but no kwhrs shall be billed at 1 cent per kwhr until the customer shall have been billed at the rate for the first 400 kwhrs used during the bimonthly period.
