Billings computed pursuant to rate schedules to which this section is applicable shall be adjusted based on the following formula where all references to costs and revenues will exclude amounts associated with customers served from Dedicated Delivery Points.

The fuel adjustment rate applicable to kWh sold in the current month under each rate to which this section applies shall be based upon the following formula:

W_FAC = the fuel adjustment amount charged by the Corporation's wholesale power supplier on power bill for the second month preceding the month in which F is applied.

P(m) = the kWh purchased in the second month preceding the month in which F is applied.

L = One minus the percent system energy losses equal to the rolling twelve month average not to exceed ten percent (10%).
