

Kentucky Utilities Company

P.S.C. No. 20, Second Revision of Original Sheet No. 45
Canceling P.S.C. No. 20, First Revision of Original Sheet No. 45

Standard Rate

Special Charges

The following charges will be applied uniformly throughout Company's service territory. Each charge, as approved by the Public Service Commission, reflects only that revenue required to cover associated expenses.

RETURNED PAYMENT CHARGE

In those instances where a Customer renders payment to Company which is not honored upon deposit by Company, the Customer will be charged \$3.50 to cover the additional processing costs.

METER TEST CHARGE

Where the test of a meter is performed during normal working hours upon the written request of a Customer, pursuant to 807 KAR 5:006, Section 19, and the results show the meter is within the limits allowed by 807 KAR 5:041, Section 17(1), the Customer will be charged \$79.00 to cover the test and transportation costs.

DISCONNECT/RECONNECT SERVICE CHARGE

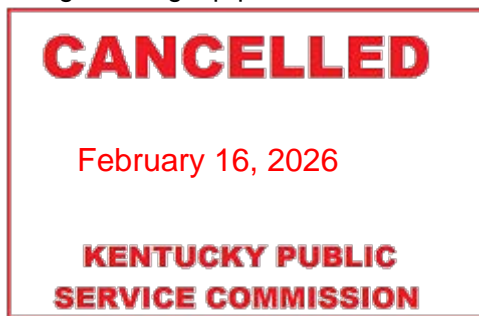

A charge of \$37.00 will be made to cover disconnection and reconnection of electric service when the Customer has no "remote disconnection and reconnection" capability as defined below and is discontinued for non-payment of bills or for violation of Company's Terms and Conditions, such charge to be made before reconnection occurs. "Remote disconnection and reconnection" is defined as Customer having an advanced meter with a remote service switch as well as Company having implemented the requisite systems functionality to enable such activity. Customers who have meters capable of "remote disconnection and reconnection" will not be charged a disconnect/reconnect service charge. No charge will be made for Customers qualifying for service reconnection pursuant to 807 KAR 5:006, Section 16, Winter Hardship Reconnection.

Residential and general service Customers may request and be granted temporary suspension of electric service. In the event of such temporary suspension, Company will make a charge of \$37.00 to cover disconnection and reconnection of electric service, such charge to be made before reconnection occurs. Customers who have meters capable of "remote disconnection and reconnection" will not be charged a disconnect/reconnect service charge.

D

METER PULSE CHARGE

Where a Customer desires and Company is willing to provide data meter pulses, a charge of \$21.00 per month per installed set of pulse-generating equipment will be made to those data pulses. Time pulses will not be supplied.

Special Charges

METER PULSE CHARGE (continued)

Service to provide data meter pulses will be furnished only under contract for a fixed term of not less than one (1) year, and for yearly periods thereafter until terminated by either party giving written notice to the other party ninety (90) days prior to termination.

In no event shall Company's meter pulse data have any liability to Customer or any other party affected by the electrical service to Customer for any consequential, indirect, incidental, special, or punitive damages, and such limitation of liability shall apply regardless of claim or theory. In addition, to the extent that Company acts within its rights as set forth herein and/or any applicable law or regulation, Company shall have no liability of any kind to Customer or any other party. In the event that Customer's use of Company's service causes damage to Company's property or injuries to persons, Customer shall be responsible for such damage or injury and shall indemnify, defend, and hold Company harmless from any and all suits, claims, losses, and expenses associated therewith.

UNAUTHORIZED CONNECTION CHARGE

When Company determines that Customer has tampered with a meter, reconnected service without authorization from Company that previously had been disconnected by Company, or connected service without authorization from Company, then the following charges shall be assessed for each instance of such tampering or unauthorized reconnection or connection of service:

- 1. A charge of \$45.00 for tampering or an unauthorized connection or reconnection that does not require the replacement of the meter;
2. A charge of \$66.00 for tampering or an unauthorized connection or reconnection that requires the replacement of a single-phase standard meter;
3. A charge of \$87.00 for tampering or an unauthorized connection or reconnection that requires the replacement of a single-phase Automatic Meter Reading (AMR) meter;
4. A charge of \$149.00 for tampering or an unauthorized connection or reconnection that requires the replacement of a single-phase Advanced Metering Infrastructure (AMI) meter; or
5. A charge of \$154.00 for tampering or an unauthorized connection or reconnection that requires the replacement of a three-phase meter.

Company may, in its sole discretion, require Customer to take service using a non-AMI meter and pay AMI Opt Out Charges (see Sheet No. 45.2) if Customer engages in particularly dangerous or repeated instances of tampering with an AMI meter. If there are no additional instances of tampering after twelve (12) months of having an AMI meter removed, Customer may request to have an AMI meter reinstalled and end AMI Opt Out Charges.

AMI OPT OUT CHARGES

Customer may opt out of having an AMI meter by contacting Company to request a non-AMI meter. If Company has a non-AMI meter available, Company will honor Customer's opt-out request and assess the following charges:

1. A one-time opt-out set-up fee of \$39.00 per service delivery point. During Company's AMI project deployment phase, if Customer requests a non-AMI meter prior to an AMI meter being installed at Customer's premise, Company will not charge the one-time set-up fee.
2. A monthly opt-out charge of \$15.00 per service delivery point.

If Customer chooses to opt out any meter on a single premise, Customer must opt out all Company meters on that premise. Company has sole discretion to determine the alternative metering to be used for opted-out meters.

TERMS AND CONDITIONS

Company has the right to refuse an opt-out request if:

- (a) Customer has a history of meter tampering or unauthorized use of electricity at the current or any prior location;
- (b) The service creates a safety hazard to consumers or their premises, the public, or the electric utility's personnel or facilities; or
- (c) Customer prevents the electric utility's employees or agents access to the meter at the customer's premises for maintenance, connection/disconnection, or meter-reading.
