**Renewable Energy Program**

**STANDARD RIDER**

This “Renewable Energy Program” is a rider to all current rate schedules. The purpose of this program is to provide retail members with a source of renewable energy or renewable energy attributes called Renewable Energy Certificates (“RECs”). There are two options. South Kentucky RECC, via its participation in East Kentucky Power Cooperative, Inc.’s (EKPC) Renewable Energy Program (Envirowatts), will aggregate the contributions provided by the retail members to develop renewable energy, purchase renewable energy, or purchase RECs. Alternatively, the retail member, South Kentucky RECC, and EKPC will enter into a special agreement to purchase renewable energy to offset the retail member’s existing energy consumption.

Under Option B, a retail member must execute an agreement with South Kentucky RECC and EKPC to purchase, supply or secure a minimum renewable capacity of one (1) MW. The maximum annual renewable energy under the agreement cannot exceed the participating retail member's average annual consumption over the previous three (3) years.
