

Louisville Gas and Electric Company

P.S.C. Electric No. 13, Original Sheet No. 61

Standard Rate Rider

RC
Redundant Capacity

APPLICABLE

In all territory served.

AVAILABILITY

Available to customers served under Company's rate schedules which include a demand charge or a special contract including a demand charge.

Available to Customers requesting the reservation of capacity on Company's facilities which are shared by other Customers when Company has and is willing to reserve such capacity. Such facilities represent a redundant delivery to provide electric service to Customer's facility in the event that an emergency or unusual occurrence renders Customer's principal delivery unavailable for providing service. Where Customer desires to split a load between multiple meters on multiple feeds and contract for Redundant Capacity on those feeds, service is contingent on the practicality of metering to measure any transferred load to the redundant feed.

RATE:

Capacity Reservation Charge

Secondary Distribution	\$1.90 per kW/kVA per Month	I
Primary Distribution	\$1.28 per kW/kVA per Month	R

Applicable to the greater of:

1. the highest average load in kW/kVA (as is appropriate for the demand basis of the rate schedule on which Customer is billed) recorded at either the principal distribution feed metering point or at the redundant distribution feed metering point during any 15-minute interval in the monthly billing period,
2. 50% of the maximum demand similarly determined for any of the eleven (11) preceding months, or
3. the contracted capacity reservation.

TERM OF CONTRACT

The minimum contract term shall be five (5) years, and shall be renewed for one (1) year periods until either party provides the other with ninety (90) days written notice of a desire to terminate the arrangement. Company may require that a contract be executed for a longer initial term when deemed necessary by the difficulty and/or high cost associated with providing the redundant feed or other special conditions.
