Schedule 37

Rate Per Unit

Commercial High Efficiency Heating, Ventilation and Air Conditioning ("HVAC") Program

CANCELLED

June 19, 2020
**KENTUCKY PUBLIC
SERVICE COMMISSION**

Purpose

This program promotes an increased use of high efficiency HVAC systems by providing incentive payments to eligible Customers who purchase and install an HVAC system beyond minimum efficiency standards to HVAC systems meeting ENERGY STAR® standards ("Qualified System").

Availability

Each DSM program offered by the Cooperative is sponsored by Big Rivers Electric Corporation through tariffs applicable to the Cooperative. Each Cooperative DSM program's rates, terms and conditions are available to Customers of the Cooperative, subject to the limitations and eligibility requirements set forth in the Cooperative's tariffs and the sponsoring tariff of Big Rivers. This program will terminate no later than June 30, 2019, and, under no circumstances, be available after June 30, 2019.

Eligibility

Any Customer served from a non-dedicated delivery point is eligible for a DSM program.

Member Incentives

The Cooperative will credit or pay an eligible Customer an incentive payment up to \$75 per ton (12,000 BTU per hour nominal capacity) when a non-residential customer installs a Qualified System HVAC upgrade, to be reimbursed by Big Rivers Electric Corporation.

The Cooperative is to be reimbursed reasonable costs of promoting this program, if the promotional program and its costs are pre-approved by Big Rivers.

Terms & Conditions

To qualify for the incentive under this program, the eligible customer must submit to the Cooperative a copy of a receipt of purchase and installation of a Qualified System from a licensed contractor, along with a certificate verifying installation of the Qualified System on the premises of the Customer.

Evaluation, Measurement and Verification

The Cooperative will follow a process of evaluation, measurement and verification for the program. The process will ensure the quality and effectiveness of the program and optimal use of resources.
