Temporary-to-Permanent and Seasonal Service

CONDITIONS (continued)

2. For Seasonal Service where facilities are installed for temporary service that will not be utilized as part of a future permanent service, the customer shall pay Company for all costs of making temporary connections, including cost of installing necessary transformers, meters, poles, wire and any other material, and any cost of material which cannot be salvaged, and the cost of removing such facilities when load has ceased.

Temporary services for underground or overhead installations are to be constructed as specified by Company standards. Customer will furnish and install material and equipment, including mast for service entrance, conductors, meter base, main disconnect, breaker assembly and grounding. Once the temporary service is no longer needed, the Customer must contact the Company for removal.

For such cases where a temporary service is written upon a refundable contract, the customer will be refunded back the deposit paid for the temporary service after three years of continuous service.

Temporary-to-Permanent service charges may be waived through October 1, 2022 upon Customer showing evidence of financial hardship due to the historic storms that took place on December 10, 2021, resulting in a subsequent state of emergency in Kentucky². Evidence of financial hardship includes, but is not limited to, the cost of temporary housing, loss of job, cost of replacement items, and delay in FEMA assistance.
